Vol. 161

WASHINGTON, THURSDAY, NOVEMBER 5, 2015

No. 165

House of Representatives

The House met at 9 a.m. and was called to order by the Speaker.

PRAYER

The Chaplain, the Reverend Patrick J. Conroy, offered the following prayer: Dear God, we give You thanks for giving us another day.

We ask Your special blessing upon the Members of this people's House. They face difficult decisions in difficult times with many forces and interests demanding their attention.

We are grateful, O God, that You have given to them the goals of justice and the designs of freedom. Remind each Member that it is their work to develop the strategies of achieving those goals and designs, being mindful of the prompting of Your spirit.

You have given to each of them, and to us all, the abilities to do good works. So we pray that we will be faithful in our tasks, responsible in our actions, and fervent in our desire to serve.

Bless us, O God, this day and every day to come. May all that is done be for Your greater honor and glory.

Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. HECK of Nevada. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker's approval of the Journal.

The SPEAKER. The question is on the Speaker's approval of the Journal.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. HECK of Nevada. Mr. Speaker, I object to the vote on the ground that a

quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Pursuant to clause 8, rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from Texas (Mr. CONAWAY) come forward and lead the House in the Pledge of Allegiance.

Mr. CONAWAY led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will entertain up to five requests for 1-minute speeches on each side of the aisle.

SAVE THE CHRISTIANS FROM GENOCIDE ACT

(Mr. ROHRABACHER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROHRABACHER. Mr. Speaker, I rise today to introduce legislation declaring the Christians and Yazidis of Syria, Iraq, Pakistan, Iran, Egypt, and Libya as targets of genocide. This bill will make them eligible for expedited refugee and visa processing for entry into the United States and give them priority over other applicants.

The Save the Christians from Genocide Act is imperative at this time. The alarm bell is ringing. Ancient longstanding communities of Christians in the Middle East are being murdered individually and en masse, targeted for extinction. Under President Obama's

leadership, our government has stood by impotently and watched this crime against humanity.

I call on my colleagues and Members of this House to join me in cosponsoring this bill to save the Christians from genocide. Hundreds of thousands of Muslims are finding safety and economic handouts in Europe, but what about the true targets of genocide? Where is their safe haven?

I ask my colleagues to join me to support the Save the Christians from Genocide Act to prioritize our immigration and refugee policy to save these Christians from facing brutal extinction.

I rise now and will ask my colleagues to join me in cosponsoring this bill. I, at this moment, will submit it to Congress for consideration.

ROYALS 2015 WORLD CHAMPIONSHIP

(Mr. CLEAVER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CLEAVER. Mr. Speaker, I am very pleased to be here this morning.

On Sunday, November 1, the Kansas City Royals took game five of the World Series from a very good New York Mets team. They beat them in the 12th inning, and they bring the Commissioner's Trophy back to Kansas City for the first time in 30 years.

The Royals' championship season had the best record in the American League: 95 wins, defeated the Astros in five games, defeated the Blue Jays in six, and defeated the Mets in the World Series in five games. These unheralded comeback kids scored 51 runs in the seventh inning or after in the postseason, shattering the previous record by 15 runs.

It was made clear on Tuesday that this championship was not only about the Royals, but about their loyal fan

base. Mr. Speaker, 800,000 people turned out for the celebration. Every school within 100 miles was closed.

The 2015 Royals team epitomizes what it means to play like a team. Our players never gave up. They have respect for themselves and the game, and they treat each other like family.

I want to congratulate my team, the Kansas City Royals, and express sympathy for the losers.

SALVAGE TIMBER BURN

(Mr. LAMALFA asked and was given permission to address the House for 1 minute.)

Mr. LAMALFA. Mr. Speaker, California and the West continue to be ravaged by wildfires each summer and fall, which is especially devastating to our forests in a time of record drought. Much is done on suppressing fires as they happen, to the tune of hundreds of millions of dollars of sometimes unplanned emergency funds, as well as hundreds of millions in loss of the people's assets: the forestland and trees are in that inventory and, with it, the habitat, all of value not frequently accounted for on public lands.

What I am immediately frustrated by is the lack of mobilization after a fire for the important salvage work needed on public land and how important it is that it be timely. Large trees after a fire, many of them can be salvaged within a year, and their value, sold to help recover costs for needed reforestation.

This is important for many reasons, such as: habitat; the renewal of the forest; and the critical prevention of massive erosion into our streams, rivers, lakes, and other waterways after a fire, which replantings help mitigate. Indeed, with the EPA's waters of the United States emphasis, they should be looking at their own timely treatment of their own jurisdictional public lands first.

We need timely issuance now of the permitting that the Forest Service and the U.S. Fish and Wildlife Service are holding in their hands for even modest work still pending on 2014 fires. I urge these permitting entities to expedite the paperwork now to salvage what we can of 2014 timber burn that has little time left to salvage at a value that will help taxpayers, instead of cost them.

UNIVERSITY OF CALIFORNIA AT MERCED

(Mr. COSTA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COSTA. Mr. Speaker, today I rise with a heavy heart to convey my thoughts, prayers, and support for the students, the faculty, and the staff of the University of California at Merced in my district, one of the rising stars and the newest university in the University of California system. It is 11 years old, with 6,700 students.

Yesterday was a very sad and unfortunate day. An incident occurred where four individuals were stabbed by a student on campus. The good news is that I am told that they will all recover, but it was a tragic act of violence. The campus was shut down.

My thoughts and prayers are with the victims, their families, and all those who are part of the University of California campus at Merced, a wonderful community that I am honored to represent.

I am touched, but not surprised, by the courage and the bravery that the students have shown during this difficult time. I am also not surprised by the amount of community support that has come together over the last 24 hours.

The university community that Chancellor Dorothy Leland and the faculty have built is a tremendous support within the Merced campus. It is very special, and I know everybody is reaching out to support everyone at this difficult time.

Again, my prayers and thoughts are with the victims and their families, the faculty, the students, and the administration. We, today, are all University of California Merced Bobcats.

Stay strong and courageous. We are all with you. God bless.

STAFF SERGEANT RYAN D. HAMMOND

(Mr. MCKINLEY asked and was given permission to address the House for 1 minute.)

Mr. MCKINLEY. Mr. Speaker, I rise today to pay tribute to Staff Sergeant Ryan Hammond of Moundsville, West Virginia. Staff Sergeant Hammond was one of six airmen killed last month when their C-130 crashed at Jalalabad.

A native of Moundsville, Staff Sergeant Hammond joined the Air Force after graduating from John Marshall High School in Glen Dale.

On Tuesday, I joined with Ryan's family and friends to honor his life, service, and sacrifice at Arlington National Cemetery. The burial service was a reminder that the expense of individual freedom is steep, row after row of white headstones with names of Americans who gave their ultimate sacrifice.

Dozens of his fellow squadron members paid tribute to Staff Sergeant Hammond during the ceremony. As they filed past, they laid their wings upon his coffin, a final salute to a young airman who followed his dream of flying. There was not a dry eye at the grave site.

Thomas Paine said, 200 years ago:

Those who expect to reap the blessings of freedom, must undergo the fatigue of supporting it.

I offer my condolences to Staff Sergeant Hammond's family; his wife, Holly; his parents, David and Cathy; and his friends.

Staff Sergeant Hammond will be missed, but his sacrifices will never be forgotten.

REVIVE THE SALTON SEA

(Mr. RUIZ asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RUIZ. Mr. Speaker, today we are leading the way at the Red Hill Bay to revive the Salton Sea. The Salton Sea is the largest body of water in and poses the largest public health and economic threat to California.

As the sea recedes, windblown dust containing arsenic and pesticides can cause respiratory distress in kids and seniors in the surrounding communities. The noxious odors may reduce home values and harm our tourism industry, costing billions of dollars. For too long, there has been study after study but no concrete action.

Today, at the Salton Sea's Red Hill Bay, we break ground on the first large-scale project to help prevent dust exposure and promote renewable energy development.

Imagine a Salton Sea that hosts the largest renewable energy industrial park in the Nation, creating jobs in southern California, while preserving wildlife habitat and preventing the noxious dust our children may breathe. Imagine a Salton Sea that, once again, attracts tourists from throughout the globe.

This is my vision for the Salton Sea, and today we took the first step to making this vision a reality.

GOFFSTOWN HIGH SCHOOL FOOTBALL

(Mr. GUINTA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GUINTA. Mr. Speaker, I rise to salute the Goffstown Grizzlies football team, a high school with just 1,000 students who have an amazing story of perseverance and achievement.

Thanks to great coaching and hard work, the team qualified for a division 3 championship a few years ago and has since advanced to division 1, the toughest in the Granite State. Even their fans thought competing at this level would be a tall order.

The Grizzlies are undefeated this season. They entered Saturday's playoff game ranked number one; and they got there with exciting defense and special teams blocking punts and returning kickoffs for touchdowns.

The Grizzlies have the Granite State's fiercest linebacking crew and a sack leader. Their kicker boots 45-yard field goals, helping his team to average more than 42 points a game. The running back rushed for over 1,000 yards this season and scored over 20 touchdowns. They have New Hampshire's most potent passing attack and incredible local support.

Their spirited fans make it easy to like the Grizzlies, who take on the Second District's North Nashua Titans this weekend.

I wish both teams well but the Grizzlies just a little bit better.

TRUMP'S SNL APPEARANCE

(Ms. LORETTA SANCHEZ of California asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. LORETTA SANCHEZ of California. Mr. Speaker, I rise today to encourage Saturday Night Live to disinvite Donald Trump from hosting their show this weekend.

Many may believe that Mr. Trump is just causing controversy so that he can get media attention, but his divisive and racist rhetoric has very troubling and real-world consequences.

Many businesses and individuals have severed ties with Mr. Trump. Even SNL's owner, NBC Universal, stated that, "At NBC, respect and dignity for all people are cornerstones of our values," and they ended their relationship with Mr. Trump.

Perhaps this blunder happened because currently there is no Latino cast member on SNL, and there have only been two in the entire history of SNL.

I hope Saturday Night Live's producers, writers, and cast members will consider how Donald Trump hosting SNL will compromise the integrity of their show. Having Mr. Trump degrades the quality of SNL's humor because racism isn't funny. It is lazy, and it is cheap.

Comedy has the power to highlight hypocrisy in society and reveal important social truths and political commentary. SNL has achieved that in the past, and I hope it returns.

HAPPY 100TH BIRTHDAY TO TSCPA

(Mr. CONAWAY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CONAWAY. Mr. Speaker, I rise today to congratulate the Texas Society of CPAs on their 100th birthday. As a lifetime member of the TSCPA and a past chairman of the Texas State Board of Public Accountancy, the TSCPA holds a special place in my heart.

While not in plain view and often not recognized, CPAs are a special part of our communities. They do important oversight and regulation work that is integral to the functioning of our society. Bottom line, CPAs are essential for facilitating a thriving commercial system.

Some important TSCPA initiatives include financial literacy education and financial preparation in the event of a disaster. Both of these outreach programs are designed to help the general public improve their lives. Simply put, TSCPA is teaching people how to fish. In a complex world, these financial skills will benefit them and their children for the rest of their lives.

For 100 years, the TSCPA has been growing the profession, maintaining the profession's integrity, molding leaders, and helping others. Its growth is in the evidence of its success. Since its founding in 1915, the TSCPA has grown to 20 chapters and a membership of nearly 28,000 CPAs.

I am a proud member of the profession. I am proud to be a CPA, I am proud of my fellow CPAs, and I am proud of the TSCPA. I wish them happy birthday on their 100th birthday.

NOVEMBER IS MEN'S HEALTH MONTH

(Ms. KELLY of Illinois asked and was given permission to address the House for 1 minute.)

Ms. KELLY of Illinois. Mr. Speaker, in our national conversation on health and health disparities, we often forget that men face some unique health and health access challenges. So I rise today on behalf of men around the world to recognize November as Men's Health Month and to raise awareness for men's health issues.

Today American men face a mortality rate 41 percent higher than women. Life expectancy for men is 76 years compared to 81 for women. American men face a higher mortality rate than women for 8 of the 10 leading causes of death, including cancer, liver disease, and heart disease. Additionally, men are at increased risk of mental health problems and 4.1 times more likely to commit suicide than women.

These are serious issues facing men around the world. Every November men around the world grow out their mustaches to raise awareness for these and other issues facing men. While I won't be able to join my colleagues in growing facial hair to raise awareness, I will be working behind the scenes to spread the word. In the meantime, I urge my colleagues to become educated about men's health and to stay healthy.

(B) The report required under this paragraph shall include the following elements:

(i) A description of actions taken to avoid duplicative audits and streamline oversight reviews based on the review conducted under paragraph (1).

(ii) A comparison of commercial industry accounting practices, including requirements under the Sarbanes-Oxley Act of 2002 (Public Law 107-204; 15 U.S.C. 7201 et seq.), with the cost accounting standards prescribed under chapter 15 of title 41, United States Code, to determine if some portions of cost accounting standards compliance can be met through such practices or requirements.

(iii) A description of standards of materiality used by the Defense Contract Audit Agency and the Inspector General of the Department of Defense for defense contract audits.

(iv) An estimate of average delay and range of delays in contract awards due to the time necessary for the Defense Contract Audit Agency to complete pre-award audits.

(v) The total costs of sustained or recovered costs both as a total number and as a percentage of questioned costs.

(d) **INCURRED COST INVENTORY DEFINED.**—In this section, the term “incurred cost inventory” means the level of contractor incurred cost proposals in inventory from prior fiscal years that are currently being audited by the Defense Contract Audit Agency.

SEC. 894. SENSE OF CONGRESS ON EVALUATION METHOD FOR PROCUREMENT OF AUDIT OR AUDIT READINESS SERVICES.

(a) **FINDINGS.**—Congress finds the following:

(1) Given the size, scope, and complexity of the Department of Defense, the statutory deadline to establish and maintain auditable financial statements, starting with the fiscal year 2018 financial statement, is one of the more challenging management tasks that has ever faced the Department.

(2) As the military services have never received a clean opinion on their consolidated financial statements and only recently begun auditing portions of their financial statements, the audits of military service financial statements will also be a complex challenge for companies selected to provide audit services.

(3) The acquisition of services by the Department abides by many rules and parameters, one of which is the lowest price, technically acceptable (LPTA) evaluation method. LPTA is generally appropriate for commercial or noncomplex services or supplies where the requirement is clearly definable and the risk of unsuccessful contract performance is minimal.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that, before using the lowest price,

technically acceptable evaluation method for the procurement of audit or audit readiness services, the Secretary of Defense should establish the values and metrics for evaluating companies offering audit services, including financial management and audit expertise and experience, personnel qualifications and certifications, past performance, technology, tools, and size.

SEC. 895. MITIGATING POTENTIAL UNFAIR COMPETITIVE ADVANTAGE OF TECHNICAL ADVISORS TO ACQUISITION PROGRAMS.

Not later than 180 days after the date of the enactment of this Act, the Under Secretary of Defense for Acquisition, Technology, and Logistics shall review, and as necessary revise or issue, policy guidance pertaining to the identification, mitigation, and prevention of potential unfair competitive advantage conferred to technical advisors to acquisition programs.

SEC. 896. SURVEY ON THE COSTS OF REGULATORY COMPLIANCE.

(a) **SURVEY.**—The Secretary of Defense shall conduct a survey of contractors with the highest level of reimbursements for cost type contracts with the Department of Defense during fiscal year 2014 to estimate industry's cost of regulatory compliance (as a percentage of total costs) with Government-unique acquisition regulations and requirements in the categories of quality assurance, accounting and financial management, contracting and purchasing, program management, engineering, logistics, material management, property administration, and other unique requirements not imposed on contracts for commercial items.

(b) **REPORT.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report on the findings of the survey conducted under subsection (a). The data received as a result of the survey and included in the report shall be aggregated to protect against the public release of proprietary information.

SEC. 897. TREATMENT OF INTERAGENCY AND STATE AND LOCAL PURCHASES WHEN THE DEPARTMENT OF DEFENSE ACTS AS CONTRACT INTERMEDIARY FOR THE GENERAL SERVICES ADMINISTRATION.

Contracts executed by the Department of Defense as a result of the transfer of contracts from the General Services Administration or for which the Department serves as an item manager for products on behalf of the General Services Administration shall not be subject to requirements under chapter 148 of title 10, United States Code, to the extent such contracts are for purchases of products by other Federal agencies or State or local governments.

SEC. 898. COMPETITION FOR RELIGIOUS SERVICES CONTRACTS.

The Department of Defense may not preclude a non-profit organization from competing for a contract for religious related services on a United States military installation.

SEC. 899. PILOT PROGRAM REGARDING RISK-BASED CONTRACTING FOR SMALLER CONTRACT ACTIONS UNDER THE TRUTH IN NEGOTIATIONS ACT.

(a) **PILOT PROGRAM AUTHORIZED.**—The Secretary of Defense may conduct a pilot program to demonstrate the efficacy of using risk-based techniques in requiring submission of data on a sampling basis for purposes of section 2306a of title 10, United States Code (popularly known as the “Truth in Negotiations Act”).

(b) **INCREASE IN THRESHOLDS.**—For purposes of a pilot program under subsection (a), \$5,000,000 shall be the threshold applicable to requirements under paragraph (1) of section 2306a(a) of such title, as follows:

(1) The requirement under subparagraph (A) of such paragraph to submit cost or pricing data for a prime contract entered into during the pilot program period.

(2) The requirement under subparagraph (B) of such paragraph to submit cost or pricing data for the change or modification to a prime contract made during the pilot program period.

(3) The requirement under subparagraph (C) of such paragraph to submit cost or pricing data for a subcontract entered into during the pilot program period.

(4) The requirement under subparagraph (D) of such paragraph to submit cost or pricing data for the change or modification to a subcontract made during the pilot program period.

(c) **RISK-BASED CONTRACTING.**—

(1) **AUTHORITY TO REQUIRE SUBMISSION OF COST OR PRICING DATA ON BELOW-THRESHOLD CONTRACTS.**—Subject to paragraph (4), when certified cost or pricing data are not required to be submitted pursuant to subsection (b) for a contract or subcontract entered into or modified during the pilot program period, such data may nevertheless be required to be submitted by the head of the procuring activity, if the head of the procuring activity—

(A) determines that such data are necessary for the evaluation by the agency of the reasonableness of the price of the contract, subcontract, or modification of a contract or subcontract; or

(B) requires the submission of such data in accordance with a risk-based contracting approach established pursuant to paragraph (3).

(2) **WRITTEN DETERMINATION REQUIRED.**—In any case in which the head of the procuring activity requires certified cost or pricing data to be submitted under paragraph (1)(A), the head of the procuring activity shall justify in writing the reason for such requirement.

(3) **RISK-BASED CONTRACTING.**—The head of an agency shall establish a risk-based sampling approach under which the submission of certified cost or pricing data may be required for a risk-based sample of contracts, the price of which is expected to exceed \$750,000 but not \$5,000,000. The authority to require certified cost or pricing data under this paragraph shall not apply to any contract of an offeror that has not been awarded, for at least the one-year period preceding the issuance of a solicitation for the contract, any other contract in excess of \$5,000,000 under which the offeror was required to submit certified cost or pricing data under section 2306a of title 10, United States Code.

(4) **EXCEPTION.**—The head of the procuring activity may not require certified cost or pricing data to be submitted under this subsection for any contract or subcontract, or modification of a contract or subcontract, covered by the exceptions in subparagraph (A) or (B) of section 2306a(b)(1) of title 10, United States Code.

(5) **DELEGATION OF AUTHORITY PROHIBITED.**—The head of a procuring activity may not delegate functions under this subsection.

(d) **REPORTS.**—Not later than January 1, 2017, and January 1, 2019, the Secretary of Defense shall submit to the congressional defense committees a report on activities undertaken under this section.

(e) **DEFINITIONS.**—In this section:

(1) **HEAD OF AN AGENCY.**—The term “head of an agency” has the meaning given the term in section 2302 of title 10, United States Code.

(2) **PILOT PROGRAM PERIOD.**—The term “pilot program period” means the period beginning on October 1, 2016, and ending on September 30, 2019.

TITLE IX—DEPARTMENT OF DEFENSE ORGANIZATION AND MANAGEMENT

Sec. 901. Update of statutory specification of functions of the Chairman of the Joint Chiefs of Staff relating to joint force development activities.

Sec. 902. Sense of Congress on the United States Marine Corps.

SEC. 901. UPDATE OF STATUTORY SPECIFICATION OF FUNCTIONS OF THE CHAIRMAN OF THE JOINT CHIEFS OF STAFF RELATING TO JOINT FORCE DEVELOPMENT ACTIVITIES.

Section 153(a)(5) of title 10, United States Code, is amended by adding at the end the following new subparagraph:

“(F) Advising the Secretary on development of joint command, control, communications, and cyber capability, including integration and interoperability of such capability, through requirements, integrated architectures, data standards, and assessments.”.

SEC. 902. SENSE OF CONGRESS ON THE UNITED STATES MARINE CORPS.

(a) **FINDINGS.**—Congress finds the following:

(1) As senior United States statesman Dr. Henry Kissinger wrote in testimony submitted to the Committee on Armed Services of the Senate on January 29, 2015, “The United States has not faced a more diverse and complex array of crises since the end of the Second World War.”.

(2) The rise of non-state forces and near peer competitors has introduced destabilizing pressures around the globe.

(3) Advances in information and weapons technology have reduced the time available for the United States to prepare for and respond to crises against both known and unknown threats.

(4) The importance of the maritime domain cannot be overstated. As acknowledged in the March 2015 Navy, Marine Corps, and Coast Guard maritime strategy, “A Cooperative Strategy for 21st Century Seapower: Forward, Engaged, Ready”: “Oceans are the lifeblood of the interconnected global community. . . 90 percent of trade by volume travels across the oceans. Approximately 70 percent of the world's population lives within 100 miles of the coastline.”.

(5) The United States must be prepared to rapidly respond to crises around the world regardless of the nation's fiscal health.

(6) In this global security environment, it is critical that the nation possess a maritime force whose mission and ethos is readiness—a fight tonight force, forward deployed, that can respond immediately to emergent crises across the full range of military operations around the globe either from the sea or home station.

(7) The need for such a force was recognized by the 82nd Congress during the Korean War, when it mandated a core mission for the nation's leanest force—the Marine Corps—to be most ready when the nation is least ready.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the Marine Corps, within the Department of the Navy, remain the Nation's expeditionary, crisis response force;

(2) the need for such a force with such a capability has never been greater; and

(3) accordingly, in recognition of this need and the wisdom of the 82nd Congress, the 114th Congress reaffirms section 5063 of title 10, United States Code, which states that the Marine Corps—

(A) shall—

(i) be organized to include not less than three combat divisions and three air wings, and such other land combat, aviation, and other services as may be organic therein;

(ii) be organized, trained, and equipped to provide fleet marine forces of combined arms, together with supporting air components, for service with the fleet in the seizure or defense of advanced naval bases and for the conduct of such land operations as may be essential to the prosecution of a naval campaign; and

(iii) provide detachments and organizations for service on armed vessels of the Navy, provide security detachments for the protection of naval property at naval stations and bases, and perform such other duties as the President may direct; but these additional duties may not detract from nor interfere with the operations for which the Marine Corps is primarily organized;

(B) shall develop, in coordination with the Army and the Air Force, those phases of amphibious operations that pertain to the tactics, techniques, and equipment used by landing forces; and

(C) is responsible, in accordance with the integrated joint mobilization plans, for the execution of peacetime components of the Marine Corps to meet the needs of war.

(a) AUTHORITY TO TRANSFER AUTHORIZATIONS.—

(1) AUTHORITY.—Upon determination by the Secretary of Defense that such action is necessary in the national interest, the Secretary may transfer amounts of authorizations made available to the Department of Defense in this division for fiscal year 2016 between any such authorizations for that fiscal year (or any subdivisions thereof). Amounts of authorizations so transferred shall be merged with and be available for the same purposes as the authorization to which transferred.

(2) LIMITATION.—Except as provided in paragraph (3), the total amount of authorizations that the Secretary may transfer under the authority of this section may not exceed \$4,500,000,000.

(3) EXCEPTION FOR TRANSFERS BETWEEN MILITARY PERSONNEL AUTHORIZATIONS.—A transfer of funds between military personnel authorizations under title IV shall not be counted toward the dollar limitation in paragraph (2).

(b) LIMITATIONS.—The authority provided by subsection (a) to transfer authorizations—

(1) may only be used to provide authority for items that have a higher priority than the items from which authority is transferred; and

The report should not include information otherwise available in other reports to Congress.

SEC. 1004. SENSE OF CONGRESS ON SEQUESTRATION.

It is the sense of the Congress that—

(1) the fiscal challenges of the Federal Government are a top priority for Congress, and sequestration—non-strategic, across-the-board budget cuts—remains an unreasonable and inadequate budgeting tool to address the deficits and debt of the Federal Government;

(2) budget caps imposed by the Budget Control Act of 2011 (Public Law 112-25) impose unacceptable limitations on the budget and increase risk to the national security of the United States; and

(2) shall not be construed to alter the requirement under section 3521(e) of title 31, United States Code, that the financial statements of the Department of Defense as a whole be audited by the Inspector General or by an independent external auditor, as determined by the Inspector General; and

(a) FINDINGS.—Congress makes the following findings:

(1) The stability and security of Central American nations have a direct impact on the stability and security of the United States.

(2) Over the past decade, increased stability and security in the Republic of Colombia has displaced illicit trafficking to Central America, bringing with it increased violence and instability.

(3) According to the Global Study on Homicide 2013 of the United Nations Office on Drugs and Crime, four of the top five countries with the highest homicide rates in the world were Central American nations, including Honduras, Belize, El Salvador, and Guatemala.

(4) In 2014, approximately 65,000 unaccompanied alien children from Central America entered the United States through its south-west border.

(5) In November 2014, Guatemala, Honduras, and El Salvador announced a Plan for the Alliance for Prosperity of the Northern Triangle, which is a comprehensive approach to address the ongoing violence and instability facing these three nations by stimulating economic opportunities, improving public safety and rule of law, and strengthening institutions to increase trust in the state.

(6) The United States Government is supportive of the Alliance for Prosperity, and President’s strategy for support includes \$1,000,000,000 focused on promoting pros-

perity and regional economic integration, enhancing security, and promoting improved governance.

(7) The Department of Defense continues to build the capacity of our partners in the region to address their security challenges and confront threats of mutual concern.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the United States should, to the extent practicable, prioritize efforts to address the threatening levels of violence, instability, illicit trafficking, and transnational organized crime that challenge the sovereignty of Central American nations and the security of the United States; and

(2) in order to address such issues, the Department of Defense, to the extent practicable, should—

(A) increase its operations, as the lead agency of the United States Government, to detect and monitor aerial and maritime illicit trafficking into the United States;

(B) increase its efforts to support aerial and maritime illicit trafficking interdiction operations;

(C) increase its operations to build the capacity of partner nations in Central America to confront their own security challenges;

(D) support interagency programs and activities in Central America addressing instability, including development, education, economic, political, and security challenges; and

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. THORNBERRY) and the gentleman from Washington (Mr. SMITH) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

GENERAL LEAVE

Mr. THORNBERRY. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks and insert extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. THORNBERRY. Mr. Speaker, I yield myself 4 minutes.

Mr. Speaker, first let me say I very much value and appreciate the partnership that I have on the Committee on Armed Services with the gentleman from Washington (Mr. SMITH). I also very much value and appreciate the work of our staff on both sides of the aisle during what has been something of a roller coaster year.

Let me take just a moment to review where we are and how we got here. Mr. Speaker, the Committee on Armed Services reported out the fiscal year 2016 Defense Authorization Act on April 29, 2015, by a vote of 60-2.

During full committee markup, 211 amendments were adopted, about evenly divided between Republicans and Democrats. Then on the floor, 131 amendments were adopted, again, from both sides of the aisle. After weeks of conference with the Senate, a conference report containing 647 provisions was reported out.

Now, that conference report was the result of bipartisan effort and bipartisan input every step of the way. The conference report passed this House 270-156, and then it passed the Senate by a vote of 70-27. Then, on October 22, the President vetoed the bill to try to force Congress to increase spending in other areas. As The Washington Post

wrote: "It was historic, but not in a good way."

Well, last week the Congress passed and the President signed the Bipartisan Budget Act of 2015 not because of the President's veto of the defense bill, but because we were up against the debt limit and because Speaker Boehner was on the way out and was trying to get some things resolved. So what we have before us now is the same bill as the conference report, with funding adjustments to reflect the bill we passed last week. Otherwise, it is the same bill.

Now, I understand the White House press secretary has said the President will not veto the bill this time. So I hope, Mr. Speaker, that this year has been an anomaly, that never again does the bill that supports our troops become a political bargaining chip in a political game. I would just say, our troops deserve better than that.

This bill has a lot of important provisions, and we have talked about them on this floor before: acquisition reform; a new retirement system for the military that allows the 83 percent of the people who serve who leave with no retirement to put aside a nest egg and save for retirement; and changes to the formulary so that, if someone is on a particular drug for post-traumatic stress when they are in the military, they can stay on that drug when they move to the VA.

This bill takes additional steps for sexual assault, authorizes defensive weapons for the Ukraine, gives the President more options to assist the Kurds, the Sunnis, and others who are fighting ISIS. We take steps to help protect the country against missile attacks.

It increases support for Israeli missile defense by about \$300 billion over what the President requested. It allows commanders the discretion to determine when and where folks on their military base can carry personal firearms. It sunsets a number of reports. The list could go on and on.

Bottom line, Mr. Speaker, is this bill is good for the troops and good for the country. Hopefully all of the political maneuvering is behind us and, as we move into Veterans Day, we can do the right thing and pass this bill with a very, very strong vote.

Mr. Speaker, I reserve the balance of my time.

JOINT EXPLANATORY STATEMENT TO ACCOMPANY S. 1356, THE NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2016

The following consists of the explanatory material to accompany S. 1356, the National Defense Authorization Act for Fiscal Year 2016.

Section 5 of the Act specifies that this explanatory statement shall have the same effect with respect to the implementation of this legislation as if it were a joint explanatory statement of a committee of conference.

In this joint explanatory statement, the provisions of H.R. 1735, the National Defense Authorization Act for Fiscal Year 2016 as

passed by the House of Representatives on May 15, 2015, are generally referred to as "the House bill." The provisions of the Senate amendment to H.R. 1735, the National Defense Authorization Act for Fiscal Year 2016 as passed by the Senate on June 18, 2015, are generally referred to as "the Senate amendment." The final form of the agreements reached during negotiations between the House and the Senate are referred to as "the agreement." References in the joint explanatory statement that "the House recedes" or "the Senate recedes" on a particular provision reflects the outcome from the conference agreement on H.R. 1735.

On October 1, 2015, the Conference Report to accompany H.R. 1735 was agreed to in the House by the Yeas and Nays [270-156]. On October 7, 2015, the Conference Report was agreed to in the Senate by the Yeas and Nays [70-27]. On October 22, 2015, H.R. 1735 was vetoed by the President and was returned to the House.

On October 28, 2015, the House passed H.R. 1314, the Bipartisan Budget Act of 2015, by the Yeas and Nays [266-167], and on October 30, 2015, the Senate also passed H.R. 1314 by Yea-Nay vote [64-35]. The President signed the bill on November 2, 2015. The Bipartisan Budget Act of 2015 (Public Law 114-74) did not fully fund account 050 to the level requested by the President in his budget submission, and as agreed to by the conferees and authorized in H.R. 1735. As a result, the agreement includes a reduction of \$5.0 billion from the level authorized in H.R. 1735 to conform to Public Law 114-74. The agreement between the two Houses addressed, in part, the concerns regarding the budget impact of H.R. 1735 expressed by the President in his veto message returning H.R. 1735 to the House. The resulting agreement was incorporated S. 1356, the National Defense Authorization Act for Fiscal Year 2016.

Compliance with rules of the House of Representatives and Senate regarding earmarks and congressionally directed spending items

Consistent with the intent of clause 9 of rule XXI of the Rules of the House of Representatives and Rule XLIV of the Standing Rules of the Senate, neither the bill text reflected in the agreement nor the accompanying joint explanatory statement contains any congressional earmarks, congressionally directed spending items, limited tax benefits, or limited tariff benefits, as defined in such rules.

Summary of discretionary authorizations and budget implication

The budget request for national defense discretionary programs within the jurisdiction of the Committees on Armed Services of the Senate and the House of Representatives for fiscal year 2016 was \$604.2 billion. Of this amount, \$534.2 billion was requested for base Department of Defense programs, \$50.9 billion was requested for overseas contingency operations, and \$19.0 billion was requested for national security programs in the Department of Energy and the Defense Nuclear Facilities Safety Board.

The agreement would authorize \$599.2 billion in fiscal year 2016, including \$521.9 billion for base Department of Defense programs, \$58.8 billion for overseas contingency operations, and \$18.6 billion for national security programs in the Department of Energy and the Defense Nuclear Facilities Safety Board. The agreement reflects the \$5.0 billion reduction to the President's budget request for national security (050) in order to conform to the revised budget caps contained in the Bipartisan Budget Act of 2015 (Public Law 114-74). It further reflects a realignment of some funds from the accounts for overseas contingency operations to the base budget.

The two tables preceding the detailed program adjustments in Division D of the ac-

companying joint statement of managers summarize the discretionary authorizations in the agreement and the equivalent budget authority levels for fiscal year 2016 defense programs.

Budgetary effects of this Act (sec. 4)

The Senate amendment contained a provision (sec. 4) that would require the budgetary effects of this Act be determined in accordance with the procedures established in title I of the Statutory Pay-As-You-Go Act of 2010 (Public Law 111-139).

The House bill contained no similar provision.

The agreement includes the Senate provision.

DIVISION A—DEPARTMENT OF DEFENSE AUTHORIZATIONS

TITLE I—PROCUREMENT

BUDGET ITEMS

ARMY

Stryker vehicle lethality upgrades

The House bill contained an increase in funding for Stryker vehicle lethality upgrades of \$35.0 million in Research, Development, Test & Evaluation, Army and \$44.5 million in Procurement of Weapons and Tracked Combat Vehicles, Army respectively.

The Senate amendment contained an increase in these same funding areas of \$97.0 million and \$314.0 million, respectively.

The agreement, in Sections 4101 and 4102, includes increased funding in line with the Senate amendment.

We support the Army's plan to upgrade 81 Stryker vehicles with increased lethality as requested by the U.S. Army Europe in a recent Operational Need Statement. We understand the urgency for this requirement given heightened security concerns of our NATO partners due to Russian aggression in Ukraine. As such, we expect the rapid production of fully serviceable, upgraded Strykers. In order to meet the compressed timeline for fielding upgraded Strykers to the 2nd Cavalry Regiment, we expect the Army to manage this program with dispatch and efficiency. Identified risks associated with cost, schedule, and performance are to be managed with focused controls and leadership. We view this initiative, which is intended to increase the combat power of a forward deployed unit, as an opportunity to succeed in accordance with significant acquisition reforms illustrated in many provisions within this bill.

With regard to cost, we note the Army currently plans on starting with existing chassis of Stryker vehicles discarded during the upgrade to Double V Hull (DVH) Strykers. This approach appears to add significantly to the unit cost for the lethality upgrades which the Army has informed the defense committees may be approximately \$4.5 million per vehicle. We note that the Army already has extensive upgrade programs for the Stryker vehicle to include additional DVH Strykers and the Engineering Change Proposal modernization program. It is unclear if the Army ultimately plans on adding the lethality initiative to DVH Strykers, including those equipped with the Engineering Change Proposal upgrade. We are concerned that simply adding a broad Stryker lethality package for the Army's Stryker Brigade Combat Teams could add billions of dollars to the already stressed resources of the combat vehicle portfolio. Therefore, the committee encourages the Army to reduce the unit cost of the Stryker lethality upgrade program and evaluate ways to more efficiently pursue upgrades to the Stryker vehicle fleet and Stryker Brigade Combat Teams.

AIR FORCE

C-130H Modifications

The base budget request included \$7.0 million in Aircraft Procurement, Air Force, Line 44 for C-130.

The House bill authorized a funding increase in that line item of \$73.2 million for the restructured C-130 Avionics Modernization Program (AMP) Increments I and II (\$10.0 million), T-56 3.5 Engine Modification (\$33.2 million), and Eight-bladed Propeller (\$30.0 million).

The Senate amendment would authorize an increase in that line item by \$123.2 million for the restructured C-130 AMP Increments I and II (\$75.0 million), T-56 3.5 Engine Modification (\$33.2 million), Electronic Propeller Control System (\$13.5 million), and In-flight Propeller Balancing System certification (\$1.5 million).

The agreement authorizes a total funding increase for Aircraft Procurement, Air Force, Line 44 of \$139.2 million for the restructured C-130 AMP Increments I and II (\$75.0 million), T-56 3.5 Engine Modification (\$33.2 million), Eight-Bladed Propeller (\$16.0 million), Electronic Propeller Control System (\$13.5 million), and In-flight Propeller Balancing System certification (\$1.5 million).

SUBTITLE C—NAVY PROGRAMS

Modification of CVN-78 class aircraft carrier program (sec. 121)

The Senate amendment contained a provision (sec. 114) that would amend subsection (f) of section 122 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364; 120 Stat. 2104), as added by section 121(c) of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113-66; 127 Stat. 692), by adding a reporting requirement to the USS *John F. Kennedy* (CVN-79) quarterly report. Beginning January 1, 2016, the Secretary of the Navy would be required to submit, as part of the CVN-79 quarterly report, a description of new design and engineering changes to CVN-78 class aircraft carriers that exceed \$5.0 million and occurred during the reporting period. The provision would require the report to include program or ship cost increases for each design or engineering change and any cost reduction achieved. The Secretary of the Navy and Chief of Naval Operations would each be required to sign this additional reporting requirement and would be precluded from delegating the certification. The required certification would have to include a determination that each change serves the national security interests of the United States; cannot be deferred to a future ship due to operational necessity, safety, or substantial cost reduction; and was reviewed and endorsed by the Secretary of the Navy and Chief of Naval Operations.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Amendment to cost limitation baseline for CVN-78 class aircraft carrier program (sec. 122)

The Senate amendment contained a provision (sec. 111) that would further amend section 122 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364) as amended by section 121(a) of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113-66) by adjusting the procurement cost cap for USS *John F. Kennedy* (CVN-79) and subsequent CVN-78 class aircraft carriers from \$11,498,000,000 to \$11,398,000,000.

The House bill contained no similar provision.

The House recedes with an amendment that would add an additional amendment to section 121(b) of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364), as amended by section 121(a) of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113-66). We recognize that the Department of the Navy has made considerable gains in controlling the cost of CVN-78 class aircraft carriers and believe further efforts at cost reduction are warranted. The current cost cap and cost estimate for CVN-79 is \$11.5 billion, which includes only limited program management reserve for unforeseeable issues during CVN-79 construction. We expect the Department to continue to employ efforts to

reduce costs on this ship class and accordingly are lowering the Congressional cap to \$11.4 billion. However, if during construction of CVN-79 the Chief of Naval Operations determines that measures required to complete the ship within the revised cost cap shall result in an unacceptable reduction to the ship's operational capability, the Secretary of the Navy may increase the CVN-79 cost cap up to \$11.5 billion. If such action is taken, the Secretary of the Navy shall adhere to the notification requirements specified in section 121(d) of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364).

We note that section 122 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364) set the cost cap for the lead ship at \$10.5 billion, plus adjustments for inflation and other factors, and at \$8.1 billion for subsequent CVN-78 class carriers, plus adjustments for inflation and other factors. Section 122 was amended by section 121(a) of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113-66), which revised the cost cap for the lead ship to \$12.9 billion, plus adjustments for inflation and other factors, and to \$11.5 billion for subsequent CVN-78 class carriers, plus adjustments for inflation and other factors. We understand 90 percent or \$3.1 billion of the \$3.4 billion increase in the cost cap for follow-on ships is attributable to economic inflation, which includes actual inflation realized and updated projections of future inflation based on Navy shipbuilding inflation indices. In view of this significant cost growth attributed to inflation, the Congressional Budget Office is directed to provide a report to the congressional defense committees no later than December 1, 2015 that includes the following elements:

(1) Explanation of how inflation was calculated and projected in the cost estimates for CVN-78 class aircraft carriers in each annual budget from fiscal year 2007 to fiscal year 2015;

(2) Description of inflation rates for CVN-78, CVN-79, and CVN-80, by fiscal year, from fiscal year 2007 until the obligation work limiting date for each ship;

(3) Comparison of projected inflation rates vs. actual inflation rates for CVN-78 class aircraft carriers, by fiscal year, from fiscal year 2007 to fiscal year 2015;

(4) Explanation of the key factors that are used to plan for and calculate current and projected inflation rates for CVN-78 class aircraft carrier cost estimates;

(5) Explanation of root causes of inflation escalation above the planned inflation assumed in CVN-78 class aircraft carrier cost estimates; and

(6) Component-level explanation of the \$3.1 billion increase in the cost estimate for CVN-79 and following aircraft carriers attributable to economic inflation.

Extension and modification of limitation on availability of funds for Littoral Combat Ship (sec. 123)

The Senate amendment contained a provision (sec. 116) that would amend section 123 of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291) by extending the limitation on funds for LCS-25 and LCS-26 until pre-existing requirements are met and would additionally require the Navy to provide to the congressional defense committees the following: an acquisition strategy for LCS-25 through LCS-32; a LCS mission module acquisition strategy; a plan to outfit Flight 0 and Flight 0+ Littoral Combat Ships with capabilities identified for the upgraded Littoral Combat Ship; and a current test and evaluation master plan for the Littoral Combat Ship mission modules.

The House bill contained no similar provision.

The House recedes.

Modification to multiyear procurement authority for Arleigh Burke-class destroyers and associated systems (sec. 124)

The House bill contained a provision (sec. 121) that would amend section 123(a) of the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112-239) to clarify that the Secretary of the Navy has the authority to procure Flight III destroyers as part of the existing Arleigh Burke-class multiyear procurement authority.

The Senate amendment contained no similar provision.

The Senate recedes.

The Senate report accompanying S. 3254 (S. Rept. 112-173) of the National Defense Authorization Act for Fiscal Year 2013 described Senate intent regarding the current multiyear procurement authority for Arleigh Burke-class destroyers and associated systems. The Senate report supported the change to buying Flight III destroyers through an engineering change proposal and the inclusion of such ships in the multiyear procurement authority, following submission of a specified report. The House report accompanying H.R. 1960 (H. Rept. 113-102) of the National Defense Authorization Act for Fiscal Year 2014 expressed concern about the physical limitations associated with the integration of the Air and Missile Defense Radar on the Flight III version of the Arleigh Burke-class destroyer and requested a report to assess this integration process. Having received the required reports, we support the changes proposed by the Secretary of the Navy to integrate the Air and Missile Defense Radar into the Arleigh Burke-class destroyers and the addition of these Flight III ships to the current Arleigh Burke-class multiyear procurement contract.

Procurement of additional Arleigh Burke class destroyer (sec. 125)

The Senate amendment contained a provision (sec. 117) that would allow the Secretary of the Navy to enter into a contract beginning with the fiscal year 2016 program year for the procurement of 1 Arleigh Burke-class destroyer in addition to the 10 DDG-51s in the fiscal year 2013 through 2017 multiyear procurement contract or for 1 DDG-51 in fiscal year 2018. The Secretary may employ incremental funding for such procurement.

The House bill contained no similar provision.

The House recedes.

Refueling and complex overhaul of the USS George Washington (sec. 126)

The House bill contained a provision (sec. 122) that would provide economic order quantity authority for the construction of two Ford-class aircraft carriers and incremental funding authority for the nuclear refueling and complex overhaul of five Nimitz-class aircraft carriers.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would limit new aircraft carrier program procurement authority to the nuclear refueling and complex overhaul of USS *George Washington* (CVN-73).

The Department of the Navy awarded a detail design and construction contract for the USS *John F. Kennedy* (CVN-79) on June 5, 2015. At the time of award, Program Executive Officer (PEO), Aircraft Carriers, Rear Admiral Thomas Moore, indicated “. . . with a stable design, mature requirements and an improved build process, we will reduce construction hours by 18 percent, lower the cost to build the ship by almost \$1 billion in real terms compared to CVN-78 . . .”. Following

\$2.4 billion in cost growth on the lead ship, CVN-78, we are encouraged by the ongoing collaboration between the Department of the Navy and industry to achieve cost reductions. We note that other ship construction programs have been able to reduce costs through acquisition efficiencies and economic order decisions. Therefore, to better assess acquisition options, we direct the Secretary of the Navy to submit a report to the congressional defense committees by March 1, 2016, that provides an assessment of the merits associated with using economic order quantity procurement with CVN-80 and CVN-81. This report should assess the specific aircraft carrier components that would be best suited to include in a potential economic order quantity contract, and the estimated cost savings that could be achieved using this procurement authority.

Fleet replenishment oiler program (sec. 127)

The Senate amendment contained a provision (sec. 118) that would grant the Secretary of the Navy contracting authority to procure up to six fleet replenishment oilers (T-AO(X)). This new ship class is a non-developmental recapitalization program based on existing commercial technology and standards. The ship design is considered to be low risk by the Navy, with the design scheduled to be complete prior to the start of construction on the lead ship. This provision would enable an estimated \$45.0 million in savings per ship, for ships 2-6, for a total of \$225.0 million in savings compared to current annual procurement cost estimates.

The House bill contained no similar provision.

The House recedes.

Limitation on availability of funds for USS John F. Kennedy (CVN-79) (sec. 128)

The Senate amendment contained a provision (sec. 112) that would limit \$100.0 million in Shipbuilding and Conversion, Navy procurement funds for USS *John F. Kennedy* (CVN-79) subject to the submission of a certification regarding full ship shock trials and two reports.

The House bill contained no similar provision.

The House recedes with an amendment that would provide the Secretary of Defense with waiver authority to delay full ship shock trials on the USS *Gerald R. Ford* (CVN-78) until after the ship's first deployment but prior to the first major maintenance availability.

Limitation on availability of funds for USS Enterprise (CVN-80) (sec. 129)

The Senate amendment contained a provision (sec. 113) that would limit \$191.4 million in advance procurement funds for USS *Enterprise* (CVN-80), until the Secretary of the Navy submits a certification and report to the Committees on Armed Services of the Senate and of the House of Representatives. \$191.4 million is the sum of funding requested for plans (detailed) and basic construction for CVN-80.

The House bill contained no similar provision.

The House recedes with an amendment that would require submission of the certification and report to all four congressional defense committees, as well as require the certification be provided within 90 days of enactment of this Act.

Limitation on availability of funds for Littoral Combat Ship (sec. 130)

The Senate amendment contained a provision (sec. 115) that would limit 75 percent of fiscal year 2016 funds for research and development, design, construction, procurement or advance procurement of materials for the upgraded Littoral Combat Ships (LCS), designated as LCS-33 and subsequent, until the

Secretary of the Navy submits to the Committees on Armed Services of the Senate and of the House of Representatives: a capabilities-based assessment to assess capability gaps and associated capability requirements and risks for the upgraded LCS, an updated capabilities development document for the upgraded LCS, and a report describing the upgraded LCS modernization.

The House bill contained no similar provision.

The House recedes with an amendment that changes the limitation to 50 percent of fiscal year 2016 funds and allows for a capabilities-based assessment or equivalent report.

Reporting requirement for Ohio-class replacement submarine program (sec. 131)

The Senate amendment contained a provision (sec. 119) that would require the Secretary of Defense to submit Ohio-class replacement submarine cost tracking information, together with annual budget justification materials. While the first Ohio-class replacement submarine is not planned to be authorized until fiscal year 2021, the national importance of this program and significant cost will continue to merit close oversight by the congressional defense committees.

The House bill contained no similar provision.

The House recedes.

SUBTITLE D—AIR FORCE PROGRAMS

Backup inventory status of A-10 aircraft (sec. 141)

The House bill contained a provision (sec. 132) that would amend section 133(b)(2)(A) of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291; 128 Stat. 3316) to where the Secretary of the Air Force may not move more than 18 A-10 aircraft in the active component to backup flying status pursuant to an authorization made by the Secretary of Defense under such section.

The Senate amendment contained no similar provision.

The Senate recedes.

Prohibition on availability of funds for retirement of A-10 aircraft. (sec. 142)

The House bill contained a provision (sec. 133) that would prohibit the use of any funds during fiscal year 2016 to retire, prepare to retire, or place in storage any A-10 aircraft. The provision would also require the Secretary of the Air Force to maintain a minimum of 171 A-10 aircraft in primary mission aircraft inventory (combat-coded) status. The provision would also direct the Secretary of the Air Force to commission an independent entity outside the Department of Defense to conduct an assessment of the required capabilities and mission platform to replace the A-10 aircraft.

The Senate amendment contained a similar provision (sec. 134).

The Senate recedes with an amendment that aligns technical provisions of both versions and refers to sec. 141 regarding moving A-10 aircraft to backup inventory status.

Prohibition on availability of funds for retirement of EC-130H Compass Call aircraft (sec. 143)

The House bill contained a provision (sec. 134) that would prohibit funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2016 for the Department of the Air Force to be obligated or expended to retire, prepare to retire, or place in storage or on back up flying status any EC-130H aircraft. The provision would also require the Secretary of the Air Force to commission an assessment of the required capabilities or mission platform to replace

the EC-130H aircraft, and to submit a report on that assessment to the congressional defense committees not later than September 30, 2016, and would also prohibit the Secretary of the Air Force from retiring, preparing to retire, placing in storage or placing on back up flying status any EC-130H aircraft until 60 days after the Secretary submits the specified report.

The Senate bill contained a similar provision (sec. 135).

The Senate recedes with an amendment changing the prohibition limitation date to December 31, 2016, and combining the report requirements from the House and Senate versions.

Prohibition on availability of funds for retirement of Joint Surveillance Target Attack Radar System, EC-130H Compass Call, and Airborne Warning and Control System aircraft (sec. 144)

The Senate amendment contained a provision (sec. 138) that would limit the retirement of Joint Surveillance Target Attack Radar System (JSTARS), EC-130H Compass Call, and Airborne Early Warning and Control System (AWACS) aircraft until the follow-on replacement aircraft program enters low-rate initial production.

The House bill contained no similar provision.

The House recedes with an amendment to change the provision to apply only in fiscal years 2016 or 2017, and other technical clarifications. The provision would not apply to individual aircraft if the Secretary of the Air Force, on a case-by-case basis, determines an individual aircraft to be non-operational because of mishaps, other damage, or being uneconomical to repair.

Limitation on availability of funds for F-35A aircraft procurement (sec. 145)

The Senate amendment contained a provision (sec. 133) that would limit the availability of fiscal year 2016 funds for F-35A procurement to not more than \$4.3 billion until the Secretary of Defense certifies to the congressional defense committees that F-35A aircraft delivered in fiscal year 2018 will have full combat capability with currently planned Block 3F hardware, software, and weapons carriage.

The House bill contained no similar provision.

The House recedes with an amendment to amend the certification level from the Secretary of Defense to the Secretary of the Air Force, and to amend the effective date of certification criteria from “full combat capability as currently planned . . .” to “full combat capability, as determined on the date of enactment of this Act . . .”

Prohibition on availability of funds for retirement of KC-10 aircraft (sec. 146)

The House bill contained a provision (sec. 135) that would prohibit any funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2016 for the Air Force to be obligated or expended during such fiscal year to divest or transfer, or prepare to divest or transfer, KC-10 aircraft.

The Senate bill contained no similar provision.

The Senate recedes with an amendment to change the provision to apply only in fiscal years 2016 or 2017. The provision would not include the prohibition on transfer of aircraft, and would not apply to an individual KC-10 aircraft if the Secretary of the Air Force, on a case-by-case basis, determines the aircraft to be non-operational because of mishaps, other damage, or being uneconomical to repair.

Limitation on availability of funds for transfer of C-130 aircraft (sec. 147)

The Senate amendment contained a provision (sec. 136) that would limit the avail-

ability of all funds authorized to be appropriated for the transfer from one facility of the Department of Defense to another any C-130H aircraft, initiate any C-130 manpower authorization adjustments, retire or prepare to retire any C-130H aircraft, or close any C-130H unit until 90 days after the date on which the Secretary of the Air Force, in consultation with the Secretary of the Army, and after certification by the commanders of the XVIII Airborne Corps, 82nd Airborne Division, and United States Army Special Operations Command, certified that the Air Force would maintain dedicated C-130 wings to support the daily training of Army airborne and special operations units, and the failure to maintain such Air Force operations would not adversely impact the daily training requirement of those airborne and special operations units.

The House bill contained a similar provision (sec. 1060c).

The House recedes with an amendment that would change the required certification to be made by the Secretaries and Chiefs of Staff of the Army and the Air Force, in consultation with the commanders of the XVIIIth Airborne Corps, 82d Airborne Division, and Army Special Operations Command. The amendment also contains other minor technical clarifications.

Limitation on availability of funds for executive communications upgrades for C-20 and C-37 aircraft (sec. 148)

The House bill contained a provision (Sec. 131) that would limit availability of funds to upgrade the executive communications of C-20 and C-37 aircraft until the Secretary of the Air Force certifies to certain specified criteria.

The Senate bill contained no similar provision.

The Senate recedes.

Limitation on use of funds for T-1A Jayhawk aircraft (sec. 149)

The Senate amendment contained a provision (sec. 137) that would limit all the funds authorized or appropriated by this Act or that otherwise may be obligated or expended for fiscal year 2016 for avionics modifications to the T-1A Jayhawk aircraft until 30 days after the Secretary of the Air Force submits to the congressional defense committees the report required under section 142 of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291).

The House bill contained no similar provision.

The House recedes with an amendment to amend the provision to state: “Of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2016 Aircraft Procurement, Air Force, for avionics modification to the T-1A Jayhawk aircraft, not more than 85 percent may be obligated or expended until a period of 30 days has elapsed following the date on which the Secretary of the Air Force submits to the congressional defense committees the report required under section 142 of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291; 128 Stat. 3320).”

Notification of retirement of B-1, B-2, and B-52 bomber aircraft (sec. 150)

The Senate amendment contained a provision (sec. 131) that would limit the retirement of B-1, B-2, or B-52 bomber aircraft during a fiscal year prior to initial operational capability of the Long Range Strike Bomber unless the Secretary of Defense certified to specified criteria in the materials submitted in support of the budget of the President for that fiscal year as submitted to Congress.

The House bill contained no similar provision.

The House recedes with an amendment that would change the limitation to a notification requiring that in the period before the date of initial operational capability of the long-range strike bomber aircraft, before retiring or preparing to retire any B-1, B-2, or B-52 bomber aircraft the Secretary of the Air Force includes in the defense budget materials a notification of the proposed retirement including the rationale for the retirement, the effects of the retirement, and how the Secretary will mitigate any risks relating to the retirement. The provision would not apply to individual B-1, B-2, or B-52 aircraft if the Secretary of the Air Force, on a case-by-case basis, determines the aircraft to be non-operational because of mishaps, other damage, or being uneconomical to repair.

Inventory requirement for fighter aircraft of the Air Force (sec. 151)

The Senate amendment included a provision (sec. 132) that would amend section 8062 of title 10, United States Code, by adding a new subsection requiring the Secretary of the Air Force to maintain a minimum total active inventory of 1,950 fighter aircraft, within which the Secretary would also be required to maintain a minimum of 1,116 fighter aircraft as primary mission aircraft inventory (combat-coded). The provision would also provide additional limitations on fighter retirements by requiring the Secretary of the Air Force to certify to certain specified criteria, and also require a detailed report in advance of retiring fighter aircraft.

The House bill contained no similar provision.

The House recedes with an amendment to strike the amendment to section 8062 of title 10, change the limitation period to a 2-year period beginning on October 1, 2015, and reduce the minimum numbers of fighters required to be maintained by the Air Force to 1,900 total aircraft inventory and 1,100 primary mission aircraft inventory (combat-coded). The amendment would also eliminate the certification and detailed report requirements, and require specified information in a report to be included in the material submitted in support of the budget for a particular fiscal year, if proposing the retirement of fighter aircraft in that fiscal year's budget. The report would not apply to individual fighter aircraft if the Secretary of the Air Force, on a case-by-case basis, determines the aircraft to be non-operational because of mishaps, other damage, or being uneconomical to repair.

We recognize that based on the 2010 Quadrennial Defense Review, the Air Force determined through extensive analysis that a force structure of 1,200 primary mission aircraft and 2,000 total aircraft is required to execute the National Defense Strategy with increased operational risk. Subsequently, based on the 2012 Defense Strategic Guidance and fiscal constraints, analysis showed the Air Force could decrease fighter force structure capacity by approximately 100 additional aircraft; however, at an even higher level of risk.

We agree reductions in fighter force capacity below the 1,900 total and 1,100 combat-coded inventory levels, in light of ongoing and anticipated operations in Iraq and Syria against the Islamic State of Iraq and the Levant, coupled with a potential delay of force withdrawals from Afghanistan and a revanchist Russia, poses excessive risk to the Air Force's ability to execute the National Defense Strategy, causes remaining fighter squadrons to deploy more frequently, and drives even lower readiness rates across the combat air forces.

Sense of Congress regarding the OCONUS basing of F-35A aircraft (sec. 152)

The Senate amendment contained a provision (sec. 139) that would express the sense of Congress regarding basing of the F-35A aircraft outside of the continental United States.

The House bill contained a similar provision (sec. 136).

The House recedes with an amendment to make technical and clarifying corrections.

SUBTITLE E—DEFENSE-WIDE, JOINT, AND MULTISERVICE MATTERS

Limitation on availability of funds for Joint Battle Command-Platform (sec. 161)

The House bill contained a provision (sec. 141) that would require the Assistant Secretary of the Army for Acquisition, Logistics, and Technology to submit a report by March 1, 2016, to the congressional defense committees that addresses the effectiveness, suitability, and survivability shortfalls of the joint battle command-platform equipment identified by the Director of Operational Test and Evaluation in the Director's fiscal year 2014 annual report to Congress. This section would also further limit the obligation or expenditure of 25 percent of the funds for the joint battle command-platform until 30 days after the Assistant Secretary submits such a report.

The Senate amendment contained no similar provision.

The Senate recedes.

Report on Army and Marine Corps modernization plan for small arms (sec. 162)

The Senate amendment contained a provision (sec. 151) that would require the Secretaries of the Army and Navy to jointly submit to the Committees on Armed Services of the Senate and House of Representatives a report on the plan of the Army and Marine Corps to modernize small arms.

The House bill contained no similar provision.

The House recedes.

Study on use of different types of enhanced 5.56mm ammunition by the Army and the Marine Corps (sec. 163)

The House bill contained a provision (sec. 144) that would require the Secretary of Defense to submit a report to the congressional defense committees on the use of two different types of 5.56mm ammunition by the Army and the Marine Corps.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that requires the Secretary of Defense to enter into a contract with a federally funded research and development center (FFRDC) such as the Center for Naval Analyses (CNA) to conduct a study on the use of two different types of enhanced 5.56mm ammunition by the Army and the Marine Corps. We note that the CNA has conducted similar studies on small arms and small caliber ammunition and believe the CNA could meet the requirements of this study.

LEGISLATIVE PROVISIONS NOT ADOPTED

Limitation on Availability of Funds for AN/TPQ-53 Radar Systems

The House bill contained a provision (sec. 111) that would limit the obligation or expenditure of 25 percent of the funds for AN/TPQ-53 radar systems until 30 days after the date on which the Assistant Secretary of the Army for Acquisition, Logistics, and Technology submits to the congressional defense committees a review of the current delegation of acquisition authority to the Program Executive Officer for Missiles and Space.

The Senate amendment contained no similar provision.

The House recedes.

Stationing of C-130 H aircraft avionics previously modified by the Avionics Modernization Program (AMP) in support of daily training and contingency requirements for Airborne and Special Operations Forces

The Senate amendment contained a provision (sec. 120) that would require the Secretary of the Air Force to station aircraft previously modified by the C-130 Avionics Modernization Program (AMP) to support United States Army Airborne and United States Army Special Operations Command unit daily training and contingency requirements in fiscal year 2017, and not require the aircraft to deploy in the normal rotation of C-130H units. The provision would also require the Secretary to provide such personnel as required to maintain and operate the aircraft.

The House bill contained no similar provision.

The Senate recedes.

We agree the Air Force must develop a plan that incorporates the five C-130H aircraft previously modified with the AMP upgrade, the four purchased AMP installation kits, the associated simulator equipment, and sustainment and training software into the restructured AMP Increments I and II effort. We also direct the Air Force to provide a briefing on this plan to the congressional defense committees not later than 60 days after enactment of this Act. We agree the American taxpayers to date have expended considerable funds on the C-130 AMP and deserve to receive maximum value for that expenditure.

Sense of Congress on F-16 Active Electronically Scanned Array (AESA) radar upgrade

The Senate amendment contained a provision (sec. 140) that would express the sense of Congress on F-16 Active Electronically Scanned Array (AESA) radar upgrades that it is essential to our Nation's defense that: (1) Air Force aircraft modification funding be made available to purchase AESA radars as the Air Force bridges the gap between 4th- and 5th-generation fighters; (2) The U.S. Government must invest in radar upgrades to ensure 4th-generation aircraft succeed at zero-fail missions; and (3) The First Air Force Joint Urgent Operational Needs request should be met as soon as possible.

The House bill contained no similar provisions.

The Senate recedes.

We agree on the importance that should be accorded to funding AESA radar upgrades for existing aircraft.

Stryker Lethality Upgrades

The Senate amendment contained a provision (sec. 161) that would authorize an increase in funding for Stryker vehicle lethality upgrades of \$97.0 million in Research, Development, Test & Evaluation, Army and \$314.0 million in Procurement of Weapons and Tracked Combat Vehicles, Army respectively.

The House bill contained no similar provision.

The Senate recedes.

The outcome is reflected in the tables of this report in Sections 4101 and 4201 and includes additional funding in line with the Senate amendment.

TITLE II—RESEARCH, DEVELOPMENT, TEST, AND EVALUATION
BUDGET ITEMS

Unmanned Carrier-Launched Airborne Surveillance and Strike System

The budget request included \$134.7 million in PE 64501N for the Unmanned Carrier-Launched Airborne Surveillance and Strike (UCLASS) system.

The House bill would authorize the budget request.

The Senate amendment would not approve the request in PE 64501N due to contracting delays caused by waiting on the results of the Department of Defense Intelligence Surveillance, and Reconnaissance Strategic Portfolio Review. These delays resulted in the Navy's having excess fiscal year 2015 funds in the program. The Senate amendment would instead provide an additional \$725.0 million in Research, Development, Test and Evaluation, Defense-wide, including \$350.0 million for continued development and risk reduction activities of the Unmanned Combat Air System Demonstration (UCAS-D) aircraft that would benefit the overall UCLASS program, and \$375.0 million to be used for a competitive prototyping of at least two follow-on air systems that move the Department toward a UCLASS program capable of long-range strike in a contested environment.

We believe that the Navy should develop a penetrating, air-refuelable, unmanned carrier-launched aircraft capable of performing a broad range of missions in a non-permissive environment. We believe that such an aircraft should be designed for full integration into carrier air wing operations—including strike operations—and possess the range, payload, and survivability attributes as necessary to complement such integration. Although the Defense Department could develop land-based unmanned aircraft with attributes to support the air wing, we believe that the United States would derive substantial strategic and operational benefits from operating such aircraft from a mobile seabase that is self-deployable and not subject to the caveats of a host nation.

Therefore, we recommend an increase of \$350.0 million to the UCLASS program and direct the Secretary of Defense to use these funds to conduct competitive air vehicle risk reduction activities that would lead to fielding penetrating, air-refuelable, UCLASS air vehicles capable of performing a broad range of missions in a non-permissive environment.

We direct the Navy to leverage both the lessons learned from the UCAS-D program and the existence of two operational UCAS-D demonstrator aircraft in support of these efforts. We also encourage the Secretaries of Defense and the Navy to consider all appropriate flexible acquisition authorities granted in law and in this Act, including those for rapid prototyping. Finally, we recommend that any contractual arrangements executed with this funding provide the Navy with sufficient technical data rights to support a subsequent competitive prototyping, follow-on development, or future multiple-sourced production efforts.

We look forward to reviewing the results of the Department of Defense Intelligence Surveillance, and Reconnaissance Strategic Portfolio Review and also the report directed in section 217 of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015.

Integrated personnel and pay system for Army

The budget request included \$136.0 million in PE 65018A for the Integrated Personnel and Pay System—Army (IPPS-A).

The House bill included the full requested amount.

The Senate amendment included \$86.0 million for IPPS-A, a reduction of \$50.0 million.

The agreement authorizes \$121.0 million in PE 65018A for the Integrated Personnel and Pay System—Army (IPPS-A). Elsewhere in this Act, we include a legislative provision that limits obligation of funds for the program, until provision of a required report to Congress on program plans.

SUBTITLE A—AUTHORIZATION OF
APPROPRIATIONS

Authorization of appropriations (sec. 201)

The House bill contained a provision (sec. 201) that would authorize the appropriations for research, development, test, and evaluation activities at the levels identified in section 4201 of division D of this Act.

The Senate bill contained an identical provision (sec. 201).

The agreement includes this provision.

SUBTITLE B—PROGRAM REQUIREMENTS,
RESTRICTIONS, AND LIMITATIONS

Centers for Science, Technology, and Engineering Partnership (sec. 211)

The Senate amendment contained a provision (sec. 211) that would authorize a program to enhance the Department of Defense laboratories with innovative academic and industry partners in research and development activities.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Expansion of eligibility for financial assistance under Department of Defense Science, Mathematics, and Research for Transformation program to include citizens of countries participating in The Technical Cooperation Program (sec. 212)

The Senate amendment contained a provision (sec. 212) that would expand the Department of Defense's Science, Mathematics, and Research for Transformation (SMART) program to include students from the United Kingdom, Australia, New Zealand, and Canada.

The House bill contained no similar provision.

The agreement includes the provision with an amendment to cap the number of new foreign students entering the program at five per year. We believe that this cap will help to ensure that the majority of the students in the program are U.S. citizens, while also giving the Department the flexibility to include foreign students on a trial basis. We also believe that this cap will allow the Department the opportunity to work out procedures and processes for the potential expansion to include other kinds of foreign students, should the Secretary of Defense determine that is in the national security interest.

Expansion of education partnerships to support technology transfer and transition (sec. 213)

The House bill contained a provision (sec. 221) that would allow institutions that support technology transition or transfer activities, such as business schools or law schools with technology management programs, to participate in education partnerships with Defense laboratories, as authorized in Section 2194 of title 10, United States Code.

The Senate amendment contained no similar provision.

The agreement includes the provision with amendments that would clarify to which institutions such authorities would extend, authorize a sabbatical and internship program for university faculty and students to work in Defense laboratories, and provide additional emphasis on technology transfer and transition projects. We believe that these amendments, taken together, would strengthen the purpose of the provision, which is to ensure that education partnerships are available for those wishing to engage in technology transfer or transition, in addition to traditional research projects.

Improvement to coordination and communication of Defense research activities (sec. 214)

The House bill contained a provision (sec. 231) that would improve the coordination and

communication of defense research activities and technology domain awareness. The House bill directs the Secretary of Defense to promote, monitor, and evaluate programs not only among Defense research facilities, but also among other government facilities, as well as commercial and university entities. The House bill would also encourage the Department to achieve full awareness of scientific and technological advancement and innovation throughout the technology domain.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would add additional direction to the Secretary of Defense to develop and distribute clear technical communications to all internal and external entities. We believe it is important that the Department more completely and robustly convey successes of Defense research and engineering activities.

The Senate amendment would also direct the Secretary of Defense to ensure that publicly-funded Defense research facilities support national technological development goals and technological missions of other federal agencies, as appropriate. We believe that taxpayer funds used for scientific research should be used in support of the best interests of the U.S. government as a whole. *Reauthorization of Global Research Watch program (sec. 215)*

The Senate amendment contained a provision (sec. 214) that would reauthorize the Global Research Watch program for an additional 10 years. The Senate provision would also expand the responsibilities of the program to include private sector entities, in addition to foreign governments.

The House bill contained no similar provision.

The agreement includes this provision.

Reauthorization of Defense research and development Rapid Innovation Program (sec. 216)

The House bill contained a provision (sec. 211) that would extend the authorization for the Department of Defense to execute activities for the Rapid Innovation Program through 2020.

The Senate amendment contained a similar provision (sec. 213) that would reauthorize the Rapid Innovation Program for 5 years. The Senate provision would also make technical changes to the program's guidelines and reporting requirements.

The agreement contains the Senate provision with a technical edit from the House to extend the program through 2023. We believe that it would be more effective to extend the program in a manner consistent with the end of the next program objective memorandum.

Science and technology activities to support business systems information technology acquisition programs (sec. 217)

The Senate amendment contained a provision (sec. 215) that would mandate the establishment of science and technology activities that would help reduce the technical risk and life cycle costs of major information technology acquisition programs. The provision would require the Department to fund appropriate research, development, and capability-building activities to make it a "smarter buyer" of these programs.

The House bill contained no similar provision.

The agreement includes the provision with an amendment directing the Department to conduct a gap analysis to identify relevant activities that are not being pursued in the current science and technology program.

We recognize and appreciate that the Department does currently engage in some activities that address those described in this provision and the original report language

from the Senate Armed Services Committee. However, we note with dismay the significant gaps in activities and technologies continue to exist. Examples of these gaps include lack of support for business process re-engineering, for lowering costs of customization of commercial software, for lowering maintenance costs, for open architectures, for engagement with management schools and small businesses, and for the conversion of legacy software to modern systems. We remain concerned that such gaps in science and technology activities related to business systems information technology acquisition, if left unaddressed, have the potential to severely hamper the Department's ability to field a modern and efficient information technology enterprise that meets the current and future needs of the Department.

Department of Defense technology offset program to build and maintain the technological superiority of the United States (sec. 218)

The Senate amendment contained a provision (sec. 212) that would establish and initiate within the Department of Defense to maintain and enhance the military technological superiority of the United States. The provision would establish a program to accelerate the fielding of offset technologies, including, but not limited to, directed energy, low-cost high-speed munitions, autonomous systems, undersea warfare, cyber technology, and intelligence data analytics, developed by the department and to accelerate the commercialization of such technologies. The provision would also direct the Secretary to establish updated policies and new acquisition and management practices that would speed delivery of offset technologies into operational use. The provision would authorize \$300.0 million for fiscal year 2016 for initiative, of which \$150.0 million would be authorized specifically for directed energy.

The House bill contained no similar provision.

The agreement includes this provision with an amendment to remove the requirement for a strategy on the development of directed energy technologies.

We are aware of the challenges facing the Department in maintaining technological superiority with regards to potential future adversaries. In authorizing the technology offset program in this provision, we recognize the need for the Department to have sufficient flexibility and resources to make sound strategic decisions for technology investment to respond to a more dire future security environment. We note that the Department has a number of initiatives, such as the Defense Innovation Initiative, and the Long-Range Research and Development Plan, to help guide those investments.

In particular, the Armed Services Committees of the Senate and the House of Representatives have been focused on the role directed energy weapons will have in our future security environment, and have been proponents of maturing directed energy technologies to transition them to the warfighting community as quickly as possible. We are aware that the Department and the military services have various roadmaps for deploying these technologies, and consider this fund a major forcing function to drive accelerated development and transition.

To better understand how the funds authorized in this section, in combination with other funds for directed energy programs, will be used to identify and transition promising directed energy technologies to the warfighting community, we direct the Secretary of Defense to provide a briefing to the Armed Services Committees of the Senate

and the House of Representatives no later than 180 days after the enactment of this Act. This briefing should include:

1) A description of a program management process for the identification of directed energy efforts, including prototyping or exercise opportunities, where additional funding may support accelerated transition to urgent operational needs or programs of record;

2) A description of coordination mechanisms between services and agencies undertaking directed energy activities, including coordination of science and technology prototyping, and programs of record;

3) An identification of challenges from the warfighting community currently impeding the adoption of or confidence in directed energy weapons systems.

4) An identification of policy, regulatory, or legislative impediments or challenges that currently constrain accelerated transition to the warfighting community; and

5) Recommendations for how to improve the department's ability to transition promising directed energy technology initiatives to the warfighting community.

Limitation on availability of funds for F-15 infrared search and track capability development (sec. 219)

The House bill contained a provision (Sec. 213) that would limit the availability of funds for fiscal year 2016 for the research, development, test, and evaluation of F-15 infrared search and track capabilities until 30 days after the Secretary of Defense submits a specified report.

The Senate bill contained no similar provision.

The Senate recedes.

Limitation on availability of funds for development of the shallow water combat submersible (sec. 220)

The House bill contained a provision (sec. 225) that would require a briefing to the congressional defense committees on the U.S. Special Operations Command (SOCOM) Shallow Water Combat Submersible (SWCS) program.

The Senate amendment contained a provision (sec. 218) that would prohibit the expenditure of more than 25 percent of the funds available for the SWCS program for fiscal year 2016 until the Under Secretary of Defense for Acquisition, Technology and Logistics designates a civilian official within his office responsible for providing oversight and assistance to SOCOM for all undersea mobility programs and, in coordination with the Assistant Secretary of Defense for Special Operations and Low-Intensity Conflict, provides the congressional defense committees a report on the SWCS program.

The House recedes with an amendment that would modify to 50 percent the amounts available for the SWCS program and modify associated reporting requirements.

Limitation on availability of funds for Medical Countermeasures Program (sec. 221)

The House bill contained a provision (sec. 212) that would limit the obligation and expenditure of 50 percent of the funds made available for the Department of Defense Medical Countermeasures program within the Chemical-Biological Defense Program until the Secretary of Defense provides a report to the congressional defense committees that validates the requirements and conducts an independent cost-benefit analysis to justify funding and efficiencies. This section would also require the Comptroller General of the United States to submit a review of the certification to the congressional defense committees within 60 days after the date on which the Secretary submits his report.

The Senate amendment contained no similar provision.

The agreement contains the House provision with an amendment that would decrease the limitation from 50 percent to 25 percent pertaining only to those funds used for research development test and evaluation (RDT&E) activities in the Advanced Development and Manufacturing facility per se and not all the RDT&E activities associated with the Medical Countermeasures Program.

We further note that Consistent with GAO report 15-257 (June 2015), the Secretary shall report to the congressional defense committees no later than February 28, 2016 on the designation of an individual responsible for managing infrastructure for the Department of Defense Chemical and Biological defense programs, to include shared-use facilities such as those within the Advanced Development and Manufacturing program, in order to minimize duplication of effort within the Department of Defense and other agencies of the federal government. The Secretary of defense shall notify the congressional defense committees of the appointment of such individual no later than 15 days after such designation. Further, we direct the Comptroller General to review the roles and responsibilities of the official designated to be responsible for infrastructure management, and to brief the congressional defense committees no later than March 31, 2016.

Limitation on availability of funds for distributed common ground system of the Army (sec. 222)

The Senate amendment contained a provision (sec. 219) that would limit the amount of funds available to be obligated or expended by the Secretary of the Army to not more than 75 percent of the amounts authorized to be obligated for fiscal year 2016 until a review of the program planning for the distributed common ground system of the Army is submitted to the congressional defense and intelligence committees.

The House bill contained a similar provision (sec. 1624).

The House recedes with a clarifying amendment.

Limitation on availability of funds for distributed common ground system of the United States Special Operations Command (sec. 223)

The House bill contained a provision (sec. 1625) that would limit the availability of funds for the Special Operations Command's Distributed Common Ground System to 75 percent of the funds authorized to be obligated by the program until the Commander of U.S. Special Operations Command conducts a review of the program planning and submits the findings of such review to the congressional defense committees and the congressional intelligence committees and the House Permanent Select Committee on Intelligence.

The Senate amendment contained a similar provision (sec. 220) that would limit the availability of research, development, test, and evaluation funds for the distributed common ground system of the U.S. Special Operations Command (SOCOM) until the Commander of SOCOM submits a report to the congressional defense committees.

The House recedes.

Integrated personnel and pay system for Army (sec. 224)

The agreement includes a provision (sec. 224) that would limit the ability of the Secretary of the Army to obligate more than 75 percent of the total authorized amount of fiscal year 2016 program funds for Integrated Personnel and Pay System-Army (IPPS-A) program until the Secretary of the Army provides a report to the congressional defense committees on the performance of legacy systems, changes in human resources or-

ganization and financial system capabilities, and alternatives to the current cost of IPPS-A.

SUBTITLE C—REPORTS AND OTHER MATTERS
Streamlining the Joint Federated Assurance Center (sec. 231)

The Senate amendment contained a provision (sec. 217) that would streamline the Department of Defense's Joint Federated Assurance Center by eliminating an unnecessary layer of bureaucracy between the Center's steering group and its working groups. The House bill contained no similar provision.

The agreement includes this provision.

Demonstration of persistent close air support capabilities (sec. 232)

The Senate amendment contained a provision (sec. 233) that would require the Secretary of the Air Force, the Secretary of the Army, and the Director of the Defense Advanced Research Projects Agency (DARPA) to jointly conduct a demonstration of the Persistent Close Air Support (PCAS) capability in fiscal year 2016.

The House bill contained no similar provision.

The House recedes with an amendment to strike the phrase "as identified by the United States Air Force Close Air Support Forum" from subparagraph (b)(1). The amendment would also replace all occurrences of the word "shall" with "may," and add a paragraph directing a briefing to the congressional defense committees by December 1, 2016 on the assessment of demonstration results and cost estimates for transition of any desired technologies.

We strongly encourage the three parties to conduct the PCAS demonstration, as the benefits would likely provide a large payoff in increased capability for what is estimated to be minimal resource investment. In response to the challenge of diverse platforms and user populations of the close air support mission, the Joint Requirements Oversight Council, in 2009, in its Close Air Support Capabilities-Based Assessment, recommended that "Platforms should field flexible systems that utilize an improved architecture which migrates the processing of digital messages to a Commercial-off-the-Shelf (COTS) based processor and away from the [aircraft] operational flight programs."

We observe that with repeated Air Force proposals to retire their fleet of A-10 aircraft, the integration of game-changing and relatively inexpensive technologies to improve close air support mission operations and results on other platforms could be beneficial in assuaging concerns of divesting a particular aircraft, even a type with close air support as its primary mission.

We also agree that the Director of DARPA should provide resources to the maximum extent practical to minimize costs borne by the participating Services to accomplish the demonstration activities.

Strategies for engagement with historically black colleges and universities and minority-serving institutions of higher education (sec. 233)

The House bill contained a provision (sec. 222) that would require the Secretaries of the military departments to each develop a strategy for engagement with and support of the development of scientific, technical, engineering, and mathematics capabilities with historically black colleges and universities and minority-serving institutions. The provision would also require the Secretary of Defense to develop a strategy that encompasses the strategies developed by the military departments.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that ensures that such strategies are developed by all organizations within the Department of Defense that are engaged in basic research, thereby broadening the provision to cover all appropriate Defense entities.

We note that in implementing the requirements of this provision, the Secretary of Defense may seek information from the directorates of the Louis Stokes Alliances for Minority Participation program (LSAMP) and Historically Black Colleges and Universities Undergraduate Program (HBCU-UP) of the National Science Foundation; the American Association for the Advancement of Science; the Emerging Researchers National Conference in Science, Technology, Engineering, and Mathematics; the University of Florida Institute for African-American Mentoring in Computing Sciences (IAAMCS); the Hispanic Association of Colleges and Universities; the National Indian Education Association; and such other institutions, organizations, or associations as the Secretary deems useful.

Report on commercial-off-the-shelf wide-area surveillance systems for Army tactical unmanned aerial systems (sec. 234)

The House bill contained a provision (sec. 229) that would express the Sense of Congress on the capabilities provided by unmanned aerial systems that use wide area surveillance sensors. The provision would also require the Secretary of the Army to conduct a market survey and flight assessment of commercial-off-the-shelf wide area surveillance sensors suitable for insertion on Army tactical unmanned aerial systems.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would remove the sense of Congress, modify the reporting requirements for the market survey, require an assessment of current wide area surveillance systems that are currently used or could be used on Army tactical unmanned aerial systems, as well as require the Secretary of the Army to assess the advisability and feasibility of upgrading wide area surveillance systems for Army tactical unmanned aerial systems.

Report on Tactical Combat Training System Increment II (sec. 235)

The House bill contained a provision (sec. 230) that would direct the Secretary of the Navy and the Secretary of the Air Force to submit a report to the congressional defense committees, not later than January 29, 2016, on the baseline and alternatives to the Navy's Tactical Air Combat Training System Increment II. The provision would also limit the Navy from approving or designating a contract award for the specified system until 15 days after the date of the submittal of the report.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment striking subparagraph (c) to remove the limitation.

Report on technology readiness levels of the technologies and capabilities critical to the long range strike bomber aircraft (sec. 236)

The Senate amendment contained a provision (sec. 235) that would require the Secretary of Defense to submit to Congress, not later than 180 days after enactment of this Act, a report on the Technology Readiness Levels and capabilities critical to the Long Range Strike Bomber aircraft. The provision would also require the Comptroller General of the United States to review the Secretary's report and submit an assessment to the congressional defense committees.

The House bill contained no similar provision.

The House recedes with an amendment to have the Secretary report to the congressional defense committees.

Assessment of Air-Land Mobile Tactical Communications and Data Network Requirements and Capabilities (sec. 237)

The Senate amendment contained a provision (sec. 231) that would require the Director of Cost Assessment and Program Evaluation (CAPE) to contract with an independent entity to conduct a comprehensive assessment of current and future requirements and capabilities to determine the technological feasibility, achievability, suitability, and survivability of a tactical communications and data network. The provision would also prohibit the Secretary of the Army from obligating more than 50 percent of funds available in Other Procurement, Army for the Warfighter Information Network-Tactical, Increment 2 program subject to the submission of the independent entity's report.

The House bill contained no similar provision.

The House recedes with an amendment that would strike the limitation of funds, and require the Director of CAPE to seek to enter into a contract with a federally funded research and development center to conduct a comprehensive assessment of current and future requirements and capabilities of the Army with respect to air-land ad hoc, mobile tactical communications and data networks, including the technological feasibility, suitability, and survivability of such networks.

We believe the Director of CAPE shall select a federally funded research and development center with direct, long-standing, and demonstrated experience and expertise in program test and evaluation of concepts, requirements, and technologies for joint tactical communications and data networking to perform the assessment. The Institute for Defense Analysis may be such an entity with expertise needed for such a detailed assessment.

Study of field failures involving counterfeit electronic parts (sec. 238)

The Senate amendment contained a provision (sec. 232) that would require the Secretary of Defense to task the Joint Federated Assurance Center (JFAC) to conduct a hardware assurance study to assess the presence, scope, and effect on Department of Defense operations of counterfeit electronic parts that have passed through the Department of Defense supply chain and into fielded systems.

The House bill contained no similar provision.

The agreement includes the provision with an amendment to assign responsibility for the study to the executive agent for printed circuit board technology. We believe that the executive agent is the most appropriate official to conduct such a study. The amendment would also require JFAC to conduct a technical assessment for indications of malicious tampering on any parts assessed that demonstrate unusual or suspicious failure mechanisms. We believe that such follow-up is critical for ensuring maximum impact and benefit of the study.

Airborne data link plan (sec. 239)

The Senate amendment contained a provision (sec. 234) that would require the Under Secretary of Defense for Acquisition, Technology, and Logistics and the Vice Chairman of the Joint Chiefs of Staff to jointly, in consultation with the Secretary of the Air Force and the Secretary of the Navy, to develop a plan on airborne data links between fifth-to-fifth, and fifth-to-fourth generation aircraft. The provision would also limit funding for the TALON HATE and Multi-Domain Adaptable Processing System programs until the plan was briefed to the congressional defense committees.

The House bill contained no similar provision.

The House recedes with an amendment to add a date of February 15, 2016 for the plan briefing, and to strike subsection (c).

Plan for advanced weapons technology war games (sec. 240)

The House bill contained a provision (sec. 223) that would require the Secretary of Defense, in coordination with the Chairman of the Joint Chiefs of Staff, to develop a plan for integrating advanced technologies, such as directed energy weapons, hypersonic strike systems, and autonomous systems into broader title 10 war games to improve socialization with the warfighter and the development and experimentation of various concepts for employment by the Armed Forces.

The Senate amendment contained no similar provision.

The Senate recedes with some technical amendments.

Independent assessment of F135 engine program (sec. 241)

The House bill contained a provision (sec. 214) that would require the Secretary of Defense to enter into a contract with a federally funded research and development center to conduct an assessment of the F135 engine program, and submit a report to the congressional defense committees not later than March 15, 2016.

The Senate recedes with an amendment to make technical corrections to correct typographical errors.

Sense of Congress regarding facilitation of a high quality technical workforce (sec. 243)

The House bill contained a provision (sec. 227) that would express a sense of Congress that the Department of Defense should explore using existing authorities for all Federally Funded Research and Development Centers to help facilitate and shape a high quality scientific and technical workforce that can support the Department's needs. In addition, the provision would make a number of findings, including that the country's scientific and technical workforce is a matter of national security, that the Department's support for technical education programs facilitates the training of the future workforce, and that the highly skilled workforce already employed is qualified to facilitate training of a future workforce.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would expand the provision to include all defense laboratories. We believe that the paragraphs of the provision apply to all Defense laboratories, not only the Federally Funded Research and Development Centers, and that all should be recognized as such.

We find that:

(1) The quality of the future scientific and technical workforce of the United States and the access of the Department of Defense to a high quality scientific and technical workforce are matters of national security concern;

(2) The support of the Department of Defense for science, technology, engineering,

and mathematics education programs facilitates the training of a future scientific and technical workforce that will contribute significantly to the research, development, test, and evaluation functions of the Department of Defense and the readiness of the future Armed Forces;

(3) Defense laboratories and federally funded research and development centers sponsored by the Department of Defense employ a highly skilled workforce that is qualified to support science, technology, engineering, and mathematics education initiatives, including through meaningful volunteer opportunities in primary and secondary educational settings and cooperative relationships and arrangements with private sector organizations and State and local governments, and to facilitate the training of a future scientific and technical workforce;

(4) Robust participation in scientific and technical conferences, including industry and international conferences, will strengthen the national security scientific and technical workforce.

ITEMS OF SPECIAL INTEREST

Apportionment of small business funds under continuing resolutions

We believe that under a continuing budget resolution (CR), federal agencies remain responsible for assessing the Small Business Innovative Research (SBIR) and Small Business Technology Transition (STTR) set-asides, and executing program support for small business technology innovation. To support Department of Defense access to small business innovation, we believe that Department comptrollers should move expeditiously to calculate the SBIR/STTR assessments, and make those funds available to military services and agency SBIR/STTR programs commensurate with those assessments, on a timeline that supports program effectiveness.

Expedited approval for attendance at conferences in support of science and innovation activities of Department of Defense and the National Nuclear Security Administration

We note with concern that since the Departments of Defense and Energy have implemented updated conference policies, in response to requirements from the Office of Management and Budget, attendance at science and technology conferences by department personnel has reduced dramatically. According to a report from the Government Accountability Office in March 2015, conference attendance from the Army Research Laboratory declined from about 1300 attendees in 2011 to about 100 attendees in 2013. A similar drop in attendance was reported from Sandia National Laboratories. The report highlights that such a drop in attendance risks a decline in the quality of scientific research, difficulty in recruiting and retaining qualified scientists and engineers, and a diminished leadership role for the two departments within the global science and technology community. The report also notes that the new departmental policies are not meeting the needs of personnel requesting approval to travel to conferences.

Given the importance of conference attendance for an active exchange of scientific information and for recruiting and retaining high-quality technical talent, and therefore maintaining technological superiority, we are concerned that the conference attendance approval policies are undermining and eroding the science and technology missions of both departments as well as the ability of personnel to engage in cutting-edge research, development, testing, and evaluation. We believe that technical conference participation is especially important to keep program managers aware of new trends in technology, so that they may make better informed decisions on behalf of taxpayers.

To maintain global technology awareness and to support retention of technical staff, we believe that the Departments should strive to follow the best practices of the innovative private and academic institutions in developing management and oversight practices for conference participation. We are concerned that in specific technical fields of interest to defense, such as hypersonics and cybersecurity, the lack of participation in conferences is ceding U.S. leadership to competitor nations.

In response to these findings and concerns, we direct the Secretaries of Defense and Energy to revise current policies within the Department of Defense and National Nuclear Security Administration, respectively, whereby requests for scientific conference attendance are adjudicated within one month, and approvals are granted as appropriate within one month. Further, we direct the Secretaries of Defense and Energy to ensure that any decisions to disapprove conference attendance through these revised policies are made if and only if the appropriate officials determine that the disapproval would have a net positive impact on research and development and on program management quality, and not simply default disapprovals necessitated by a bureaucratic inability to make a timely decision. In addition, we direct that these new policies be implemented no later than 90 days after the enactment of this act.

We recommend that, through these revised policies, laboratory and test center directors be given the authority to approve conference attendance, provided that the attendance would meet the mission of the laboratory or test center and that sufficient laboratory or test center funds are available.

We direct the Secretaries of Defense and Energy each to report to the Senate Armed

Services Committee and the House Armed Services Committee on the revised policies from their respective agencies, as well as an assessment of their benefits and drawbacks, along with measures for tracking the effectiveness of the new policies. We further direct that this report be submitted no later than one year after the enactment of this act.

Protection of advanced technologies

We have concerns that the Department of Defense, while taking necessary steps to pursue and create innovative technologies and to access global sources of innovation, also needs to better protect such technologies against unauthorized disclosure to or theft by potential adversaries. We are concerned that some adversaries have clear strategies (1) to overcome our general technology protection efforts and specific program protection measures, and (2) to mitigate our efforts to increase our technological superiority. For this reason, we believe that the Department would benefit from better technology and program protection planning and more effective cybersecurity measures.

Therefore, we direct the Secretary of Defense to conduct a review of methodologies that potential adversaries are exploiting to gain unauthorized access to technologies and intellectual property, and to circumvent current export control and other technology protection regimes. Additionally, the Department should review structures of business relationships, such as partnerships, mergers and acquisitions, joint ventures, and consortia, to assess the potential that these types of relationships present additional opportunities for exploitation by adversaries. Further, we direct the Secretary to brief the results of the review to the Committees on Armed Services of the Senate and House of Representatives by March 15, 2016, including any recommendations that may necessitate legislative action.

We urge any organization, including the National Football League and other professional sports leagues, that has accepted taxpayer funds to honor members of the Armed Forces to consider directing an equivalent amount of funding in the form of a donation to a charitable organization that supports members of the Armed Forces, veterans, and their families. We also urge the Department of Defense to redirect any funds that would have been used for the aforementioned purposes to the post-traumatic stress disorder research and treatment for members of the Armed Forces.

We are concerned with the Department's level of oversight of the sponsorship, advertising, and marketing associated with sports-related organizations and events executed by each of the military services, especially with the National Guard. In addition, this section would further modify section 904 of Public Law 113-66 to require the Department to implement its planned reduction in management headquarters budgets and personnel for certain organizations in the National Capital Region. Lastly, it would clarify that civilian employees funded from working-capital funds are not subject to the reduction requirement.

The Senate amendment contained a similar provision (sec. 351) that would cut 30 percent from the budgets of headquarters activities over the next 4 years and require the Secretary of Defense to perform a comprehensive review of these activities and consider elimination, consolidation, and downsizing where appropriate.

The Senate recedes with an amendment that would require the Department to plan and budget for \$10.0 billion in cost savings in its headquarters, administrative and support activities between fiscal year 2015 and 2019. The amendment would also require at least a 25 percent reduction to headquarters activities, which would count towards the \$10.0 billion savings. Finally, the amendment would require a comprehensive review of headquarters, administrative and support functions with an eye towards streamlining and consolidating these functions across the Department of Defense.

We believe that the Secretary must credit the reductions, as having been accomplished in earlier fiscal years in accordance with the December 2013 Directive, as part of the baseline amount under this section for all of the Department of Defense headquarters and the specific baseline amounts for each such headquarters activity.

Assignment of certain new requirements based on determinations of cost-efficiency

The House bill contained a provision (sec. 321) that would assign certain new work requirements based on determinations of cost-efficiency.

The Senate amendment contained no similar provision.

The House recedes.

We note that sec. 321 is one of three provisions, along with sections 717 and 907, that we considered that cited Department of Defense Instruction (DODI) 7041.04, "Estimating and Comparing the Full Costs of Civilian and Active-Duty Military Manpower and Contract Support," as the prescribed methodology for making cost comparisons between DOD workforce sectors if the work is not inherently governmental or otherwise exempt from private-sector performance. We also note that the Senate Committee on Armed Services included in Senate Report 114-49 language directing the Secretary of Defense to submit a report setting forth the results of a study comparing the fully burdened cost of performance by Department of Defense (DOD) civilians and contractors.

We recognize that the costing methodology in DODI 7041.04, while validated by the DOD Office of Cost Assessment and Program Evaluation (CAPE), "continues to have certain limitations," as reported by the Government Accountability Office in GAO-13-792, "Opportunities Exist to Further Improve DOD's Methodology for Estimating the Costs of Its Workforces." In the same report, GAO raised questions "about the extent to which . . . officials throughout DOD are aware of a requirement to use the methodology for decisions other than in-sourcing."

In light of these findings, we direct the Secretary of Defense, in responding to the reporting requirement in Senate Report 114-49 referenced above, to address the following additional items: (1) What steps has the Department taken to comply with the recommendations in GAO-13-792 for improving the costing methodology in DODI 7041.04; (2) What guidance has the Office of the Secretary of Defense issued to military components and defense agencies regarding the use of the cost-comparison process to make workforce mix decisions; (3) What roles do CAPE and the Office of the DOD Comptroller play in the cost-comparison process, both prior to workforce sourcing decisions being made and in tracking workforce sourcing outcomes; (4) What is the Office of the Secretary of Defense doing to ensure the skills, training, or experience needed to effectively perform manpower cost comparisons are available in the DOD workforce, including completion of the competency gap assessments cited in GAO-13-188, "Critical Skills and Competency Assessments Should Help Guide DOD Civilian Workforce Decisions"; and (5) How will the findings in the report required in Senate Report 114-49 be used to improve and correct current limitations of the cost-comparison process outlined in DODI 7041.04?

Access to wireless high-speed Internet and network connections for certain members of the Armed Forces deployed overseas

The House bill contained a provision (sec. 334) that would require the Secretary of Defense to enter into contracts with third-party vendors to provide wireless high-speed Internet and network connections for certain members of the Armed Forces deployed overseas.

Boren National Security Education Act of 1991 (50 U.S.C. 1901 et seq.) to individuals for intensive language instruction in a covered Asian language where deficiencies exist.

The House bill contained no similar provision.

The Senate recedes.

We note the need for intensive Asian language training, and direct the Secretary of Defense to provide the defense committees with a briefing no later than April 15, 2016, on the steps Department of Defense is taking to meet that need within the context of the Administration's policy to rebalance to the Asia-Pacific region.

Sense of Senate on finding efficiencies within the working-capital fund activities of the Department of Defense

The Senate amendment contained a provision (sec. 1005) that would provide a sense of the Senate for the Secretary of Defense to ensure a strong organic industrial base workforce.

The House bill contained no similar provision.

The agreement does not include this provision.

We note that the Secretary of Defense should continue to optimize existing workload plans to ensure a strong organic industrial base workforce.

Revisions in permanent active duty end strength minimum levels (sec. 402)

The House bill contained a provision (sec. 402) that would revise the permanent Active-Duty end strength minimum levels contained in Section 691(b) of title 10, United States Code.

The Senate amendment contained a provision (sec. 402) that would repeal section 691 of title 10, United States Code. The provision would also amend section 115 of title 10, United States Code, to provide the Secretary of Defense and the service secretaries authority to vary military personnel end

strengths below those authorized in title IV of this Act.

The Senate recedes with an amendment that would amend subsection (e) of section 691 of title 10, United States Code, to increase the variance authority of the Secretary of Defense contained in that section from 0.5 percent to 2 percent.

SUBTITLE B—RESERVE FORCES

The Senate recedes.

We note that the Senate amendment expressed the Sense of the Senate that the National Guard Bureau should account for states that routinely recruit and retain members in excess of state authorizations when allocating full-time operational support duty personnel. We encourage the National Guard Bureau to consider this when allocating full-time duty support personnel.

End strength levels for the reserves on active duty in support of the reserves for fiscal year 2016 are set forth in the following table:

Service	FY 2015 Authorized	FY 2016		Change from

Availability of cyber security and IT certifications for Department of Defense personnel critical to network defense

The House bill contained a provision (sec. 570a) that would authorize the Department of Defense to utilize funds to obtain cyber security and IT certifications for Department of Defense personnel critical to network defense.

The Senate amendment contained no similar provision.

The House recedes.

We recognize that industry cyber security and IT certifications may be helpful to a certain category of network operators and maintainers, but may not be comparable to the training required for more advanced network defense skills needed by critical personnel at the Department of Defense. We are concerned that the full scope of needs in this area as compared to the funding available are not yet well understood, nor is the contribution of these industry certifications to the training needed of the cyber mission forces. We believe that until those requirements are better understood, the current scope of funded certification activities should remain stable until there is a better established connection between cyber security and IT certifications and the skills required for specific positions with the Department of Defense. However, we note industry recognized cyber security and IT certifications may be beneficial for some Department of Defense personnel critical to network defense. Therefore, we encourage the Secretary of Defense to examine the needs of the Department and determine the extent and role industry cyber security and IT certifications should play in workforce management.

Support for efforts to improve academic achievement and transition of military dependent students

The House bill contained a provision (sec. 573) that would authorize the Secretary of Defense to make grants to non-profit organizations that provide services to military dependent students.

The Senate amendment contained no similar provision.

The agreement does not include this provision.

We encourage the Secretary of Defense to use existing authority to work with non-profit organizations to provide services to military dependent students to improve academic achievement and civic responsibility.

The Senate amendment contained no similar provision.

The House recedes.

We expect the service secretaries to conduct a thorough and objective review of the facts and evidence before deciding to revoke a combat valor award.

The Senate amendment contained no similar provision.

The House recedes.

Sense of Congress supporting the decision of the Army to posthumously promote Master Sergeant (retired) Naomi Horwitz to sergeant major

The House bill contained a provision (sec. 586) that would express a sense of Congress supporting the decision of the Army to posthumously promote Master Sergeant (retired) Naomi Horwitz to sergeant major.

The Senate amendment contained no similar provision.

The House recedes.

We note the Secretary of the Army approved the posthumous promotion in March 2015.

Priority processing of applications for Transportation Worker Identification Credentials for members undergoing discharge or release from the Armed Forces

The Senate amendment contained a provision (sec. 589) that would require the Secretary of Defense to consult with the Secretary of Homeland Security to afford a priority in the processing of applications for a Transportation Worker Identification Credential (TWIC) submitted by members of the Armed Forces who are undergoing separation, discharge, or release from the Armed Forces under honorable conditions. The provision would also require the Secretary of Defense and the Secretary of Homeland Security to jointly submit a report on the implementation requirements of this provision not later than 1 year after the date of enactment of this Act.

The House bill contained no similar provision.

The Senate recedes.

We consider it unacceptable that servicemembers transitioning from Active Duty, and recent honorably discharged veterans, continue to report significant delays in processing time to be issued Transportation Workers Identification Credentials (TWIC). Further, the Transportation Security Administration requires Active-Duty personnel as well as veterans who recently transitioned from Active Duty to undergo and pay for a separate security review before issuing TWIC. Because many transitioning servicemembers are qualified and motivated to serve in the maritime industry, we expect the Department of Defense and the Department of Homeland Security to consult to eliminate processing delays and waive fees for transitioning servicemembers and for honorably discharged veterans.

Issuance of Recognition of Service ID Cards to certain members separating from the Armed Forces

The Senate amendment contained a provision (sec. 590) that would require the Secretary of Defense to issue an identification card that identifies individuals as veterans, personalized with name and photo of the individual. The Senate recedes.

We note that an alternative option exists for honorably discharged veterans to utilize state-issued ID cards that designate veteran status. Veterans in 44 states and the District of Columbia may apply for a driver's license or State-issued ID card that designates veteran status. The remaining states (California, Hawaii, Illinois, Minnesota, New Jersey, and Washington) are either pending legislation or have legislation that has been signed into law but is not yet effective. Additionally, since January 2014, honorably separated members of the Uniformed Services are able to obtain an ID card providing proof of military service through the joint DOD-VA eBenefits web portal.

Revised policy on network services for military services

The Senate amendment contained a provision (sec. 591) that would generally limit the use of uniformed military personnel in the provision of network services for military installations in the continental United States.

The House bill contained no similar provision.

The Senate recedes.

We are concerned that the military services, particularly the Air Force, are devoting

more resources and uniformed military personnel for the provision of network services than are necessary, considering the commercial network services capabilities that may be available at lower costs. While we believe the use of uniformed military personnel for network services is necessary in some cases, for example aboard ships or at expeditionary bases, there is less rationale for this use of uniform military personnel at permanent military installations within the continental United States.

Therefore, we direct the Director of Cost Assessment and Program Evaluation (CAPE) to evaluate the potential savings for the Department of Defense in both resources and military end strength that could be achieved by increasing the use of commercial network services capabilities within the continental United States. CAPE shall provide a briefing on their findings, including any recommendations, to the congressional defense committees no later than March 1, 2016.

Honoring certain members of the Reserve components as veterans

The House bill contained a provision (sec. 592) that would amend chapter 1 of title 38, United States Code, to require certain members of the reserve components be honored as veterans, provided that such members would not be authorized to receive any benefit administered by the Secretary of Veterans Affairs solely by reason of honorary veteran status.

The Senate amendment contained no similar provision.

The House recedes.

The House bill contained no similar provision.

The Senate recedes.

Sense of Congress regarding support for military divers

The House bill contained a provision (sec. 593) that would express the sense of Congress regarding support for military divers.

The Senate amendment contained no similar provision.

The House recedes.

Sense of Congress on desirability of service-wide adoption of Gold Star Installation Access Card

The House bill contained a provision (sec. 596) that would express the sense of Congress that the secretaries of the military departments should provide for the issuance of a Gold Star Installation Access Card to family members of deceased members of the Armed Forces in order to expedite access to installations for the purpose of obtaining on-base services and military benefits for which a Gold Star family member is eligible.

The Senate amendment contained no similar provision.

The House recedes.

We note that the Department of the Army has initiated a program to provide Gold Star Installation Access Cards to Gold Star family members and encourage the other military departments to do the same.

The Senate amendment contained no similar provision.

The House recedes.

TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS

SUBTITLE A—PAY AND ALLOWANCES

No fiscal year 2016 increase in basic pay for general and flag officers (sec. 601)

The Senate amendment contained a provision (sec. 601) that would authorize a pay raise of 1.3 percent for all members of the uniformed services in pay grades O-6 and below effective January 1, 2016, and that would freeze the monthly basic pay for all general and flag officers, including for those whose monthly basic pay is limited to the rate of pay for level II of the Executive Schedule.

The House bill contained no similar provision.

The House recedes with an amendment that would remove reference to the pay raise for grades O-6 and below.

We note that the President has authority under section 1009(e) of title 37, United States Code, to implement the 1.3 percent pay raise for pay grades O-6 and below in the absence of a provision specifically setting a different pay raise.

Limitation on eligibility for supplemental subsistence allowances to members serving outside the United States and associated territory (sec. 602)

The Senate amendment contained a provision (sec. 606) that would sunset on September 30, 2016, the supplemental subsistence allowance for servicemembers serving inside the United States. Servicemembers serving outside the United States, the Commonwealth of Puerto Rico, the United States Virgin Islands, or Guam would still be eligible to receive the supplemental subsistence allowance from the Department of Defense. The provision is based on the final report of the Military Compensation and Retirement Modernization Commission.

The House recedes.

The Senate amendment contained a provision (sec. 602) that would amend section 403(b) of title 37, United States Code, to authorize the Secretary of Defense to reduce the monthly amount of the basic allowance for housing (BAH) by up to 5 percent of the national average for housing for a given pay grade and dependency status. Servicemembers will not see this modification of their BAH until they change duty stations.

The House bill contained no similar provision.

The agreement contains the Senate provision with an amendment that would reduce the monthly amount of the BAH through a tiered system with 1 percent in 2015, 2 percent in 2016, 3 percent in 2017, 4 percent in 2018, and 5 percent in 2019 and each fiscal year thereafter. We strongly believe that this change to the calculation of BAH should not be used to justify the collection of out-

of-pocket housing expenses, in excess of BAH, from servicemembers assigned to a housing unit acquired or constructed using the authority in subchapter IV of chapter 169 of title 10, United States Code.

Extension of authority to provide temporary increase in rates of basic allowance for housing under certain circumstances (sec. 604)

The Senate recedes.

SUBTITLE D—DISABILITY PAY, RETIRED PAY, AND SURVIVOR BENEFITS

PART I—RETIRED PAY REFORM

Modernized retirement system for members of the uniformed services (sec. 631)

The House bill contained a provision (sec. 632) that would establish a new military retirement defined benefit that, when combined with the government-matching Thrift Savings Plan, as described elsewhere in this Act, would comprise a new hybrid retirement system. This new system would apply to new entrants after January 1, 2018, and to those already serving members who choose to opt-in. The new defined benefit would continue to apply only to those members who reach 20 years of service, with a multiplier rate of 2.0 times years of service rather than the current rate of 2.5 times years of service.

The Senate amendment contained a similar provision (sec. 632).

The agreement includes the House provision with an amendment that would limit service members who may opt-in to the new retirement system to those with less than 12 years of service. The agreement also includes an amendment that would repeal the modified cost-of-living adjustment for members under the age of 62 made by section 403 of the Bipartisan Budget Act of 2013 (Public Law 113-67; 127 Stat. 1186), as amended by section 10001(a) of the Department of Defense Appropriations Act, 2014 (division C of Public Law 113-76; 128 Stat. 151), section 2 of Public Law 113-82 (128 Stat. 1009), and section 623 of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291; 128 Stat. 3403).

Full participation for members of the uniformed services in the Thrift Savings Plan (sec. 632)

The House bill contained a provision (sec. 631) that would provide a government-matching Thrift Savings Plan (TSP) benefit for those who would enter uniformed service on or after October 1, 2017, or a member serving before that date who makes a voluntary election to opt-in to the new plan. The TSP element would provide a 1 percent automatic

agency contribution to all uniformed service members upon reaching 60 days of service and continue until they would reach their second year of service. At 2 years of service, a member's TSP would vest and the Secretary concerned would begin matching TSP contributions up to 5 percent of that servicemember's base pay for a maximum government contribution totaling 6 percent of basic pay. Uniformed service members would be automatically enrolled at 3 percent matching contributions with the option to raise or lower their contribution level. TSP government-funded matching contributions would continue until a uniformed service member leaves or retires from the uniformed service.

The Senate amendment contained a similar provision (sec. 631) that would set the applicable initial entry date at January 1, 2018, provide a maximum government contribution of 5 percent (with the first one percent being an automatic agency contribution), and stop the government match at 20 years of service.

The agreement includes the Senate provision with an amendment to provide government matching contributions in the TSP through 26 years of service. We note that all uniformed service members who would enter and serve prior to the date of implementation of the modernized retirement system would be grandfathered into the old retirement system.

Lump sum payments of certain retired pay (sec. 633)

The Senate amendment contained a provision (sec. 633) that would allow the voluntary election of lump sum payments of retired pay for those under the modernized retirement system who serve 20 or more years of service. Members who elect to take the lump sum may choose to take 100 percent or 50 percent of the discounted present value of their defined retirement benefit that would be due to them prior to becoming fully eligible for Social Security.

The House bill contained no similar provision.

The House recedes with an amendment that would allow members who elect to take the lump sum an option of choosing to take 50 percent or 25 percent of the discounted present value of their defined retirement benefit that would be due to them prior to becoming fully eligible for Social Security.

We strongly urge the Secretaries concerned to coordinate with the Secretary of Veterans Affairs on counseling, or otherwise informing, new retirees on the impact this election may have on their eligibility for certain benefits administered by the Secretary of Veterans Affairs.

Continuation pay after 12 years of service for members of the uniformed services participating in the modernized retirement systems (sec. 634)

The House bill contained a provision (sec. 633) that would direct the Secretary concerned to provide continuation pay to servicemembers serving under the new military retirement system described above who reach 12 years of service, contingent upon such members agreeing to serve another 4 years of service.

The Senate amendment contained a similar provision (sec. 634).

The Senate recedes.

Effective date and implementation (sec. 635)

The House bill contained a provision (sec. 634) that would provide for an effective date of January 1, 2018 for the modernized military retirement system. The provision also requires an implementation plan due to the appropriate committees of Congress on March 1, 2016.

The House bill contained no similar provision.

The House recedes.

SUBTITLE E—COMMISSARY AND NON-APPROPRIATED FUND INSTRUMENTALITY BENEFITS AND OPERATIONS

Plan to obtain budget-neutrality for the defense commissary system and the military exchange system (sec. 651)

The Senate amendment contained a provision (sec. 652) that would require the Secretary of Defense to submit a report, not later than March 1, 2016, to the Committees on Armed Services of the Senate and the House of Representatives, setting forth a plan to privatize the Defense Commissary System, in whole or in part. The provision would also require the Comptroller General of the United States to provide a report that assesses the plan of the Department to privatize the Defense Commissary System to the Committees on Armed Services of the Senate and the House of Representatives within 120 days following submission of the report by the Secretary of Defense. Following submission of the Comptroller General's assessment of the Department's commissary privatization plan, the Department would be required to carry out a 2-year pilot program at no fewer than five commissaries in the largest markets of the commissary system to assess the feasibility and advisability of the plan. Within 180 days after completion of the pilot program, the Secretary of Defense would submit a report to the Committees on Armed Services of the Senate and the House of Representatives that provides an assessment of the commissary privatization plan.

The Senate amendment contained another provision (sec. 1025) that would require the Secretary of Defense to submit a report, not later than February 1, 2016, to the Committees on Armed Services of the Senate and the House of Representatives, assessing the viability of privatizing the commissary system, in part or in whole. The Secretary would submit the report prior to development of any plans or pilot program to privatize commissaries or the commissary system. The provision would also require the Comptroller General of the United States to provide a report that assesses the plan of the Department to privatize the Defense Commissary System to the committees on Armed Services of the Senate and the House of Representatives, not later than May 1, 2016. The provision would make Section 652 of the Senate amendment null and void.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary of Defense to submit a report to the Committees on Armed Services of the Senate and the House of Representatives, not later than March 1, 2016, that provides a comprehensive plan to make delivery of commissary and exchange benefits budget neutral by October 1, 2018. The amendment would also require the Comptroller General of the United States to

provide a report that assesses the Department's plan to make the commissary and exchange benefit budget neutral to the Committees on Armed Services of the Senate and the House of Representatives within 120 days following submission of the report by the Secretary of Defense. The amendment would authorize the Secretary of Defense to conduct one or more pilot programs to evaluate processes and methods for achieving budget neutral commissary and exchange benefits.

The Senate amendment contained a provision (sec. 653) that would require the Comptroller General of the United States to examine the policies and procedures of the Secretary of Defense to ensure timely notification of construction projects proposed to be funded through the Commissary Surcharge, Non-appropriated Fund, and Privately-financed Major Construction Program of the Department of Defense and to submit to the Committees on Armed Services of the Senate and the House of Representatives a report containing an assessment of this program no later than 180 days after enactment of this Act.

The House bill contained no similar provision.

The House recedes.

SUBTITLE F—OTHER MATTERS

Improvement of financial literacy and preparedness of members of the Armed Forces (sec. 661)

The House bill contained provision (sec. 651) that would require financial literacy training for servicemembers upon arrival at the first duty station and upon arrival at each subsequent duty station for servicemembers below the pay grade of E-5 in the case of enlisted personnel and below the pay grade of O-4 in the case of officers. The provision would further require financial literacy training for each servicemember at various career and life milestones. The provision would also direct the Department of Defense to include a financial literacy and preparedness survey in the status of forces survey. The provision would also express the sense of the Congress that the Secretary of Defense should work with other departments, agencies, and nonprofit organizations to improve financial literacy and preparedness with support from the service secretaries. This provision was recommended by the Military Compensation and Retirement Modernization Commission.

The Senate amendment contained similar provisions (secs. 581, 582, and 583).

The agreement includes the House provision with a technical amendment.

Recordation of obligations for installment payments of incentive pays, allowances, and similar benefits when payment is due (sec. 662)

The Senate amendment contained a provision (sec. 587) that would provide express authority for the long-established practice of the Department of Defense of obligating bonus and special and incentive pay installment payments at the time payment is due and payable. This provision is in response to a recent U.S. Government Accountability Office opinion, Comp. Gen. B-325526—Obligation of Bonuses under Military Service Agreements, July 16, 2014, which concluded that the Department of Defense cedes fiscal exposure to servicemembers when it enters into such agreements and should change its obligational practices to obligate the entire bonus amount when the agreement is signed.

The House bill contained no similar provision.

The House recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

Prohibition on per diem allowance reductions based on the duration of temporary duty assignment or civilian travel

The House bill contained a provision (sec. 602) that would prohibit per diem allowance reductions based on the duration of temporary duty assignment or civilian travel.

The Senate amendment contained no similar provision.

The House recedes.

Basic allowance for housing for members of the Uniformed Services who live together

The Senate amendment contained a provision (sec. 604) that would amend section 403 of title 37, United States Code, to limit the basic allowance for housing (BAH) for dual military married couples who are assigned within normal commuting distance from each other to one allowance at the with dependent rate, for the member with the higher pay grade. The provision would also limit BAH for uniformed service members above E-3 residing with other uniformed service members to 75 percent of their otherwise prevailing rate, or the E-4 without dependents rate, whichever is greater. Affected members would see no reduction in their BAH as a result of this provision so long as they maintain uninterrupted eligibility to receive BAH within a particular housing area.

The House bill contained no similar provision.

The Senate recedes.

We intend to reform this policy next year. We direct the Secretary of Defense to submit a report no later than March 1, 2016, to the Senate and House Committees on Armed Services containing an assessment and recommendations of the Secretary on how to amend the current BAH system to most accurately capture actual housing costs as a limiting element of the basic allowance for housing, to include an assessment of BAH as applied in particular circumstances where the current benefit may over- or under-compensate individuals based on their actual housing costs, to include single members of the armed forces and those who share accommodations with other members receiving the benefit. In developing these recommendations, the Secretary shall consider the primary purpose of the benefit to offset housing costs of uniformed members incurred by virtue of their service.

Repeal of inapplicability of modification of basic allowance for housing to benefits under the laws administered by the Secretary of Veterans Affairs

The Senate amendment contained a provision (sec. 605) that would repeal subsection (b) of section 604 of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291) effective January 1, 2016.

The House bill contained no similar amendment.

The Senate recedes.

We note that the Senate and House Veterans Affairs Committees intend to take up this matter. If it is not addressed by May 2016, it will be re-considered for the National Defense Authorization Act for Fiscal Year 2017.

Policies of the Department of Defense on travel of next of kin to participate in the dignified transfer of remains of members of the Armed Forces and civilian employees of the Department of Defense who die overseas

The Senate amendment contained a provision (sec. 624) that would require the Secretary of Defense to review the current policies of the Department of Defense regarding

travel authorization for family and next of kin of service members and civilian employees of the Department of Defense.

The House bill contained no similar provision.

The Senate recedes.

We note that the Department of Defense has notified the congressional defense committees it is already conducting the review described in this provision. Further, the agreement includes a separate provision to make the necessary changes in law for the authorization for travel to the dignified transfer ceremony for family and next of kin of members of the Armed Forces who die overseas in support of humanitarian operations. We expect the Secretary, upon conclusion of the aforementioned review, to make regulatory changes in order to address inequities within the system, as the Secretary determines are appropriate.

Authority for retirement flexibility for members of the uniformed services

The Senate amendment contained a provision (sec. 635) that would give the Secretary concerned the flexibility to modify the years of service required for non-disability retirement under the new military retirement system for particular occupational specialties or other groupings in order to facilitate force shaping or to correct manpower shortages within an occupational specialty.

The House bill contained no similar amendment.

The Senate recedes.

Preserving assured commissary supply to Asia and the Pacific

The House bill contained a provision (sec. 641) that would prohibit changes to second destination transportation policy that applies to shipment of fresh fruits and vegetables to Asia and the Pacific theater until the Defense Commissary Agency conducts a comprehensive study on the fresh fruit and vegetable supply for the region and submits a report on the study to Congress.

The Senate amendment contained no similar provision.

The House recedes.

Prohibition on replacement or consolidation of defense commissary and exchange systems pending submission of required report on Defense Commissary System

The House bill contained a provision (sec. 642) that would prohibit the Secretary of Defense from taking action to replace or consolidate the defense commissary and exchange systems before submission of the report on the defense commissary system required by section 634 of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291).

The Senate amendment contained no similar provision.

The House recedes.

Transitional compensation and other benefits for dependents of members of the Armed Forces ineligible to receive retired pay as a result of court-martial sentence

The Senate amendment contained a provision (sec. 642) that would add a new section 1059a to title 10, United States Code, to authorize the Secretary of Defense and the Secretary of Homeland Security to carry out a program that would authorize monthly transitional compensation, including commissary and exchange store access, to dependents or former dependents of a member of the Armed Forces who is ineligible to receive retired pay as a result of a court-martial sentence. The provision would allow the secretary concerned to determine that a dependent or former dependent would not be eligible for transitional compensation if that person was an active participant in the conduct constituting the offense under chapter 47 of title 10.

The House bill contained no similar provision.

The Senate recedes.

Commissary system matters

The Senate amendment contained a provision (sec. 651) that would authorize the Department of Defense to treat second destination transportation costs for commissary goods and supplies overseas like transportation costs within the United States by transferring those costs to the commissary patron in the price of goods. In addition, the provision would authorize the Department to transfer the cost of obtaining supplies required for the daily operations of commissaries and store-level offices dedicated to supporting commissary operations from the defense working capital fund to the surcharge fund. The provision would also authorize the Defense Commissary Agency to establish the sales price of merchandise sold in commissary stores in amounts sufficient to finance the purchase of operating supplies and replenishment of merchandise inventories.

The House bill contained no similar provision.

The Senate recedes.

The House bill contained a provision (sec. 652) that would amend section 2306 of title 38, United States Code, to require the Secretary of Veterans Affairs to make available for purchase a memorial headstone or marker for the marked or unmarked grave of an individual who, as a member of the National Guard or reserve component, performed inactive duty training or Active Duty for training for at least 6 years. The individual must not have served on Active Duty and must otherwise be eligible on account of the nature of the individual's separation from the Armed Forces or other causes.

The Senate amendment contained no similar provision.

The House recedes.

We understand that members of the reserve component who wish to purchase a memorial headstone or marker can purchase a nearly identical headstone or marker from private vendors.

TITLE VII—HEALTH CARE PROVISIONS

SUBTITLE A—TRICARE AND OTHER HEALTH CARE BENEFITS

Access to TRICARE Prime for certain beneficiaries (sec. 701)

The House bill contained a provision (sec. 705) that would amend section 732(c)(3) of the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112-239) to authorize an eligible TRICARE beneficiary to make a one-time election for TRICARE Prime if the beneficiary: 1) resides in a location in which TRICARE Prime is no longer available because of the location in which the beneficiary resides; and 2) the beneficiary resided within 100 miles of a military medical treatment facility as of December 25, 2013. This provision would not apply to an affected eligible beneficiary who resides, as of December 25, 2013, greater than 100 miles from a military medical treatment facility and is an eligible beneficiary by reason of service in the Army, Navy, Air Force, or Marine Corps.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

Modifications of cost-sharing for the TRICARE pharmacy benefits program (sec. 702)

The Senate amendment contained a provision (sec. 702) that would require modifica-

tions of prescription drug co-pays for the TRICARE pharmacy benefits program for years 2016 through 2025. After 2025, the Department of Defense (DOD) would establish co-pay amounts equal to the co-pay amounts for the previous year adjusted by an amount, if any, to reflect increases in costs of pharmaceutical agents and prescription dispensing fees. With this provision, beneficiaries would continue to receive prescription drugs at no cost in military medical treatment facilities, and there would be no changes to co-pays for survivors of members who died on Active Duty or for a disabled member retired under chapter 61 of title 10, United States Code, and their family members.

The House bill contained no similar provision.

The House recedes with an amendment that would modify prescription drug co-pays beginning in 2016.

We agree that comprehensive reform of the military health care system is essential and commit to working with the Department of Defense in fiscal year 2017 to begin reforming the military healthcare system. This reform must improve access, quality and the experience of care for all beneficiaries; maintain medical readiness of the military health professionals; and ensure the long-term viability and cost effectiveness of the military health care system. The current system has not kept pace with the best practices and latest innovations in the commercial healthcare market and will not meet the future needs of the DOD, the servicemembers, families, or retirees. In order to modernize and improve the military healthcare system, we agree that all elements of the current system must be re-evaluated, and that increases to fees and co-pays will be a necessary part of such a comprehensive reform effort.

Expansion of continued health benefits coverage to include discharged and released members of the Selected Reserve (sec. 703)

The Senate amendment contained a provision (sec. 703) that would amend section 1078a of title 10, United States Code, to authorize a member of the Selected Reserve, who is discharged or released under other than adverse conditions from service in the Selected Reserve, to be eligible to enroll, for a period of 18 months, in the Department of Defense program of continued health benefits coverage.

The House bill contained no similar provision.

The House recedes with an amendment that would require the member of the Selected Reserve to be enrolled in TRICARE Reserve Select immediately preceding the discharge of the member.

Access to health care under the TRICARE program for beneficiaries of TRICARE Prime (sec. 704)

The Senate amendment contained a provision (sec. 711) that would require the Secretary of Defense to ensure that covered TRICARE beneficiaries obtain health care appointments within access standards and wait-time goals established by the Department of Defense for primary care and specialty care or, if the beneficiary is unable to obtain an appointment within the wait-time goals, to offer the beneficiary an appointment with a contracted health care provider. The provision would also require the Secretary to publish health care access standards in the Federal Register and on a publicly accessible Internet web site of the Department of Defense and to publish appointment wait-times for primary and specialty care on the publicly accessible Internet web site of each military medical treatment facility.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary of Defense to ensure that TRICARE Prime beneficiaries obtain health care appointments within health care access standards established by the Secretary, including through health care providers in the TRICARE preferred provider network. The amendment would also require the Secretary to publish health care access standards in the Federal Register and on a publicly accessible Internet web site of the Department of Defense.

Expansion of reimbursement for smoking cessation services for certain TRICARE beneficiaries (sec. 705)

The Senate amendment contained a provision (sec. 704) that would amend section 713(f) of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417) to expand reimbursement for smoking cessation services for certain TRICARE beneficiaries.

The House bill contained no similar provision.

The House recedes with a technical amendment.

SUBTITLE B—HEALTH CARE ADMINISTRATION

Waiver of recoupment of erroneous payments caused by administrative error under the TRICARE program (sec. 711)

The Senate amendment contained a provision (sec. 715) that would amend chapter 55 of title 10, United States Code, to authorize the Secretary of Defense to waive recoupment of payment from a covered TRICARE beneficiary who has benefited from an erroneous TRICARE payment in which all of the following apply: (1) the payment was made due to an administrative error by an employee of the Department of Defense or a TRICARE program contractor; (2) the covered beneficiary, or in the case of a minor, the parent or guardian of the covered beneficiary, reasonably believed the covered beneficiary was entitled to the benefit of such payment; (3) the covered beneficiary relied on the expectation of benefit entitlement; and (4) the Secretary determines that a waiver of recoupment of such payment is necessary to prevent an injustice. In the case of administrative error on the part of a TRICARE contractor, the provision would require the Secretary to impose financial responsibility on the contractor for the erroneous payment.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Publication of data on patient safety, quality of care, satisfaction, and health outcome measures under the TRICARE program (sec. 712)

The Senate amendment contained a provision (sec. 732) that would require the Secretary of Defense to publish public data on measures used to assess patient safety, quality of care, patient satisfaction, and health outcomes on the primary Internet web site of the Department of Defense and on the primary Internet web site of that facility that provided the health care.

The House bill contained no similar provision.

The House recedes with an amendment that would amend section 1073b of title 10, United States Code, to require the Secretary of Defense to publish appropriate data on measures used to assess patient safety, quality of care, patient satisfaction, and health outcomes of each military medical treatment facility on a publicly available Internet web site of the Department of Defense. The provision would also require data for health care provided by a military medical treatment facility to be accessible on the

primary Internet web site of that facility. The provision would prohibit the Department publishing any data related to risk management activities of the Department.

Expansion of evaluation of effectiveness of the TRICARE program to include information on patient safety, quality of care, and access to care at military medical treatment facilities (sec. 713)

The Senate amendment contained a provision (sec. 733) that would require the Secretary of Defense to submit to the Committees on Armed Services of the Senate and the House of Representatives, not later than March 1, 2016, and each year thereafter, a comprehensive report on patient safety, quality of care, and access to care at military medical treatment facilities.

The House bill contained no similar provision.

The House recedes with an amendment that would amend section 717(a) of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106) to require the Department of Defense to include data on patient safety, quality of care, and access to care at each military medical treatment facility in the annual report to Congress on TRICARE program effectiveness.

Portability of health plans under the TRICARE program (sec. 714)

The Senate amendment contained a provision (sec. 712) that would require the Secretary of Defense to ensure that beneficiaries who are covered under a TRICARE health plan can seamlessly access health care under that health plan in each TRICARE program region.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Joint uniform formulary for transition of care (sec. 715)

The House bill contained a provision (sec. 701) that would require the Secretary of Defense and the Secretary of Veterans Affairs to establish a joint uniform formulary that would include pain, sleep disorder, psychiatric drugs, and drugs for other conditions critical for transition of a servicemember from treatment furnished by the Department of Defense to treatment furnished by the Department of Veterans Affairs.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

Licensure of mental health professionals in TRICARE program (sec. 716)

The House bill contained a provision (sec. 712) that would require the Secretary of Defense to ensure that a qualified mental health professional is eligible for reimbursement under the TRICARE program as a certified mental health counselor by meeting certain qualification criteria. The provision would also establish a special rule for certain practicing mental health professionals to deem them to be qualified mental health professionals during the period preceding January 1, 2027, even though those professionals do not meet the established qualification criteria in the provision. The House bill also contained a provision (sec. 725) that would express a sense of Congress that the Department of Defense should continue to support members of the Armed Forces and their families by providing family counseling and individual counseling services that reduce the symptoms of post-traumatic stress and other behavioral health disorders and empowers members to be emotionally available to their spouses and children.

The Senate amendment contained no similar provisions.

The Senate recedes with an amendment that would deem certain mental health professionals eligible for reimbursement under the TRICARE program during the period preceding January 1, 2021.

We note that the Department of Defense published a final rule to implement the TRICARE Certified Mental Health Counselor provider as a qualified mental health provider authorized to independently diagnose and treat TRICARE beneficiaries and receive reimbursement for services. Counselors must possess a master's or higher-level degree from a Council for Accreditation of Counseling and Related Educational Programs accredited mental health counseling program of education and pass the National Clinical Mental Health Counseling Examination. We consider these reasonable criteria to help ensure TRICARE beneficiaries obtain mental health care from qualified counselors and do not believe another extension of the transition for qualification as a TRICARE Certified Mental Health Counselor beyond the extension in this provision would be advisable.

Additionally, we agree that the Department of Defense should continue to support members of the Armed Forces and their families by providing readily available family and individual counseling services that reduce the symptoms of post-traumatic stress and other behavioral health disorders and empower members to be available emotionally to their spouses and children. We believe the Department should consider industry standards established by the medical community when developing standards for family and individual counseling services at military installations.

Designation of certain non-Department mental health care providers with knowledge relating to treatment of members of the Armed Forces (sec. 717)

The Senate amendment contained a provision (sec. 716) that would require the Secretary of Defense, not later than 1 year after enactment of this Act, to develop a system by which any non-Department mental health care provider that meets eligibility criteria relating to knowledge and understanding of military culture and knowledge of evidence-based mental health treatments approved by the Secretary, would receive a mental health provider readiness designation from the Department. The provision would also require the Secretary to establish and update a provider list and maintain a publicly available registry of mental health providers receiving such designation.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Comprehensive standards and access to contraception counseling for members of the Armed Forces (sec. 718)

The Senate amendment contained a provision (sec. 714) that would require the Department of Defense to provide, through clinical practice guidelines, current and evidence-based standards of care regarding contraception methods and counseling to all health care providers employed by the Department and to ensure service women have access to comprehensive contraception counseling prior to deployment and throughout their military careers. The provision would also require the Secretary of Defense to establish a uniform, standard curriculum to be used in family planning education programs for all members of the Armed Forces.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

SUBTITLE C—REPORTS AND OTHER MATTERS

Provision of transportation of dependent patients relating to obstetrical anesthesia services (sec. 721)

The House bill contained a provision (sec. 726) that would amend section 1040(a)(2) of title 10, United States Code, to strike the expiration date regarding the authority to transport dependent patients relating to obstetrical anesthesia services.

The Senate amendment contained no similar provision.

The Senate recedes.

Extension of authority for DOD-VA Health Care Sharing Incentive Fund (sec. 722)

The House bill contained a provision (sec. 721) that would amend section 8111 of title 38, United States Code, to extend the authority for the DOD-VA Health Care Sharing Incentive Fund through September 30, 2020.

The Senate amendment contained an identical provision (sec. 719).

The agreement includes this provision.

Extension of authority for Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund (sec. 723)

The House bill contained a provision (sec. 722) that would amend section 1704(e) of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84), as amended by section 722 of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291), to extend the authority for the Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund from September 30, 2016, to September 30, 2017.

The Senate amendment contained a similar provision (sec. 718).

The House recedes.

Limitation on availability of funds for Office of the Secretary of Defense (sec. 724)

The House bill contained a provision (sec. 713) that would amend chapter 55 of title 10, United States Code, by inserting a new section after section 1073b, to prohibit the Secretary of Defense from realigning or restructuring a military medical treatment facility (MTF) until 90 days following the date the Secretary submits a report to the congressional defense committees on the proposed restructuring or realignment of the MTF.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would limit to 75 percent the obligation or expenditure of funds available for fiscal year 2016 for the office of the Secretary of Defense until the date on which the Secretary of Defense submits to the congressional defense committees the report required by section 713(a)(2) of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291). Without that report and the subsequent required assessment of the report by the Comptroller General of the United States, we remain concerned that the Department has not fully considered all relevant factors that may impact the availability and delivery of health care services to eligible beneficiaries in its study of military health system modernization. We expect the Department to make available, upon request, all available data regarding any decisions to eliminate health care services and to relocate health care personnel from military medical treatment facilities in the future.

Pilot program on urgent care under TRICARE program (sec. 725)

The Senate amendment contained a provision (sec. 701) that would authorize a covered

beneficiary under the TRICARE program to access up to four urgent care visits per year without the need to obtain pre-authorization for such visits.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary of Defense to carry out a 3-year pilot program to allow covered beneficiaries under the TRICARE program to access urgent care visits without the need to obtain pre-authorization for those visits. The amendment would require the Secretary to submit two interim reports and one final report on the pilot program to the Committees on Armed Services of the Senate and the House of Representatives.

We note that current TRICARE policy requires TRICARE Prime beneficiaries to obtain pre-authorization for urgent care visits. This administrative burden encourages beneficiaries to utilize emergency departments inappropriately for urgent care needs. We believe this pilot program would help beneficiaries choose the most appropriate source for the health care they need and potentially lower health care costs for the Department of Defense.

Pilot program on incentive programs to improve health care provided under the TRICARE program (sec. 726)

The Senate amendment contained a provision (sec. 720) that would require the Secretary of Defense to conduct a pilot program to assess value-based incentive programs to encourage institutional and individual health care providers under the TRICARE program to improve quality of care, experience of care, and health of beneficiaries.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary of Defense to submit interim reports on the pilot program at 1-year intervals following implementation of the program and a final report on the program by September 30, 2019.

Limitation on availability of funds for Department of Defense Healthcare Management Systems Modernization (sec. 727)

The House bill contained a provision (sec. 723) that would limit obligation or expenditure of funds for fiscal year 2016 for the Department of Defense Healthcare Management Systems Modernization until the date on which the Secretary of Defense makes the certification required by section 713(g)(2) of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113-66).

The Senate amendment contained a provision (sec. 738) that would require the Secretary of Defense and the Secretary of Veterans Affairs to submit a report to Congress on interoperability between electronic health records of their Departments.

The Senate recedes.

Submittal of information to Secretary of Veterans Affairs relating to exposure to airborne hazards and open burn pits (sec. 728)

The Senate amendment contained a provision (sec. 739) that would require the Secretary of Defense to submit to the Secretary of Veterans Affairs, not later than 180 days after the date of enactment of this Act and periodically thereafter, information available to the Secretary of Defense to supplement and support information in the Airborne Hazards and Open Burn Pit Registry established by the Secretary of Veterans Affairs. The provision would also require the Secretary of Defense to include information on any research and surveillance activities conducted by the Department of Defense to evaluate incidence and prevalence of respiratory illnesses to servicemembers exposed to open burn pits during deployments.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Plan for development of procedures to measure data on mental health care provided by the Department of Defense (sec. 729)

The Senate amendment contained a provision (sec. 713) that would require the Secretary of Defense to ensure that all primary care and mental health care providers of the Department of Defense receive, or have already received, initial evidence-based training on the recognition, assessment, and management of individuals at risk for suicide and any additional training that may be required based on evidence-based changes in mental health practice. Within 1 year of the date of enactment of this Act, the Secretary would be required to provide a report to the Committees on Armed Services of the Senate and the House of Representatives that assesses the mental health workforce of the Department and the long-term mental health care needs of servicemembers and their dependents. The provision would also require the Secretary to develop procedures to measure mental health data relating to outcomes, variations in outcomes among military medical treatment facilities, and barriers to implementation of clinical practice guidelines and other evidence-based treatments by mental health providers of the Department of Defense.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary of Defense to submit to the Committees on Armed Services of the Senate and the House of Representatives a plan for the Department of Defense to develop procedures to compile and assess data relating to: (1) outcomes for mental health care provided by the Department; (2) variations in such outcomes among different medical facilities of the Department; and (3) barriers, if any, to the implementation by mental health care providers of the clinical practice guidelines and other evidence-based treatments and approaches recommended for such providers.

We are aware that the Department has policies and procedures in place that require primary care providers to receive annual training on suicide prevention, and that the Department of Defense and the Department of Veterans Affairs submitted a report to the Committees on Armed Services of the Senate and the House of Representatives in April 2015, on a coordinated, unified plan to ensure adequate mental health counseling resources to address the long-term needs of all members of the Armed Forces, veterans, and their families.

Report on plans to improve experience with and eliminate performance variability of health care provided by the Department of Defense (sec. 730)

The Senate amendment contained a provision (sec. 734) that would require the Secretary of Defense to submit to the Committees on Armed Services of the Senate and the House of Representatives, not later than 180 days after the date of enactment of this Act, a comprehensive report describing the current and future plans, with estimated completion dates, of the Department of Defense to improve the experience of care of beneficiaries and to eliminate performance variability for health care provided in military medical treatment facilities and in the TRICARE purchased care network. This provision would also require the Comptroller General of the United States to submit, not later than 180 days after the Secretary submits the comprehensive report, a report to the Committees on Armed Services of the

Senate and the House of Representatives that assesses the report of the Secretary of Defense.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Comptroller General study on gambling and problem gambling behavior among members of the Armed Forces (sec. 731)

The Senate amendment contained a provision (sec. 740) that would require the Comptroller General of the United States to conduct a study on gaming facilities at military installations and problem gambling among members of the Armed Forces, and to submit a report, within 1 year of the date of enactment of this Act, to the congressional defense committees.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

LEGISLATIVE PROVISIONS NOT ADOPTED

Access to broad range of methods of contraception approved by the Food and Drug Administration for members of the Armed Forces and military dependents at military treatment facilities

The House bill contained a provision (sec. 702) that would require the Secretary of Defense to ensure that every military medical treatment facility has a sufficient stock of a broad range of contraceptive methods approved by the Food and Drug Administration to be able to dispense any contraceptive method to service women and other female beneficiaries eligible for healthcare in those facilities.

The Senate amendment contained no similar provision.

The House recedes.

We note that military medical treatment facilities stock and dispense a broad range of contraceptive methods approved by the Food and Drug Administration to service women and other eligible female beneficiaries. We encourage the Department of Defense to ensure that deployed service women have access to prescription contraceptives throughout the duration of their deployments.

Access to contraceptive method for duration of deployment

The House bill contained a provision (sec. 703) that would require the Secretary of Defense to ensure that service women who use prescription contraceptives receive, prior to deployment, a sufficient supply of those contraceptives for the duration of their deployments.

The Senate amendment contained no similar provision.

The House recedes.

We expect the Secretary of Defense to ensure that service women who use contraceptives have contraceptives available throughout their deployment. This can be accomplished by use of the TRICARE Mail Order Pharmacy program or other means.

Access to infertility treatment for members of the Armed Forces and dependents

The House bill contained a provision (sec. 704) that would require the Secretary of Defense, in coordination with the service secretaries, to provide reproductive counseling and infertility treatments, including continuation of infertility services during a change of duty station relocation, to members and dependents of members of the Armed Forces.

The Senate amendment contained no similar provision.

The House recedes.

We note that section 729 of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015

(Public Law 113-291) requires the Secretary of Defense to submit a report to the congressional defense committees assessing the access of members of the Armed Forces and their dependents to reproductive counseling and infertility treatments. The Department of Defense has not yet provided this report to the committees. We believe that a thorough study of this report must be done prior to enacting legislation on this issue.

Pilot program on treatment of members of the Armed Forces for post-traumatic stress disorder related to military sexual trauma

The Senate amendment contained a provision (sec. 705) that would authorize the Secretary of Defense to conduct a pilot program to award grants to community partners to provide intensive outpatient programs to treat members of the Armed Forces suffering from post-traumatic stress disorder resulting from military sexual trauma, including treatment for substance abuse, depression, and other issues related to those conditions.

The House bill contained no similar provision.

The Senate recedes.

We note that the Services already have capabilities to provide intensive outpatient services for substance abuse rehabilitation and behavioral health disorders. The Navy has 12 substance abuse rehabilitation programs located at intensive outpatient program sites in the United States and overseas, and the Air Force has one program. The Army is establishing intensive outpatient programs at 17 military medical treatment facilities by fiscal year 2016, and these programs will offer multi-week intensive behavioral health services to treat patients with severe behavioral health conditions like post-traumatic stress disorder.

Unified medical command

The House bill contained a provision (sec. 711) that would amend chapter 6 of Title 10, United States Code, to require the President, through the Secretary of Defense and with the advice and consent of the Chairman of the Joint Chiefs of Staff, to establish a unified command for medical operations to provide medical services to the Armed Forces and other eligible health care beneficiaries.

The Senate amendment contained no similar provision.

The House recedes.

Pilot program for operation of network of retail pharmacies under TRICARE pharmacy benefits program

The House bill contained a provision (sec. 714) that would authorize the Secretary of Defense to conduct a pilot program to evaluate whether a preferred retail pharmacy network will generate cost savings for the Department of Defense.

The Senate amendment contained no similar provision.

The House recedes.

We observe that the Department of Defense (DOD) already operates a large preferred retail pharmacy network and prescriptions filled in those pharmacies are subject to the federal ceiling price policy established under section 1074g(f) of title 10, United States Code.

We note with concern that DOD did not proactively monitor the effects of the transition of maintenance medications specific to affected beneficiaries from retail pharmacies to mail order and military medical treatment facility (MTF) pharmacies, including important effects such as availability of medications, timeliness and accuracy of prescriptions filled, and satisfaction for the TRICARE for Life pharmacy pilot established by section 716 of the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112-239). Accordingly, for the first 12

months following the expansion of the pilot program requirements to additional TRICARE beneficiaries as of October 1, 2015, we direct the DOD to provide to the Committees on Armed Services of the Senate and the House of Representatives a quarterly report detailing the results of monitoring the effects of the transition from retail pharmacies to mail order and MTF pharmacies on affected beneficiaries, including actions taken to address any issues identified as a result of these monitoring efforts. Each quarterly report shall be submitted no later than 30 days after the end of the respective quarter of the fiscal year.

Limitation on conversion of military medical and dental positions to civilian medical and dental positions

The Senate amendment contained a provision (sec. 717) that would amend chapter 49 of title 10, United States Code, to provide that a medical or dental position within the Department of Defense may not be converted to a civilian medical or dental position unless the Secretary of Defense determines that: (1) the position is not a military essential position; (2) conversion of the position would not result in the degradation of medical or dental care or the medical or dental readiness of the Armed Forces; and (3) conversion of the position to a civilian medical or dental position is more cost effective than retaining the position as a military medical or dental position, consistent with Department of Defense Instruction 7041.04.

The House bill contained no similar provision.

The Senate recedes.

Primary blast injury research

The House bill contained a provision (sec. 724) that would require the peer-reviewed Psychological Health and Traumatic Brain Injury Research Program of the Department of Defense to conduct a study on blast injury mechanics covering a broad range of blast injury conditions, including traumatic brain injury.

The Senate amendment contained no similar provision.

The House recedes.

Publication of certain information on health care provided by the Department of Defense through the Hospital Compare website of the Department of Health and Human Services

The Senate amendment contained a provision (sec. 731) that would require the Secretary of Defense to enter into a memorandum of understanding with the Secretary of Health and Human Services to report, and make publicly available through the Hospital Compare Internet web site of the Department of Health and Human Services, information on quality of care and health outcomes regarding patients treated at military medical treatment facilities.

The House bill contained no similar provision.

The Senate recedes.

We strongly encourage the Department of Defense to demonstrate greater transparency of quality of care and health outcomes data by making such data available on the Hospital Compare web site of the Department of Health and Human Services.

Report on plan to improve pediatric care and related services for children of members of the Armed Forces

The Senate amendment contained a provision (sec. 735) that would require the Secretary of Defense to submit to the Committees on Armed Services of the Senate and the House of Representatives, not later than 180 days after the date of enactment of this Act, a report setting forth the plan of the Department to improve pediatric care and related

services for children of members of the Armed Forces.

The House bill contained no similar provision.

The Senate recedes.

We encourage the Department of Defense to continue improvement in the delivery of healthcare services to pediatric patients, especially those patients with severe disabilities, and to correct deficiencies noted in the report from the Secretary of Defense required by Section 735 of the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112-239). We direct the Department of Defense to include pediatric health outcome measures in the annual report to Congress on TRICARE program effectiveness.

Comptroller General report on use of quality of care metrics at military treatment facilities

The Senate amendment contained a provision (sec. 737) that would require the Comptroller General of the United States to submit a report, not later than 1 year after the date of enactment of this Act, to the Committees on Armed Services of the Senate and the House of Representatives on the Department of Defense's use of quality of care metrics in military medical treatment facilities.

The House bill contained no similar provision.

The Senate recedes.

We note a requirement, in a separate section of this bill, for the Comptroller General of United States to submit a report assessing the Department's plans to improve health outcomes, to create health value, and to ensure the provision of quality health care in military medical treatment facilities and through purchased care.

Report on implementation of data security and transmission standards for electronic health records

The Senate amendment contained a provision (sec. 741) that would require the Secretary of Defense and the Secretary of Veterans Affairs to submit a joint report to Congress by June 1, 2016, on the implementation of security and data transmission standards by the Departments in the deployment of new or updated electronic health records.

TITLE VIII—ACQUISITION POLICY, ACQUISITION MANAGEMENT, AND RELATED MATTERS
SUBTITLE A—ACQUISITION POLICY AND MANAGEMENT

Required review of acquisition-related functions of the Chiefs of Staff of the Armed Forces (sec. 801)

The House bill contained a provision (sec. 802) that would require the Chief of Staff of the Army, the Chief of Naval Operations, the Chief of Staff of the Air Force, and the Commandant of the Marine Corps to review their current authorities provided in sections 3033, 5033, 5043, and 8033 of title 10, United States Code, and other relevant statutes and regulations related to defense acquisitions for the purpose of developing such recommendations that the Chief concerned or the Commandant considers necessary to further or strengthen the role of the Chief concerned or the Commandant in the development of requirements, acquisition processes, and the associated budget practices of the Department of Defense.

The Senate amendment contained no similar provision.

The Senate recedes.

Role of Chiefs of Staff in the acquisition process (sec. 802)

The Senate amendment contained a provision (sec. 801) that would amend section 2547

of title 10, United States Code, to enhance the role of Chiefs of Staff in the defense acquisition process. This provision would reinforce the role and responsibilities of the Chiefs of Staff in decisions regarding the balancing of resources and priorities, and associated tradeoffs among cost, schedule, technical feasibility, and performance on major defense acquisition programs.

The House bill had no similar provision.

The House recedes.

Expansion of rapid acquisition authority (sec. 803)

The Senate amendment contained a provision (sec. 802) that would amend section 806(c) of the Bob Stump National Defense Authorization Act for Fiscal Year 2003 (10 U.S.C. 2302 note), as amended by section 811 of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (Public Law 108-375). This provision would enhance the rapid acquisition authority currently provided to the Secretary of Defense by allowing the Secretary to use this authority for two new categories of supplies and associated support services that the Secretary determines: (1) are urgently needed and impact an ongoing or anticipated contingency operation that, if left unfulfilled, could potentially result in loss of life or critical mission failure; or (2) are urgently needed to eliminate a deficiency that as the result of a cyber attack has resulted in critical mission failure, the loss of life, property destruction, or economic effects, or is likely to result in critical mission failure, the significant loss of life, property destruction, or economic effects.

The House bill contained no similar provision.

The House recedes.

Middle tier of acquisition for rapid prototyping and rapid fielding (sec. 804)

The Senate amendment contained a provision (sec. 803) that would require the Under Secretary of Defense for Acquisition, Technology, and Logistics to issue guidance for an expedited and streamlined “middle tier” of acquisition programs that are intended to be completed within 5 years. These programs would be distinctive from “rapid acquisitions” that are generally completed within 6 months to 2 years and “traditional” acquisitions that last much longer than 5 years.

The House bill contained no similar provision.

The House recedes.

Use of alternative acquisition paths to acquire critical national security capabilities (sec. 805)

The Senate amendment contained a provision (sec. 805) that would require the Secretary of Defense to establish procedures and guidelines for alternative acquisition pathways to acquire capital assets and services that meet critical national security needs.

The House bill contained no similar provision.

The House recedes with an amendment that would require procedures to be developed within 180 days.

Secretary of Defense waiver of acquisition laws to acquire vital national security capabilities (sec. 806)

The Senate amendment contained a provision (sec. 806) that would allow the Secretary of Defense to waive acquisition law or regulation for the purpose of acquiring a capability that is in the vital interest of the United States and is not otherwise available to the Armed Forces of the United States. The Secretary shall notify the congressional defense committees at least 30 days before exercising the waiver authority and designate a senior official who shall be personally responsible and accountable for the

rapid and effective acquisition and deployment of the needed capability.

The House bill contained no similar provision.

The House recedes.

Acquisition authority of the Commander of United States Cyber Command (sec. 807)

The Senate amendment contained a provision (sec. 807) that would authorize limited acquisition authority for the Commander of United States Cyber Command (CYBERCOM).

The House bill contained no similar provision.

The House recedes with an amendment that would clarify that the Commander of CYBERCOM may obligate and expend up to \$75.0 million of the funds made available for each fiscal year from 2016 through 2021. The amendment would add a requirement for an implementation plan, the review of programs being acquired under this authority by the Cyber Investment Management Board, and an annual end of year assessment. The amendment would also make a number of technical and conforming edits.

We believe the Commander of CYBERCOM should utilize this limited acquisition authority to fulfill cyber operations-peculiar and cyber capability-peculiar requirements the services are unable to meet to ensure the Department of Defense is adequately postured to defend and respond to cyber threats. We maintain that this limited authority should not be construed to replace the acquisition responsibilities of the military services to fulfill their man, train and equip requirements. We believe successful demonstration of these acquisition authorities will require implementation of memoranda of agreement with the military services to define enduring responsibilities and more explicit definition cyber operations-peculiar and cyber capability-peculiar requirements.

Report on linking and streamlining requirements, acquisition, and budget processes within Armed Forces (sec. 808)

The House bill contained a provision (sec. 801) that would require the Chief of Staff of the Army, the Chief of Naval Operations, the Chief of Staff of the Air Force, and the Commandant of the Marine Corps to each submit a report to the congressional defense committees on their efforts to leverage their existing statutory authorities in a manner that links and streamlines their services' requirements, acquisition, and budget processes in order to foster improved outcomes.

The Senate amendment contained no similar provision.

The House recedes.

Advisory panel on streamlining and codifying acquisition regulations (sec. 809)

The Senate amendment contained a provision (sec. 808) that would require the Under Secretary of Defense for Acquisition, Technology and Logistics to establish an advisory panel on streamlining acquisition regulations.

The House bill contained no similar provision.

The House recedes with an amendment to clarify the scope of the review.

SUBTITLE B—AMENDMENTS TO GENERAL CONTRACTING AUTHORITIES, PROCEDURES, AND LIMITATIONS

Amendment relating to multiyear contract authority for acquisition of property (sec. 811)

The House bill contained a provision (sec. 806) that would strike the existing requirement that the head of an agency must determine that substantial savings would be achieved before entering into a multiyear contract.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require that significant savings would be achieved before entering into a multiyear contract.

We agree that the government should seek to maximize savings whenever it pursues multiyear procurement. However, we also agree that significant savings (estimated to be greater than \$250.0 million), and other benefits, may be achieved even if it does not equate to a minimum of 10 percent savings over the cost of an annual contract. We expect a request for authority to enter into a multiyear contract will include (1) the estimated cost savings, (2) the minimum quantity needed, (3) confirmation that the design is stable and the technical risks are not excessive, and (4) any other rationale for entering into such a contract.

Applicability of cost and pricing data and certification requirements (sec. 812)

The Senate amendment contained a provision (sec. 822) that would limit the applicability of the Truth in Negotiations Act (Public Law 87-653; 10 U.S.C. section 2306a) to off-set agreements.

The House bill contained no similar provision.

The House recedes with an amendment that would provide for an exception to this limitation for subcontracts and contracts under the offset agreement for work performed in a foreign country that are directly related to the weapon systems of defense-related item being purchased under the contract.

Rights in technical data (sec. 813)

The Senate amendment contained a provision (sec. 825) that would clarify procedures for the validation of rights in technical data for subsystems and components of major weapon systems; and establish a government-industry advisory panel to review sections 2320 and 2321 of title 10, United States Code.

The House bill contained no similar provision.

The House recedes.

Procurement of supplies for experimental purposes (sec. 814)

The Senate amendment contained a provision (sec. 826) that would update the experimental acquisition authority in section 2373 of title 10, United States Code, to apply to transportation, energy, medical, and space flight and to clarify when provisions of Chapter 137 of title 10 apply to such procurements.

The House bill contained no similar provision.

The House recedes.

Amendments to other transaction authority (sec. 815)

The House bill contained a provision (sec. 853) would make permanent the other transactions authority (OTA) for contracting established in section 845 of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103-160), as modified most recently by section 812 of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291). The provision would also

make changes to the authority to use such mechanisms.

The Senate amendment contained a similar provision (section 804) that modified the authority, as well as modifying the definition of a “non-traditional” defense contractor.

The House recedes with an amendment that would: (1) make section 845 authority permanent; (2) clarify the authority to use section 845 authority to acquire prototypes or follow-on production items to be provided to contractors as government-furnished equipment; (3) ensure that innovative small business firms are authorized to participate in other transactions under section 845 without the requirement for a cost-share (except where the small business is partnered with a large business in a transaction); and (4) clarify the use of follow-on production contracts or other transactions authority. The provision further requires the Department of Defense to study the benefits of permitting not-for-profit entities to enter into other transactions agreements without the requirement for cost sharing.

We believe that the flexibility of the OTA authorities of section 2371 of title 10, United States Code, and the related and dependent authorities of section 845 of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103-160) as modified and codified in this provision, can make them attractive to firms and organizations that do not usually participate in government contracting due to the typical overhead burden and “one size fits all” rules. We believe that expanded use of OTAs will support Department of Defense efforts to access new source of technical innovation, such as Silicon Valley startup companies and small commercial firms.

Amendment to acquisition threshold for special emergency procurement authority (sec. 816)

The House bill contained a provision (sec. 854) that would raise the simplified acquisition threshold from \$100,000 to \$500,000, the micro-purchase threshold from \$3,000 to \$5,000, and the special emergency procurement authority threshold for purchases inside the United States from \$250,000 to \$750,000 and for purchases outside the United States from \$1.0 million to \$1.5 million, and the small business reservation threshold from \$100,000 to \$500,000.

The Senate amendment contained no similar provision.

The House recedes with an amendment that would amend section 1903 of title 41, United States Code to raise the special emergency procurement authority threshold.

Revision of method of rounding when making inflation adjustment of acquisition-related dollar thresholds (sec. 817)

The House bill contained a provision (sec. 855) that would amend section 1908(e)(2) of title 41, United States Code, to change the rounding method that is used when scheduled adjustments are made to certain acquisition-related dollar thresholds.

The Senate amendment contained no similar provision.

The Senate recedes.

SUBTITLE C—PROVISIONS RELATING TO MAJOR DEFENSE ACQUISITION PROGRAMS

Acquisition strategy required for each major defense acquisition program, major automated information system, and major system (sec. 821)

The House bill contained a provision (sec. 822) that would establish a new section in chapter 144 of title 10, United States Code, that requires an acquisition strategy for each major defense acquisition program and each major system approved by a Milestone Decision Authority (MDA).

The Senate amendment contained a similar provision (sec. 841).

The agreement includes a provision that combines these two provisions. The provision would mandate that the Department of Defense create an acquisition strategy for each major defense acquisition program, each major automated information system, and each major system approved by an MDA. The provision further outlines key areas that should be considered in the strategies, as well as a process for the periodic review of the strategy by the MDA.

Revision to requirements relating to risk management in development of major defense acquisition programs and major systems (sec. 822)

The House bill contained a provision (sec. 823) that would establish a new section in chapter 144 of title 10, United States Code that requires the program acquisition strategy for each major defense acquisition program or major system to include an identification of major program risks and a risk management and mitigation strategy.

The Senate amendment contained a similar provision (sec. 842).

The agreement includes a provision that combines these two provisions designed to reduce programmatic risk. The provision mandates that the program acquisition strategy specifically address approaches to manage and mitigate risks, and highlights a number of techniques that support such mitigation. The provision further highlights the importance of prototyping as a risk mitigation approach.

We expect that the risk mitigation aspects of a program acquisition strategy should be addressed with each increment of a program. Further, we expect that the comprehensive approach to risk mitigation should identify: each individual risk to the program; risk management and mitigation activities developed to address the risks; and resources to support those mitigation activities.

Revision of Milestone A decision authority responsibilities for major defense acquisition programs (sec. 823)

The House bill contained a provision (sec. 825) that would amend section 2366a of title 10, United States Code, to require the Milestone Decision Authority to make a written determination, in lieu of a certification, before approving milestone A.

The Senate amendment contained a similar provision (sec. 844).

The Senate recedes with an amendment that combines these two provisions. The provision establishes the Milestone Decision Authority's responsibility to ensure that an acquisition program has demonstrated sufficient knowledge to enter into a risk reduction phase following Milestone A and has sound plans to progress to the development phase before granting milestone approval. It specifies the considerations the milestone decision authority must take into account, thereby addressing the critical activities that need to precede and occur during the succeeding risk reduction phase.

Revision of Milestone B decision authority responsibilities for major defense acquisition programs (sec. 824)

The House bill contained a provision (sec. 826) that would amend section 2366b of title 10, United States Code, to require the Milestone Decision Authority (MDA) to make a written determination, instead of a certification, for some of the existing certification requirements before approving milestone B.

The Senate amendment contained a similar provision (sec. 845).

The Senate recedes with an amendment that combines these two provisions.

The provision establishes the MDA's responsibility to ensure that an acquisition

program has demonstrated sufficient knowledge to enter a development phase and has sound plans in place to deliver the required capability, before granting milestone approval. It specifies the considerations the MDA must take into account, thereby addressing the critical activities that need to precede and occur during the development phase. It further specifies that the MDA must certify that the program has a high likelihood of accomplishing its intended mission based on a formal post-preliminary design review assessment, and that the technology in the program has been demonstrated in a relevant environment based on an independent review and assessment.

Designation of milestone decision authority (sec. 825)

The Senate amendment contained a provision (sec. 843) that would amend section 2430 of title 10, United States Code, to designate the service acquisition executives as the milestone decision authority for major acquisition programs managed by the military services; require that if a program managed by the services breaches thresholds in the Nunn-McCurdy Act, section 2433 of title 10, United States Code, the Secretary of Defense shall revoke service milestone decision authority for the program; clarify that for service programs where the service acquisition executive is the milestone decision authority the Under Secretary of Defense for Acquisition, Technology, and Logistics would exercise advisory authority; require that the service secretaries and service chiefs certify in each Selected Acquisition Report that program requirements are stable and funding is adequate to meet cost, schedule, and performance objectives for each major defense acquisition program; require the Deputy Chief Management Officer to issue guidance to ensure that acquisition policy, guidance, and practices support a streamlined decision making and approval process that minimizes information requests on service managed programs; and require not later than 180 days after the enactment of this Act, the Secretary of Defense to submit to the congressional defense committees a plan to implement the Under Secretary of Defense for Acquisition, Technology, and Logistics advisory authority for service acquisition programs. The provision mandated implementation of the changes within 1 year of the date of enactment of the Act.

The House bill contained no similar provision.

The House recedes with an amendment that would clarify that the provision would apply to new programs reaching milestone A after October 1, 2016; modify certain certification requirements; and require the Secretary of Defense to review the acquisition oversight process for major defense acquisition programs and limit outside requirements for documentation to an absolute minimum on those service managed programs. We note that the Under Secretary of Defense for Acquisition, Technology, and Logistics should only exercise advisory authority, subject to the overall authority, direction, and control of the Secretary of Defense, over service acquisition programs for which the service acquisition executive is the milestone decision authority.

Tenure and accountability of program managers for program definition periods (sec. 826)

The Senate amendment contained a provision (sec. 846) that would require the Secretary of Defense to revise Department of Defense guidance for defense acquisition programs to address the tenure and accountability of program managers for the program definition period of defense acquisition programs.

The House bill contained no similar a provision.

The House recedes with an amendment to clarify the period of time to which the required guidance applies, and to include authority for the Secretary of Defense to adjust program management assignment tenures, under certain circumstances.

Tenure and accountability of program managers for program execution periods (sec. 827)

The Senate amendment contained a provision (sec. 847) that would address the tenure and accountability of program managers for the program execution period of defense acquisition programs.

The House bill contained no similar provision.

The House recedes with an amendment to clarify the elements of the guidance to be issued as a result of the provision.

Penalty for cost overruns (sec. 828)

The Senate amendment contained a provision (sec. 849) under which each military department would pay an annual penalty in the amount of 3 percent of the cumulative cost overrun on all of its major defense acquisition programs (MDAPs).

The House bill contained no similar provision.

The House recedes.

Streamlining of reporting requirements applicable to Assistant Secretary of Defense for Research and Engineering regarding major defense acquisition programs (sec. 829)

The Senate amendment contained a provision (sec. 850) that would amend section 138(b) of title 10, United States Code, to change the scope of periodic reports the Assistant Secretary of Defense for Research and Engineering is required to deliver to the congressional defense committees, the Secretary of Defense, and the Undersecretary of Defense for Acquisition, Technology and Logistics.

The House bill contained no similar provision.

The House recedes.

Configuration Steering Boards for cost control under major defense acquisition programs (sec. 830)

The Senate amendment contained a provision (sec. 851) that would amend section 814 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417) to require each Configuration Steering Board to track any changes in program requirements for a major defense acquisition program and that all such changes must receive approval by the service chief in consultation with the service secretary.

The House bill contained no similar provision.

The House recedes with an amendment that would clarify the types of changes required to be approved by the service chief.

The Senate amendment contained a similar provision (sec. 848).

The Senate recedes with an amendment that would require that the independent estimate of the full-life cycle costs of a program include the costs of training.

Revision to duties of the Deputy Assistant Secretary of Defense for Developmental Test and Evaluation and the Deputy Assistant Secretary of Defense for Systems Engineering (sec. 832)

The House bill contained a provision (sec. 862) that would amend section 139b of title 10, United States Code, to clarify that the Deputy Assistant Secretary of Defense for Developmental Test and Evaluation and the Deputy Assistant Secretary of Defense for Systems Engineering advise the Milestone Decision Authority regarding review and approval of developmental test plans and systems engineering plans.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would authorize the Deputy Assistant Secretary of Defense for Developmental Test and Evaluation and the Deputy Assistant Secretary of Defense for Systems Engineering to review developmental test and evaluation and systems engineering master plans for major defense acquisition programs, respectively, and advise relevant technical authorities on the incorporation of best practices for programs under consideration.

SUBTITLE D—PROVISIONS RELATING TO ACQUISITION WORKFORCE

Amendments relating to Defense Acquisition Workforce Development Fund (sec. 841)

The House bill contained a provision (sec. 811) that would amend section 1705 of title 10, United States Code, to make permanent the authority for both the Defense Acquisition Workforce Development Fund and the associated expedited hiring authority.

The Senate amendment also contained a provision (sec. 1106) that would extend the expedited hiring authority for designated defense acquisition workforce positions for 5 years.

The House recedes with an amendment that would combine the provisions. The provision would make permanent the authority for both the Defense Acquisition Workforce Development Fund and the associated expedited hiring authority, as well as making technical revisions to the administration of the Fund and to the biennial strategic workforce plan.

Dual-track military professionals in operational and acquisition specialties (sec. 842)

The House bill contained a provision (sec. 812) that would amend section 1722a of title 10, United States Code, by reinstituting a dual-tracking system of primary and functional secondary career fields for officers and noncommissioned officers serving in acquisition positions by dual-tracking such personnel in operational and acquisition career fields under the shared accountability and responsibility of the military service chiefs and component acquisition executives for career path management and selections.

The Senate amendment contained a similar provision (sec. 503) that would provide for an enhanced dual track career path in combat arms and a functional secondary career in acquisition to more closely align military operational requirements and acquisition and include business and commercial training as joint professional military education.

The Senate recedes.

We encourage the Secretary to ensure that the curriculum for Phase II joint professional military education includes matters in acquisition to ensure the successful per-

formance in the acquisition or acquisition related fields.

Provision of joint duty assignment credit for acquisition duty (sec. 843)

The House bill contained a provision (sec. 813) that would amend section 668 of title 10, United States Code, by adding to the term “joint matters” the inclusion of acquisition matters addressed by military personnel.

The House recedes.

SUBTITLE E—PROVISIONS RELATING TO COMMERCIAL ITEMS

Procurement of commercial items (sec. 851)

The Senate recedes with an amendment that would clarify the hierarchy of information that can be requested by the Department of Defense to be submitted by a contractor to support a price reasonableness determination.

Market research and preference for commercial items (sec. 855)

The Senate amendment contained a provision (sec. 862) that would require the Under Secretary of Defense for Acquisition, Technology and Logistics to issue guidance to ensure that defense acquisition officials fully comply with the requirements of section 2377 of title 10, United States Code.

The Senate amendment contained a provision (sec. 865) that would limit the conversion of the procurement of a commercial item or commercial service to a non-commercial acquisition procedure unless the Secretary of Defense certifies to the congressional defense committees that the Department of Defense will realize a significant cost savings as compared to the cost of procuring a similar quantity of such item or level of service using commercial acquisition procedures.

The House bill contained no similar provision.

The House recedes with an amendment that would require a written determination to be made prior to any conversion of the procurement of commercial items to a non-commercial acquisition procedure. We also require the Secretary of Defense to establish procedures to track conversions of future contracts and subcontracts for improved analysis and reporting.

Treatment of goods and services provided by nontraditional defense contractors as commercial items (sec. 857)

The Senate amendment contained a provision (sec. 866) that would amend chapter 140 of title 10, United States Code, to include a new provision that would authorize the Department of Defense to treat goods and services provided by a non-traditional contractor as defined in section 2302(9) of title 10, United States Code, as a commercial item.

SUBTITLE F—INDUSTRIAL BASE MATTERS
Amendment to Mentor-Protégé Program (sec. 861)

The House bill contained a provision (sec. 831) that would codify the Department of Defense Mentor-Protégé Pilot Program in Title 10 United States Code as a permanent program.

The Senate amendment contained a provision (sec. 877) that would extend the authorization for Department of Defense Mentor-Protégé Pilot Program by 1 year.

The House recedes with an amendment that would clarify the eligibility requirements, forms of assistance, extension of the authorization and reporting requirements.

We note that the Congressionally-mandated Mentor Protégé program is intended to support efforts of small and disadvantaged businesses to partner with established defense suppliers to improve their ability to deliver needed technologies and services to the Department of Defense. The committee is concerned that the program may not always be executed to most effectively achieve mandated goals. Analysis of this program indicates that in some cases, protégé firms participating in this program had received millions of dollars in federal prime contract awards prior to the establishment of their Mentor-Protégé agreements, indicating they may have possessed sufficient ability to market their goods and services to federal customers without the need for additional developmental assistance.

We direct the Secretary of Defense to report to the House Committee on Armed Services and the Senate Committee on Armed Services, within 90 days of the enactment of this Act, on changes to program policy and metrics that would ensure the program meets the goal of enhancing the defense supplier base in the most effective and efficient manner. The report shall include recommendations to better direct the developmental assistance to the most appropriate

disadvantaged small business concerns, including nontraditional defense contractors currently providing goods or services in the private sector that are most critical to enhancing the capabilities of the defense supplier base and fulfilling key Department needs. The report shall describe how the Department will strengthen the review processes of program investments to ensure activities proposed in developmental plans are necessary for the protégé's development, taking into account the protégé's reported prime contract and subcontract awards, and that mentors are obtaining the best value for all reimbursed activities. The report shall also assess alternate models for incentives for participation by mentor companies in the program other than direct reimbursement, and shall detail program metrics that would enable the Department evaluate the program's return on investment and the actual impact of the development assistance on the protégé's ability to support DOD needs. We recommend that the Secretary ensure that the annual reports generated by the Defense Contract Management Agency are sufficient to be used to evaluate team performance and mentor reimbursement.

Further, we direct the U.S. Comptroller General of the United States, within 1 year of enactment of this Act, report to the House Committee on Armed Services and the Senate Committee on Armed Services, with an assessment of the efficacy of the DOD Mentor-Protégé pilot program, recommend ways to harmonize the DOD Mentor-Protégé pilot program with the Small Business Administration's Mentor-Protégé program, and discuss whether the reimbursement mechanism for the DOD Mentor-Protégé pilot program should be maintained.

Amendments to data quality improvement plan (sec. 862)

The House bill contained a provision (sec. 832) that would amend section 15(s) of the Small Business Act (15 U.S.C. 644(s)) to require the Administrator of the Small Business Administration to annually provide to the Committee on Small Business of the House of Representatives and the Committee on Small Business and Entrepreneurship of the Senate certification of the accuracy and completeness of data reported on bundled and consolidated contracts. This section would also require the Comptroller General of the United States to provide a report to the aforementioned committees not later than the first day of fiscal year 2019 on the effectiveness of the certification process and an assessment of whether contracts were accurately labeled as bundled or consolidated.

The Senate amendment contained no similar provision.

The Senate recedes.

Notice of contract consolidation for acquisition strategies (sec. 863)

The House bill contained a provision (sec. 833) that would amend section 44(c)(2) of the Small Business Act (15 U.S.C. 657q(c)(2)) to require the senior procurement executive or chief acquisition officer to announce through a public website that a determination has been made to bundle or consolidate contracts within 1 week of making the determination, but no later than 1 week prior to the issuance of a solicitation.

The Senate amendment contained no similar provision.

The Senate recedes.

Clarification of requirements related to small business contracts for services (sec. 864)

The House bill contained a provision (sec. 834) that would amend section 8(a)(17) of the Small Business Act (15 U.S.C. 637(a)(17)) to clarify that the statute applies to contracts for goods, but not services or construction.

We note that the non-manufacturer rule (NMR) was established to ensure that, when competition for a contract for goods is restricted to small businesses, the goods ultimately purchased were indeed the product of a small business. However, we are concerned that the NMR is being applied to services and construction contracts and could limit small business participants contracting for services and construction to the Federal Government. Therefore, we believe this clarification to section 8(a)(17) is necessary.

The Senate amendment contained no similar provision.

The Senate recedes.

Certification requirements for Business Opportunity Specialists, commercial market representatives, and procurement center representatives (sec. 865)

The House bill contained a provision (sec. 840) that would amend section 15 and section 4 of the Small Business Act (15 U.S.C. 644 and 633, respectively) to set certification requirements for commercial market representatives and to modify the current certification requirements for procurement center representatives and Business Opportunity Specialists.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

Modifications to requirements for qualified HUBZone small business concerns located in a base closure area (sec. 866)

This section would also amend section 3(p)(5)(A)(i)(1) of the Small Business Act (15 U.S.C. 632(p)(5)(A)(i)(I)) to include allowed covered base closure area HUBZone participants to meet the program's employment requirements by hiring 35 percent of their employees from any qualified HUBZone, and would amend section 3(p)(4)(D) of the Small Business Act (15 U.S.C. 632(p)(4)(D)) to extend physical boundaries of the covered base closure area, for purpose of the HUBZone program, to include lands within a 25-mile radius of the base.

The Senate amendment contained two similar provisions (sec. 882 and 883) that would amend the Small Business Act, title 15, United States Code to authorize the inclusion of qualified disaster areas to the Historically Underutilized Business Zone program administered by the Small Business Administration and to authorize the inclusion of base closure areas to the Historically Underutilized Business Zone program administered by the Small Business Administration.

The Senate recedes with an amendment that would combine both provisions.

Joint venturing and teaming (sec. 867)

The House bill contained a provision (sec. 843) that would amend section 15(e)(4) and 15(q)(1) of the Small Business Act (15 U.S.C. 644(e)(4) and 15 U.S.C. 644(q)(1)), respectively, by requiring agencies to give due consideration to the capabilities and past performances of the small businesses that submit offers as teams or joint ventures when the contract is bundled, consolidated, or for a multiple-award contract.

The Senate recedes.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment to remove the requirement for the establishment and execution of the program before the end of fiscal year 2017.

Establishment of an Office of Hearings and Appeals in the Small Business Administration; petitions for reconsideration of size standards (sec. 869)

The House bill contained a provision (sec. 845) that would amend section 5 of the Small Business Act (15 U.S.C. 634) that would establish an Office of Hearings and Appeals in the Small Business Administration that would review petitions for the revision of small business size standards.

The Senate amendment contained no similar provision.

The Senate recedes.

Additional duties of the Director of Small and Disadvantaged Business Utilization (sec. 870)

The Senate amendment contained a provision (sec. 885) that would require the small business offices in the Office of the Secretary of Defense and the military departments to serve as intermediaries between small businesses and contracting officials prior to the award of contracts in cases where a small business prospective contractor notifies the small business office that it has reason to believe that the contracting process has been modified to preclude a small business from bidding on the contract or would give another contractor an unfair competitive advantage.

The House bill contained no similar provision.

The House recedes with an amendment that would amend section 15(k) of the Small Business Act (title 15, United States Code, section 644) to describe the responsibilities of federal agency Office of Small and Disadvantaged Business Utilization offices in cases where a small business concern prior to the award of a contract believes that a solicitation, request for proposal, or request for quotation might unduly restrict the ability of the small business concern to compete for the award.

Including subcontracting goals in agency responsibilities (sec. 871)

The House bill contained a provision (sec. 841) that would amend section 1633(b) of the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112-239) to include consideration of success in attainment of small business subcontracting goals as part of agency responsibilities.

The Senate amendment contained no similar provision.

The Senate recedes.

Reporting related to failure of contractors to meet goals under negotiated comprehensive small business subcontracting plans (sec. 872)

The Senate amendment contained a provision (sec. 828) that would amend section 834(d) of the National Defense Authorization Act for Fiscal Years 1990 and 1991 (Public Law 101-189) to require the Secretary of Defense to report to Congress on any negotiated comprehensive subcontracting plan that the Secretary determines did not meet

the subcontracting goals negotiated in the plan for the prior fiscal year.

The House bill contained no similar provision.

The House recedes.

Pilot program for streamlining awards for innovative technology projects (sec. 873)

The Senate amendment contained a provision (sec. 831) that would establish a pilot program to provide an exception from the requirements under sections 2306a(1) and 2313 of title 10, United States Code, for contracts or subcontracts valued at less than \$7.5 million that are awarded based on a technical merit based selection procedure.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Surety bond requirements and amount of guarantee (sec. 874)

The House bill contained a provision (sec. 839) that would: (1) amend section 411 of the Small Business Investment Act of 1958 (15 U.S.C. 694b(c)(1)) to increase the guarantee rate for surety bonds issued pursuant to the Small Business Administration's (SBA) Preferred Program to 90 percent; (2) amend chapter 93 of title 31, United States Code, to require that individual sureties have sufficient assets to redeem the bonds; and (3) provide for a study by the Comptroller General of the effects of these changes on small and disadvantaged business enterprises.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would retain the provision addressing the SBA program and the provision governing the use of individual sureties. However, each provision will be subject to a 1-year delay in implementation to allow for the necessary rulemaking. The agreement does not retain the provisions amending the SBA surety bond program, nor does it provide for a study by the Comptroller General.

We believe the compromise will allow for greater protection of federal agencies and subcontractors protected by surety bonds, while allowing the SBA more time to document the effects of changes to the surety bond program made by section 1695 of the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112-239).

Review of Government access to intellectual property rights of private sector firms (sec. 875)

The House bill contained a provision (sec. 835) that would require the Secretary of Defense to enter into a contract with an independent entity with appropriate expertise to conduct a review of Department of Defense regulations and practices related to Government access to and use of intellectual property rights of private sector firms.

The Senate amendment contained no similar provision.

The Senate recedes.

Inclusion in annual technology and industrial capability assessments of a determination about defense acquisition program requirements (sec. 876)

The House bill contained a provision (sec. 322) that would amend section 2505 of title 10, United States Code, to include in the required periodic assessment of defense capability an additional requirement for the Secretary of Defense to also determine the extent to which the requirements associated with defense acquisition programs can be satisfied by the present and projected performance capacities of industries supporting the sectors or capabilities in the assessment and evaluate the reasons for any variance from applicable preceding determinations.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the review of the number of industry sources and whether requirements could be satisfied by industries not actively supporting the Department of Defense.

SUBTITLE G—OTHER MATTERS

Consideration of potential program cost increases and schedule delays resulting from oversight of defense acquisition programs (sec. 881)

The House bill contained a provision (sec. 851) that would amend section 139 of title 10, United States Code, by including a new subsection that would require the Director of Operational Test and Evaluation to consider the potential for increases in program cost estimates or delays in schedule estimates in the implementation of policies, procedures, and activities related to operational test and evaluation, and to take appropriate action to ensure that the conduct of operational test and evaluation activities do not unnecessarily impede program schedules or increase program costs.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require that all relevant Department of Defense acquisition, management and oversight agencies consider the potential for increases in program costs or cost estimates or delays resulting from their office's oversight efforts with regards to defense acquisition.

Examination and guidance relating to oversight and approval of services contracts (sec. 882)

The House bill contained a provision (sec. 857) that would require the Under Secretary of Defense for Acquisition, Technology, and Logistics to complete an examination by March 1, 2016, of the decision authority related to acquisition of services and to develop and promulgate guidance to improve capabilities related to services contracts requirements development, source selection, and contract oversight and management.

The Senate amendment contained no similar provision.

The Senate recedes.

Streamlining of requirements relating to defense business systems (sec. 883)

The House bill contained a provision (sec. 858) that would revise section 2222 of title 10, United States Code, to clarify responsibilities for the management of defense business information technology systems. As a result, this section would repeal the current reporting requirement contained in section 2222 of title 10, United States Code, and insert a new annual reporting requirement through the year 2020 on the revised requirements of section 2222.

The Senate amendment contained a similar provision (section 871).

The agreement includes a provision that would combine the two provisions. The revised section 2222 of title 10, United States Code, streamlines the requirements for development and management of business systems, as well as associated reporting requirements; mandates elements of guidance to be issued by the Secretary of Defense on investments in and acquisition of business systems; clarifies the responsibilities of senior officials in the acquisition and management of business systems; and emphasizes the need for robust business process engineering prior to investment in commercial technology or the modification of commercial systems for use by the Department of Defense.

Procurement of personal protective equipment (sec. 884)

The House bill contained a provision (sec. 860) that would ensure the Secretary of Defense uses best value contracting methods to

the maximum extent practicable when procuring an item of personal protective equipment.

The Senate amendment contained a similar provision (sec. 824) that would: (1) prohibit the use of reverse auctions and lowest priced technically acceptable (LPTA) contracting methods for the procurement of personal protective equipment where the level of quality needed or the failure of the item could result in combat casualties; and (2) establish a preference for best value contracting methods when procuring such equipment.

The Senate recedes with an amendment to combine the two provisions to ensure that the Department of Defense to the maximum extent practicable uses best value criteria for the procurement of these items.

We are concerned that an overarching bias towards reducing prices paid by the Department of Defense (DOD) to the exclusion of other factors could result in DOD buying low cost products that have the potential to negatively impact the safety of U.S. military personnel. We believe this could be a particular problem with the quality of personal protective equipment such as combat helmets, body armor, ballistic eye protection, and other similar individual equipment issued to U.S. military personnel.

Amendments concerning detection and avoidance of counterfeit electronic parts (sec. 885)

The House bill contained a provision (sec. 861) that would amend section 818(c)(2)(B) of the National Defense Authorization Act for Fiscal Year 2012 (Public Law 112—81) to expand the eligibility for covered contractors to include costs associated with rework and corrective action related to counterfeit electronic parts as allowable costs under Department of Defense contracts.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would allow the Department of Defense to approve of industry-selected trusted suppliers.

Exception for AbilityOne products from authority to acquire goods and services manufactured in Afghanistan, Central Asian States, and Djibouti (sec. 886)

The House bill contained a provision (sec. 865) that would amend Section 886 of the National Defense Authorization Act for Fiscal Year 2008 (10 U.S.C. 2302 note) and Section 1263 of the Carl Levin and Howard P. 'Buck' McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291) to exclude items that can be procured under the AbilityOne procurement list outlined in section 8503(a) of title 41, United States Code from preferred local procurement in Afghanistan, Iraq, Central Asia, and Djibouti.

The Senate amendment contained a similar provision (sec. 884) that would amend section 886 National Defense Authorization Act for Fiscal Year 2008 (10 U.S.C. 2302 note) and section 801 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84) to exclude items in the procurement list described in section 8503(a) of title 41 from preferred local procurement in Afghanistan and Central Asia, if such a good can be produced and delivered by a qualified non-profit agency for the blind or a non-profit agency for other severely disabled in a timely fashion to support mission requirements.

The House recedes with a technical amendment.

Effective communication between government and industry (sec. 887)

The House bill contained a provision (sec. 866) that would require the Federal Acquisition Regulatory Council to prescribe a regulation making clear that agency acquisition

personnel are permitted and encouraged to engage in responsible and constructive exchanges with industry, so long as those exchanges are consistent with existing law and regulation and do not promote an unfair competitive advantage to particular firms.

The Senate amendment contained no similar provision.

The Senate recedes.

Standards for procurement of secure information technology and cyber security systems (sec. 888)

The House bill contained a provision (sec. 870) that would require the Secretary of Defense to conduct an assessment of the application of the Open Trusted Technology Provider Standard to Department of Defense procurements for information technology and cyber security acquisitions.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would expand on the types of open technology standards to be assessed.

Unified information technology services (sec. 889)

The House bill contained no similar provision.

The House recedes with a technical amendment.

Cloud strategy for Department of Defense (sec. 890)

The Senate amendment contained a provision (sec. 874) that would require the Chief Information Officer (CIO) of the Department of Defense to develop a cloud strategy for the secret level of classified data and the Secret Internet Protocol network (SIPRnet). The provision would also require the CIO to develop a consistent pricing and cost recovery process for the use by Department of Defense components of the Intelligence Community's cloud services. The provision would also require the CIO to assess the feasibility and advisability of imposing a minimum set of open standards for cloud infrastructure, middle-ware, metadata, and application programming interfaces to promote interoperability, information sharing, access to data, and competition.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Development period for Department of Defense information technology systems (sec. 891)

The Senate amendment contained a provision (sec. 875) that would amend section 2445b of title 10, United States Code, to modify requirements applicable to a major automated information system program that fails to achieve a full deployment decision within 5 years after the initiation of the program.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Revisions to pilot program on acquisition of military purpose nondevelopmental items (sec. 892)

The Senate amendment contained a provision (sec. 876) that would amend section 866 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383) to expand the applicability of the pilot program on the acquisition of military

purpose nondevelopmental items to additional classes of contractors and apply the standards of the Competition in Contracting Act of 1984 (10 U.S.C. 2304) to these contracts.

The House bill contained no similar provision.

The House recedes.

Improved auditing of contracts (sec. 893)

The Senate amendment contained a provision (sec. 878) that would authorize the Defense Contract Audit Agency (DCAA) to provide outside audit support to non-Defense Agencies upon certification that the backlog for incurred cost audits is less than 12 months of incurred cost inventory.

The House bill contained no similar provision.

The House recedes with an amendment that would prohibit the DCAA from providing outside audit support to non-Defense Agencies until DCAA certifies that the backlog for incurred costs is less than 18 months of incurred-cost inventory, not require the Secretary of Defense to use outside auditing staff to help address DCAA's audit backlog, and streamline reporting requirements.

Sense of Congress on evaluation method for procurement of audit or audit readiness services (sec. 894)

The House bill contained a provision (sec. 864) that would require the Secretary of Defense to establish values and metrics for the procurement of audit or audit readiness services and review the offeror's past performance before using a lowest price, technically acceptable evaluation method for the procurement of such services.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment stating that before using the lowest price, technically acceptable evaluation method for the procurement of audit or audit readiness services, the Secretary of Defense should establish the values and metrics for evaluating companies offering audit services, including financial management and audit expertise and experience, personnel qualifications and certifications, past performance, technology, tools, and size.

Mitigating potential unfair competitive advantage of technical advisors to acquisition programs (sec. 895)

The Senate amendment contained a provision (sec. 881) that would require the Under Secretary of Defense for Acquisition, Technology, and Logistics to issue guidance on identifying and addressing potential unfair competitive advantage of technical advisors to acquisition officials.

The House bill contained no similar provision.

The House recedes with an amendment to revise the guidance required under the provision.

We believe that the technical advisors described in the provision include contractors, federally funded research and development centers, university-affiliated research centers, non-profit entities, and federal laboratories that provide systems engineering and technical direction, participate in technical evaluations, support preparation of specifications or work statements, or otherwise provide technical advice to acquisition officials on the conduct of defense acquisition programs. We further believe that "potentially unfair competitive advantage" includes unequal access to acquisition officials responsible for award decisions or allocation of resources, or to acquisition information relevant to award decisions or allocation of resources.

In responding to this provision, we expect the Secretary to review these definitions, as well as the efficacy of current conflict-of-in-

terest policies, the use of non-disclosure agreements, the application of appropriate regulations, and decisions to allocate resources through direct award of funds to intramural programs or sole-source task orders to entities that provide technical advice on defense programs versus open and competitive extramural solicitations. Based on the results of this review, we expect the Secretary to review and revise guidance to clarify these issues if necessary.

We also expect the Secretary to develop metrics and processes for collecting and evaluating complaints and concerns relating to examples of the exploitation of unfair competitive advantage by technical advisors. Survey on the costs of regulatory compliance (sec. 896)

The Senate amendment contained a provision (sec. 879) that would require the Secretary of Defense to conduct a survey of defense contractors with the highest level of reimbursements for cost-type contracts and identify the cost to industry of regulatory compliance with government unique acquisition regulations and requirements that are not imposed on commercial item contracts.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Treatment of interagency and State and local purchases when the Department of Defense acts as contract intermediary for the General Services Administration (sec. 897)

The House bill contained a provision (sec. 847) on the sense of Congress on the treatment of the procurement of fire hoses.

The Senate amendment contained a similar provision (sec. 830) that would clarify that the requirements under chapter 148 of title 10, United States Code would not apply to a contract executed by the Department of Defense where the Department is acting as an intermediary for the General Services Administration (GSA) for purchase of products by other federal agencies or state and local governments.

The House recedes.

We note that the chapter 148 process of obtaining a domestic non-availability determination of certain products, such as fire hoses, could have a significant effect on the ability of Federal agencies to respond to natural disasters or other emergencies.

Competition for religious services contracts (sec. 898)

The Senate amendment contained a provision (sec. 829) that would ensure that non-profit organizations can compete for contracts for religious related services on a United States military installation.

The House bill contained no similar provision.

The House recedes.

Pilot program regarding risk-based contracting for smaller contract actions under the Truth in Negotiations Act (sec. 899)

The Senate amendment contained a provision (sec. 823) that would amend the Truth in Negotiations Act (Public Law 87-653; 10 U.S.C. section 2306a) to raise the threshold for the requirement to provide certified cost or pricing data in non-price competitive procurements on non-commercial items from the current \$750,000 to \$5.0 million and require the Department of Defense (DOD) to establish a risk-based contracting approach, under which certified cost or pricing data would be required for a risk-based sample of contracts, to ensure that DOD is getting fair and reasonable prices for such contracts.

The House bill contained no similar provision.

The House recedes with an amendment that would establish a pilot program to test this authority.

LEGISLATIVE PROVISIONS NOT

ADOPTED

Sense of Congress on the desired tenets of the defense acquisition system

The House bill contained provisions (sec. 800 and sec. 821) that express the sense of Congress that acquisition reform efforts and weapon system acquisitions require improvement.

The Senate amendment contained no similar provision.

The House recedes.

We note the concern that the incentives of the current acquisition system lead to too many defense acquisitions concurrently chasing finite dollars. We are concerned that the Nation often endures weapons delivered late, at too high of a cost, with performance that falls short, and that are difficult and costly to maintain. Furthermore, the conventional acquisition process is not sufficiently agile to support warfighter demands.

We express the need for reform for national security reasons to maintain technological and military dominance. We are concerned that the current process is so rigid and time-consuming that the Department is often unable to effectively tap into the innovation occurring in the commercial marketplace. We note that commercial research and development (R&D) now represents 75 percent of the national total, and global R&D is now more than twice that of the United States. We suggest that removing unnecessary legislative, regulatory, and cultural barriers to new commercial competitions is necessary to create better incentives for and increased access to innovation beyond the Department. We believe these steps are critical for national security in the future, especially in areas such as cyber security, robotics, data analytics, miniaturization, and autonomy.

We are concerned that the Department of Defense currently lacks effective oversight over a contracted services portfolio that has grown in magnitude over the last decade. The military departments and defense agencies have failed to adopt leading private sector best practices in the acquisition and management of commercially available services and information technologies. Departmental leadership has limited insight into the services being acquired and even less awareness of the services that may be needed in the future.

We believe that the acquisition reform provisions in this bill are a first start in addressing these challenges but it will require all stakeholders in the acquisition system—the Department of Defense, Congress, and industry—to work together to achieve success. Success will be measured by the timely delivery of affordable and effective military equipment and services. We will continue to work for an acquisition system that is more proactive, agile, transparent, and innovative.

Independent study of matters related to bid protests

The House bill contained a provision (sec. 803) that would require the Secretary of Defense to enter into a contract, within 180 days after the date of the enactment of this Act, with an independent research entity that is a not-for-profit entity or a federally funded research and development center with appropriate expertise and analytical capability to carry out a comprehensive study of factors leading to bid protests.

The Senate amendment contained a similar provision (sec. 880) that would require a report by the Government Accountability Office on bid protests.

The agreement does not include either of these provisions.

Compliance with inventory of contracts for services

The House bill contained a provision (sec. 807) that would limit the expenditure of

funds authorized for the operation of the Office of the Under Secretary of Defense for Personnel and Readiness until certain conditions are met regarding the Department of Defense's compliance with the requirement for an inventory of contracts for services.

The Senate amendment contained no similar provision.

The House recedes.

We continue to recognize the value of obtaining better visibility over the use of services contracts by defense components and agencies to better understand how contracted services are being used to support Department of Defense missions. We note a distinction between services contracts which are measured in the same manner as staff augmentation contracts of contractor full-time equivalents and performance-based services contracts and other services contracts which rely on a high degree of embedded capital equipment and business process re-engineering. We direct the Secretary of Defense to examine the approach the Department is taking to comply with section 2330a, United States Code, and determine whether it is or is not producing a product that enhances the oversight of service contracting activities and submit a report explaining the results of that examination to the congressional defense committees no later than March 1, 2016, including efforts to better manage contractor and civilian personnel costs within the Department. We recognize the information technology aspects of the inventory present technical challenges and encourage the Secretary of Defense to investigate and pursue existing Department of Defense and service component information technology systems which could present a timely solution and provide data relevant to strategic workforce planning. To the extent that the Secretary identifies that the process and technology are not producing an oversight-enhancing product, we expect the Secretary to propose an alternative method of inventory.

Requirement for acquisition skills assessment biennial strategic workforce plan

The House bill contained a provision (sec. 814) that would amend section 115b of title 10, United States Code, which requires the Secretary of Defense to submit a biennial strategic workforce plan on critical skills and competencies of the civilian employee workforce of the Department of Defense, to include an additional assessment of new or expanded critical skills and competencies needed by the civilian employee workforce to address new acquisition process requirements established by law or policy.

The Senate amendment contained no similar provision.

The House recedes.

Modification to requirements relating to determination of contract type for major defense acquisition programs and major systems

The House bill contained a provision (sec. 824) that would amend section 2306 of title 10, United States Code, by adding a new subsection, and repealing the requirements in certain subsections of section 818 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364), relating to the modification of Department of Defense regulations.

The Senate amendment contained a related provision (sec. 821) that would require the Defense Federal Acquisition Regulation Supplement to be revised to establish a preference for fixed-price contracts, including fixed-price incentive contracts, in the determination of contract type for development programs.

The agreement does not include either provision.

Requirement that certain ship components be manufactured in the national technology and industrial base

The House bill contained a provision (sec. 836) that would amend section 2534(a) of title 10, United States Code, and would require certain auxiliary ship components to be procured from a manufacturer in the national technology and industrial base.

The Senate amendment contained no similar provision.

The House recedes.

Policy regarding solid rocket motors used in tactical missiles

The House bill contained a provision (sec. 837) that would require the Secretary of Defense to ensure that every tactical missile program of the Department of Defense that uses solid propellant as the primary propulsion system shall have at least one rocket motor supplier within the national technology and industrial base and would allow the Secretary to waive this requirement in the case of compelling national security reasons.

The Senate amendment contained no similar provision.

The House recedes.

We agree on the importance of sustaining rocket motor production options to ensure a healthy tactical missile industrial base.

FAR Council membership for administrator of Small Business Administration

The House bill contained a provision (sec. 838) that would amend section 1302 of title 41, United States Code, by adding the Administrator of the Small Business Administration to the Federal Acquisition Regulatory (FAR) Council.

The Senate amendment contained no similar provision.

The House recedes.

We believe that the FAR Council should work closely with the Small Business Administration to ensure that consistent regulations are issued from both organizations, to the benefit of both Federal agencies and their small business contractors.

Limitations on reverse auctions

The House bill contained a provision (sec. 846) that would amend the Small Business Act (15 U.S.C. §631 et. seq.) to prohibit the use of reverse auctions for the purchase of construction services; goods purchased to protect Federal employees, members of the Armed Forces, or civilians from bodily harm; and goods or services awarded based on factors other than price and technical responsibility if the contract is awarded using a Small Business Act procurement authority. For all other reverse auctions conducted using a Small Business Act procurement authority, the provision required training of contracting officers, restricted the activities that could be undertaken by third-party agents, required honesty in price rankings, and required that revisions to offers be permitted throughout the course of the auction.

The Senate amendment contained no similar provision.

The House recedes.

We note that similar language independent of the Small Business Act and applicable only to the Department of Defense was adopted as section 824 of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291). Recognizing that two-thirds of reverse auctions are conducted outside of the Department of Defense, we see value in addressing the use of this procurement method in civilian agencies but believe it is premature to place additional restrictions upon the Department until section 824 of last year's authorization is implemented.

Extension of limitation on aggregate annual amount available for contract services

The House bill contained a provision (sec. 863) that would extend the limitation on the aggregate annual amount available for contract services.

The Senate amendment contained no similar provision.

The House recedes.

Strengthening program and project management performance by the Department of Defense

The House bill contained a provision (sec. 867) that would require the Director of the Office of Management and Budget to develop a plan to strengthen program and project management performance for improving management of IT programs and projects.

The Senate amendment contained a similar provision (sec. 810) that would outline Department of Defense responsibilities under chapter 87 of title 10, United States Code for improving program and project management.

The agreement does not include either provision.

Synchronization of defense acquisition curricula

The House bill contained a provision (sec. 868) that would require that the President of the Defense Acquisition University convene an annual review board to synchronize defense acquisition curricula across the Department of Defense.

The Senate amendment contained no similar provision.

The House recedes.

We note that the Defense Acquisition University (DAU) plays an important role in enhancing the quality and innovative capacity of the defense acquisition workforce. DAU training and education will be critical to enable the workforce to better position DOD to access global and commercial technologies and services, as well as to put the tenets of acquisition reform into actual practice. We urge DAU to work with other educational institutions within and outside DOD to leverage a wide array of available expertise and synchronize acquisition educational activities, best practices and curricula. Further, in order to enhance education and training of the acquisition workforce and support effective acquisition reform, we direct DAU to engage with leading educational and research experts on procurement and acquisition issues from both within and outside the Federal Government, including through personal exchanges, joint studies and analyses, and other interactions.

Research and analysis of defense acquisition policy

The House bill contained a provision (sec. 869) that would amend section 1746(a) of title 10, United States Code to add examples of academic institutions that could be used for the research and analysis of defense acquisition policy issues.

The Senate amendment contained no similar provision.

The House recedes.

Modifications to the justification and approval process for certain sole-source contracts for small business concerns

The House bill contained a provision (sec. 871) that would repeal the requirement for the simplified justification and approval process established in section 811 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84; 123 Stat. 2405; 41 U.S.C. 3304 note).

The Senate amendment contained no similar provision.

The House recedes.

Annual report on foreign procurements

The Senate amendment contained a provision (sec. 886) that would require the Secretary of Defense to provide a report relating

to specific foreign procurements by the Department of Defense that result from waivers to the Buy America Act.

The House bill had no similar provision.

The Senate recedes.

We note that the Department's Report to Congress on Fiscal Year 2014 Purchases from Foreign Entities identified approximately \$5.4 billion in spending on nearly 23,000 purchases for which the restrictions of the Buy America Act are not applicable because they are for items that are manufactured and used outside the United States.

We direct the Secretary of Defense to submit to the appropriate congressional defense committees a report listing specific procurements by the Department of Defense in fiscal year 2016 of articles, materials, or supplies valued greater than \$5.0 million, using the exception under section 8302(a)(2)(A) of title 41, United States Code, relating to articles, materials, and supplies for use outside the United States. We note that this report may be submitted as part of the report required under section 8305 of such title.

TITLE IX—DEPARTMENT OF DEFENSE ORGANIZATION AND MANAGEMENT

LEGISLATIVE PROVISIONS ADOPTED

Update of statutory functions of the Chairman of the Joint Chiefs of Staff relating to joint force development activities (sec. 901)

The Senate amendment contained a similar provision (sec. 1048).

The Senate recedes with a clarifying amendment.

The Senate amendment contained no similar provision.

The House recedes.

Reorganization and redesignation of Office of Family Policy and Office of Community Support for Military Families with Special Needs

The House recedes.

We have included in the outcome for sec. 321 of the House bill an additional reporting requirement related to the methodology for making cost comparisons between Department of Defense workforce sectors.

TITLE X—GENERAL PROVISIONS

SUBTITLE A—FINANCIAL MATTERS

General transfer authority (sec. 1001)

The House bill contained a provision (sec. 1001) that would allow the Secretary of Defense to transfer up to \$5.0 billion of fiscal year 2016 funds authorized in division A of this Act to unforeseen higher priority needs.

The Senate bill contained a provision (sec. 1001) that would allow the Secretary of Defense to transfer up to \$4.5 billion of fiscal year 2016 funds authorized in division A of this Act to unforeseen higher priority needs.

The House recedes.

Accounting standards to value certain property, plant, and equipment items (sec. 1002)

The House bill contained a provision (sec. 1003) that would require the Secretary of Defense to coordinate with the Federal Accounting Standards Advisory Board to establish accounting standards for large and unordinary general property, plant, and equipment items.

The Senate amendment contained no similar provision.

The agreement includes this provision.

Report on auditable financial statements (sec. 1003)

The House bill contained a provision (sec. 1004) that would require the Department of Defense to develop a report ranking organizations according to their advancement in the achievement of auditable financial statements.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would modify the reporting requirement.

We note that 2015 marks 10 years implementing audit and financial management improvement efforts under the Department's Financial Improvement and Audit Readiness (FIAR) plan. We are concerned that recent setbacks could affect the long term goals of the Department. For fiscal year 2014, the Department significantly scaled back its effort to audit the one-year Statement of Budgetary Activity (SBA) instead of the multi-year Statement of Budgetary Resources

(SBR) required by the 2014 statutory deadline. In 2015, the Department withdrew its clean opinion on the Marine Corps' fiscal year 2012 SBA. Despite substantial and unquantified resources being invested in IT systems, personnel, training, and consulting services over the last decade, progress remains limited.

The Department's 2017 deadline to declare audit readiness for its full complement of financial statements is fast approaching. Well-known and well-documented material weaknesses that are supposed to be addressed under the FIAR plan remain in place. We look forward to continued discussions with the Department on how these weaknesses will be resolved in time for the full audit of the Department's fiscal year 2018 financial statements.

Further, we believe that the Department should better understand best practices of private and public sector organizations who have obtained and maintained clean audits, including many who are large, multinational corporations, deal with emergency operations, and work with classified materials and activities. We expect that the implementation of some of these practices, especially the use of organizational incentives to drive change, development of milestones to measure progress towards auditability, and more strategic and rigorous business process re-engineering and IT modernization, will support DOD's efforts to obtain clean audits in a more effective and efficient manner.

Sense of Senate on sequestration (sec. 1004)

The Senate bill contained a provision (sec. 1004) that stated sequestration is an inadequate budgeting tool to address the nation's deficits and debt and that relief must be accomplished for fiscal year 2016 and 2017. Furthermore relief should include equal defense and non-defense relief and be offset through changes in mandatory and discretionary categories, and revenues.

The House bill contained no similar provision.

The House recedes with an amendment that states budget caps imposed by the Budget Control Act of 2011 must be modified or eliminated through a bipartisan legislative agreement.

Annual audit of financial statements of Department of Defense components by independent external auditors (sec. 1005)

The Senate amendment contained a provision (sec. 1002) that would require the Department of Defense Inspector General to fulfill its statutory audit responsibilities to perform financial statement audits for the military departments and other designated components of the Department by contracting with independent external auditors.

The House bill contained no similar provision.

The House recedes with an amendment that would clarify the selection and reporting requirements.

SUBTITLE B—COUNTER-DRUG ACTIVITIES

Extension of authority to support unified counterdrug and counterterrorism campaign in Colombia (sec. 1011)

The Senate amendment contained a provision (sec. 1011) that would extend for 2 fiscal years the authority of the Secretary of Defense to provide assistance to support the unified counterdrug and counterterrorism campaign of the Government of Colombia (Section 1021 of the National Defense Authorization Act for Fiscal Year 2005 (Public Law 108–375), as most recently amended by section 1011 of the National Defense Authorization Act for Fiscal Year 2015 (Public Law 113–291)).

The House bill contained no similar provisions.

The House recedes.

Extension and expansion of authority to provide additional support for counter-drug activities of certain foreign governments (sec. 1012)

The House bill contained a provision (sec. 1011) that would extend, by 1 year, the authority to provide support for counterdrug activities of certain foreign governments originally authorized by subsection (a)(2) of section 1033 of the National Defense Authorization Act for Fiscal Year 1998 (Public Law 105-85), and most recently amended by section 1013 of the National Defense Authorization Act for Fiscal Year 2011 (Public Law 113-291).

The Senate amendment contained a provision (sec. 1012) that would amend section 1033 of the National Defense Authorization Act for Fiscal Year 1998 (Public Law 105-85), as most recently amended by section 1013 of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291). Specifically, the provision would extend the Department of Defense’s (DOD) authority to provide additional support for counterdrug activities of certain foreign governments through fiscal year 2017, as well as add Kenya, Tanzania, and Somalia as countries eligible to receive assistance under this authority.

The House recedes with an amendment that would add the Governments of Kenya and Tanzania to the list of governments eligible to receive support under this authority as well as require the Secretary of Defense to submit a report to congressional defense committees on the Department’s planned use of this authority in the future.

We believe that the growing nexus between terrorism and transnational organized crime in East Africa warrants increased attention by the Department of Defense. Therefore, we direct the Secretary of Defense to develop and submit not later than December 31, 2015 a plan for building the capacity of the Government of Somalia to combat the threat posed by illicit trafficking.

Sense of the Congress on Central America (sec. 1013)

The House bill contained a provision (sec. 1012) that would express a series of findings and a statement of policy on a Plan Central America to address violence, instability, illicit trafficking, and transnational organized crime in the region.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would express the Sense of Congress that the United States should, to the extent practicable, prioritize efforts to address the challenges to regional security in Central America.

SUBTITLE C—NAVAL VESSELS AND SHIPYARDS

Additional information supporting long-range plans for construction of naval vessels (sec. 1021)

The Senate amendment contained a provision (sec. 1024) that would require the Secretary of the Defense to provide additional information in the annual naval vessel construction plan required by section 231 of title 10, United States Code.

The House bill contained no similar provision.

The House recedes.

National Sea-Based Deterrence Fund (sec. 1022)

The House bill contained a provision (sec. 1051) that would amend section 1022 of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291) by expanding the transfer authority provided to the

National Sea-Based Deterrence Fund from the Department of the Navy to the Department of Defense; providing authority to enter into economic order quantity contracts for ballistic missile submarines and other nuclear powered vessels; and providing incremental funding and facilities funding authority. This section further requires the Secretary of the Navy to submit a report on the Fund to the congressional defense committees by March 1, 2016, and annually through the year 2025.

The Senate amendment contained a provision that would expand the transfer authority provided to the National Sea-Based Deterrence Fund from the Department of the Navy to the Department of Defense (sec. 1022).

The Senate recedes with an amendment that would expand the Fund to include the authorization of incremental funding authority, economic order quantity contract authority, advance construction authority, and transfer authority from any Department of Defense appropriation. In addition, the Senate amendment would add the authorization to transfer unobligated fiscal year 2017 funds into the Fund.

Because the *Ohio*-class replacement program is scheduled to carry 70 percent of our nation’s strategic weapons and the fiscal investments will make this program one of the largest acquisition efforts in the Department of Defense, we believe that the Secretary should have the authority to implement streamlined financial management and acquisition strategies for the program, including appropriate use of incremental funding and economic order quantity authority. We believe that the National Sea-Based Deterrence Fund could provide the Secretary with that flexibility, while ensuring that Congress has the correct visibility into the program. To that end, we expect that a budget request for the Fund would be accompanied by information sufficient for Congress to exercise adequate oversight of the Fund and urge the Secretary of Defense to develop a fiscal strategy that supports this strategic investment.

To better assess the most efficient method of procuring the *Ohio*-class replacement program and providing the oversight necessary for this unique investment, we direct the Secretary of Defense to submit a report to the congressional defense committees with the fiscal year 2017 budget request that includes the following elements:

(1) The acquisition strategy to build *Ohio*-class replacement submarines that will leverage the enhanced procurement authorities provided in the Fund, including allocation, facility, and vendor base considerations;

(2) An identification of any additional authorities the Secretary may need to make management of the *Ohio*-class replacement more efficient;

(3) An assessment of the acquisition strategy developed in paragraph (1) with a conventional acquisition strategy to include a cost assessment and overall impacts to the submarine industrial base;

(4) A description of how funds would be requested in and obligated from the National Sea-Based Deterrence Fund, including what, if any, connection the Fund will have with other appropriations accounts (e.g., Shipbuilding and Conversion, Navy);

(5) An explanation of how financial management accountability and transparency would be maintained related to funds moving in to and out of the National Sea-Based Deterrence Fund; and

(6) *Ohio*-class replacement construction elements that have been included in Research, Development, Testing and Evaluation, Navy budget request, including nuclear

components and common missile compartment construction efforts, listed by program element title and number with requested funding.

We look forward to reviewing the Secretary’s report, including options to better support an efficient acquisition strategy that could include coordinating with the *Virginia*-class submarine program, which will continue during the *Ohio*-class replacement submarine construction period. According to the Navy, it is likely that these programs will share some common components. The Navy may be able to coordinate component procurement across both submarine programs to achieve better efficiency and cost savings. Such coordination might be managed within the normal appropriations accounts, or could be facilitated by providing additional flexibility within the Fund.

Extension of authority for reimbursement of expenses for certain Navy mess operations afloat (sec. 1023)

The House bill contained a provision (sec. 1022) that would extend the authority for reimbursement of expenses for certain Navy mess operations afloat authorized in section 1014 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417), as amended by section 1021 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383), from September 30, 2015 to September 30, 2020, and certain technical and clarifying amendments.

The Senate amendment contained a similar provision (sec. 1023).

The Senate recedes.

Availability of funds for retirement or inactivation of Ticonderoga class cruisers or dock landing ships (sec. 1024)

The House bill contained a provision (sec. 1023) that would limit the obligation and expenditure of funds authorized to be appropriated or otherwise made available for fiscal year 2016 for the retirement, inactivation, or storage of *Ticonderoga*-class cruisers and *Whidbey Island*-class amphibious ships. The provision would also require the modernization of two *Ticonderoga*-class cruisers to begin in fiscal year 2016 only after sufficient materials are available to begin the modernization period. Finally, the modernization period would be limited to 2 years with the ability of the Secretary of the Navy to extend the period for another 6 months.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would only prohibit the retirement, preparation for retirement, inactivation, or placement in storage of any *Ticonderoga*-class cruisers or *Whidbey Island*-class amphibious ships, except to allow the modernization and upgrades for those ships to continue in accordance with the plan required by section 1026 of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291).

The Navy is inducting two cruisers into modernization status in fiscal year 2015 and plans to induct two additional cruisers into this status in fiscal year 2016. However, we understand the Navy has not programmed the manpower and operations funding for the remaining seven cruisers in the future years defense program (FYDP) beyond fiscal year 2016. We also understand that the FYDP does not support the long-term plan for modernization of these cruisers and dock landing ships beyond fiscal year 2018.

This is at odds with statements by Secretary of the Navy Ray Mabus that he is “100-percent” committed to ensuring the ships are modernized and returned back to sea and similar statements by other administration officials.

The lack of fiscal support in the fiscal year 2016 FYDP and previous requests for the early retirement of some of these cruisers has led us to question the administration's resolve to retain all of these cruisers through the end of their service lives. In order to demonstrate the administration's commitment to the plan, it is incumbent on the administration to close this gap in force structure statements and fiscal decisions. Continued congressional acceptance of the Navy's plan will be predicated on the administration's decision to fully program across the FYDP for manpower, readiness, and modernization for all cruisers and dock landing ships.

Limitation on the use of funds for removal of ballistic missile defense capabilities from Ticonderoga class cruisers (sec. 1025)

The House bill contained a provision (sec. 1024) that would prohibit the removal of ballistic missile capabilities from any of the Ticonderoga-class cruisers until the Secretary of the Navy certifies to the congressional defense committees that the Navy has obtained the ballistic missile capabilities required by the most recent Navy Force Structure Assessment or determined to upgrade such cruisers with an equal or improved ballistic missile defense capability.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that adds the following third option to the Secretary of the Navy's certification—obtaining at least 40 large surface combatants with ballistic missile defense capability.

Independent assessment of United States Combat Logistic Force requirements (sec. 1026)

The House bill contained a provision (sec. 143) that would require the Secretary of Defense to enter into an agreement with a federally funded research and development center to conduct an assessment of the anticipated future demands of the combat logistics force ships of the Navy and the challenges these ships may face when conducting and supporting future naval operations in contested maritime environments. This section would also require the Secretary of Defense to submit the assessment to the congressional defense committees by April 1, 2016.

The Senate amendment contained no similar provision.

The Senate recedes.

This provision would allow transfers to the United States for trial or continued detention pursuant to the Authorization for the Use of Military Force (Public Law 107-40) after the Secretary of Defense submits to the appropriate committees a plan for the disposition of all detainees held at Guantanamo, and the Congress approves of the plan through a joint resolution of Congress.

The Senate recedes with an amendment that the prohibition would apply to the De-

The Senate amendment contained a similar provision (sec. 1032) that would expire after the Secretary of Defense submits to the appropriate committees a plan for the disposition of all detainees held at Guantanamo, and the Congress approves of the plan through a joint resolution of Congress as provided by another section in this title.

The Senate recedes with an amendment that the prohibition would apply to the Department of Defense and would expire on December 31, 2016.

Prohibition on use of funds for transfer or release to certain countries of individuals detained at United States Naval Station, Guantanamo Bay, Cuba (sec. 1033)

Reenactment and modification of certain prior requirements for certifications relating to transfer of detainees at United States Naval Station, Guantanamo Bay, Cuba, to foreign countries and other foreign entities (sec. 1034)

The House bill contained a provision (sec. 1039) that would require the Secretary of Defense to certify that the transfer of any individual detained at United States Naval Station, Guantanamo Bay, Cuba, to a foreign country met certain requirements.

The Senate amendment contained a similar amendment (sec. 1033) that would expire upon Congress passing a joint resolution approving of a plan submitted by the Secretary of Defense on the disposition of all GTMO detainees, as provided for in another section of this title.

The House recedes with an amendment clarifying the scope of the certification.

Comprehensive detention strategy (sec. 1035)

The Senate amendment contained a provision (sec. 1032) that would prohibit the use of funds provided to the Department of Defense for the transfer or release of individuals detained at United States Naval Station, Guantanamo Bay, Cuba to or within the United States. This provision would allow transfers to the United States for trial or continued detention pursuant to the Authorization for the Use of Military Force (Public Law 107-40) after the Secretary of Defense submits to the appropriate committees a plan for the disposition of all detainees held

at Guantanamo, and Congress passes a joint resolution approving that plan.

The House bill contained no similar provision.

The House recedes with an amendment that would require a comprehensive detention strategy to be provided to the congressional defense committees setting forth the details of such a detention strategy for current and future individuals captured and held pursuant to the Authorization for Use of Military Force pending the end of hostilities. We expect that discussion to include an explanation of the Department's plan for the disposition of all detainees held at Guantanamo, on a case-by-case basis, and the costs associated with each element of that plan.

Prohibition on use of funds for realignment of forces or closure of United States Naval Station, Guantanamo Bay, Cuba (sec. 1036)

The House bill contained a provision (sec. 1060) that prohibited the use of funds made available to the Department of Defense up until December 31, 2016, to close or abandon the United States Naval Station, Guantanamo Bay, Cuba, relinquish control of Guantanamo Bay to Cuba, or modify the Treaty Between the United States and Cuba signed on May 29, 1934.

The House bill contained no similar provision.

The House recedes with an amendment clarifying the scope of information requested in the report.

Reports to Congress on contact between terrorists and individuals formerly detained at United States Naval Station, Guantanamo Bay, Cuba (sec. 1038)

The House bill contained a provision (sec. 1034) that would include in the report required by Section 319(c) of the Supplemental Appropriations Act, 2009 (Public Law 111-32) a summary of all known contact between any individual formerly detained at Naval Station, Guantanamo Bay, Cuba, and any individual known or suspected to be associated with a foreign terrorist group, and a description of whether any of the contact described in the summary included any information or discussion about hostilities against the United States or its allies or partners.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment clarifying that the summary should include a description of any information or discussion about planning for or conducting hostilities against the United States or its allies or partners, or information on the organizational, logistical, or resource needs or activities of any terrorist group.

Inclusion in reports to Congress of information about recidivism of individuals formerly detained at United States Naval Station, Guantanamo Bay, Cuba (sec. 1039)

The Senate amendment contained a similar provision (sec. 1039) that would modify and extend section 127b of title 10, United States Code through December 31, 2016, as well as create a notification requirement for when the Secretary of Defense designates a country as a country in which an operation

is occurring in connection with which rewards may be paid by this section.

The House recedes with an amendment that would make the authority permanent and incorporate the notification requirement from the Senate provision.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would repeal the exception for sensitive military operations conducted within the territory of the Islamic Republic of Afghanistan on December 31, 2017.

In the classified annex that accompanies this report, we direct periodic reporting on Afghanistan to the congressional defense committees.

Repeal of semiannual reports on obligation and expenditure of funds for the combating terrorism program (sec. 1044)

The House bill contained a provision (sec. 1033) that would modify reporting requirements for budget information related to program for combating terrorism as required by section 229 of title 10, United States Code. This section would specifically eliminate subsection (d) of section 229, regarding semiannual reports on obligations and expenditures.

Limitation on interrogation techniques (sec. 1045)

The Senate amendment contained a provision (sec. 1040) that would limit interrogation techniques to those in the Army Field Manual for individuals in the custody or under the effective control of an officer, employee, or agent of the United States Government, or detained within a facility owned, operated, or controlled by a department or agency of the United States, in any armed conflict.

The House bill contained no similar provision.

The House recedes with an amendment that would make the limitation on interrogation techniques inapplicable to law enforcement and requires an update to the Army Field Manual no sooner than three years after the date of enactment. We recognize that law enforcement personnel may continue to use authorized non-coercive techniques of interrogation, and that Army Field Manual 2-22.3 is designed to reflect best practices for interrogation to elicit reliable statements.

SUBTITLE E—MISCELLANEOUS AUTHORITIES AND LIMITATIONS

Department of Defense excess property program (sec. 1051)

The House bill contained a provision (sec. 1052) that would make changes to excess defense article donations authorized under section 2576a of title 10, United States Code. Specifically, the provision would require the establishment of a public website containing information on certain transfers made under the program, establish specific criteria for State program managers to be met before the Defense Logistics Agency may transfer certain types of equipment, and mandate several reviews of program objectives and ef-

We note that any controlled equipment, as designated in Department of Defense Instruction 4160.28, Volume 2, or any succeeding instruction, transferred to the Department of Homeland Security through the "1033 program" as amended by this section remains the property of the Department of Defense, and this section does not authorize the Department of Homeland Security to transfer controlled DOD equipment to any non-federal entity. We expect the Department of Defense and the Department of Homeland Security to use memoranda of agreement similar to those used for the transfer of equipment to law enforcement agencies to state the conditions of transfer and compliance, including that non-compliance requires the return of all equipment to DOD.

Management of military technicians (sec. 1053)

The Senate amendment contained a provision (sec. 1046) that would convert not less than 20 percent of the general administration, clerical, financial, and office service occupation positions identified in the report of the Secretary of Defense under section 519 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 112-81; 125 Stat. 1397) from military technician (dual status) positions to positions filled by individuals who are employed under section 3103 of title 5, United States Code, by no later than January 1, 2017. The provision also requires the phased-in termination of military technicians (non-dual status) to begin on January 1, 2017.

regional organizations with security missions for the purpose of: (1) enhancing civilian oversight of foreign security forces; (2) establishing responsible defense governance and internal controls in order to help build effective, transparent, and accountable defense institutions; (3) assessing organizational weaknesses and establishing a roadmap for addressing shortfalls; and (4) enhancing ministerial, general or joint staff, service level core competencies such as personnel and readiness, acquisition and logistics, strategy and policy, and financial management.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

We expect the directed cost-benefit analysis to include any cost-sharing arrangements between the combatant commanders, including U.S. Special Operations Command, and the Navy, as well as a long term plan for recapitalization of the deployed capability.

Limitation on availability of funds for destruction of certain landmines (sec. 1058)

The House bill contained a provision (sec. 1057) that limits the Department of Defense's ability to destroy any anti-personnel landmines (APL) until the Secretary of Defense provides a comprehensive study on the tactical and operational impacts of a ban on APL, a strategy for replacing current APL systems that are compliant with current DOD policy, and a certification that alternative systems will not endanger members of the Armed Forces. The provision provides an exception for landmines certified as unsafe by the Secretary.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would remove the required certification and would link the limitation on the obligation or expenditure of funds for the destruction of anti-personnel landmine munitions, with the exception included in the House provision, to the delivery of a new report to

be delivered to Congress within 180 days after the enactment of this Act.

We understand the Secretary of Defense is conducting an Analysis of Alternatives (AOA) on Area Denial Capability Development to include next generation anti-personnel landmines, and that the AOA is expected to be complete in the fourth quarter of fiscal year 2016. We expect this AOA to inform the report required in this provision. We further direct the Secretary of Defense to provide the AOA to the congressional defense committees on its completion.

Additionally, this section would provide a limitation on the obligation or expenditure of 25 percent of the funds authorized to be appropriated by this Act for Operation and Maintenance, Defense-wide, for the Office of the Secretary of Defense, until 15 days after the date on which the Secretary of Defense submits the first report required by this section.

This provision would also amend section 3134 of

the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84) to eliminate a requirement for the Comptroller General to conduct a final review of all projects carried out by the Department of Energy's Office of Environmental Management using American Recovery and Reinvestment Act of 2009 Public Law 111-5 funds.

The Senate amendment contained two similar provisions (sec. 3120 and 3121) that would extend the Government Accountability Office's annual reporting deadline for reviewing the budget of the National Nuclear Security Administration weapons program from 90 days to 150 days in odd-numbered years when NNSA is required to submit a detailed Stockpile Stewardship Management Plan (SSMP). Additionally, section 3121 would repeal phase three of section 3134 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84) related to defense environmental cleanup projects, as the Government Accountability Office has reported on all phases of this project.

The Senate recedes. We emphasize that, to support the legislative calendar in odd-numbered years, the Comptroller General should still provide the congressional defense committees interim briefings on the SSMP.

This study would include several case studies on the role of the Department of Defense in the formulation of previous national security strategies and issues related to the formulation process throughout the history of the United States and a complete review and analysis of the current national security strategy formulation process as it relates to the Department of Defense.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would also require the report to include recommendations for the executive and legislative branches on the best practices for enabling the Department of Defense to formulate long-term strategy. We believe the Secretary of Defense should continue to make every effort to recruit, cultivate, and further strategic thinking within the Department.

Report on the status of detection, identification, and disablement capabilities related to remotely piloted aircraft (sec. 1065)

The House bill contained a provision (sec. 1067) that would require the Secretary of Defense to submit, not later than 60 days after the date of enactment of this Act, a report to the congressional defense committees addressing the suitability of existing capabilities to detect, identify, and disable remotely piloted aircraft operating within special use and restricted airspace.

Studies of fleet platform architectures for the Navy (sec. 1067)

The Senate amendment contained a provision (sec. 1021) that would direct the Secretary of Defense to commission three studies to be submitted to the congressional defense committees in unclassified, and to the extent necessary, in classified versions to recommend potential future fleet architectures. These studies would provide competing visions and alternatives for future fleet architectures. One study would be performed by the Department of the Navy, with input from the Naval Surface Warfare Center Dahlgren Division. The second study would be performed by a federally funded research and development center. The third study would be conducted by a qualified independent, non-governmental institute, as selected by the Secretary of Defense.

The House bill contained no similar provision.

The House recedes with an amendment that would modify the required submission date of the reports to April 1, 2016.

We note that the majority of the total ownership costs for Navy surface ships, almost 70 percent, is comprised of operating and support costs incurred over the life of a ship. Personnel costs are the largest contributor to operating and support costs incurred over a ship's life cycle. As such, transitioning from the personnel- and workload-intensive ships of the past to optimally crewed ships with reduced workloads has potential to free up resources for the Navy to use in recapitalizing the fleet. However, previous studies have found that reduced and optimal manning initiatives were implemented without complete analysis and may have had detrimental effects on crew training and the material condition of some legacy class ships. In addition, reductions in crew size are frequently offset by increases in shore support and contractor personnel to address shipboard workload.

The Navy's newest surface ship classes, the *Ford*-class aircraft carrier, the *Littoral Combat Ship* and the *Zumwalt*-class destroyer, have been designed to leverage technology and optimal manning concepts to reduce the total crew sizes aboard these ships, but the impact of these efforts on reducing total ownership costs have not been fully demonstrated. Therefore, we direct the Comptroller General of the United States to prepare a report to the congressional defense committees by July 1, 2016 as to the following elements:

1. To what extent has the Navy implemented reduced manning initiatives in the surface fleet?

2. To what extent has the Navy identified total manpower requirements, including both shipboard and shore-based, to support optimally manned ships over their life cycle?

3. To what extent have manning reductions on Navy surface ships resulted in reductions to total ownership costs and to what extent has the Navy realized its projected manpower reductions and cost savings?

4. How have reduced manning initiatives impacted the Navy's plans to operate and

support ship classes in the areas of personnel, training, and maintenance (e.g., training qualification times, contractor support for shipboard maintenance, shipboard system casualties)?

5. To what extent does the Navy rely on technological innovations and design features to enable manning reductions in new ship construction, and to what extent have these reductions been realized after the ships have entered service?

Report on strategy to protect United States national security interests in the Arctic region (sec. 1068)

The provision would also require the Department of Defense to provide the committees the most recently approved Joint Requirements Oversight Council memo resulting from the annual Munitions Requirements Process.

The House bill contained no similar provision.

The House recedes with amendments.

We direct the Secretary and the Chairman to conduct the assessment required by subsection (a) using operations research methods and wargaming, in addition to historical

analysis of the use of ground forces by the United States and Japan in the Pacific theater during World War II, technical analysis, analysis of force structure impacts, and any other analysis they deem appropriate. Further, in making this assessment, the Secretary should consider the potential geopolitical impact on the United States posture in the Pacific theater associated with a strategy of long-term engagement by United States ground forces.

We also direct the Secretary and the Chairman to confer with U.S. Pacific Command; the Joint Requirements and Analysis Division and the wargaming resources of the Warfighting Analysis Division of the Force Structure, Resources, and Assessment Directorate of the Joint Staff, augmented as necessary and appropriate from the war colleges of the military departments; the Office of Net Assessment; any appropriate federally funded research and development centers (FFRDCs); and any other organizations or divisions as they deem appropriate.

Additionally, we note that the term "ground forces" in this section is inclusive of all U.S. military services, including both the U.S. Army and U.S. Marine Corps.

We note the importance and value of reports from the Department of Defense as a key enabler of effective oversight. However, we also note the burden excessive reporting places on the Department and we are eager to strike a balance in the coming years.

This section also would require the Secretary of Defense to provide, concurrent with the submission of the President's request, an assessment of the number of block hours necessary to achieve sufficient levels of commercial airlift augmentation, a strategic plan for achieving necessary levels of commercial airlift augmentation, and an explanation of any difference from the previous fiscal year's assessment.

Reform and improvement of personnel security, insider threat detection and prevention, and physical security (sec. 1086)

The Senate amendment contained a provision (sec. 1090) that would mandate the implementation of reforms in the personnel security clearance process, insider threat detection and prevention, and physical security in the Department of Defense (DOD) and elsewhere in the Federal Government.

The House bill contained no similar provision.

The House recedes with technical and clarifying amendments.

The provision would:

(1) Require the Secretary of Defense to develop a plan to implement Continuous Evaluation ("CE") for Department of Defense employees to reduce critical gaps in background investigations; to develop and implement an Insider Threat strategy detailing the Department's plan to provide a centralized capability that can quickly analyze the results of automated records checks and reports of behavior of concern and recommend action as appropriate; to centralize the programmatic authority of such activities under one official (the Under Secretary of Defense for Intelligence); to provide resources for the expedited deployment of identity management systems for access to DOD facilities which was a critical gap identified in the aftermath of the Fort Hood and Washington Navy Yard shootings; and to centralize control of requests for security clearances from the Office of Personnel Management (OPM) to achieve efficiencies, as well as other key recommendations resulting from the study by the Director of Cost Analysis and Program Evaluation mandated by section 907 of the National Defense Authorization Act for Fiscal Year 2014.

(2) Require the Secretary of Defense to develop standards for physical and logical access to secured facilities and information systems, and requires the Secretary, in coordination with the Office of Management and Budget (OMB), the Chair of the Performance Accountability Council (PAC), and the Administrator of the Government Services Administration, to develop a capability to share and apply electronic identity information across the government.

(3) Require OMB to formalize the Security, Suitability and Credentialing Line of Business to ensure adequate oversight and efficient investments are made across the enterprise.

(4) Require the PAC Chair to develop a plan to ensure reciprocity management systems function effectively and securely. The intent is also for agencies to formulate a

plan to address how an automated and continuous background check for national security personnel will travel with that individual as long as they hold a clearance, regardless of changes in employer and program or contract support.

(5) Require the PAC Chair, along with the Security and Suitability Executive Agents and the Secretary of Defense, to jointly develop a plan to ensure implementation of uniform self-reporting requirements for all personnel who hold a clearance, including contractors. The provision mandates that reported information be shared with those who have a need to know, to ensure that individuals with derogatory information are not allowed to move around the government without the negative information being known.

The second part of the provision would:

(1) Clarify and update the agencies covered under section 9101. This section has not been updated since 2000—before the creation of the Department of Homeland Security and the Office of the Director of National Intelligence. This revision also includes agencies that are delegated authority by the Security and Suitability Executive Agents and expands the “covered agency” definition to explicitly include contractor background investigators working on behalf of covered agencies.

(2) Clarify and update the applicable purposes of investigation to expressly include basic suitability or fitness assessments, credentialing under Homeland Security Presidential Directive 12, Transportation Security Administration Security Threat Assessment Programs, and Federal Aviation Administration checks required by Federal Statute.

(3) Permit investigative agencies to conduct both biometric (fingerprint) and biographic checks for criminal history records information, as appropriate. The investigative agencies are to determine what is appropriate. Nothing under this section prohibits the Federal Bureau of Investigation from requiring a request for criminal history record information.

(4) Amend section 9101 to indicate that when more than one automated system can provide the same information, the most cost-effective system to the Federal Government shall be used.

(5) Require that the Department of State, Bureau of Consular Affairs, American Citizen Services (ACS), release information about an individual's interaction with law enforcement or intelligence organizations abroad if that individual has contacted ACS for assistance after they have been arrested or has been in contact with intelligence agencies of a foreign country while abroad.

(6) Require contractors who conduct background investigations on behalf of a covered agency to comply with necessary security requirements when accessing an automated information delivery system to request criminal history record information.

(7) Clarify Title 5 U.S.C. section 7512 to strengthen the Federal Government's ability to take action against individuals who falsify background investigation information.

(8) Require an annual report from the PAC to describe and analyze the extent and effectiveness of federal, state, and local systems for sharing criminal history record information; analyze the extent and effectiveness of education programs regarding criminal history record information sharing; provide updates on the implementation of best practices for sharing criminal history record information, including ongoing limitations experienced by investigators; and provide descriptions of other limitations to investigators and State and local law enforcement agencies.

(9) Request a Government Accountability Office report summarizing the major characteristics of federal critical infrastructure protection access controls, as well as background check and credentialing standards for the protection of critical infrastructure and key resources.

We believe that taking stock of the authorities granted over the past 10 years and understanding their effects on attracting, recruiting and retaining a skilled workforce are important. Therefore, we direct the Assistant Secretary of Defense for Research and Engineering, in coordination with the military departments and laboratory direc-

tors, to brief the Committees on Armed Services of the Senate and House of Representatives, the Oversight and Government Reform Committee of the House of Representatives and the Homeland Security and Government Affairs Committee of the Senate no later than 90 days of the enactment of this Act. Pilot program on temporary exchange of financial management and acquisition personnel (sec. 1110)

The Senate amendment contained a provision (sec. 1112) that would authorize a pilot program to assess the feasibility and advisability of the temporary assignment of financial management and acquisition personnel to nontraditional defense contractors as defined by section 2303(9) of title 10, United States Code, and of covered employees of such contractors to the Department of Defense. Nontraditional defense contractors are commercial companies who either do not do business with the Department of Defense or do so exclusively through commercial terms and conditions. This authority would expire on September 30, 2019.

The House bill contained no similar provision.

The House recedes with an amendment that would make the authority permissive rather than mandatory and would modify the terms and conditions of participation in the pilot program by the private-sector employees.

We believe that any exchange of government personnel with industry designed to improve skills and knowledge of finance and acquisition should be with those types of firms that do not traditionally do business with the Department of Defense and as such may offer different business management approaches to address similar problems. These firms also do not pose the same potential conflict of interest concerns that any exchange with a traditional defense contractor would pose.

Pilot program on enhanced pay authority for certain acquisition and technology positions in the Department of Defense (sec. 1111)

The Senate amendment contained a provision (sec. 1113) that would authorize a pilot program to assess the feasibility and advisability of using a higher-level pay authority to attract and retain high-quality acquisition and technology experts in positions responsible for management and developing complex, high-cost, technological acquisition efforts of the Department of Defense. We are concerned that in some cases the Department of Defense cannot competitively compensate the senior-level government program managers and engineers required for the government to oversee major defense acquisition programs. This provision would allow, in select cases, for the Department of Defense to pay a higher rate of compensation to recruit and retain senior acquisition officials who are exceptionally well qualified. These officials would be limited to a 5-year term. This authority would expire on October 1, 2020.

The House bill contained no similar amendment.

The House recedes.

Pilot program on direct hire authority for veteran technical experts into the defense acquisition workforce (sec. 1112)

This direct hire authority would be limited to no more than 1 percent of the total number of positions in the acquisition workforce in each military department that are filled as of the close of the previous fiscal year.

The House bill contained no similar amendment.

The House recedes.

We direct the Secretary of Defense to provide a report to the congressional defense committees on the use of this authority no later than 2 years after the date of enactment of the Act.

This direct hire authority would be limited to no more than 5 percent of the total number of scientific and engineering positions in the acquisition workforce in each military department that are filled as of the close of the previous fiscal year. This authority would expire December 31, 2020.

The House bill contained no similar provision.

The Senate amendment contained a similar provision (sec. 1204) that would amend section 1205 of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 114-66) to provide for the extension of the Department of Defense (DOD) State Partnership Program and direct the Under Secretary of Defense (Comptroller) and Under Secretary of Defense (Policy) to conduct an advisability and feasibility study as to whether a central fund should be created to support the activities associated with the State Partnership Program.

The House recedes with an amendment that would make clarifying changes, would require the Secretary of Defense to submit a legislative proposal if it is found to be advisable and feasible to establish a central fund for the program, and would extend the underlying authority for the program for 5 years.

We encourage DOD to consider if it would be useful to establish a list of core competencies of the National Guard to be used to better educate security assistance officers and countries participating in the State Partnership Program about the capabilities that can be brought to bear by the Guard. The Secretary should inform the Armed Services Committees of the House of Representatives and the Senate if such a step is considered to be useful.

Extension of authority for non-reciprocal exchanges of defense personnel between the United States and foreign countries (sec. 1204)

The House bill contained a provision (sec. 1204) that would amend section 1207(f) of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84) by extending the authorization for non-reciprocal exchanges of defense personnel between the United States and foreign countries through December 31, 2017.

The House bill contained no similar provision.

The House recedes.

We note that, in this section, the term allied country has the meaning given to that term in section 2350c of title 10, United States Code.

The House recedes with an amendment that would require the Under Secretary of Defense for Intelligence to provide semi-annual reports to the congressional defense committees on the military intelligence training performed by Department of Defense of foreign military intelligence personnel and the authorities under which such activities are conducted.

We believe that the current matrix of capacity building authorities may not sufficiently cover sustained intelligence training for foreign military forces for purposes other than counterterrorism operations and stability operations with whom the United

States partners or may need to partner in the future. Based on the reports and any potential gaps in authorities, we will evaluate whether further authorities should be included in the 2017 authorizing legislation.

Prohibition on assistance to entities in Yemen controlled by the Houthi movement (sec. 1209)

The Senate amendment contained a similar provision (sec. 1222) that would make up to \$10.0 million available during fiscal year 2016 for CERP in Afghanistan, and would authorize certain payments to redress injury and loss in Iraq.

The House recedes with an amendment that would limit amounts available during Fiscal Year 2016 to not exceed \$5.0 million, require the Secretary of Defense to submit revised guidance to take into account the modifications to CERP made by this provision and would allow the Secretary to begin payments to redress injury and loss in Iraq 30 days after the submission of a report related to the conditions for which payment would be made and the manner in which claims for payments shall be verified.

Extension and modification of authority for reimbursement of certain coalition nations for support provided to United States military operations (sec. 1212)

The House bill contained a provision (sec. 1212) that would extend the authority for reimbursement of coalition nations for support provided to the U.S. for military operations in Afghanistan through fiscal year 2016 and would authorize \$1.3 billion. Of the \$1.0 billion in reimbursement authorized for Pakistan during fiscal year 2016, \$400.0 million would not be eligible for a waiver unless the Secretary of Defense certifies that Pakistan is conducting military operations against the Haqqani Network and is actively coordinating with the Government of Afghanistan to restrict the movement of militants along the Afghanistan-Pakistan border.

The Senate amendment contained a similar provision (sec. 1224) that would extend the authority to make Coalition Support Fund (CSF) payments to reimburse certain nations for support provided to U.S. military operations in Afghanistan and would authorize to \$1.2 billion, of which \$900.0 million would be provided to Pakistan. Of the \$900.0 million, \$100.0 million would be authorized for a pilot program.

The Senate recedes with an amendment that would authorize \$1.2 billion and would

limit the authorization for reimbursement to Pakistan to \$900.0 million. Of the \$900.0 million, \$350.0 million would not be eligible for a waiver unless the Secretary of Defense certifies that Pakistan has met certain conditions. An additional \$100.0 million of CSF would be made available for Pakistan for direct assistance for a pilot program for stability activities undertaken in the Federally Administered Tribal Areas, including the provision of funds to the Pakistan military and the Pakistan Frontier Corps Khyber Pakhtunkhwa.

We encourage the continuation of military operations undertaken by the Pakistan Military in the Federally Administered Tribal Area but note the need for further action against terrorist organizations such as the Haqqani Network.

Additional matter in semiannual report on enhancing security and stability in Afghanistan (sec. 1213)

The House bill contained a provision (sec. 1213) that would state the sense of Congress that the President's decision to maintain 9,800 U.S. troops through 2015 is appropriate, that the President should withdraw U.S. troops only on a pace that is consistent with the ability of the Afghan National Security Forces to sustain itself and secure Afghanistan, and that the U.S. President should review maintaining the U.S. advisory mission beyond 2016.

The Senate amendment contained a similar provision (sec. 1221) that would require a certification by the President to the congressional defense committees that the reduction of U.S. forces in Afghanistan will result in an acceptable level of risk to U.S. national security objectives.

The House recedes with an amendment that adds an assessment of risks associated with the drawdown of U.S. forces to the semiannual report required by section 1225 of the Carl Levin and Howard P. 'Buck' McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291).

The House bill contained a provision (sec. 1221) that would extend the authority for the Office of Security Cooperation in Iraq (OSCI) for 1 year. This authority would allow the Secretary of Defense, with the concurrence of the Secretary of State, to authorize OSCI to conduct training activities in support of the Iraqi Ministry of Defense and Counter Terrorism Service personnel at a base or facility of the Government of Iraq. This section would limit the total authorized funding for operations and activities for OSCI to \$143.0 million in fiscal year 2016 and would require the Secretary of Defense and the Secretary of State to submit a report assessing how OSCI integrates into Operation Inherent Resolve in Iraq.

This section would require an assessment by the Secretary of Defense and Secretary of State of the conditions of the Government of Iraq relating to political inclusiveness, minority integration, and efforts to address grievances of ethnic and sectarian minorities. If the assessment is not submitted or Iraq has not substantially achieved the conditions contained in the assessment, the Secretaries would be required to withhold the provision of assistance pursuant to the "Iraq Train and Equip Authority" under section 1236 of the National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291) and 60 percent of such assistance would go directly to certain groups.

The amendment would also require the Secretary of Defense and the Secretary of State to jointly submit an assessment, to certain congressional committees on the extent to which the Government of Iraq is increasing political inclusiveness, addressing grievances of ethnic and sectarian minorities, and enhancing minority integration in the political and military structures in Iraq. Taking into account such an assessment, in the event the President determines that the Government of Iraq has failed to take substantial action to: (1) increase political inclusiveness, (2) address the grievances of ethnic and sectarian minorities, and (3) enhance minority integration in the political and military structures in Iraq; the Secretary of Defense, in coordination with the Secretary of State, would be authorized to provide, in coordination to the extent practicable with the Government of Iraq, assistance pursuant to the Iraq Train and Equip authority directly to the Kurdish Peshmarga, Sunni tribal security forces, or other local security forces with a national security mission for the purpose of supporting international coalition efforts against ISIL. We note that local security forces with a national security mission may include, in addition to Sunni tribal elements, local security forces that are committed to protecting highly vulnerable ethnic and religious minority communities, such as Yazidi, Christian, Assyrian and Turkoman communities, against the ISIL threat. Additionally, this section would prohibit assistance pursuant to the Iraq Train and Equip authority from being provided to the Government of Iraq unless the Secretary of Defense certifies that the Government of Iraq has taken actions as may be reasonably

necessary to safeguard against such assistance being transferred to, or acquired by violent extremist organizations, including designated Foreign Terrorist Organizations (FTOs) or an organization that is known to be under the command and control of, or is associated with the Government of Iran.

The provision would terminate after 5 years.

Measures in response to non-compliance by the Russian Federation with its obligations under the INF Treaty (sec. 1243)

The House bill contained a provision (sec. 1243) that would require the President to submit to the appropriate congressional committees a notification of whether the Russian Federation has flight-tested, deployed, or possessed a military system that has achieved an initial operation capability of a covered missile system, and whether the Russian Federation has begun steps to return to full compliance with the Intermediate-Range Nuclear Forces (INF) Treaty, including by agreeing to inspections and verification measures necessary to achieve high confidence that any covered missile system will be eliminated, as required by the INF Treaty upon its entry into force.

The Senate amendment contained a similar provision (sec. 1671) that would require the President to notify the appropriate congressional committees with respect to whether the Russian Federation has flight-tested, deployed, or possessed a military system that has achieved an initial operating capability that is in violation of the INF Treaty or has begun taking measures to return to full compliance with the INF Treaty. The provision would also require the Secretary of Defense to submit a report to the appropriate congressional committees on the status of updates provided to the North Atlantic Treaty Organization (NATO) and other allies of the United States on the Russian Federation's flight testing, operational capability, and deployment of ground-launched ballistic missiles in violation of the INF Treaty. If the Russian Federation fails compliance measures by the date of the enactment of this Act, the Secretary of Defense will also submit to Congress, a plan outlining the development of military capabilities, including counterforce capabilities, countervailing strike capabilities, and active defense to defend against intermediate-range ground-launched cruise missile attacks.

The House recedes with a clarifying amendment.

Modification of notification and assessment of proposal to modify or introduce new aircraft or sensors for flight by the Russian Federation under the open skies treaty (sec. 1244)

The House bill contained two provisions (sec. 1244 and 1265) that would amend section 1242 (b)(1) of the National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291; 128 Stat. 3564) to extend reporting requirements from 30 days to 90 days and extend oversight to include the commander of each relevant combatant command as well as the Joint Chiefs of Staff. Additionally, the Secretary of Defense, in coordination with the Secretary of State this provision limits

obligated funds to less than 50 percent until a report on any meetings of the Open Skies Consultative Commission during the prior year is delivered to Congress to the appropriate committees.

The Senate amendment contained a similar provision (sec. 1672) that would modify Section 1242(b) of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291) by adding a requirement to include an assessment by the commander of each combatant command potentially affected by a proposal of the Russian Federation to modify or introduce a new aircraft or sensor for flight under the Open Skies Treaty, including an assessment of the potential effects of the proposal on operations and any potential vulnerabilities. The provision would also require that not later than 30 days after the date of any meeting of the Open Skies Consultative Commission, the Secretary of Defense submit to the defense committees of Congress a report on such meeting, including a description of any agreements entered into during such meeting, and whether any such agreement will result in a modification to the aircraft or sensors that will be subject to the Open Skies Treaty.

The House recedes with an amendment that would combine the three similar provisions and limit the availability of funds made available for fiscal year 2016 for arms control implementation (PE 0305145F) to not more than 75 percent until the Secretary of Defense, in coordination with the Secretary of State, submits a report to Congress describing any meetings of the Open Skies Consultative Commission during the prior year, a description of any agreements entered into during such meetings, and a description of future year proposals for modification to aircraft sensors that will be subject to the Open Skies Treaty.

Prohibition on availability of funds relating to sovereignty of the Russian Federation over Crimea (sec. 1245)

The House bill contained a provision (sec. 1247) that would prohibit funds authorized to be appropriated or made available by this Act through fiscal year 2016 for the Department of Defense to implement any action or policy that recognizes the de facto sovereignty of Russia over Crimea, or any country whose central government has taken steps to recognize or support Russia's illegal occupation of Crimea. The provision included a waiver if the Secretary of Defense certifies and reports that doing so would be in the national security interest of the United States.

The Senate amendment contained no similar provision.

The Senate recedes with a technical and clarifying amendment.

Limitation on military contact and cooperation between the United States and the Russian Federation (sec. 1246)

The House bill contained a provision (sec. 1248) that would prohibit funds authorized to be appropriated or otherwise made available for fiscal year 2016 to be used for bilateral military-to-military contact or cooperation between the United States and the Russian Federation without certain certifications by the Secretary of Defense, in consultation with the Secretary of State, or unless certain waiver conditions are met.

The Senate bill did not contain a similar provision.

The Senate recedes with a technical and clarifying amendment.

Limitation on funds for implementation of the New START Treaty (sec. 1247)

The House bill contained a provision (sec. 1249) that would limit all authorized funds

that would be used for implementation of the New START Treaty until the President certifies to the appropriate congressional committees that the armed forces of the Russian Federation are no longer illegally occupying Ukrainian territory; the Russian Federation is respecting the sovereignty of all Ukrainian territory; the Russian Federation is no longer taking actions that are inconsistent with the INF Treaty; the Russian Federation is in compliance with the Conventional Forces in Europe (CFE) Treaty and has lifted its suspension of Russian observance of its treaty obligations; and there have been no inconsistencies by the Russian Federation with the New START Treaty requirements.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that changes the limitation to a reporting requirement on the reasons continued implementation of the New START treaty is in the national security interests of the United States, for any year in which the New START Treaty is in effect and the following conditions apply (and steps taken to remedy the conditions), the Russian Federation (i) continues to occupy Ukraine territory, (ii) disrespects the sovereignty of Ukraine territory, (iii) is not in fully compliance with the Intermediate Nuclear Forces Treaty, (iv) is not in compliance with the CFE Treaty and has not lifted its suspension of observing the Treaty, and (v) is not reducing its deployed strategic delivery vehicles, which are under the central limits of the New START Treaty. We are concerned about the impact of Russia increasing its number of deployed strategic delivery vehicles, but notes that this increase is occurring within the legally-binding New START Treaty caps.

Additional matters in annual report on military and security developments involving the Russian Federation (sec. 1248)

The Senate amendment contained a provision (sec. 1255) that would add a reporting requirement to section 1245 of the National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291) requiring an assessment of the force structure and capabilities of Russian military forces stationed in the Arctic region, Kaliningrad, and Crimea, as well as an assessment of the Russian military strategy in the Arctic region.

The House bill did not contain a similar provision.

The House recedes with an amendment that would create an additional element to require a description of the testing, production, deployment, and sale or transfer of the Club-K cruise missile system by the Russian Federation.

Report on alternative capabilities to procure and sustain nonstandard rotary wing aircraft historically procured through Rosoboronexport (sec. 1249)

The Senate amendment contained a provision (sec. 1256) that would require an independent assessment on the feasibility and advisability of using alternative industrial base capabilities to procure and sustain nonstandard rotary wing aircraft historically acquired through the Russian state corporation Rosoboronexport as well as an analysis of alterations that may be required for waivers of foreign military sales requirements and procedures for approval of airworthiness certificates associated with such alternative capabilities.

The House bill did not contain a similar provision.

The House recedes with technical and clarifying amendments.

We direct the Under Secretary of Defense for Acquisition, Technology, and Logistics, not later than 180 days after date of the enactment of this Act and in consultation with

the Chairman of the Joint Chiefs of Staff, to provide an interim brief to the Committees on Armed Services of the House of Representatives and the Senate on the initial findings, conclusions, and recommendations of the independent assessment required by this section.

Ukraine Security Assistance Initiative (sec. 1250)

The House bill contained a provision (sec. 1532) that would authorize \$200.0 million for the Secretary of Defense, in concurrence with the Secretary of State, to provide assistance and sustainment to the military and national security forces of Ukraine. This assistance would include the explicit authority to provide lethal weapons of a defensive nature to the security forces of Ukraine.

The Senate amendment contained a similar provision (sec. 1251) that would authorize \$300.0 million for the Secretary of Defense, in coordination with the Secretary of State, to provide security assistance and intelligence support to military and other security forces of Ukraine.

The House recedes with an amendment that would require \$50.0 million of the funds authorized to be available only for lethal assistance and counterartillery radars unless the Secretary of Defense, with the concurrence of the Secretary of State, certifies that use of such funds for lethal assistance is not in the U.S. national security interest. If the certification is made, such funds could be used for assistance or support to Partnership for Peace (PfP) nations, or for exercises and training for the security forces of PfP nations or the Government of Ukraine to assist in preserving their sovereignty and territorial integrity against Russian aggression.

We emphasize the importance of providing support to the Government of Ukraine in defending itself against actions by Russia and Russian-backed separatists that continue to violate ceasefire agreements. We note the success of current training of Ukrainian security forces by U.S. forces and encourage expansion of such training efforts as provided for in this section. We further note the growing threat to the sovereignty and territorial integrity of other nations in the region and stress the importance of assisting such nations in developing the capability to defend against Russian aggression.

Training for Eastern European national military forces in the course of multilateral exercises (sec. 1251)

The Senate amendment contained a provision (sec. 1252) that would authorize the Secretary of Defense, with the concurrence of the Secretary of State, to provide multilateral or regional training, and pay the incremental expenses of participating in such training, for the national military forces of countries in Eastern Europe that are a signatory to the Partnership for Peace Framework Documents but not a member of the North Atlantic Treaty Organization (NATO) or that became a NATO member after January 1, 1999.

The House bill did not contain a similar provision.

The House recedes with a technical and clarifying amendment that further refines the types of training authorized under this section to training provided in the course of the conduct of a multilateral exercise in which the U.S. Armed Forces are a participant and that is comparable to or complementary of training the U.S. Armed Forces receive in the course of such multilateral exercises. Training authorized under this section would be for certain specified purposes, including enhancing the interoperability of the trained forces to be able to participate in NATO or coalition operations, or to increase the capacity of those forces to respond to external threats or hybrid warfare.

SUBTITLE F—MATTERS RELATING TO THE ASIA-PACIFIC REGION

Strategy to promote United States interests in the Indo-Asia-Pacific region (sec. 1261)

The House bill contained a provision (sec. 1253) that would require the President to develop an overall strategy to promote U.S. interests in the Indo-Asia-Pacific region and to provide policy directives and priority goals to relevant U.S. Government departments and agencies.

The Senate amendment contained a similar provision (sec. 1265) that would require the report to be completed within 120 days of enactment.

The Senate recedes with an amendment that would delay the date the strategy is due to March 1, 2017.

The Senate bill contained a provision (sec. 1262) that would express the sense of the Congress to reaffirm the importance of the rebalance to the Asia-Pacific region. In order to maintain the credibility of the U.S. policy to rebalance towards the Indo-Asia-Pacific theater, we believe it is vital that the United States continue to shift forces to the region to strengthen the ability of the United States Armed Forces to project power to shape the choices of regional states. Any reduction or failure to adequately resource U.S. force structure in the U.S. Pacific Command would diminish the rebalance policy.

The House bill included a number of provisions that would express the sense of the Congress regarding the various contributions of different allies and partner nations (sec. 1251, sec. 1252, sec. 1254, sec. 1255, and sec. 1272).

We note the 70th Anniversary of the end of Allied military engagement in the Pacific theater, marking the end of the Second World War and join with a grateful nation in expressing respect and appreciation to the members of the U.S. Armed Forces who served in the Pacific theater during the Second World War.

Further, we believe any long-term strategy for the Indo-Asia-Pacific region must include continued engagement with allies and partners in the region.

The United States values its alliance with the Government of Japan as a cornerstone of peace and security in the region. The United States welcomes Japan's decision to contribute more proactively to regional and global peace and security. Furthermore, we note that the Senkaku Islands are under the administrative control of Japan. We oppose any unilateral actions by a third party that would seek to undermine such administration, and remain committed under the Treaty of Mutual Cooperation and Security to respond to any armed attack in the territories under the administration of Japan. Finally, we acknowledge the significant and unprecedented financial contributions the Government of Japan has made to facilitate U.S. military access in both Japan and Guam.

We also note that the alliance between the United States and the Republic of Korea has served as an anchor for stability, security, and prosperity on the Korean Peninsula, in the Asia-Pacific region, and around the world. The United States and the Republic of Korea should continue further cooperation by strengthening the combined defense posture on the Korean Peninsula and enhancing mutual security based on the Republic of Korea-United States Mutual Defense Treaty. We support the vision of a Korean Peninsula free of nuclear weapons, free from the fear of war, and peacefully reunited on the basis of democratic and free market principles. Finally, we acknowledge the significant financial contributions the Republic of Korea has made to facilitate U.S. military access on the Korean Peninsula.

We note that United States has an upgraded, strategic-plus relationship with India based on regional cooperation, space science cooperation, and defense cooperation. We believe that the defense relationship between the United States and the Republic of India is strengthened by the common commitment of both countries to liberal democracy should continue to expand. Further, we welcome the role of the Republic of India in providing security and stability in the Indo-Pacific region and beyond, and we support the implementation of the United States-India Defense Framework Agreement and the India Defense Trade and Technology Initiative (DTTI).

Requirement to submit Department of Defense policy regarding foreign disclosure or technology release of Aegis Ashore capability to Japan (sec. 1262)

The House bill contained a provision (sec. 1256) that would express the sense of Congress that a decision by the Government of Japan to purchase Aegis Ashore for its self-defense could create a significant opportunity for promoting interoperability and integration of air- and missile defense capability with close allies, could provide for force multiplication benefits, and could potentially alleviate force posture requirements on multi-mission assets. This provision would also require the Secretary of Defense to submit to the appropriate congressional committees, a copy of the Department of Defense policy regarding foreign disclosure or technology release of Aegis Ashore capability to allies, including Japan, that possess sea-based Aegis weapons system-equipped naval vessels.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would remove the references to other allies and would edit the title of the provision to directly reference the Government of Japan.

South China Sea Initiative (sec. 1263)

The Senate amendment contained a provision (sec. 1261) that would authorize the Secretary of Defense, with the concurrence of the Secretary of State, to provide assistance and training for the purposes of increasing maritime security and the maritime domain awareness of foreign countries in the South China Sea. The provision would authorize \$50.0 million from amounts authorized to be appropriated for the Department of Defense Operation and Maintenance, Defense-wide (OMDW) account for fiscal year 2016, with increases in funding levels in subsequent fiscal years, to provide assistance to the recipient countries, which include Indonesia, Malaysia, the Philippines, Thailand, and Vietnam. The provision would require that the Secretary of Defense provide prior notification to the congressional defense committees not later than 15 days before exercising this authority.

The authority to provide assistance and training cannot be exercised after September 30, 2020. We expect the Department to request additional funding for the South China Sea Initiative in fiscal years 2017 through 2020 as part of the annual budget request.

This section would allow the Secretary of Defense to use up to \$25.0 million in funds authorized to be appropriated for the Department of Defense for operation and maintenance for such recovery programs through fiscal year 2017.

The Senate amendment contained a similar provision (sec. 1282) that would extend the authority of the Department of Defense to establish, develop, and maintain NAR capabilities for 2 additional years. The provision would also designate the Assistant Secretary of Defense for Special Operations and Low-Intensity Conflict (ASD SOLIC) as the primary civilian within DOD with programmatic and policy oversight responsibilities for such activities.

The House recedes with an amendment that would authorize the Secretary of Defense to use up to \$25.0 million in funds authorized for operation and maintenance for NAR.

We note that the agreement would designate the ASD SOLIC as the primary civilian within DOD with programmatic and policy oversight responsibilities for such activities. Given the sensitive nature of NAR activities, including the authorized use of irregular forces, groups, and individuals, the committee believes that ASD SOLIC is the most appropriate civilian office within the Department to exercise oversight of such activities and associated policies.

The Senate recedes with an amendment that would increase the annual cap on the authority from \$75.0 million to \$85.0 million and would require the Secretary of Defense to notify the congressional defense committees not later than 15-days prior to initiating the authority.

We believe that the United States, in accordance with the Taiwan Relations Act (Public Law 96-8), should continue to make available to Taiwan such defense articles and services as may be necessary to enable Taiwan to maintain a sufficient self-defense. Additionally, if the full transition is not complete by September 30, 2016 none of the funds in the Joint IED Defeat Fund would be available to the Department of Defense after September 30, 2016.

We urge the Secretary of Defense to provide information to the Committee on Foreign Affairs of the House of Representatives and Senate Committee on Foreign Relations for any activities conducted pursuant to subsection (b).

We have concerns regarding this current transition and believe a new strategy and implementation plan is required that would provide for a more streamlined approach to integrating the roles, missions, and activities of the JIDA into an existing military department, rather than establishing a new combat support agency within the Office of the Secretary of Defense. This would create reduced overhead management costs while maintaining institutional core knowledge for counter defeat and detection capabilities for IEDs and other improvised threats. The intent of this required new transition so not to disrupt ongoing, near-term counter-IED activities in support of overseas contingency operations.

The Senate amendment contained no similar provision.

The Senate recedes.

Delegation of authority regarding purchase of Global Positioning System user equipment (sec. 1605)

The House bill contained a provision (sec. 1605) that would modify section 913 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383) by limiting the delegation of waiver authority to a level no lower than the Under Secretary of Defense for Acquisition, Technology, and Logistics.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would add the secretaries of the military departments to the waiver authority delegation limitation.

Rocket propulsion system development program (sec. 1606)

The House bill contained a provision (sec. 1603) that would amend section 1604 of the Carl Levin and Howard P. 'Buck' McKeon

National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291) by inserting a section on streamlined acquisition; a clarification that, of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2016 for the rocket propulsion system required by section 1604 of Public Law 113-291, the Secretary of Defense would be permitted to obligate or expend such funds only for the development of such rocket propulsion system, and the necessary interfaces to the launch vehicle, to replace non-allied space launch engines by 2019 as required by such section; and a requirement for the Secretary of Defense to provide a briefing on the streamlined acquisition approach, requirements, and acquisition strategy.

The Senate amendment also contained a provision (sec. 1606) that would amend section 1604 of the Carl Levin and Howard P. ‘Buck’ McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291) to include a plan for the development and fielding of a full-up engine.

The Senate recedes with an amendment that would limit the availability of funds only for the development of a rocket propulsion system and the necessary interfaces to, or integration of, the launch vehicle, to replace non-allied space launch engines by 2019 as required by section 1604 of the Carl Levin and Howard P. ‘Buck’ McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291).

The amendment would specify that funds may be used for the integration of a rocket propulsion system on a new or existing launch vehicle. Funds may not be used to develop or procure a new launch vehicle or infrastructure.

The agreement would also direct the Secretary of the Air Force to provide the congressional defense committees a briefing no later than 90 days from the date of enactment on a plan for the development and fielding of a full-up rocket propulsion system.

Exception to the prohibition on contracting with Russian suppliers of rocket engines for the evolved expendable launch vehicle program (sec. 1607)

The House bill contained a provision (sec. 1604) that would amend section 1608 of the Carl Levin and Howard P. ‘Buck’ McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291; 128 Stat. 3626; 10 U.S.C. 2271 note).

The Senate amendment also contained a provision (sec. 1603) that would amend section 1608 of the Carl Levin and Howard P. ‘Buck’ McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291; 128 Stat. 3626; 10 U.S.C. 2271 note).

The House recedes with an amendment that would amend section 1608 of the Carl Levin and Howard P. ‘Buck’ McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291) by modifying the exception to the prohibition. The amendment would except contracts awarded for the procurement of property or services for space launch activities that includes the use of not more than a total of five rocket engines designed or manufactured in the Russian Federation that prior to February 1, 2014, were either fully paid for by the contractor or covered by a legally binding commitment of the contractor to fully pay for such rocket engines. The amendment would also add an additional exception which would allow contracts, not covered under the other exceptions, that are awarded for the procurement of property or services for space launch activities that include the use of not more than a total of four additional rocket engines designed or manufactured in the Rus-

sian Federation. Therefore, the agreement allows for a total of nine Russian rocket engines, aside from the waiver authority and the existing contract number FA8811-13-C-0003 awarded on December 18, 2013. Of those nine engines, not more than four additional rocket engines can be procured from the Russian Federation as five of the nine allowed under the (c)(1)(B) exception would have already been fully paid for as of February 1, 2014.

The existing exception on the placement of orders or the exercise of options under the contract number FA8811-13-C-0003 and awarded on December 18, 2013 and the existing waiver remain unchanged and unaffected.

We believe that the continued reliance on Russian rocket engines represents a significant risk to our national security and that their use should be minimized to the greatest extent practicable while maintaining assured access to space and competition.

Consistent with the limitations established by this provision, we direct the Secretary of Defense, in coordination with the Director of National Intelligence, to evaluate options for an executable backup plan for assured access to space that maintains competition as feasible. We expect the report to consider options in the event of a national emergency including using a Delta launch vehicle, relying on the National Aeronautics and Space Administration’s launch capability, acquiring or leveraging space launch services provided by international partners consistent with the National Space Transportation Policy, or any other options that the Secretary deems feasible. The report shall include identification of requirements, feasibility, costs, infrastructure, security, timelines, required authorities and risks and benefits associated with each option considered. The Secretary shall submit the results in the form of a briefing to the appropriate congressional committees no later than April 15, 2016.

Acquisition strategy for evolved expendable launch vehicle program (sec. 1608)

The House bill contained a provision (sec. 1606) that would express the sense of Congress concerning the need for an updated, phased acquisition strategy and contracting plan for the Evolved Expendable Launch Vehicle (EELV) program and that the acquisition strategy and contracting plan should eliminate the currently structured EELV launch capability (ELC) arrangement after the current contractual obligations, among other statements. The provision would require the Secretary of the Air Force to discontinue the current ELC arrangement by the latter of either the date on which the Secretary determines that the obligations of the contracts relating to such arrangement have been met, or by December 31, 2020. The provision would also require the Secretary to apply consistent and appropriate standards to certified EELV providers with respect to certified cost and pricing data, and audits, in accordance with section 2306a of title 10, United States Code; would require the Secretary to develop and carry out a 10-year acquisition strategy for the EELV program, in accordance with section 2273 of title 10, United States Code, and other elements of the provision; would require any contract for launch services to account for the value of the ELC arrangement per contract line item numbers in the bid price of the offeror as appropriate per launch; and would require a report on the acquisition strategy.

The Senate amendment contained a provision (sec. 1604) that would prohibit the Secretary of Defense from awarding a contract, renewing a contract, or maintaining a separate contract line item for the procurement of property or services for space launch capabilities under the Evolved Expendable

Launch Vehicle (EELV) program. The provision would allow for the Secretary to waive the requirement if the Secretary determines that: (1) awarding or renewing, or maintaining a separate contract line item for launch capabilities is necessary for the national security interests of the United States and the contract or contract line item does not support space launch activities using rocket engines designed or manufactured in the Russian Federation; and (2) failing to award or renew such a contract or maintain such a contract line item would have significant consequences to national security and result in the significant loss of life or property or economic harm. The provision would not apply to the placement of orders or the exercise of options under the contract numbered FA8811-13-C-003 and awarded on December 18, 2013. That exception would expire on September 30, 2019.

The Senate recedes with an amendment that would strike the sense of Congress language; revise the date for discontinuing the current ELC arrangement to not later than December 31, 2019 for existing contracts using rocket engines designed or manufactured in the Russian Federation and not later than December 31, 2020 for existing contracts using domestic rocket engines; and clarify language concerning the acquisition strategy required.

Allocation of funding for evolved expendable launch vehicle program (sec. 1609)

The Senate amendment contained a provision (sec. 1605) that would realign the cost share of the Evolved Expendable Launch Vehicle (EELV) Launch Capabilities (ELC) between the Air Force and the National Reconnaissance Office (NRO). The provision would require, for fiscal years 2017, 2018, or 2019, that the Air Force request for ELC funding bear the same ratio to the total number of Air Force cores to be procured under the Evolved Expendable Launch Vehicle Launch Services (ELS).

The House bill contained no similar provision.

The House recedes with an amendment that would direct the Director of the Office of Management and Budget to submit a certification with the budgets for fiscal years 2017, 2018, and 2019 that the cost share between the Air Force and the National Reconnaissance Office for the evolved expendable launch vehicle launch capability program equitably reflects the appropriate allocation of funding for the Air Force and the National Reconnaissance Office, respectively, based on the launch schedule and national mission forecast. The amendment would also require sufficient rationale to justify such cost share.

Procurement of wideband satellite communications (sec. 1610)

The House bill contained a provision (sec. 1607) that would require the Secretary of Defense to designate a senior Department of Defense official to procure wideband satellite communications, both military and commercial, to meet the requirements of the Department. Additionally, this section would require the Secretary of Defense to submit to the congressional defense committees, a plan to meet the requirements of the Department for satellite communications, including identification of roles and responsibilities, no later than 180 days after the date of the enactment of this Act.

The Senate amendment contained a similar provision (sec. 1609) that would require the Department of Defense Executive Agent for Space to submit by January 31, 2016 a plan to the congressional defense committees for consolidating the acquisition of commercial satellite communications (COMSATCOM) services from across the Department of Defense into a program office in

the Air Force Space and Missile Systems Center. The plan would require consolidation to take place within a 3-year period. It would also require an assessment of the current management and overhead costs, a projection of the consolidated management and overhead costs, and an estimate of the cost of consolidation. The provision would require the Director of Cost Assessment and Program Evaluation to review and validate each of the estimates.

The Senate recedes with an amendment that would require the Secretary of Defense to submit a plan for the consolidation of the acquisition of wideband satellite communications. The amendment would require the Secretary to identify and designate a single acquisition agent and implementation of the consolidation plan. The amendment would also allow the Secretary to forgo implementation if the Secretary determines that the implementation will require significant additional funding or is not in the interests of national security.

Analysis of alternatives for wide-band communications (sec. 1611)

The Senate amendment contained a provision (sec. 1611) that would require an analysis of alternatives for the replacement of the Wideband Global Satellite System with a report due to the congressional defense committees by March 31, 2017. The analysis required shall take into account future bandwidth of space, air, and ground communications systems.

The House bill contained no similar provision.

The House recedes.

Modification of pilot program for acquisition of commercial satellite communication services (sec. 1612)

The House bill contained a provision (sec. 1609) that would modify an existing pilot program for acquisition of commercial satellite communications services by removing the requirement to use the working capital fund and authorize multiple methods or pathfinder efforts to be used within the pilot program. Additionally, the Secretary would have to establish metrics to track the progress of meeting the objectives of the program and provide annual briefings on the progress of the pilot program, concurrent with the submission of the budget request in each year from fiscal year 2017 through fiscal year 2020.

The Senate amendment contained a similar provision (sec. 1612) that would direct the Department of Defense to seek to achieve order-of-magnitude improvements in communications capability as a goal of pilot programs for commercial satellite communications.

The House recedes with an amendment that would require the Secretary of Defense to conduct the pilot program, remove the requirement to use the working capital fund for the pilot program and authorize multiple methods or pathfinder efforts to be used within the pilot program. The amendment would also direct the Department to seek to achieve order-of-magnitude improvements in communications capability as a goal of pilot programs for commercial satellite communications. We believe that Department of Defense should use this program to explore new and innovative ways to acquire commercial satellite communications for the benefit of the warfighter and the taxpayers. This should include new activities to meet the goals established in the pilot program while also leveraging the Department's pathfinder efforts.

Integrated policy to deter adversaries in space (sec. 1613)

The House bill contained a provision (sec. 1614) that would state a sense of Congress re-

garding space defense, as outlined in the National Space Policy of 2010.

The Senate amendment contained a similar provision (sec. 1601) that would require the President to establish an interagency process to develop a policy to deter adversaries in space. This integrated deterrence policy would be developed with the objectives of (1) reducing risks to the United States and its allies in space; and (2) protecting and preserving the rights, access, capabilities, use, and freedom of action of the United States in space and the right of the United States to respond to an attack in space and, if necessary, deny adversaries the use of space capabilities hostile to the national interests of the United States. The provision would require the President to provide a report setting forth the deterrence policy and the answers to Enclosure 1, regarding offensive space control policy, of the classified annex to this Act, to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives within 180 days of the date of enactment. If the report required and the answers to Enclosure 1 are not provided within 180 days of the date of enactment, the provision would prohibit, until provided, the obligation or expenditure of \$10.0 million of the amounts authorized to be appropriated or otherwise made available to the Department of Defense for fiscal year 2016 to provide support services to the Executive Office of the President.

The House recedes with a technical amendment.

Prohibition on reliance on China and Russia for space-based weather data (sec. 1614)

The House bill contained a provision (sec. 1610) that would prohibit reliance on space-based weather data from the Government of the People's Republic of China or the Government of the Russian Federation, and would require the Secretary of Defense to certify that the Department of Defense does not rely on, or in the future does not plan to rely on, space-based weather data for national security purposes, that is provided by the Government of the People's Republic of China, the Government of the Russian Federation, or an entity owned or controlled by the Government of China or the Government of Russia.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

Limitation on availability of funds for weather satellite follow-on system (sec. 1615)

The House bill contained a provision (sec. 1608) that would limit any funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2016 for the weather satellite follow-on system until the Secretary of Defense provides a briefing to the congressional defense committees on a plan to address the requirements of the Department of Defense for cloud characterization and theater weather imagery, and that such plan will not negatively affect the commanders of the combatant commands and will meet the requirements of the Department for cloud characterization and theater weather imagery.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would change the limitation of funds from a full limitation to a limitation on half of the funds.

We are aware and supportive of the efforts to reassess the appropriate portions of the analysis of alternatives (AoA) for space-based environmental monitoring in consideration of the changes that have occurred since the original AoA that was completed.

Limitations on availability of funds for the Defense Meteorological Satellite program (sec. 1616)

The Senate amendment contained a provision (sec. 1607) that would prohibit the use of funds authorized to be appropriated in fiscal year 2016 and any unobligated funds made available for appropriation in fiscal year 2015 for the Defense Meteorological Satellite Program (DMSP) or the launch of Defense Meteorological Satellite Program satellite #20 (DMSP-20) until the Secretary of Defense and the Chairman of the Joint Chiefs of Staff jointly certify to the congressional defense committees that: (1) relying on civil and international contributions to meet space-based environmental monitoring requirements is insufficient or is a risk to national security and launching DMSP-20 will meet those requirements; (2) launching DMSP-20 is the most affordable solution to meeting requirements validated by the Joint Requirements Oversight Council; and (3) nonmaterial solutions within the Department of Defense, the National Oceanic and Atmospheric Administration (NOAA), or National Aeronautics and Space Administration (NASA) are incapable of providing a solution for cloud characterization and theater weather requirements as validated by the Joint Requirements Oversight Council.

The House bill contained no similar provision.

The House recedes with an amendment that reduces the fence in fiscal year 2015 to half of any unobligated funds made available for appropriation and clarifies the elements of the certification.

Streamline commercial space launch activities (sec. 1617)

The Senate amendment contained a provision (sec. 1613) that would direct the Secretary of Transportation, in consultation with the Secretary of Defense, the Administrator of the National Aeronautics and Space Administration, the commercial space sector, and the heads of other executive agencies as appropriate to report annually on actions taken to remove duplication and minimize inconsistencies across the federal government for commercial space launch requirements and approval. The report shall be submitted to the congressional defense committees, the Senate Committee on Commerce, Science and Transportation and the House Committee on Science, Space and Technology.

The House bill contained no similar provision.

The House recedes with a technical amendment that would add the House Committee on Transportation and Infrastructure as a recipient of the required reports. We note the importance of efforts to eliminate duplicative requirements and approvals to streamline commercial space launch activities.

Plan on full integration and exploitation of overhead persistent infrared capability (sec. 1618)

The House bill contained a provision (sec. 1612) that would require the Commander, U.S. Strategic Command and the Director, Cost Assessment and Program Evaluation jointly submit to the appropriate congressional committees a plan for the integration of overhead persistent infrared (OPIR) capabilities to support specified mission capabilities of the Department of Defense.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

Options for rapid space reconstitution (sec. 1619)

The House bill contained a provision (sec. 1613) that would state the sense of Congress regarding rapid reconstitution of critical

space capabilities. It would also direct the Secretary of Defense to evaluate options for the use of current assets of the Department of Defense for the purpose of rapid reconstitution of critical space-based warfighter enabling capabilities and provide a briefing to the congressional defense committees not later than March 31, 2016.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would strike the sense of Congress.

Evaluation of exploitation of space-based infrared system against additional threats (sec. 1620)

The House bill contained a provision (sec. 1611) that would require the Under Secretary of Defense for Acquisition, Technology, and Logistics, in cooperation with the Secretary of the Navy, the Secretary of the Air Force, and the Director of National Intelligence, to conduct an evaluation of the Space-based Infrared System to detect, track, and target, or develop the capability to do the detect, track and target, against the full-range of threats to the United States, deployed members of the Armed Forces, and the allies of the United States, and provide the results of such evaluation to the congressional defense committees not later than December 31, 2016.

The Senate bill contained no similar provision.

The Senate recedes with an amendment replacing the Under Secretary of Defense for Acquisition, Technology, and Logistics with the Commander, U.S. Strategic Command and adding the Commander, U.S. Northern Command.

We note that the classified annex accompanying the House bill includes further discussion related to this section.

Quarterly reports on Global Positioning System III space segment, Global Positioning System operational control segment, and Military Global Positioning System user equipment acquisition programs (sec. 1621)

The reporting requirement would sunset on the date at which GPS III, GPS OCX, and MGUE reach their full operational capabilities.

The House bill contained no similar amendment.

The House recedes with an amendment that would add a requirement to provide supporting documents and modify the date of termination of the reporting requirement from full operational capability to initial operational capability.

Sense of Congress on missile defense sensors in space (sec. 1622)

The House bill contained a provision (sec. 1615) that would express the sense of Congress that a robust multi-mission space sensor network will be vital to ensuring a strong missile defense system.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would strike the findings.

1947 (50 U.S.C. 3024(p)). The report would specifically include a description of how the Director incorporates the needs of the Chairman of the Joint Chiefs of Staff and the commanders of the unified and specified commands into the metrics used to evaluate the performance of the elements of the Intelligence Community that are within the Department of Defense in conducting intelligence activities funded under the National Intelligence Program.

The Senate amendment contained no similar provision.

The Senate recedes.

We continue to have concerns about the activities of the Intelligence Systems Support Office which was transferred from the office of the Under Secretary of Defense for Intelligence to the Air Force in fiscal year 2015 and believes that there are significant synergies and potential savings to be gained through consolidation of these activities with other intelligence elements of the Department of Defense. The committees are also concerned about the Foreign Material Exploitation activities which were transferred in fiscal year 2015 as well and believe that these elements could also be consolidated with organizations elsewhere in the Defense Intelligence Enterprise.

Report on Air National Guard contributions to the RQ-4 Global Hawk mission (sec. 1637)

The Senate amendment contained a provision (sec. 1621) that would require the Secretary of the Air Force, in coordination with the Chief of Staff of the Air Force and the Chief of the National Guard Bureau, to submit, not later than 180 days after the date of enactment of this Act, a report to Congress on the feasibility of using the Air National Guard in association with the Active-Duty Air Force to operate and maintain the RQ-4 Global Hawk aircraft.

The Senate amendment contained no similar provision.

The Senate recedes.

We believe it is important to ensure that the Department is taking into consideration

both intelligence assessments of potential adversaries, as well as the exquisite intelligence required to make new weapon systems work to their fullest potential.

SUBTITLE C—CYBERSPACE-RELATED MATTERS

Codification and addition of liability protections relating to reporting on cyber incidents or penetrations of networks and information systems of certain contractors (sec. 1641)

The House bill contained a provision (sec. 1641) that would amend section 941 of the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112-239) as a new section 393 of title 10, United States Code, and also amend section 391 of such title, to provide for liability protection for covered contractors reporting cyber incidents to the Department of Defense through these two statutorily required mechanisms.

The Senate amendment contained no similar provision.

The House recedes.

Authorization of military cyber operations (sec. 1642)

The Senate amendment contained a provision (sec. 1631) that would authorize the Secretary of Defense to develop, prepare, coordinate, and (when authorized by the President to do so) to conduct a military cyber operation in response to malicious cyber activity carried out against the United States or a United States person by a foreign power (as defined in section 101 of the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1801)).

The House bill contained no similar provision.

The House recedes with an amendment that would clarify that the authority to conduct cyber operations shall be exercised when appropriately authorized.

We note that nothing in this provision shall be construed to limit existing presidential or congressional power to authorize action.

Limitation on availability of funds pending the submittal of integrated policy to deter adversaries in cyberspace (sec. 1643)

The Senate amendment contained a provision (sec. 1633) that would prohibit the obligation or expenditure of \$10.0 million of the unobligated balance of the amounts appropriated or otherwise made available to the Department of Defense to provide support services to the Executive Office of the President, until the President submits to the congressional defense committees the integrated policy to deter adversaries in cyberspace required by section 941 of the National Defense Authorization Act for Fiscal Year 2014.

The House bill contained no similar provision.

The House recedes with a technical amendment.

We note that section 941 of the National Defense Authorization Act for Fiscal Year 2014 (127 Stat. 837; Public Law 113-66), required the President to establish an interagency process to provide for the development of an integrated policy to deter adversaries in cyberspace. The provision required the President, not later than 270 days after the date of enactment, which occurred on December 26, 2013, to submit to the congressional defense committees a report setting forth that integrated policy to deter adversaries in cyberspace. The report required has not been provided. We believe that an integrated policy to deter adversaries in cyberspace is essential to ensuring the national security of the United States and countering the cyber threats posed by our adversaries. We remain concerned that the failure to establish a well-articulated strategy for deterring potential adversaries from conducting

cyber attacks, emboldens our adversaries and increases the likelihood of cyber attacks in the near future.

Authorization for procurement of relocatable Sensitive Compartmented Information Facility (sec. 1644)

The Senate amendment contained a provision (sec. 1634) that would authorize \$10.6 million of the unobligated amounts made available in fiscal years 2014 and 2015 for the Army for the procurement of a relocatable Sensitive Compartmented Information Facility (SCIF) for the Cyber Center of Excellence at Fort Gordon, Georgia.

The House bill contained no similar provision.

The House recedes with an amendment that would clarify that the Secretary of Defense shall designate an entity within a military department to be responsible for the critical cyber capabilities identified in the provision.

Assessment of capabilities of United States Cyber Command to defend the United States from cyber attack (sec. 1646)

The Senate amendment contained a provision (sec. 1636) that would require the Principal Cyber Advisor (PCA) to sponsor an independent panel to assess the ability of the National Mission Forces of the U.S. Cyber Command (CYBERCOM) to reliably prevent or block large-scale attacks on the United States by foreign powers with capabilities comparable to those of countries like China, Iran, North Korea, and Russia in the 2020 and 2025 timeframes.

The House bill contained no similar provision.

The House recedes with an amendment that would remove the requirement for an independent assessment.

Evaluation of cyber vulnerabilities of major weapon systems of the Department of Defense (sec. 1647)

Comprehensive plan and biennial exercises on responding to cyber attacks (sec. 1648)

The Senate amendment contained a provision (sec. 1637) that would require the Secretary of Defense to conduct national-level cyber exercises not less frequently than once every 2 years for a period of 6 years. In preparing and executing these exercises, the Secretary would be required to coordinate

with the Secretary of Homeland Security, the Director of National Intelligence, the Director of the FBI, and the heads of the critical infrastructure sector-specific agencies designated under Presidential Policy Directive 21. This provision would also provide the President with a single use waiver to provide Russia with information regarding ballistic missile early warning in the event the Chairman of the Joint Chiefs of Staff, the Commander of U.S. Strategic Command, and the Commander of U.S. European Command jointly certify to the President and the congressional defense committees that the provision of such information is required because of a failure of the early warning system of Russia. The provision would allow the prohibitions to expire on January 1, 2031.

The Senate amendment contained a similar provision (sec. 1659) that would amend Section 1246(c)(2) of the National Defense Authorization Act for Fiscal Year 2014 (Public

Law 113-66; 127 Stat. 923), as amended by Section 1243(2)(A) of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291; 128 Stat. 3564) to extend the limitation on providing certain sensitive missile defense information to the Russian Federation through fiscal year 2017.

Limitations on availability of funds for Patriot lower tier air and missile defense capability of the Army (sec. 1674)

The House bill contained a provision (sec. 1665) that would provide that none of the funds authorized to be appropriated for programs related to the Patriot lower tier air and missile defense capability that depend specifically on the results of the analysis of alternatives (AOA) regarding the Patriot lower tier air and missile defense capability of the Army, may be obligated or expended until the results of the AOA are submitted to the congressional defense committees.

This section would also provide that the Under Secretary of Defense for Acquisition, Technology, and Logistics could waive the application of the limitation in this section if the Under Secretary determines that it is necessary to prevent an unacceptable risk to mission performance of the Patriot system and notifies the congressional defense committees of the decision to use such waiver authority.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would reduce the limitation to 30 days after the submission of the AOA to the congressional defense committees.

The committees understand that the AOA will be completed by August 2015, prior to the beginning of fiscal year 2016. The committees do not intend to limit funding for programs or technology that could support Patriot modernization regardless of the op-

tions chosen based on the AOA. The committees believe a modernized Patriot capability is vital to a robust air and missile defense capability of the Army, and that such capability is further required for the protection of deployed U.S. Armed Forces and allied forces. The committees are committed to the modernization of Patriot and, elsewhere in this Act, recommend full funding of the budget request for these activities.

Missile defense capability in Europe (sec. 1677)

The House bill contained a provision (sec. 1668) that would ensure the Aegis Ashore site to be deployed in the Republic of Poland has anti-air warfare (AAW) capability upon the site achieving full operating capability. It would also require that the Aegis Ashore site in Romania be retrofitted with AAW capability no later than December 31, 2018. It would also require the Secretary to evaluate the feasibility, benefit, and cost of using the Evolved Sea Sparrow Missile or the Standard Missile-2 in providing the anti-air warfare capability. Additionally, it would require the Secretary of Defense to study no less than three sites in the U.S. European Command (EUCOM) area of responsibility for the deployment of the Terminal High Altitude Area Defense (THAAD) battery; ensure that the THAAD battery is available for rotational deployment to the EUCOM area of responsibility; and to examine sites to pre-position such THAAD battery if such pre-position is necessary for military requirements.

The Senate amendment contained a similar provision (sec. 1653) that would express

the sense of the Congress that the Secretary of Defense, in consultation with the relevant combatant command, should ensure that arrangements are in place, including support from North Atlantic Treaty Organization (NATO) allies, to provide anti-air defense capability at all NATO missile defense sites in support of phases 2 and 3 of the European Phased Adaptive Approach. Not later than 180 days after the date of enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report describing the plan of the Secretary to provide anti-air defense capability at the sites and the contributions being made by NATO to support the provision of the anti-air defense capability.

The Senate recedes with an amendment that would state the sense of the Congress that the Secretary of Defense should ensure that arrangements are in place, including support from other members of NATO and the host nations, to provide air defense capabilities at the Aegis Ashore sites in Romania and Poland by not later than June 1, 2019. The agreement would require the Secretary of Defense, in coordination with the Secretary of State, to submit a request to NATO to support an air defense capability at the Aegis Ashore sites in Romania and Poland. The Secretary shall submit a notification to the appropriate congressional committees by not later than April 1, 2016, as to whether NATO has agreed in principle to provide such capability. Not later than 180 days after the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report describing the plan and budget profile to provide an air defense capability to the Aegis Ashore sites in Romania and Poland and an assessment of the air and ballistic missile threat to United States military installations in Europe, including the Naval Shore Facility in Devesulu, Romania and the planned site in Redzikowo, Poland. We also direct the Secretary of Defense to ensure, not later than 180 days after enactment, that a terminal high altitude area defense battery is available for rotational deployment to the area of responsibility of the United States European Command unless the Secretary notifies the congressional defense committees that such a battery is needed in another combatant command's area of responsibility. The Secretary of Defense shall also implement the direction contained in the classified annex of this Act bearing on this matter.

Availability of funds for Iron Dome short-range rocket defense system (sec. 1678)

The House bill contained a provision (sec. 1669) that would make available \$41.4 million for the Government of Israel to procure radars for the Iron Dome short-range rocket defense system, subject to the terms and conditions of the "Agreement Between the Department of Defense and the United States of America and the Ministry of Defense of the State of Israel Concerning Iron Dome Defense System Procurement" and an amended agreement for co-production of radar components.

The Senate amendment included a similar amendment (sec. 1654) that would authorize \$41.4 million for the Department of Defense to provide to the Government of Israel to procure the Iron Dome short-range rocket defense system, including for co-production of Iron Dome parts and components in the United States by United States industry. The provision would also provide that these funds shall be available subject to the terms and conditions in the "Agreement Between the Department of Defense and the Ministry of Defense of the State of Israel Concerning Iron Dome Defense System Procurement," signed on March 5, 2014, including any nego-

tiated amendment to that agreement for co-production of Iron Dome radar components.

The Senate recedes with a technical amendment.

Israeli cooperative missile defense program co-development and co-production (sec. 1679)

The House bill contained a provision (sec. 1670) that would authorize \$165.0 million for procurement and co-production of the David's Sling Weapon System and the Arrow 3 Upper Tier missile defense system. This provision would further specify the terms and conditions that shall be achieved by the Director of the Missile Defense Agency and the Under Secretary of Defense for Acquisition, Technology, and Logistics prior to the disbursement of the authorized funds.

The Senate amendment contained a similar provision (sec. 1655) that would authorize \$165.0 million for the Missile Defense Agency to provide to the Government of Israel to procure the David's Sling Weapon System and the Arrow 3 Upper Tier Interceptor program, including for co-production of parts and components in the United States by United States industry. The funds may be disbursed after certain conditions, which include a certification by the Director of the Missile Defense Agency and the Under Secretary of Defense for Acquisition, Technology, and Logistics that in the case of co-production for the David's Sling Weapon System, not less than half of such co-production is carried out by United States industry.

The House recedes to the Senate with an amendment that would require the Under Secretary of Defense for Acquisition, Technology, and Logistics to certify that the Government of Israel has demonstrated the successful completion of key knowledge points; that such funds will be provided on the basis of a one-for-one cash match made by Israel or in another mutually agreed matching amount; that the United States has entered into a bilateral agreement with Israel; that there is complete transparency on the requirement of Israel for the number of interceptors and batteries to be procured; that technical milestones are established for co-production; that there is a joint approval process for third party sales; and that the level of co-production for the David's Sling Weapon System is equal to or greater than 50 percent for U.S. industry. The Under Secretary may waive the certification if the funds are provided to Israel solely for funding the procurement of long-lead components and that the long-lead procurement will be conducted in a manner that maximizes co-production in the United States without incurring additional non-recurring engineering activity or cost. The Director of the Missile Defense Agency would also be required to submit to the Congress, at the same time the President submits to Congress the budget request for fiscal year 2017, a plan to achieve a rate of co-production by United States industry of parts and components of the David's Sling Weapon System at a rate that is not less than 50 percent.

Boost phase defense system (sec. 1680)

The House bill contained a provision (sec. 1672) that would require the Secretary of Defense to prioritize technology investments to develop and field a boost phase missile defense system by fiscal year 2022 and ensure it can benefit multiple warfighter requirements. It would also require the Director of the Missile Defense Agency establish a senior level advisory group to recommend to the Director promising technologies that the Director can evaluate for use as a boost phase missile defense layer and then provide a briefing to the congressional defense committees no later than May 1, 2016 on the recommendations of the advisory group.

The Senate amendment contained a similar provision (sec. 1658) that would prioritize technology investments in the Department of Defense to support efforts by the Missile Defense Agency (MDA) to develop and deploy a boost phase airborne laser weapon system by fiscal year 2025. The provision encourages collaboration and cooperation between MDA and other Department of Defense components, and directs the Secretary of Defense to provide the congressional defense committees with a report, within 120 days of enactment of this Act, of Department of Defense efforts to develop and deploy a boost phase airborne laser weapon system for missile defense.

The Senate recedes with an amendment that would prioritize feasible and cost-effective efforts, would eliminate the requirement for a senior level advisory group and require a report on the efforts of the Department of Defense to develop and deploy an airborne or other boost phase defense system by fiscal year 2025. The report should also include recommendations from industry on emerging technologies that could be applied for boost phase missile defense, and an evaluation by MDA of those recommendations. We also encourage the Department of Defense to develop concept of operations for those boost phase missile defense systems for which it intends to develop prototypes to accompany its fiscal year 2017 budget request.

This section would require that the Director of the Missile Defense Agency develop a highly reliable multiple-object kill vehicle for the Ground-Based Midcourse Defense system, with rigorous flight testing to occur no later than 2020, and the deployment of such vehicle as soon as practicable thereafter. This section would also require that the management of the multiple-object kill vehicle program be undertaken by the Deputy Director of the Missile Defense Agency and would require the Director of the Missile Defense Agency to provide the funding profile required for the multiple-object kill vehicle program to the congressional defense committees no later than 30 days after the date of the enactment of this Act.

The Senate bill contained a similar provision (sec. 1656) that would require the Director of the Missile Defense Agency to conduct flight testing of the multi-object kill vehicle by not later than 2020 and field such vehicle as soon as technically practicable. The provision would also direct that the management of the multi-object kill vehicle program shall report directly to the Deputy Director of the Missile Defense Agency.

The Senate recedes with an amendment that would require the deployment of the multi-object kill vehicle as early as practicable after rigorous flight testing is completed and would require the fiscal year 2017 budget submission to reflect the funding profile necessary to meet the objectives of the multiple object kill vehicle program.

Requirement to replace capability enhancement I exoatmospheric kill vehicles (sec. 1682)

The Senate amendment contained a provision (sec. 1657) that would require the Director of the Missile Defense Agency to ensure,

The Senate amendment contained a provision (sec. 1651) that would require the Secretary of Defense to develop a plan for expediting the deployment time for a potential future continental United States interceptor site by at least 2 years, and submit to the congressional defense committees a report on such plan not later than 30 days after the transmittal of the EIS required by the National Defense Authorization Act for Fiscal Year 2013. The provision would require the Comptroller General to assess the Department's report on the deployment plan and submit a report to the congressional defense committees with findings and recommendations.

The Senate recedes with an amendment that would require the Director of the Missile Defense Agency, in consultation with the Commander of United States Northern Command, to designate the preferred location in the United States for the potential future deployment of a missile defense site not later than 30 days after the Secretary of Defense publishes the draft EIS pursuant to the National Defense Authorization Act for Fiscal Year 2013. The determination of such site should be based on operational effectiveness and cost effectiveness in addition to the results of the EIS. The Secretary would be permitted to submit any updates to the designation that he finds appropriate after the final EIS is submitted. According to the Missile Defense Agency, the draft EIS is anticipated to be completed and published in the Federal Register by January 2016 and the EIS is anticipated to be finalized between April and July of 2016.

Not later than 30 days after the Secretary of Defense completes the final designation of the missile defense site, the Secretary of Defense shall develop and submit to the congressional defense committees a plan for expediting the deployment time for a potential future continental interceptor site by at least 2 years, in the case that the decision is made to proceed with such deployment. Not later than 90 days after the Secretary of Defense submits the plan to Congress, the Comptroller General of the United States is to provide its assessment of that plan. The Secretary of Defense may not obligate or expend such planning and design funds for military construction as are authorized in this Act until such date as the final EIS is published.

The House bill contained a provision (sec. 1673) that would require the sea-based X-band (SBX) radar to be relocated to a new

homeport on the East Coast of the United States no later than December 31, 2020, and shall have an at-sea capability of not less than 120 days per year. Prior to relocating the sea-based X-band radar, the Director of the Missile Defense Agency (MDA) would be required to certify that the relocation would not impact the missile defense of Hawaii. Additionally, this provision would require the Director of MDA to begin siting studies, environmental impact surveys, and any other appropriate studies and evaluations to base the sea-based X-band radar at a site on the East Coast.

The Senate bill contained a similar provision (sec. 1652) that would require the Director of MDA, in cooperation with the relevant combatant command, to deploy by not later than December 31, 2020, a long-range discrimination radar or other appropriate tracking and discrimination sensor capabilities in a location optimized to support the defense of the homeland of the United States against emerging long-range ballistic missile threats from Iran.

The Senate recedes with an amendment that would express the sense of the Congress that additional missile defense sensor discrimination capabilities are needed to enhance the protection of the United States homeland against potential long-range ballistic missiles from Iran. Accordingly, the Director of MDA shall, in cooperation with the relevant combatant command, deploy by not later than December 31, 2020, a long-range discrimination radar or other appropriate sensor capability in a location optimized to support the defense of the homeland of the United States from emerging long-range ballistic missile threats from Iran. The Director of MDA shall commence any siting studies and other required evaluations necessary to carry out the homeport reassignment of the SBX to the east coast. The Director of MDA shall commence a study to evaluate at least three possible additional locations, selected by the Director of MDA, that would be best suited for future deployment of an advanced missile defense sensor site at a location, whether in the United States or not, optimized against threats from Iran. In the event that the Department of Defense determines to move the SBX to the east coast, such a relocation may not be carried out until the date on which the Director of MDA certifies to the congressional defense committees that Hawaii will have adequate missile defense coverage prior to any reassignment of the homeport of the SBX. The Director of MDA shall include in the budget request for each fiscal year until December 31, 2020 an update on his progress in implementing this provision.

Concept development of space-based missile defense layer (sec. 1685)

The House bill contained a provision (sec. 1675) that would require the Director of the Missile Defense Agency (MDA), no later than 30 days after the date of the enactment of this Act, to commence a concept definition, design, research, development, and engineering evaluation of a space-based ballistic missile intercept and defeat layer to the ballistic missile defense system, and submit a report to the congressional defense committees on the findings of such concept development no later than 1 year after the date of the enactment of this Act.

The Senate bill contained no similar provision, but included language in the report accompanying its bill, that would request a report from the Missile Defense Agency on the need for a space-based interceptor layer, assessment of the maturity of necessary technology, and an estimate of the effectiveness and cost of such a space-based missile defense layer.

The Senate recedes with an amendment that would require the Director of the Missile Defense Agency, in coordination with the Director of the Defense Advanced Research Project Agency and the Secretary of the Air Force, to commence the concept definition of a space-based ballistic missile intercept layer and report its findings to the defense committees not later than 1 year after the date of enactment of this Act. The agreement does not include the language in the original House provision that would direct MDA to begin design, engineering evaluations, or research and development on a space-based layer. Not later than March 31, 2016, the Director of the Missile Defense Agency shall provide to the congressional defense committees an interim briefing on the plan described in subsection (c) (2). In light of this agreement, the Missile Defense Agency does not have to submit to the congressional defense committees the report on a space-based missile defense interceptor as directed in the Senate Report 114-49 accompanying the Senate bill.

Aegis ashore capability development (sec. 1686)

The House bill contained a provision (sec. 1676) that would require the Director of the Missile Defense Agency, in coordination with the chief of Naval Operations and the Chief of Staff of the Army, to evaluate the role, feasibility, cost, and cost benefit of additional Aegis Ashore sites and upgrades to current ballistic missile defense system sensors to offset capacity demands on current Aegis ships, Aegis Ashore sites, and Patriot and Terminal High Altitude Area Defense capability and to meet the requirements of the combatant commanders. Such review would be further reviewed and evaluated by the Secretary of Defense and the Chairman of the Joint Chiefs of Staff. It would further require that the Under Secretary of Defense for Policy and the Secretary of State to jointly identify any obstacles to foreign military sales of Aegis Ashore or co-financing of additional Aegis Ashore sites.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that includes certain technical changes that would eliminate the requirement for the President to enter into negotiations on host nation agreements for Aegis Ashore sites. We also add direction that the Secretary of Defense and Chairman of the Joint Chiefs include in their evaluation recommendations for potential future locations of Aegis Ashore sites.

Development of requirements to support integrated air and missile defense capabilities (sec. 1687)

The House bill contained a provision (sec. 1677) that would require the Chairman of the Joint Chiefs of Staff to provide the appropriate congressional committees a briefing on the military requirement for left-of-launch capability and any current capability gaps in meeting such requirement.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would direct the Vice Chairman of the Joint Chiefs of Staff to oversee the development of warfighter requirements for persistent and survivable capabilities to detect, identify, determine the status, track, and support engagement of strategically important mobile or relocatable assets. The requirements shall be used for the purpose of informing applicable acquisition programs (including those involving systems-of-systems required to integrate multiple inputs and outputs of related left-of-launch information) and architecture planning funded through the Military Intelligence Program, the National Intelligence Program, and non-

intelligence programs. The Vice Chairman shall also oversee the development of the enabling framework for intelligence support to integrated air and missile defense and, as appropriate, the development of requirements for capabilities to be acquired to achieve integrated operation.

Extension of requirement for Comptroller General of the United States review and assessment of missile defense acquisition programs (sec. 1638)

The House bill contained a provision (sec. 1075) that would repeal or revise reporting requirements related to missile defense. These requirements include removing annual reports on the Missile Defense Executive Board, and removing a required report on the Ground-based Midcourse Defense system.

The Senate amendment contained a provision (sec. 1660) that would amend section 232 of the National Defense Authorization Act for Fiscal Year 2012 (Public Law 112-81) and would extend various reporting requirements by an additional 5 years to Comptroller General of the United States reviews and assessments of missile defense acquisition programs.

The House recedes with a clarifying amendment. We note that several annual reporting requirements directed toward the Missile Defense Agency have expired and urge the Department to update its report database accordingly.

Plan for medium range ballistic missile defense sensor alternatives for enhanced defense of Hawaii (sec. 1689)

The House bill contained a provision (sec. 1674) that would express the sense of Congress regarding ballistic missile defense sensor and sensor discrimination capability. This provision would further require the Director of the Missile Defense Agency to conduct an evaluation of potential options for fielding a medium range ballistic missile defense sensor for the defense of Hawaii. Such evaluation would have to be submitted to the congressional defense committees no later than 60 days after the date of the enactment of this Act.

The Senate amendment contained no similar provision.

The House recedes with an amendment that would change the required plan to a required report on options for augmenting the missile defense of Hawaii.

Milestone A decision for the Conventional Prompt Global Strike Weapons System (sec. 1690)

The Senate amendment contained a provision (sec. 1673) that would require the Secretary of Defense to make a Milestone A decision for the conventional prompt global strike program no later than September 30, 2020, or 8 months after the successful completion of the Intermediate Range Flight 2 test.

The House bill contained no similar provision.

The House recedes with an amendment that would transform the provision into a sense of Congress with a reporting requirement. We expect the Department to include in the required report whether there are any potential ambiguity problems created by conventional prompt global strike capability, including any involving the launch of a conventionally-armed ballistic missile from a submarine platform, that it is aware of as of the date of the Milestone A acquisition decision, and if so, to also include in the required report what specific measures he is recommending to address those problems. Additionally, such report should include whether there are any appropriate bilateral cooperative or verification measures he recommends and the timeline for decision and implementation of such measures and their cost.

The Senate amendment contained no similar provision.

The House recedes. We direct the Commander of U.S. Northern Command, jointly with the Commander of U.S. Air Force Space Command, the Director, Missile Defense Agency, and the Director of National Intelligence, to provide a briefing to the congressional defense committees not later than April 1, 2016 concerning the plan for the Cobra Dane radar capability at Shemya, Alaska, including the military requirements it currently serves and whether those requirements will continue to require a material capability solution, including those requirements not related to missile defense; and any sustainment and modernization decision timelines and costs.

TITLE XXIV—DEFENSE AGENCIES MILITARY
CONSTRUCTION

Summary

The budget request included authorization of appropriations of \$2.3 billion for military construction for the defense agencies and \$58.7 million for family housing for the defense agencies for fiscal year 2016.

The agreement includes authorization of appropriations of \$2.3 billion for military construction for the defense agencies and \$58.7 million for family housing for the defense agencies for fiscal year 2016.

The budget request included \$239.9 million for the Hospital Replacement, Increment 7 at Fort Bliss, Texas. We support the authorization for appropriations in an amount equivalent to the ability of the military department to execute in the year of the authorization for appropriations. For this project, we believe that the Department of Defense has exceeded its ability to fully expend the funding requested for fiscal year 2016. As such, the agreement recommends \$189.9 million, a reduction of \$50.0 million, for this project.

The budget request included \$47.2 million for the SOF Logistics Support Unit One Ops Fac. #2 at Naval Base Coronado, California. We note that the utilities needed to support this facility are not available and are not programmed until fiscal year 2017. Without these utilities, we note that the facility would not be complete and useable. While we support the requirement for this project, and the agreement includes \$47.2 million for this project, we expect the Department of Defense to sequence the construction of this project in a manner that ensures the required supporting utilities are available at the time the construction is complete.

The budget request included \$10.0 million for contingency construction at various world-wide locations. We note that the Department of Defense has not requested a military construction project using funds from this account since 2008. As such, the agreement recommends no funds, a reduction of \$10.0 million, for this program.

In addition, we recommend an increase of funding for a military construction project not included in the budget request, \$30.0 million for the Missile Defense Agency Military Construction Planning and Design activities for an East Coast site for homeland missile defense.

LEGISLATIVE PROVISIONS ADOPTED

Authorized defense agencies construction and land acquisition projects (sec. 2401)

The House bill contained a provision (sec. 2401) that would contain the list of authorized defense agencies' construction projects for fiscal year 2016. The authorized amounts are listed on an installation-by-installation basis. The state list contained in this Act is intended to be the binding list of the specific projects authorized at each location.

The Senate amendment contained a similar provision (sec. 2401).

The House recedes with a technical amendment.

Authorized energy conservation projects (sec. 2402)

The House bill contained a provision (sec. 2402) that would authorize the Secretary of Defense to carry out energy conservation projects valued at a cost greater than \$3.0 million at the amounts authorized for each project at a specific location. This section would also authorize the sum total of projects across various locations, each project of which is less than \$3.0 million. This section would also preclude the ability to set-aside operation and maintenance facilities restoration and modernization funds for the exclusive purpose of funding energy projects. It would require installation energy projects to compete in the normal process of determining installation requirements.

The Senate amendment contained a similar provision (sec. 2402).

The House recedes with a technical amendment.

Authorization of appropriations, defense agencies (sec. 2403)

The Senate amendment contained a similar provision (sec. 2403).

We note that the amounts associated with the following projects remain available under the original project authorization:

(1) \$20,800,000 (the balance of the amount authorized under section 2401(b) of the Military Construction Authorization Act for Fiscal Year 2013 (division B of Public Law 112-239; 126 Stat. 2129) for the Aegis Ashore Missile Defense System Complex at Deveselu, Romania);

(2) \$141,039,000 (the balance of the amount authorized under section 2401(a) of the Military Construction Authorization Act for Fiscal Year 2012 (division B of Public Law 112-81; 125 Stat. 1672), as amended by section 2404(a) of the Military Construction Authorization Act for Fiscal Year 2013 (division B of Public Law 112-239; 126 Stat. 2131), for a data center at Fort Meade, Maryland);

(3) \$50,500,000 (the balance of the amount authorized under section 2401(a) of the Military Construction Authorization Act for Fiscal Year 2012 (division B of Public Law 112-81; 125 Stat. 1672) for an Ambulatory Care Center at Joint Base Andrews, Maryland);

(4) \$54,300,000 (the balance of the amount authorized under section 2401(a) of the Military Construction Authorization Act for Fiscal Year 2012 (division B of Public Law 112-81; 125 Stat. 1672) for an Ambulatory Care Center at Joint Base San Antonio, Texas); and

We also note that overlapping statutory authorities between title 10, United States Code, and title 50, United States Code, have resulted in challenges and delays in executing a recent emergency military construction project. Specifically, the overlap found in section 2803 of title 10, United States Code, and section 3304 of title 50, United States Code, resulted in a significant delay in a request for emergency funds. Therefore, we direct the Secretary of Defense, in consultation with the Director of National Intelligence, to provide a briefing to the congressional defense committees and

the congressional intelligence committees not later than March 1, 2016, on the statutory authorities for infrastructure investments that support both the Department of Defense and the Intelligence Community. The briefing should include a comparison of authorities found in both titles for infrastructure investments, a discussion of any discrepancies between the authorities, the impact that identified discrepancies may have on the timely execution of an infrastructure investment, and, if necessary, recommendations for legislation to clarify or streamline the statutory authorities to ensure the timely and effective execution of an infrastructure investment.

Furthermore, we expect supporting classified material for any ongoing or future classified projects to be delivered to the congressional defense committees in a more timely fashion, to ensure proper oversight and consideration is given to these projects.

The House bill contained no similar provision.

The Senate recedes.

We believe that, as a matter of practice, the Department of Defense should notify the congressional defense committees of the expenditure of significant funding for repairs at overseas locations that have not been designated as a main operating base or forward operating site even if such expenditures do not meet the thresholds specified in section 2811 of title 10, United States Code.

**SUBTITLE B—PROGRAM AUTHORIZATIONS,
RESTRICTIONS, AND LIMITATIONS**

*Improvement to accountability of Department of
Energy employees and projects (sec. 3111)*

The House bill contained a provision (sec. 3113) that would amend subtitle C of the National Nuclear Security Administration Act (50 U.S.C. 2442) to add a new section requiring the Secretary of Energy and the Administrator for Nuclear Security to jointly notify the specified congressional committees the number of covered employees whose security clearance was revoked during the previous year and the length of time such employees were employed by the Department of Energy or NNSA since such revocation. This provision would also require that the Secretary of the Administrator may not pay to a covered employee a salary bonus during the one-year period beginning on the date on which the Secretary of the Administrator determines that the covered employee committed improper program management or whose actions undermined health, safety or security, while providing the authority to waive the denial of a salary bonus. Additionally, the provision would require the Secretary or Administrator to notify the specified congressional committees of the actions being taken against DOE or NNSA contractors, pursuant to contractual terms, whose actions lead to project or program delays or cost-growth.

The Senate amendment contained a similar provision (sec. 3118) that would provide authority to the Administrator of the National Nuclear Security Administration to

withhold bonus payments to employees who engage in improper program management on the date such a determination is made.

The Senate recedes with an amendment that would reference the terms of exceeding cost, scope and schedule to those established in section 4713 of the Atomic Energy Defense Act (50 U.S.C. 2753) or the terms of critical decision three of Department of Energy Order 413.3B (Program and Project Management for the Acquisition of Capital Assets) as well as, pursuant to a requirement to issue new Departmental or Administration guidance, actions that jeopardize the health, safety, or security of employees or facilities of the Administration or another element of the Department of Energy involved in nuclear security or in carrying out defense nuclear nonproliferation activities. The amendment further provides for a waiver for either program management or health, safety or security with notification to the congressional committees of the waiver and a period of 60 days elapses following the notification. The amendment further requires notifying the congressional defenses committees if a contractor of the National Nuclear Security Administration exceeds cost, scope and schedule as defined by section 4713 of the Atomic Energy Defense Act (50 U.S.C. 2753) or by critical decision three of Department of Energy Order 413.3B (Program and Project Management for the Acquisition of Capital Assets), including an explanation as to whether termination of the contract is an appropriate remedy, a description of the terms of the contract regarding award fees and performance, and a description of what options under the contract will be exercised in response. If such information cannot be submitted by reason of a contract enforcement action a notification shall be submitted of the enforcement action and the date on which the required information shall be submitted.

Stockpile responsiveness program (sec. 3112)

The House bill contained a provision (sec. 3115) that would amend the Atomic Energy Defense Act (50 U.S.C. 2521) to establish that it is the policy of the United States to sustain, enhance, and continually exercise all capabilities required to conceptualize, study, design, develop, engineer, certify, produce, and deploy nuclear weapons to ensure the nuclear deterrent of the United States remains safe, secure, reliable, credible, and responsive. The Secretary of Energy, acting through the Administrator for Nuclear Security and in consultation with the Secretary of Defense, would be required to carry out a program in parallel with the stockpile stewardship program and stockpile management program to fulfill this policy. This section would also stipulate a series of objectives for this program. Finally, this section would amend certain existing annual reporting requirements to ensure robust attention on the program by senior leaders and enable congressional oversight of the status and effectiveness of the program.

The Senate amendment contained a provision (sec. 3111) that would develop a responsive capabilities program to exercise the design capabilities of the weapons complex that would lead to shorter and most cost effective design and engineering tools and manufacturing methods for parts and joint test assemblies that would lead to actual prototype testing as the final exercise, similar to an ongoing effort already underway at the National Nuclear Security Administration.

The Senate recedes with an amendment that adds to the House provision the importance of an integrated design life cycle, to shorten design, certification, and manufacturing timelines in order to minimize the

amount of time and costs leading to an engineering prototype and production.

Notification of cost overruns and selected acquisition reports for major alteration projects (sec. 3113)

The House bill contained a provision (sec. 3123) that defined a life extension program as one whose costs exceed \$1.0 billion.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that modifies section 4713(a) (50 U.S.C. 2753(a)) and section 4217 (50 U.S.C. 2537) of the Atomic Energy Defense Act to include major alteration programs whose cost exceeds \$750.0 million.

Root cause analyses for certain cost overruns (sec. 3114)

The House bill contained a provision (sec. 3131) that would amend section 4713(c) of the Atomic Energy Defense Act (50 U.S.C. 2753) to require the Secretary of Energy to conduct and submit to the congressional defense committees a root cause assessment when certain programs experience a significant cost overrun.

The Senate amendment contained no similar provision.

The Senate recedes.

Funding of Laboratory-Directed Research and Development Programs (sec. 3115)

The House bill contained a provision (sec. 3135) that would require the Administrator for Nuclear Security to seek to enter into a contract with the JASON Defense Advisory Panel to conduct a review of the laboratory-directed research and development (LDRD) program authorized under section 4811 of the Atomic Energy Defense Act (50 U.S.C. 2791). The review would be required to include assessments of whether and how the projects within the LDRD program support the mission of the National Nuclear Security Administration (NNSA), whether the science conducted under LDRD underpin the advancement of scientific understanding necessary for NNSA's core programs, the scientific and programmatic opportunities and challenges in the LDRD program, recent significant accomplishments and failures within the LDRD program, and how LDRD projects are selected for funding. This section would require the Administrator to submit to the congressional defense committees, by November 1, 2016, a report containing the review carried out by the JASON Defense Advisory Panel. This House bill would also require a briefing to the congressional defense committees by the Comptroller General of the United States by November 1, 2016. The Comptroller General would be required to assess: how NNSA LDRD funding limits compare to other Department of Energy and Department of Defense laboratories and federally funded research and development centers; how many NNSA personnel are supported by LDRD funding, including how many receive a majority of their compensation from LDRD; and how many devote the majority of their time to LDRD programs for more than three years.

The Senate amendment contained a provision (sec. 3117) that would amend section 4811(c) of the Atomic Energy Defense Act (50 U.S.C. 2791(c)) to strike the 6 percent upper bound for National Nuclear Security Administration (NNSA) weapons laboratory-directed research and development programs with a floor not to go below 5 percent with an upper bound of 8 percent. A similar provision was recommended for NNSA weapons production facilities and the Nevada Site Office with a ceiling of 4 percent.

The House recedes with an amendment that would strike the plant direct laboratory

research and development programs, reduce the ceiling to 7 percent and require a briefing by the Administrator of the National Nuclear Security Administration, no later than February 28, 2016, on all recent or ongoing reviews of the laboratory-directed research and development program, including such reviews initiated by the Secretary of Energy; the costs and accounting practices associated with laboratory-directed research and development; how laboratory-directed research and development projects support the mission of the National Nuclear Security Administration. We direct the Government Accountability Office to assess no later than March 15, 2016, how NNSA LDRD funding limits compare to other Department of Energy and Department of Defense laboratories and federally funded research and development centers; how many NNSA personnel are supported by LDRD funding, including how many receive a majority of their compensation from LDRD; and how many devote the majority of their time to LDRD programs for more than 3 years.

Hanford waste treatment and immobilization plant contract oversight (sec. 3116)

The Senate amendment contained a provision (section 3115) that would require the Secretary of Energy to arrange to have an owner's agent assist the Secretary in carrying out oversight responsibilities associated with Hanford Waste Treatment and Immobilization Plant contract DE-AC27-01RV14136. Since the current contractor for the Waste Treatment Plant is its own design agent, the owner's design agent will act as an independent expert on the project.

The House bill contained no similar provision.

The House recedes with an amendment with clarifying language to ensure that the owner's agent does not assume roles reserved for the federal government, that the owner's agent's role is to advise the Secretary of Energy, and that the owner's agent report would be sent to the Secretary of Energy who would transmit the report with any additional views to the congressional defense committees.

Use of best practices for capital asset projects and nuclear weapon life extension programs (sec. 3117)

The House bill contained a provision (sec. 3122) that would require the Secretary of Energy to ensure that analyses of alternatives are conducted in accordance with best practices for: (1) capital asset projects and life extension programs of the National Nuclear Security Administration; and (2) capital asset projects relating to defense environmental management.

The Senate amendment contained no similar provision.

The Senate recedes.

Research and development of advanced naval nuclear fuel system based on low-enriched uranium (sec. 3118)

The House bill contained a provision (sec. 3142) that would require that, of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2016 for defense nuclear nonproliferation for material management and minimization, not more than \$5.0 million shall be made available to the Deputy Administrator for Naval Reactors for initial planning and early research and development of an advanced naval nuclear fuel system based on low-enriched uranium. In addition, this section would require that, at the same time the President submits the fiscal year 2017 budget to Congress, the Secretary of Energy, and the Secretary of the Navy shall jointly submit to the congressional defense committees their determination as to whether the

United States should continue to pursue research and development of an advanced naval nuclear fuel system based on low-enriched uranium. If the Secretaries determine to continue the research and development, the Secretaries would be required to ensure the budget request for fiscal year 2017 includes funding to carry out the program within the defense nuclear nonproliferation, material management, and minimization budget line. Not later than 30 days after the date of the submission of such determination, the Deputy Administrator for Naval Reactors would be required to submit to the congressional defense committees a plan for such research and development, as well as ensuring that the budget includes amounts for defense nuclear nonproliferation for material management and minimization necessary to carry out the plan. Finally, this section would require that, if the Secretaries determine such research and development should continue, not later than 60 days after the date on which the Deputy Administrator submits the plan, the Deputy Administrator for Naval Reactors would be required to enter into a memorandum of understanding with the Deputy Administrator for Defense Nuclear Nonproliferation regarding the research and development of an advanced naval nuclear fuel system based on low-enriched uranium, including with respect to how funding for such research and development will be requested for the "Defense Nuclear nonproliferation" account for material management and minimization and provided to Naval Reactors to carry out the program.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that requires the Deputy Administrator of the National Nuclear Security Administration to submit within 90 days after the date of enactment a conceptual plan for research and development of an advanced naval nuclear fuel system based on low-enriched uranium to meet military requirements to the congressional defense committees. In addition, 60 days after the conceptual plan is submitted, the Secretary of Energy and the Secretary of the Navy shall make a determination as to whether the United States should continue to pursue research and development of an advanced naval nuclear fuel system based on low-enriched uranium. If the Secretaries determine that such research and development should continue, they shall include funding necessary in fiscal year 2018, and in fiscal year 2017 if feasible, to carry out such a plan in the budget line item for the Defense Nuclear Nonproliferation account for material management and minimization.

Disposition of weapons usable plutonium (sec. 3119)

The House bill contained a provision (section 3119) that would require the Secretary of Energy to carry out construction and program support activities for the Mixed Oxide (MOX) Fuel Fabrication Facility with any funds authorized to be appropriated or otherwise made available for such purposes for fiscal year 2016 and any prior fiscal years. This section would also require the Secretary to include in the budget justification materials submitted to Congress for fiscal year 2017 an updated performance baseline for construction and project support activities relating to the MOX facility.

The Senate bill contained no similar provision.

The Senate recedes with an amendment that authorizes the Secretary to spend \$5.0 million to conduct an analysis of alternative options for carrying out the plutonium disposition program. We direct that the analysis of alternatives be comprehensive with

regard to potentially cost-effective alternatives, and to include as alternatives various options for disposal, including costs and timelines associated with options for down-blending, immobilization, disposal in canisters, and deep borehole disposal. We further direct that as part of the down-blending analysis, that the Department of Energy address the questions pertaining to down-blending as found in Senate Report 114-49 (Report to Accompany S. 1376, "National Defense Authorization Act for Fiscal year 2016"), pages 326-329.

Establishment of microlab pilot program (sec. 3120)

The House bill contained a provision (sec. 3136) that would give the authority to the Secretary to establish a microlab pilot program in close proximity to a national laboratory and is accessible to the public for the purpose of enhancing collaboration with regional research groups, accelerating technology transfer from national laboratories to the marketplace; promoting regional workforce development through science, technology, engineering, and mathematics instruction and training.

The Senate bill contained no similar provision.

The Senate recedes with an amendment that would change the definition of microlab to one that is in close proximity to but outside the perimeter of a national security laboratory; an extension of or affiliated with a national security laboratory; and accessible to the public. The amendment also narrows the national laboratory to one that is a national security laboratory as defined in section 3821 of the National Nuclear Security Act (50 U.S.C. 2471). The amendment further uses "consultation" rather than "coordination" with lab directors and adjusts timing of reports.

Prohibition on the availability of funds for the provision of defense nuclear nonproliferation assistance to the Russian Federation (sec. 3121)

The House bill contained a provision (sec. 3118) that would provide that none of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2016 for defense nuclear nonproliferation activities may be obligated or expended to enter into a contract with, or otherwise provide assistance to, the Russian Federation. The Secretary of Energy, without delegation, would be provided the authority to waive this prohibition if the Secretary submits a report to the appropriate congressional committees containing notification that such a waiver is in the national security interest of the United States, a justification for such waiver, and a period of 15 days elapses.

The Senate amendment contains no similar provision.

The Senate recedes.

Prohibition on availability of funds for fixed site radiological portal monitors in foreign countries (sec. 3122)

The House bill contained a provision (sec. 3117) that would prohibit any funds authorized by this Act or otherwise made available for fiscal year 2016 or any fiscal year thereafter for the National Nuclear Security Administration from being obligated or expended for the research and development, installation, or sustainment of fixed site radiological portal monitors or equipment for use in foreign countries. This section would clarify that this prohibition does not apply to such activities for mobile radiological inspection equipment.

The Senate amendment had no similar provision.

The Senate recedes with an amendment that would prohibit fiscal year 2016 funds for

installation of fixed site portal monitors in foreign countries after date of enactment until the DNI submits an assessment on whether and the extent to which fixed site and mobile radiological monitors address nuclear nonproliferation and smuggling threats; the contribution of other threat reduction programs and how well such programs address nuclear nonproliferation and smuggling threats; which programs have the greatest impact and cost-benefit for addressing nuclear nonproliferation and smuggling threats; and such other matters as the Director considers appropriate. The amendment also requires the Administrator for Nuclear Security to submit a plan by March 1, 2016 to transition sustainment of existing fixed site monitors, to the greatest extent possible, to host nation.

Limitation on availability of funds for certain arms control and nonproliferation technologies (sec. 3123)

The House bill contained a provision (sec. 3120) that would prohibit any funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2016 for the National Nuclear Security Administration's Defense Nuclear Nonproliferation program from being obligated or expended to develop nonproliferation or arms control verification or monitoring technologies beyond Technology Readiness Level 5 (TRL 5) unless the Secretary of Energy certifies that such technologies are being developed to fulfill the rights or obligations of the United States under either: (1) a current arms control or nonproliferation treaty or agreement; or (2) a treaty or agreement that the Secretary expects will enter into force within 2 years. The Secretary would be required to submit this written certification to the appropriate congressional committees and include, for each technology the Secretary certifies for development beyond TRL 5, an identification of the amount of fiscal year 2016 funds that will be used and how such development helps to fulfill the rights or obligations of the United States under the treaty or agreement.

The Senate amendment contained no similar provision.

The Senate recedes to the House with an amendment that would prohibit fiscal year 2016 funds to test or validate technologies in the Office of Nonproliferation and Arms Control designed to be used to verify and monitor obligations under arms control treaties or other agreements to which U.S. is not a signatory until the Administrator submits a review to congressional defense committees. The review would be required to include the technology readiness level of the technology; the obligation under a treaty or other international agreement supported by the technology; and the purpose for which the technology is being developed or produced. We note that, based on information provided by the Administrator, the funding for the activities that would be limited by this provision is approximately \$3.0 million.

Limitations on availability of funds for nuclear weapons dismantlement (sec. 3124)

The House bill contained a provision (sec. 3121) that would provide that, of the funds authorized to be appropriated by this Act or otherwise made available for any of fiscal years 2016 through 2020 for the National Nuclear Security Administration (NNSA), not more than \$50.0 million may be obligated or expended in each such fiscal year to carry out nuclear weapons dismantlement and disposition activities. This section would also prohibit any funds authorized to be appropriated by this Act, or otherwise made available for any of fiscal years 2016 through 2020, to be obligated or expended to dismantle a nuclear weapon of the United States unless:

(1) the nuclear weapon was retired on or before September 30, 2008; (2) the Administrator for Nuclear Security certifies that the components of the nuclear weapon are directly required for the purposes of a current life extension program; or (3) the President certifies that the nuclear weapon is being dismantled pursuant to a nuclear arms reduction treaty or similar international agreement that has entered into force after the date of enactment of this Act and was approved with the advice and consent of the Senate or by an Act of Congress. This section would also prohibit any funding authorized to be appropriated by this Act or otherwise made available for any of fiscal years 2016 through 2020 from being used to dismantle or dispose of a W84 nuclear weapon.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would limit the \$50.0 million ceiling to fiscal year 2016 and prohibit the use of fiscal year 2016 funds for the dismantlement of the W84 warhead. There is an exception for maintenance and surveillance for weapons safety and reliability.

SUBTITLE C—PLANS AND REPORTS

Long-term plan for meeting national security requirements for unencumbered uranium (sec. 3131)

The Senate amendment contained a provision (sec. 3112) that would require the Secretary of Energy to submit a plan, on even number years, with the President's budget submission, for meeting the national security requirements for unencumbered uranium through 2065.

The House bill contained no similar provision.

The House recedes with an amendment that would change the reporting requirement to terminate in 2026.

Defense nuclear nonproliferation management plan (sec. 3132)

The Senate bill contained a provision (sec. 3113) that required in each odd numbered year a management plan of defense nuclear nonproliferation programs of the National Nuclear Security Administration.

The House bill contained a similar provision (sec. 3132) amend section 3122(c) of the National Defense Authorization Act for Fiscal Year 2012 (Public Law 112-81) by striking the date of 2016 and inserting 2020. This section would also amend such subsection to clarify that, in the Secretary of Energy's annual assessment, the Secretary must (1) identify any highly-enriched uranium around the world that is obligated by the United States and (2) provide a list, by country and by site, of the separated plutonium around the world, identify such plutonium that is obligated by the United States, and provide an assessment of the vulnerability of such plutonium to theft or diversion.

The House recedes with an amendment that would add the House provision to the Senate provision, expand the programmatic definitions of activities of the nuclear nonproliferation program that must be reported on and make technical and clarifying changes.

Plan for deactivation and decommissioning of nonoperational defense nuclear facilities (sec. 3133)

The House bill contained a provision (sec. 3141) that would require the Secretary of Energy to establish and carry out a plan under which the Administrator for Nuclear Security transfers to the Assistant Secretary of Energy for Environmental Management the responsibility for decontaminating and decommissioning facilities of the National Nuclear Security Administration that the Secretary of Energy determines are not oper-

ational as of the date of the enactment of this Act and meet the requirements for such transfer.

The Senate amendment contained a provision (sec. 3114) that would that would require the Secretary of Energy to develop a plan that would require a cost-benefit analysis of defense nuclear facilities that require deactivation and decommissioning as to whether they should be kept in cold shut down awaiting demolition or accelerated to save long term storage costs. The plan will be required every even calendar year no later than March 31, 2016 and end after the fifth report submission on March 31, 2026.

The House recedes with an amendment to require within the first report the Secretary to implement a plan under which the Administrator for Nuclear Security to transfer by March 31, 2019 to the Assistant Secretary for Environmental Management the responsibility for decontaminating and decommissioning facilities of the National Nuclear Security Administration that the Secretary of Energy determines are nonoperational as of September 30, 2015 and meet the requirements of the Office of Environmental Management for such transfer.

Assessment of emergency preparedness of defense nuclear facilities (sec. 3134)

The Senate amendment contained a provision (sec. 3116) that would require the Secretary of Energy to include in each award-fee evaluation conducted of a management and operating contract for a Department of Energy defense nuclear facility in 2016, or any even-numbered year thereafter, an assessment of the adequacy of the emergency preparedness of that facility, including an assessment of the seniority level of employees and contractors of the Department of Energy that participate in emergency preparedness exercises at that facility.

The House bill contained no similar provision.

The House recedes with an amendment that would eliminate recurring reports while focusing the assessment on the performance and participation of the management and operating contractor employees and not senior employees of the Department of Energy, since the laboratory award fee is based on performance of the contractor employees. We direct the Secretary of Energy to provide a report to the congressional defense committees no later than October 31, 2016 on the number and level of senior Department of Energy employees that participated in such exercises for fiscal year 2016.

Modifications to cost-benefit analyses for competition of management and operating contracts (sec. 3135)

The House bill contained a provision (sec. 3114) that would amend section 3121 of the National Defense Authorization Act for fiscal year 2013 (Public Law 112-239) to extend the reporting requirement through fiscal year 2019 and require that the report submitted by the Administrator for Nuclear Security must include a description of the factors considered and processes used by the Administrator to determine whether to compete or extend a contract to manage and operate a facility of the nuclear security enterprise, and whether and which activities at the facility should be covered under the management and operating contract.

The Senate amendment contained a similar provision (sec. 3122) that would amend section 3121 of the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112-239) to make technical corrections to increase the utility of reports on competition for management and operating contracts at facilities of the National Nuclear Security Administration and change the timing of the Government Accountability Office's review

to assess whether estimated cost savings and other benefits are actually occurring as planned.

The House recedes with an amendment that combines the two provisions, requires the Government Accountability Office to provide a briefing on their initial review 180 days after the required report submitted, and makes certain technical and conforming amendments.

Interagency review of applications for the transfer of United States civil nuclear technology (sec. 3136)

The House bill contained a provision (sec. 3119) that would require that, prior to the approval by the Administrator of the National Nuclear Security Administration (NNSA) of any part 810 authorization (regarding the transfer of certain civil nuclear technology) for a covered country with a nuclear naval propulsion program, the Director of National Intelligence and the Chief of Naval Operations would have to jointly submit an assessment to the appropriate congressional committees on the risks of diversion of such technology and the likely consequences of its diversion to such foreign state's military nuclear program. This section would also require that, not less than 14 days prior to the approval of any part 810 authorization for a covered country, the Administrator of the NNSA would have to certify to the appropriate congressional committees that there is sufficient diversion control and such transfer presents a minimal risk of diversion of such technology to a military program that would degrade the technical advantage of the United States. The provision further required that not later than June 1, 2016, and quinquennially thereafter, the Chief of Naval Operations shall determine the critical civil nuclear technologies of the United States and notify the appropriate congressional committees of this list of technologies. The provision also requires that not later than 30 days after the date on which the Director of National Intelligence determines that there is credible intelligence that United States civil nuclear technology has been diverted to a foreign country not covered by an authorization under section 57b of the Atomic Energy Act of 1954 as amended (Public Law 83-703, 42 U.S.C. 2077), including an agreement for cooperation made pursuant to section 123 of the Atomic Energy Act of 1954 as amended (Public Law 83-703, 42 U.S.C. 2153), the Director shall notify the appropriate congressional committees of such determination. The House provision also required that the Secretary of Energy shall annually notify the appropriate congressional committees that each covered foreign country is in compliance with its obligations under any authorization made pursuant to section 57b, including an agreement for cooperation made pursuant to section 123 of the Atomic Energy Act, as amended. In addition the provision prohibits the Secretary of Energy from making an authorization under section 57b of the Atomic Energy Act with respect to a covered foreign country if a foreign person of the covered foreign country has been sanctioned under the Iran, North Korea, and Syria Nonproliferation Act (Public Law 106-178; 50 U.S.C. 1701 note) during the 5-year period preceding the date of the transfer being sought unless the President certifies to the appropriate congressional committees that the covered foreign country is taking adequate measures to prevent, or is making significant progress in preventing, transfers or acquisitions covered by section 2(a) of the Iran, North Korea, and Syria Nonproliferation Act (Public Law 106-178; 50 U.S.C. 1701 note). The House provision defined a covered country as one that is a nuclear-weapon state, as defined by Article IX (3) of the

Treaty on the Non-Proliferation of Nuclear Weapons, signed at Washington, London, and Moscow on July 1, 1968, but does not include the United Kingdom or France.

The Senate bill contained no similar provision.

The Senate recedes with an amendment that would require that every 90 days, the Secretary of Energy shall submit to the appropriate congressional committees a report that includes a listing and description of the authorizations to transfer United States civil nuclear technology to a covered foreign country (as defined in this provision) issued under section 57b of the Atomic Energy Act of 1954 (42 U.S.C. 2077(b)) during the preceding 90 days and a statement of whether each agency required to be consulted under that section or pursuant to regulation objected or sought condition to each such authorization.

The amendment also would require that not later than 90 days after the date of the enactment of this Act, and every 5 years thereafter, the Secretary of Energy would be required to, in consultation with the Secretary of State, the Secretary of Commerce, the Secretary of Defense, the Director of National Intelligence, and the Nuclear Regulatory Commission, determine the critical United States civil nuclear technologies that should be protected from diversion to a military nuclear program of a covered foreign country (a nuclear weapons state as defined by the Treaty on the Non-Proliferation of Nuclear Weapons other than the United Kingdom or France), including with respect to a naval propulsion or weapons program and notify the appropriate congressional committees with respect to the technologies covered by the determination. The amendment also would require that not later than 14 days before authorizing the transfer of a technology covered by such determination, the Secretary of Energy would be required to submit to the appropriate congressional committees a report that includes a notification of the intention of the Secretary to authorize the transfer of such technology and a statement of whether any agency required to be consulted under such section 57b or pursuant to regulation objected to or required conditions to such authorization of transfer. The amendment includes a waiver of the 14 day notification for an imminent radiological emergency provided within 7 days the Secretary certifies such a hazard exists, the justification and the information required in the original notification.

The amendment would also require the Secretary of Energy to promptly revise part 810 of title 10, Code of Federal Regulations, to ensure that the Director of National Intelligence (DNI) is consulted with respect to the views of the intelligence community with respect to each authorization issued under section 57b of the Atomic Energy Act of 1954 (42 U.S.C. 2077(b)) for the transfer of United States civil nuclear technology to a covered foreign country before the determination to approve or disapprove the request for the authorization, and that he is provided with an opportunity to present the views of the Director and the Intelligence Community on the national security risks of the transfer, if any. It is expected that as part of developing this consultation process the Secretary of Energy and the DNI shall enter into the necessary inter-agency agreements that ensure consultation with the Intelligence Community occurs but gives the DNI the flexibility to manage its ongoing workload, while ensuring timely reviews of authorizations, and provides for the possibility that the views of the Intelligence Community may not have changed from its initial assessment. The Secretary of Energy shall include the results of consultations conducted with the DNI, on

behalf of the Intelligence Community, in each report describing an authorization and each notification with respect to an authorization involving a critical technology.

The amendment would require the Secretary of Energy to annually submit to the appropriate congressional committees a report that includes an assessment of whether each covered foreign country is in compliance with its obligations under any authorization for the transfer of United States civil nuclear technology under section 57b of the Atomic Energy Act of 1954 (42 U.S.C. 2077(b)) and with respect to any covered foreign country that is not in compliance with such obligations, a description of the efforts of the United States to bring the country into compliance with an evaluation of the result of such efforts, and an assessment of the options available to the Secretary as a result of the country not being in compliance. The report also requires an assessment of whether each end-user to which United States civil nuclear technology is transferred pursuant to an authorization under such section 57b is in compliance with the obligations of the end-user under that authorization and a description of any consequences for the end-user or the exporter of the technology if the end-user is not in compliance with such obligations.

The amendment would further require that, concurrent with the submission to Congress of the budget for each fiscal year, the Secretary of Energy would be required to submit to the appropriate congressional committees a report on the activities of the Department of Energy associated with the review of applications for authorization under section 57b to transfer United States civil nuclear technology to any foreign country. The report would be required to include the number of applications for authorization under section 57b of the Atomic Energy Act to transfer United States civil nuclear technology to a foreign country submitted during the year preceding the submission of the report; the length of time each such application was under review; the number of such applications that were granted; and a description of efforts to streamline the review of such applications, taking into account the proliferation and diversion potential of end-users in the country to which United States civil nuclear technology would be transferred pursuant to such applications.

The Director of National Intelligence would also be required to notify the Department of Energy and the appropriate congressional committees not later than 30 days after the date on which the Director determines there is credible intelligence that United States civil nuclear technology is being or has been diverted to a military program in a foreign country to which the transfer of the technology was authorized under section 57b or to a foreign country to which the transfer of the technology was not so authorized.

The amendment would also require that not later than 60 days after the date of the enactment of this Act, the Secretary of Energy shall issue guidance with respect to the use of authority of under section 234 of the Atomic Energy Act of 1954 (42 U.S.C. 2282) to impose civil penalties, including fines and debarment, and to make referrals to the Attorney General for prosecution, for violations of the terms of authorizations for the transfer of United States civil nuclear technology issued under section 57b. We believe that given the extensive amendments made to section 57b of the Atomic Energy Act of 1954 by section 302 of the Nuclear Nonproliferation Act of 1978 (Public Law 95-242, 42 U.S.C. 2077), which were made after the enactment of the Energy Reorganization Act of 1974 (Public Law 93-438), that the Department of Energy should have justification to

utilize section 234 of the Atomic Energy Act of 1954 as a means of civil enforcement.

Finally, the amendment would require that not later than 180 days after the date of the enactment of this Act, and annually thereafter, the President shall submit to the appropriate congressional committees a report describing the efforts of covered foreign countries to prevent the transfer of sensitive items, including efforts to improve the prevention of the transfer of such items; and assessing the adequacy of such efforts as defined by section 2(a) of the Iran, North Korea, and Syria Nonproliferation Act (Public Law 106-178; 50 U.S.C. 1701 note).

We expect the Department of Energy shall take all precautions necessary in this section to protect proprietary information.

Governance and management of nuclear security enterprise (sec. 3137)

The House bill contained a provision (sec. 3133) that would require the Secretary of Energy and the Administrator for Nuclear Security to jointly establish a team of senior officials from the Department of Energy and the National Nuclear Security Administration (NNSA) to develop and carry out an implementation plan to reform governance and management to improve the effectiveness and efficiency of the nuclear security enterprise. Additionally, it would require the Administrator to seek to enter into a joint agreement with the National Academy of Sciences and the National Academy of Public Administration to establish a panel of external, independent experts to evaluate the plan developed by the Department of Energy and NNSA and to evaluate the implementation of such plan.

The Senate amendment contained a similar provision (sec. 3123) that would require the Administrator of the National Nuclear Security Administration to enter into agreements with the National Academy of Sciences and the National Academy of Public Administration to assess implementation of recommendations of the Congressional Advisory Panel on the Governance of the Nuclear Security Enterprise that can be carried out without additional legislation. In addition to monitoring implementation, the agreement should specify that the two entities should determine whether the implementation was effective in addressing the problem it was intended to solve. The agreement shall utilize the procedures of the National Academies in reviewing and publishing the joint report.

The Senate recedes with an amendment makes certain technical and conforming amendments, including changing the date of submission of the implementation plan to be March 31, 2016, with a final report by the Implementation Assessment Panel to 2020.

Annual report on the number of full time equivalent employees and contractor employees (sec. 3138)

The House bill contained a provision (sec. 3111) that would amend section 3241A of the National Nuclear Security Administration Act (50 U.S.C. 2441a) to require that, by October 1, 2016, the total number of employees within the Office of the Administrator may not exceed 1,350. This section would also amend section 3241 of the National Nuclear Security Administration Act (50 U.S.C. 2441) by striking “600” and inserting “450” as the number of employees allowed to be appointed under the authority provided by such section.

The Senate amendment contained a provision (sec. 3119) that would that permits the Administrator of the National Nuclear Security Administration (NNSA) to hire above the statutory limit of 1,690 full time positions using up to 100 exempt employees hired under section 3241 of the National Nuclear Security Administration Act (50 United States Code section 2441).

The House bill further contains a provision (sec. 3112) that would amend section 3241A of the National Nuclear Security Administration Act (50 U.S.C. 2441a) to specify that the total number of full-time equivalent employees working under a service support contract of the NNSA may not exceed the number that is 30 percent of the number of employees of the Office of the Administrator authorized under subsection (a)(1) of such section 3241A. The Administrator for Nuclear Security would be required to not exceed this total number of full-time equivalent contractor employees unless, during each fiscal year in which the Administrator exceeds such authorized number, the Administrator submits a report to the congressional defense committees justifying such excess.

The Senate recedes with an amendment that would strike section 3111 of the House bill and modify section 3112 of the House bill to require with each budget submission the National Nuclear Security Administration (NNSA) provide a report that provides the number of full time equivalent employees under section 3241A of the NNSA Act (50 U.S.C. 2441a), the number of service support contracts and whether the contracts are funded with program funds, the number of full time equivalent employees under each contract and the number in each contract that have been employed for more than 2 years.

Development of strategy on risks to non-proliferation caused by additive manufacturing (sec. 3139)

The House bill (sec. 3145) contained a provision that would require the President to develop and pursue a strategy to address the risks to the goals and policies of the United States regarding nuclear nonproliferation caused by the increased use of additive manufacturing technology (including 3D Printing). This section would require the President to brief the appropriate congressional committees on the development and execution of such strategy not later than March 31, 2016, and every 120 days thereafter until January 1, 2019. Finally, this section would highlight the importance of pursuing such strategy at the Nuclear Security Summit in Chicago in 2016.

The Senate amendment contained no similar provision.

The Senate recedes.

Plutonium pit production capacity (sec. 3140)

The House bill contained a provision (sec. 3143) that would express the sense of Congress that the requirement to create a modern, responsive nuclear infrastructure that includes the capability and capacity to produce, at minimum, 50 to 80 pits per year, is a national security priority and delaying creation of this responsive infrastructure until the 2030s is an unacceptable risk to the national security of the United States. Additionally, it would require the Chairman of the Nuclear Weapons Council to provide a briefing to congressional defense committees by March 1, 2016, on the annual plutonium pit production capacity requirement of the nuclear security enterprise.

The Senate amendment contained no similar provision.

The Senate recedes.

Assessments on nuclear proliferation risks and nuclear nonproliferation opportunities (sec. 3141)

The House bill contained a provision (sec. 3134) that would require the Director of National Intelligence to submit a report to the appropriate congressional committees, by March 1 of each year from 2016 to 2020, containing an assessment and prioritization of international nuclear proliferation risks and nuclear nonproliferation opportunities and

an assessment of the effectiveness of various means and programs for addressing such risks and opportunities.

The Senate amendment contained no similar provision.

The Senate recedes.

The House bill contained a provision (sec. 3144) that would require the Administrator for Nuclear Security to submit to the congressional defense committees the analysis of alternatives by the Administrator for the Mobile Guardian Transporter program within 60 days after the date of the enactment of this Act. Additionally, it would also require the Secretary of Energy to include in the annual budget request submission, a separate, dedicated program element for the MGT program.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would eliminate the requirement for an independent assessment and clarify that the submitted report must contain a full and comprehensive analysis of alternatives. We stress that the analysis of alternatives for the MGT program that is conducted and submitted to Congress should take into account all safety and security scenarios, as well as costs, benefits, and risks of various engineering and policy changes that could affect the program.

Authorization (sec. 3201)

The House bill contained a provision (sec. 3201) that would authorize funds for the Defense Nuclear Facilities Board for fiscal year 2016.

The Senate amendment contained a similar provision (sec. 3201).

The House recedes.

The Senate recedes with an amendment that would increase by \$24.0 million to \$210.0 million the amount authorized to be appropriated in subsection (5) for expenses to maintain and preserve a United States-flagged merchant marine to serve the national security needs of the United States under chapter 531 of title 46, United States Code.

Sense of Congress regarding Maritime Security Fleet program (sec. 3502)

The House bill contained a provision (sec. 3502) that would express the sense of Congress that dedicated and enhanced support is necessary to stabilize and preserve the Maritime Security Fleet program.

The Senate amendment contained no similar provision.

The Senate recedes.

This section also would change the reserve service obligations of USMMA graduates from 6 to 8 years to conform with current Department of Defense reserve requirements.

46, United States Code, and require the U.S. Coast Guard to implement certain class society certification standards.

The Senate amendment contained no similar provision.

The House recedes.

We note the continued need for Maritime Security Program (MSP) vessels to meet national defense sealift needs. Section 53102(e)(3)(A) of title 46, United States Code, establishes a process for the U.S. Coast Guard to rely on classification societies to certify compliance for MSP vessels, both initially for reflag, and subsequently during renewal inspections, based solely on applicable international agreements, associated guidelines, and classification society rules. We encourage the Coast Guard to use that process to the greatest extent practicable. The Service should not set up unnecessary barriers to entry for vessels the Department of Defense has determined it needs to meet national defense sealift requirements.

Mr. SMITH of Washington. Mr. Speaker, I yield myself 5 minutes.

I want to thank the chairman for his hard work on this piece of legislation. As always, I think he correctly described the process and all the work that went into it. It is always a challenge in the House and the Senate, Republicans and Democrats.

There are many, many provisions in this bill that we argued over to reach agreement and reach consensus; but really, this bill is a reflection of the way Congress should function. It goes through committee; it goes through the House; it goes through the Senate committee, Senate; and then we conference and discuss those issues. I think this year, we flexed that as well. We had a very robust discussion with Members participating.

I particularly want to thank the staff for their outstanding work. They always have to work very, very hard on all of those provisions—I think it was 647 that the chairman mentioned—to make that happen. Our staff is second to none, and I thank them for that. I thank the chairman and all the Members for participating in this bipartisan process.

As the chairman stated, we have a good product. It takes some important steps on acquisition reform, it takes some critical steps on reforming our retirement system in a way that I think will benefit the troops, and it does all the other things that the chairman said it does.

I will say that the political maneuvering that the chairman mentioned is not irrelevant because that is the one place that this bill still isn't quite there, and that is on getting rid of the budget caps. That is what all of that maneuvering was about; the original approach to this was to keep the budget caps in place and simply find OCO money. Now, the budget agreement upped the budget caps for a couple years, but still used a little OCO money. So it made progress, but it didn't get us there.

Make no mistake about it. That issue is all about our troops and national security. Until we finally get rid of the budget caps and allow for a predictable—at least 5-, if not 10-, year future for our Defense Department, national security will be at risk.

Now, it is great that we have got 2 years. It is great that we have got this

one bill. But as many, many people in the Department of Defense—current Secretary of Defense Ash Carter, past Secretary of Defense Bob Gates—have mentioned, the last 5 years have been terrible for the Department of Defense. The last 5 years of unpredictable budgets, CRs, threatened shutdowns, actual shutdowns, budget caps—all of that has made it very, very difficult for the Pentagon to plan in the way that they would like.

So the maneuvering that we went through to get to this point is far from irrelevant to what is in the best interests of national security and what is in the best interests of our troops. I think it is central to it.

Even now, within this bill, we don't have as much money for readiness as I think any of us would like, and we don't have that predictability past 2 years. Two years is great, but we need to get past that. We need to get past the budget caps and build in some predictability going forward.

So while it was frustrating, obviously, to go through the whole process and have it vetoed, once the budget was resolved, we put ourselves in a better position. Now we have turned what was a very good bill into a great bill and a bill that I am happy to support and that I believe is in the best interest of our troops and the best interest of national security.

Again, I will emphasize this House will not truly get there until we have a more predictable budget future for national security in the Department of Defense. And not just the Department of Defense. As I mentioned in an earlier debate, the Department of Homeland Security, the Department of Justice, the Treasury Department, the State Department, amongst many others, play a critical role in our national security. They, too, need some budget certainty and freedom from the caps and sequestration.

All of that I think was very, very relevant to making our national security stronger and adequately protecting our troops. So I am pleased to stand up and support the bill today. I look forward to it moving forward. Again, I thank everybody for their very, very hard work in making it happen.

Mr. Speaker, I reserve the balance of my time.

Mr. THORNBERRY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as the House departs for the Veterans Day recess, I think it is particularly important that we honor veterans with more than our words. We should honor them and what they sacrificed for with our votes as well. So over the next few minutes, I am going to be honored to yield to some of our colleagues who are combat veterans themselves.

I would like to start first, and in many ways foremost with a true American hero.

I yield 2 minutes to the distinguished gentleman from Texas (Mr. SAM JOHNSON).

Mr. SAM JOHNSON of Texas. Mr. Speaker, today I come to the floor on behalf of all our servicemen and -women. As a 29-year Air Force veteran and POW, I know something about what it takes to achieve mission success. For the military to be successful, troops need adequate funding so they can carry out their mission safely and effectively. Troops also need the support of their President, their Commander in Chief.

I speak from experience when I say this. I say it because, in Vietnam, we had neither. You see, due to consolidation at the Defense Department, the planes I flew in Vietnam were really Navy aircraft. They weren't equipped for air-to-air ground combat. The Pentagon hung gun pods on them, but its success rate was about 50 percent. That is just not the type of odds you want going into battle.

On my 25th mission in Vietnam, I was hit from ground fire and tried to fight back, but couldn't because the gun jammed. Enemy shots caught my right engine on fire, and I ejected just before the aircraft crashed. The Viet Cong caught me and eventually took me to the infamous Hanoi Hilton, where I spent the next almost 7 years of my life.

□ 0930

Sometimes I wonder if things would have turned out differently had the Air Force properly equipped planes and my gun hadn't jammed. But I can tell you this: it is a vital priority of mine to ensure our troops today don't run into the same problem I did. America can't

defend its national security if our troops don't have what they need.

I urge the President to sign this bill today. It is the right thing to do for our deployed troops who are in harm's way.

Mr. SMITH of Washington. Mr. Speaker, I yield 2 minutes to the gentlewoman from California (Ms. LORETTA SANCHEZ), the ranking member of the Tactical Air and Land Forces Subcommittee.

Ms. LORETTA SANCHEZ of California. Mr. Speaker, I thank the ranking member and the chairman of the committee. I would also like to thank my counterpart, the chairman of the Tactical Air and Land Forces Subcommittee, Mr. TURNER, because we have truly worked in a very bipartisan way.

Our committee looks at the procurement of things both for land and air. We have a lot of help in doing that. I would like to especially thank our staff—Doug Bush, John Wason, Jesse Tolleson, and John Sullivan—for their dedication and hard work in getting this done.

I am very proud of the elements of our subcommittee we have in the bill today. Working in a bipartisan manner, we found hundreds of millions of dollars to cut from programs that are behind schedule, not performing, or some that just didn't make sense anymore. We took that money and diverted it into things that I believe our servicemembers need: UAVs, armored vehicles, fighter aircraft, tactical missiles, National Guard equipment, and a wide range of individual soldier items.

I also want to highlight, for example, the Army National Guard needs to replace its aging helicopters, and we have focused on that. That was one of the things that I focused on. For example, in the California Army National Guard, they are deeply involved in fighting these forest fires, but they can't do it with aging equipment. It is a priority for me in this year's bill to fund UH-60 Black Hawk helicopters to ensure the implementation of modernized Black Hawks into the Army National Guard.

I am also proud this year's bill continues to eliminate unnecessary barriers that delay the services from expanding opportunities for women in the military. It is time for the U.S. Armed Forces to stop excluding servicemembers from serving in certain roles due only to their gender. Female servicemembers have the right to serve in all units and all specialties as long as they meet the standards.

And finally, as a member of the Strategic Forces Subcommittee, I remain concerned about the bloated nuclear weapons budget. I hope that, in the future, we will support nonproliferation programs.

Mr. THORNBERRY. Mr. Speaker, I yield 1½ minutes to the gentleman from Nevada (Mr. HECK), who is a veteran of the Iraq conflict and also chairs our Subcommittee on Military Personnel.

Mr. HECK of Nevada. I thank the chairman for yielding.

Mr. Speaker, as chairman of the Subcommittee on Military Personnel, I appreciate Chairman THORNBERRY's efforts to finalize this critical legislation. His dedication to our men and women in uniform, their families, our veterans and survivors is unsurpassed.

Supporting the men and women who raise their right hand, volunteer to pick up a weapon, and stand a post in a far-off land to guard the freedoms and liberties that make our Nation great is a primary function of the Federal Government to "provide for the common defense." Today, with the adoption of this legislation, we achieve that goal.

Included in this bill are personnel provisions that will allow us to recruit and retain the best and brightest, maintain an agile military force, and ensure our brave servicemen and -women receive the benefits they have earned and deserve.

This includes a new retirement plan that provides a benefit for the roughly 83 percent of the force who serve less than 20 years and currently leave with nothing. It authorizes the special pays and bonuses that are critical to maintaining the All Volunteer force. It protects important nonmonetary compensation benefits like a robust commissary and exchange system. It mandates a joint uniform drug formulary between the Department of Defense and the Department of Veterans Affairs so that transitioning servicemembers can continue to receive the medications that are working for them when they leave active service. And it provides enhanced protections for sexual assault victims, to include protecting victims from retaliation.

I urge my colleagues to stand with our military men and women, their families, our veterans and survivors, and support this bill.

Mr. SMITH of Washington. Mr. Speaker, I yield 2 minutes to the gentlewoman from California (Mrs. DAVIS), the ranking member of the Military Personnel Subcommittee.

Mrs. DAVIS of California. Mr. Speaker, I want to thank Chairman THORNBERRY and Ranking Member SMITH; my colleague from Nevada, Dr. HECK, chair of the subcommittee; along with the committee staff for working in a bipartisan manner to incorporate the budget changes from the Bipartisan Budget Act into the NDAA. I am pleased to see this very important bill headed back to the President so that it can be signed into law quickly.

The bill includes many good provisions to improve our military. It takes important steps toward personnel reform by including recommendations from the Military Compensation and Retirement Modernization Commission, a key provision in the modernization of the military retirement system.

As has been mentioned before—and this is very, very important, I think, for everyone—while maintaining the

20-year defined retirement, a Thrift Savings Plan is added not just for retirees, but for all servicemembers. This will positively impact the 83 percent of the Force that leaves prior to the 20-year mark.

The NDAA also continues the committee's critical work towards the prevention and response to sexual assault.

Although the bill allows for some pilot programs to improve health care for servicemembers and their families, we need to do more. I am pleased that Chairman THORNBERRY has asked the Military Personnel Subcommittee to begin working on reforming the Military Health System.

Important issues clearly are addressed in this bill, and I support many of the provisions and all the hard work that went into it. As we know, national security is born from many factions, including the education of our people, investment in science and technology, and the support of sustainable resources and infrastructure.

The Bipartisan Budget Act provides for these investments over the next 2 years. We must capitalize on the time provided and fix the national budget so that we don't find ourselves back in the same situation we were in just a few weeks ago. Our national security is far too important.

Mr. THORNBERRY. Mr. Speaker, I yield 1½ minutes to the gentleman from Illinois (Mr. KINZINGER), a combat veteran from both Iraq and Afghanistan.

Mr. KINZINGER of Illinois. I thank the chairman for yielding, and I thank everyone for their hard work on this bill.

Mr. Speaker, there is a lot of negativity out there. In the House, we talk a lot about bad things that happen. It is just our focus. But I want to talk about some of the good.

Some of the good are the people that come from the United States of America, who put on the uniform of all our various Armed Forces, and stand as the line between chaos and order, the line between good and evil.

We know in the last decade, we had a number of troops engaged in Iraq, Afghanistan, and all over the globe in the war on terror, keeping Americans safe. In some cases, they were very distant from their families. In some cases, they had to give the ultimate sacrifice. We know that today, in Syria, Iraq, and untold areas in other places, we have men and women still defending this country from the potential next attack.

The best thing we can do in this body—we debate budgets, and that is important—and the most important thing we can do is equip the men and women of our military with the tools they need, with the pay they need, with the benefits they need to defend this country, to take care of their family, and that we can alleviate a little bit of the pain and loneliness they may feel when they are separated on the battlefield.

So I want to thank the chairman, the ranking member, and my colleagues on the other side of the aisle and on this side of the aisle for working together. I would ask for this to pass in a unanimous way, if we could, and I would ask the President to sign this bill.

Mr. SMITH of Washington. Mr. Speaker, I yield 2 minutes to the gentleman from Connecticut (Mr. COURTNEY), the ranking member of the Seapower and Projection Forces Subcommittee.

Mr. COURTNEY. Mr. Speaker, I rise today in support of the revised defense bill, which restores the strong, bipartisan tradition of the House Armed Services Committee. In particular, the Seapower portion expands shipbuilding to ensure that today our Nation is building the ships we need tomorrow.

The bill authorizes over \$17 billion for construction of nine new ships, including two attack subs, two destroyers, three littoral ships, a new oiler, and completion of an LPD amphib. In addition, it continues work on a new carrier, the USS *Gerald Ford*, and overhaul of one of our current carriers.

In this bill, we are providing the resources to keep our Navy on track to build a force of over 300 ships. This progress stands in stark contrast to where we were nearly a decade ago, building only four or five ships a year, a critical mistake which decimated the size of our fleet.

The bill also includes the National Sea Based Deterrence Fund to allow the Navy to build new ballistic subs without suffocating the rest of Navy shipbuilding. To be clear, this program is not about building one submarine class. It is about making sure that the Navy and our Nation have the full range of ships and submarines needed in the future.

Building on our work to start the fund last year, the bill today adds to the range of authorities the Navy can use to design and build ballistic subs in the most cost-effective way. Just last week, the nonpartisan CBO looked at the Seapower Subcommittee initiative and found that, if we “funded the purchase of the *Ohio* replacement submarines through the National Sea Based Deterrence Fund . . . the Navy could potentially save several hundred million dollars per submarine.”

That is the kind of thoughtful, bipartisan work that this bill represents.

I urge support of the revised NDAA.

Mr. THORNBERRY. Mr. Speaker, I yield 1½ minutes to the gentleman from California (Mr. HUNTER), another combat veteran of America's recent wars, who also serves as the vice chair of our Subcommittee on Seapower and Projection Forces.

Mr. HUNTER. Mr. Speaker, first off, I want to thank the leadership, ADAM SMITH from Washington and MAC THORNBERRY from Texas. We have wise leaders who are going to be here. When the generals term out, when the administration terms out, when the Secretary of Defense changes over and

over, guess who is here? MAC THORNBERRY and ADAM SMITH. It will be MIKE ROGERS, MIKE TURNER, ROB WITTMAN, and RANDY FORBES.

We have people who love this country. They come to work every day in D.C., and they care about national security, because there is no social security without national security. That is the way it is.

The National Defense Authorization Act is our solemn promise to our people who fight for us. It is us promising them that we will look out for them, that we will fight for them, and that we will give them what is needed to do their job.

When the guys go kick down doors, when the guys are out in the freezing cold whether or the hot, humid weather every day, day in and day out, while we are here in our suits and ties in this nice air-conditioned building, this is our solemn promise to them. This is us telling them: Hey, we have your back. No matter where the President sends you, the Congress is going to make sure you have what you need to do your job.

I did three tours—two in Iraq and one in Afghanistan—while my father was chairman of the Armed Services Committee here in D.C. That gave me the perspective of how Congress needs to watch our backs.

Congress needs to do what is right for the men and women that are out there doing their jobs on the ships, day and night. That is what we are here doing. That is what is important.

Without this, nothing else matters. Without this, the Ex-Im Bank doesn't matter. Without this, the transportation bill doesn't matter. It is about national security and making sure that we remain a free Nation.

Once again, I want to thank the leaders who put this bill together and worked on this in a bipartisan way. I want to say thank you to Chairman MAC THORNBERRY and Ranking Member ADAM SMITH.

I urge all my colleagues to vote for this bill for the country.

Mr. SMITH of Washington. Mr. Speaker, I yield myself 1 minute.

I just want to thank Congressman HUNTER for his kind words for Mr. THORNBERRY and me.

It is really the whole committee, and particularly the staff, that puts this together. I think it is the staff that I am most impressed with. They are absolutely 100 percent dedicated to the national security of this country.

I think Mr. HUNTER is absolutely correct that the first and most important responsibility we have is to protect this country and to give the troops the equipment that they need to succeed in that venture.

I was particularly moved by Congressman SAM JOHNSON's comments about not having the equipment that he needed in Vietnam. I thank Mr. THORNBERRY for his leadership in trying to make sure that we don't repeat that mistake. I think we have worked

in a bipartisan way to achieve that goal: to make sure that the men and women who serve our country have the equipment and the training that they need to perform the missions that we ask them to do.

I thank Congressman HUNTER and Congressman SAM JOHNSON of Texas. I think their words were very well said.

I reserve the balance of my time.

Mr. THORNBERRY. Mr. Speaker, I yield 1½ minutes to the gentleman from Ohio (Mr. STIVERS), another veteran of the Iraq conflict.

□ 0945

Mr. STIVERS. Mr. Speaker, I thank the chairman for yielding time.

This National Defense Authorization Act is really important. As a Member of Congress and as a member of the military, I have raised my right hand and taken an oath to protect against all enemies, foreign and domestic; and, in fact, defending our country is our primary duty as policymakers here in Washington.

I am pleased that the budget agreement that was reached a couple of weeks ago will pave the way for a National Defense Authorization Act to get passed now.

It was really unfortunate that the President chose to veto that over domestic spending priorities, but I am glad that we are here where we can actually fix some of the things that need fixed.

This bill, as you have heard, protects and helps 83 percent of our servicemen and -women who don't reach 20 years of service. It allows them to walk away with something.

More importantly, this bill will help reduce the incidence of suicide among our members of the military. Suicide is an epidemic in our military right now. They have been through a lot over the last 10 or 15 years, and we need to give them the help they need. This bill helps do that.

This bill makes other very important reforms in the acquisition process, but, most importantly, it gets the soldiers in harm's way the resources they need to do their job.

I think that it is really important that we pass this bill before Veterans Day to send a signal to our troops all across the world that we have their backs and, when they answer the Nation's call and we send them into harm's way, we are going to get them what they need to do the job and help them return home safely.

For those reasons, I urge my colleagues to vote “yes” on this bill.

Mr. SMITH of Washington. Mr. Speaker, I reserve the balance of my time.

Mr. THORNBERRY. Mr. Speaker, I yield 1½ minutes to the gentleman from Ohio (Mr. WENSTRUP), another veteran of America's more recent wars and a member of our committee.

Mr. WENSTRUP. Mr. Speaker, I have served in the U.S. Army Reserve since 1998. In 2005–2006, I deployed to Iraq for

1 year. There were times during that deployment when we wondered if politicians at home had our backs, but we never wondered if the President did. We knew he did.

Mr. President, let's not give our troops pause now. Please sign this bill.

Troops serving overseas want to make sure the politicians in D.C. are behind them. With Chairman THORNBERRY and Ranking Member SMITH, I am here to tell our troops right here, right now that Members of this body have their backs.

We have troops serving in harm's way every day, and their missions are expanding. Let's leave no question in their minds about the support here at home.

This legislation, the National Defense Authorization Act, gives our troops and military families the certainty they need as they serve. Troops stationed all over the world, in desperate and dangerous places watched the President veto the National Defense Authorization Act just a couple of weeks ago—a dangerous decision, in my mind.

Now, this time, Mr. President, please sign this bill. Sign this bill so our troops know that we have their backs. Sign this bill so our military can adequately plan for the threats that we face and will continue to face through 2016. From China to Russia, to ISIS, to Iran, to North Korea, the threats are real.

National security is not to be juggled around. Let's pass and sign this bill so military families don't have to worry. National security is our responsibility. Let's give them some assurance in a world of uncertainty.

Veterans Day is fast approaching. Let's get this critical defense bill across the finish line in honor of every man and woman that has ever worn the uniforms of the United States military.

The SPEAKER pro tempore. Members are reminded to direct their remarks to the Chair.

Mr. SMITH of Washington. Mr. Speaker, I yield 2 minutes to the gentleman from Rhode Island (Mr. LANGEVIN), the ranking member of the Emerging Threats and Capabilities Subcommittee.

Mr. LANGEVIN. I thank the gentleman for yielding.

Mr. Speaker, I first want to thank the chairman and ranking member, particularly Chairman WILSON and the members of the Emerging Threats and Capabilities Subcommittee, for their hard work and contributions to the legislation before us today.

The NDAA moves us forward on so many important issues, from cyberspace, to research and development, to the integration of advanced technologies, such as directed energy, to the challenges of special operations, counterterrorism, and unconventional warfare.

The NDAA also invests properly in crucial capabilities, such as the Ohio Replacement Program, the peerless

Virginia-class submarines that are built starting in my district in Rhode Island, the Virginia Payload Module, the cutting-edge autonomous and unmanned systems.

I am particularly pleased that the budget approach reflected in this bill is the result of the considered compromise that was reached last week. That framework paves a fiscal path that invests in all departments and all elements of national power, not just defense.

That agreement and the NDAA before us this morning echoes that very point. It demonstrates that, when we work across the aisle, we can accomplish the hard work of legislating that the American people elected us to do.

I do believe that the bill gets it wrong, though, in a few areas, most notably, on the provisions related to Guantanamo. However, no bill is perfect. In a net assessment, I believe that this bill reflects a bipartisan compromise that will properly provide for our national defense and for our men and women in uniform, and I look forward to supporting it.

Again, I want to thank Chairman THORNBERRY and Ranking Member SMITH for the extraordinary work that they did together in bringing the bill to this point and the tireless staff, who are not often recognized like they should be, and their extraordinary work. I want to thank them for their work all collectively on this NDAA this year. I am already looking forward to getting to work on next year's bill.

Mr. THORNBERRY. Mr. Speaker, I yield 1½ minutes to the gentlewoman from Arizona (Ms. MCSALLY), another combat veteran from both Iraq and Afghanistan.

Ms. MCSALLY. Mr. Speaker, I appreciate your leadership on this bill over this last year and that, also, of our colleagues, working hard to make sure this is a good bill that gives our troops everything they need to protect our country and keep it safe.

I commanded troops in combat. I know what it is like to make sure that we were ready to deploy anywhere in the world.

We need to make sure that our troops that are at home, on alert, or deployed in harm's way have the equipment, the training, and the certainty that they need in order to keep us safe.

Right now we have men and women who raised their right hand that are right now out there on the front lines putting their lives on the line, and the last thing they need is more uncertainty.

The President's veto last week gives them uncertainty, and we need to stop that right now, today.

We have been able to push past some of the issues with our colleagues. I urge everyone to support this very important bill.

A couple of provisions just related to my district. We have got protections for the A-10 and the EC-130, very important assets that are deployed right

now in the fight against ISIS and in other places around the world, saving American lives. This bill protects those assets from being retired. It is an important bill to pass to show certainty to our troops that we have got their backs.

We also have missions down in Fort Huachuca in asymmetrical capabilities that are important for us and our defense. Whether it is unmanned aerial vehicles or cybersecurity, electronic jamming, we need to send the message to them that we are going to give them everything they need.

Unlike Congressman SAM JOHNSON and his experience in Vietnam, we have got to show the troops that we have got their backs.

This bill has important provisions in it across the board, including those for retirement benefits, sexual assault victims. It is a good bill. The President should not be playing politics with it.

I urge our colleagues on both sides of the aisle that we need to work together, support this bipartisan bill, and get it passed. We need to make sure that our troops know we have their backs. We have their backs.

Mr. SMITH of Washington. Mr. Speaker, I yield myself the balance of my time.

I just want to start on the last point about certainty and the President's veto. The bill the President vetoed had \$38 billion in it in OCO funding, which the appropriators had not appropriated and which was highly unlikely to be there.

If the President had signed that bill, the uncertainty would have been enormous. There would have been \$38 billion promised in the NDAA with no guarantee whatsoever that it was going to show up.

Now, once we got a budget resolution, we were able to get \$33 billion of that \$38 billion, and that is good. But, still, if he had signed that bill, we would now be scrambling to figure out where to cut that \$5 billion in a bill that we had already passed.

Make no mistake about it: the bill that we passed and that the President vetoed gave no clarity to our troops or to the Department of Defense because it had \$38 billion in it that the budget resolution and that the appropriators were not going to approve.

Until we got that resolved, we could not legitimately pass a bill that would give our troops and the Department of Defense any degree of—forget certainty—any degree of understanding of what money they were going to be able to spend.

So passing an NDAA with a bunch of money in it that isn't reflected in the budget resolution, that isn't reflected in the appropriations is hardly supporting our troops and hardly giving them any sort of clarity as to what money they are going to have.

Now we have a little bit of that clarity because of that budget resolution. I won't be so bold as to say that the President's veto of the NDAA was part

of the incentive for getting that budget resolution, but I am sure it didn't hurt because we wanted to clarify that very important national security process.

But more than anything, there was \$38 billion in there that wasn't going to be there. That is not keeping a promise to our troops. So I am glad that we got that clarity. I am glad it happened as soon as it did.

I was skeptical we would get the budget resolution so quickly, but I am glad that we did. I think it does now give our troops and the Department of Defense the sense of clarity on the budget for at least the next 2 years that they need.

As I have said, we need to go beyond that. We need to get rid of the budget caps. We need to get rid of, I believe, the Budget Control Act so that we can have some degree of planning ability for the next 5 to 10 years for the Department of Defense and for all these other departments that are important to national security, but also important to economic security. That matters as well to our country.

So I am glad that we have arrived where we are at. I, again, want to thank the chairman and thank all of the members of the committee for all of their very, very hard work.

In particular, before I wrap up today, I want to thank Betty Gray, who works on our staff, who—and, if you look at her, you would not believe this in a million years—who has actually been here for 40 years. I don't think she's aged in any of those 40 years.

But she has served the Armed Services Committee and, gosh, more Members than any of us could probably count for 40 years. She is the epitome of a public servant and the epitome of exactly everything that the HASC staff stands for in terms of always putting the troops first, always being concerned about our national security.

I don't know how we would function without Betty. She makes the trains run on time, makes sure everyone is doing what they need to be doing, and has just done a fabulous job. And she is just a truly wonderful person as well, has been a good friend to many, many Members and many, many staff members.

But also, I think the great thing about Betty is, she has always managed to do something that is very difficult for all of us, and that is balance both professional and personal life.

Her husband, Dick, and her children, Zach and Cal, have always been just number one priority for her. She takes care of them, and she also takes care of us.

So for 40 years, she has been a dedicated public servant. I just want to have those of us who are here give a round of applause for Betty Gray and her 40 years of amazing public service.

I don't know what we will do if she ever decides to retire. We like to think that no one is irreplaceable, but Betty comes as close as anyone I could possibly imagine.

So I thank her for her help and leadership and for 40 years of dedicated public service.

I urge a "yes" vote on the bill.

Mr. Speaker, I rise to honor the career of Betty Gray, a loyal public servant and a key staff member on the House Armed Services Committee. Betty has served in Congress for 40 years—a benchmark only the most dedicated public servants achieve.

Betty typifies what it means to be a public servant, a colleague, a friend and, most importantly, a mother and wife. Anyone who has had the opportunity to meet Betty quickly understands that the most important thing in her life is her family. Her husband, Dick, and two children, Zach and Cal, are at the center of her life.

We all fear the day Betty decides to retire. While no one is irreplaceable, some people come very close. Betty is one of those people. Her institutional knowledge and administrative skill set are unrivaled. After 40 years of service, Betty has accumulated a wealth of knowledge and depth of understanding about the Armed Services Committee and the Congress that cannot be replaced. When she retires, a part of Congress will retire with her.

Betty is a true professional. Ask anyone who has worked with Betty about the quality of her service and the response is unequivocal: Betty has always been the quiet, consistent presence on the committee—the person who is never rattled, regardless of how chaotic or stressful things become. Betty is always here to remind us of whether what we're thinking has been tried before, and failed, or whether it has worked.

An eagle-eye editor of letters and memoranda, Betty is literally the person who makes sure that we "cross our T's and dot our I's." Not only is she the person with the clipboard checking off staff at Member meetings, she is the person who assures that the Members know the who, what, where, when, why, and how of the meeting. Throw five conflicting times and dates at her, and Betty can make calm out of schedule chaos. As security administrator for classified information regarding the committee's special access programs, Betty literally handles our deepest, darkest secrets. For 37 years, she has shepherded every National Defense Authorization Act through committee markup, ensuring every roll-call vote is tallied correctly and serving as the committee's unofficial historian.

On a more personal level, she's the librarian of the House Armed Services Committee, the school counselor, the motherly presence who remembers everyone's birthdays, and, on occasions, even the school nurse. She is the go-to person to get things done and the one who lends a helping hand or a listening ear.

Betty has outlasted eight Speakers of the House, seven Presidents, and ten House Armed Services Chairmen. Speaking as someone who has been here for a while, I understand the difficulty of achieving that level of longevity. We are here today to celebrate all that Betty has done for her country and for Congress, and to thank her for her service. You are a true public servant, Betty. Thank you.

Mr. Speaker, it is my honor to recognize Betty Gray for her distinguished career. I am confident that others will continue to benefit from her service.

I yield back the balance of my time.

Mr. THORNBERRY. Mr. Speaker, I yield myself the balance of the time.

Mr. Speaker, I want to take up where the ranking member left off and join him in honoring and thanking Betty Gray for her incredible record of service to our committee and, through our committee, to the country.

I think it is important to honor her, but she epitomizes the kind of selfless service to the country that this bill and this committee is really all about.

□ 1000

Mr. Speaker, Betty handles the most sensitive information our committee deals with, and she does it with a professionalism that is just beyond reproach from anyone. What you can't put in a job description is the personality—the person—the nurturing that comes to Members and other members of the staff which is irreplaceable.

Mr. Speaker, I think too much of the time we—especially Members—take for granted those people who are essential to getting the work done and through this institution serving the country. I agree completely with what the ranking member said—that Betty Gray epitomizes that sort of service.

I think it is a similar but different capacity but a similar sort of service that we have heard about today from the combat veterans who have spoken, starting with SAM JOHNSON who talked about what happened when he wasn't appropriately supported and then spent the next 7 years of his life in the Hanoi Hilton. Now, we will never know what could have been prevented, but his testimony, really, about what he has endured should stick with us all.

I think Mr. HUNTER was particularly powerful in saying that this bill is our promise to those people who are out there serving in all sorts of places around the world today in an increasingly dangerous world and that whatever you think about this provision or that provision, those troops deserve to be supported on a bipartisan basis. They deserve to know that the country is behind them. The way we can convey that is by voting on both sides of the aisle as close to unanimously as we can for this measure.

The last point I would make, Mr. Speaker, is the troops deserve that sort of support, but the rest of the world also needs to see that sort of support because there are an increasing number of questions around the world about whether the United States is in retreat and about whether we are willing to continue to engage in world leadership.

One of the ways that we can demonstrate to adversaries, to friends, and to neutrals who are trying to make up their mind which way they are going to go that we are committed to defending ourselves, our interests, and our allies is by passing this bill for the 54th straight year. And this time, rather than have the President try to use it as a bargaining chip to get more domestic spending, this time have the President sign it. I think our troops deserve it,

the world needs to see it, and Members need to support the bill.

Mr. Speaker, I yield back the balance of my time.

Ms. JACKSON LEE. Mr. Speaker, as a senior member of the Committees on the Judiciary and Homeland Security, I rise to speak on S. 1356, the National Defense Authorization Act for FY2016 Conference Agreement.

I thank Armed Services Committee Chairman THORNBERRY and Ranking Member SMITH for their work and collaboration with the Senate conferees in making the revisions to the NDAA needed to address the substantial and legitimate concerns raised by in the Statement of Administration Policy regarding the original NDAA (H.R. 1735).

Mr. Speaker, S. 1356 authorizes \$599 billion for the Pentagon and defense-related programs for FY 2016, \$5 billion less than both the president's overall request and the original agreement.

President Obama vetoed the original agreement on October 22, because he objected to its \$38 billion in base defense funding in the uncapped Overseas Contingency Operations account.

This had the effect of giving preferential treatment to defense spending over non-defense spending in violation of the Murray-Ryan Budget Agreement and contrary to the spirit of the even-handed pain resulting from sequestration.

Because of the Bipartisan Budget Agreement reached last week, conferees were able to identify the \$5 billion in reductions needed to conform to the requirements of the Murray-Ryan Budget Agreement.

The revised NDAA Conference Agreement reflects the new FY 2016 cap and provides \$33 billion of the original \$38 billion in added funds for defense, including \$8 billion through the OCO account.

S. 1356 authorizes \$715 million for Iraqi forces fighting the Islamic State, \$406 million to train and equip Syrian opposition forces and \$300 million for lethal weapons for Ukraine.

I am especially pleased that S. 1356 incorporates three amendments that I successfully offered to the FY2016 NDAA passed by the House earlier this year.

Jackson Lee Amendment Number 1, which requires the Department of Defense to conduct outreach program to assist small business concerns owned and controlled by women, veterans, and socially and economically minorities is incorporated in Section 868(b)(2) of new NDAA Conference Agreement:

SEC. 868. MODIFICATION TO AND SCORECARD PROGRAM FOR SMALL BUSINESS CONTRACTING GOALS

(b)(2) “[T]he Administrator shall establish and carry out a program to use the scorecard developed under paragraph (1) to evaluate whether each Federal agency is creating the maximum practicable opportunities for the award of prime contracts and subcontracts to small business concerns, small business concerns owned and controlled by service-disabled veterans, qualified HUBZone small business concerns, small business concerns owned and controlled by socially and economically disadvantaged individuals, and small business concerns owned and controlled by women, by assigning a score to each Federal agency for the previous fiscal year.”

Jackson Lee Amendment Number 2, which provides guidance to Secretary of Defense on

identifying HBCUs and minority serving institutions to assist them in developing and enhancing science, technology, engineering, and mathematics (STEM) capacities is incorporated in Section 233 of new NDAA Conference Agreement:

SEC. 233. STRATEGIES FOR ENGAGEMENT WITH HISTORICALLY BLACK COLLEGES AND UNIVERSITIES AND MINORITY-SERVING INSTITUTIONS OF HIGHER EDUCATION

BASIC RESEARCH ENTITIES.—

(1) STRATEGY.—The heads of each basic research entity shall each develop a strategy for how to engage with and support the development of scientific, technical, engineering, and mathematics capabilities of covered educational institutions in carrying out section 2362 of title 10, United States Code.

Jackson Lee Amendment Number 3, which requires the Department of Defense to evaluate commercial off-the-shelf business systems for security, resilience, reliability, interoperability, and integration with existing interrelated systems is incorporated in Section 883 of new NDAA Conference Agreement:

SEC. 883. STREAMLINING OF REQUIREMENTS RELATING TO DEFENSE BUSINESS SYSTEMS

“(e) GUIDANCE ON ACQUISITION OF BUSINESS SYSTEMS.—The Secretary of Defense shall issue guidance for major automated information systems acquisition programs to promote the use of best acquisition, contracting, requirement development, systems engineering, program management, and sustainment practices, including—

“(6) policies to perform full backup of systems that will be changed or replaced by the installation of commercial off-the-shelf business systems prior to installation and deployment to ensure reconstitution of the system to a functioning state should it become necessary[.]”

In conclusion, Mr. Speaker, let me again express my appreciation to Chairman THORNBERRY and Ranking Member, and the conferees for their work on this NDAA Conference Agreement, including the provisions incorporating the JACKSON LEE amendments.

Ms. ROYBAL-ALLARD. Mr. Speaker, I rise in support of the revised Fiscal Year 2016 National Defense Authorization Act (NDAA). Although I am disappointed that the bill does not resolve the important issues of transporting and relocating Guantanamo Bay prisoners, the legislation does help our Armed Forces keep Americans safe in the face of new emerging threats in an increasingly unstable world.

This NDAA supports the fight against the Islamic State, and also supports efforts to counter Russia's aggression in Ukraine. In addition, this bill includes a much-deserved 1.3% pay raise for all military personnel, as well as measures that seek to improve mental health care services for our servicemen and women.

Also, this NDAA bucks the trend of brinksmanship that defined many previous legislative battles. Instead, the bill reflects the bipartisan spirit of our recently enacted two-year budget agreement, which raises spending on both defense and non-defense priorities, and does so without relying on any gimmicks. The terms of this NDAA will enable our Armed Forces to do the long-term planning they need to bring peace and stability to our globe.

I voted against the previous version of the NDAA because it funneled \$38 billion through the overseas contingency operations emergency fund to cover our basic defense needs. That kind of accounting trickery is gone from this bill.

I urge my colleagues to support this bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. THORNBERRY) that the House suspend the rules and pass the bill, S. 1356, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the yeas have it.

Mr. SMITH of Washington. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 370, nays 58, not voting 5, as follows:

□ 1122

Mr. GROTHMAN changed his vote from "aye" to "no."

So the motion was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

MOTION TO INSTRUCT

Mr. HUFFMAN. Mr. Speaker, I have a motion at the desk.

The SPEAKER pro tempore. The Clerk will report the motion.

The Clerk read as follows:

Mr. Huffman moves that the managers on the part of the House at the conference on the disagreeing votes of the two Houses on the House amendment to the Senate amendment to the bill H.R. 22 be instructed to—

(1) agree to the provisions of the Senate amendment that establish the total amount of funding to be provided for each of fiscal years 2016 through 2021 out of the Highway Trust Fund for surface transportation programs; and

(2) insist on section 1414(b) of the House amendment (relating to adjustments to contract authority).

Mr. HUFFMAN (during the reading). Mr. Speaker, I ask unanimous consent to dispense with the reading.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The SPEAKER pro tempore. Pursuant to clause 7 of rule XXII, the gentleman from California (Mr. HUFFMAN) and the gentleman from Pennsylvania (Mr. SHUSTER) each will control 30 minutes.

The Chair recognizes the gentleman from California.

Mr. HUFFMAN. Mr. Speaker, I yield myself such time as I may consume.

Since 2009, this Congress has failed to make some hard choices. As a result, highway, transit, and safety programs have limped along with flat funding. States and transit authorities have been unable to plan major, long-term projects as they watch this Congress extend these programs for a few months at a time, often waiting until midnight of the next government shutdown, and then extend them again with short-term patches.

The Federal gas tax, which pays for these highway and public transit investments, has not been raised in 22 years. Its purchasing power has fallen 40 percent.

And for all the progress we made last week under Speaker RYAN in terms of allowing policy amendments to be offered to the bill, let us all recognize that the Republican leadership blocked every single proposed amendment regarding the funding inadequacies in this bill.

Democrats and Republicans offered a wealth of options to fund the program: increasing the gas tax; using repatriated revenue to increase investment in the United States; creating a bipartisan, bicameral task force to address the shortfall in the highway trust fund; and simply indexing the gas tax to account for the cost of inflation.

Regrettably, the Republican leadership, despite all the pledges of openness, would not let this House debate even a single proposal to address the shortfall in the highway trust fund.

Mr. Speaker, we can do better.

Today, I offer a motion to instruct conferees that recognizes that we are woefully underinvesting in our Nation's infrastructure. This motion instructs conferees to adopt the higher funding levels for highway, transit and highway safety programs that are contained in the bipartisan Senate DRIVE Act. The DRIVE Act provides \$342 billion over 6 years. That is \$17 billion more than the House bill.

The DRIVE Act provides \$12 billion more than the House bill over 6 years to reconstruct our highways and rebuild our crumbling bridges. This small increase only begins to deal with the 147,000 structurally deficient or functionally obsolete bridges in our country. That is, by the way, one out of every four bridges.

This funding will only begin to address the two-thirds of the Nation's roads that are in less than good condition.

The DRIVE Act provides \$4.4 billion over 6 years for local transit agencies to help more people move safely to their jobs. This small increase will only begin to address the \$86 billion state of good repair backlog that exists nationwide for our local transit agencies.

In 2013, Americans took 10.7 billion public transit trips. Mr. Speaker, many of these were on systems that were built a century ago.

Congestion is a ballooning problem around our country. It affects 42 percent of America's major roads and costs our economy \$121 billion a year. The status quo funding in the House bill will only worsen the congestion in our cities and suburbs.

This motion also instructs conferees to include section 1414(b) of the House bill in a final conference report. This section provides a mechanism to automatically adjust investment levels, should additional money come into the trust fund during the 6-year term of this bill.

Additional receipts could come into the trust fund from a number of places. There could be higher-than-anticipated vehicle miles traveled. There could be a bigger infusion into the trust fund from a subsequent act of Congress.

If actual receipts do come into the trust fund exceeding the estimated receipts for the most recently completed year, program levels would automatically be adjusted by the additional amount at the beginning of the next fiscal year. This ensures that any additional funds that Congress makes available can quickly flow to States to invest in badly needed infrastructure projects.

The Secretary would distribute this additional funding proportionately to each of the highway transit and safety programs funded in the highway trust fund authorized in the final conference report.

I urge my colleagues to support this motion.

I reserve the balance of my time.

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in opposition to the motion to instruct. The STRR Act act is a bipartisan bill that reflects the input of Members from both sides of the aisle. It has been a carefully crafted compromise. This motion would threaten that compromise and dismantle the bipartisan House position as we head into negotiations with the Senate.

The STRR Act is a multiyear bill that provides needed certainty for States and local governments. It helps improve our Nation's transportation infrastructure and maintains a strong commitment to safety, but it also provides important reforms that help us continue to do the job more effectively.

Key provisions in this bill will refocus our transportation programs on national priorities, promote innovation to make our surface transportation system programs work better, provide greater flexibility for State and local governments to address their needs, streamline the Federal bureaucracy, accelerate the project approval process, and facilitate the flow of freight and commerce.

□ 1130

The STRR Act continues the Federal role in providing a strong national transportation system, which enables our country to remain economically competitive and helps ensure our quality of life.

This bill has widespread support. We have received nearly 300 letters of support from throughout the stakeholder community, so I would urge all Members to oppose the gentleman's motion.

I reserve the balance of my time.

Mr. HUFFMAN. Mr. Speaker, I yield 2 minutes to the gentlewoman from the District of Columbia (Ms. NORTON), who is our ranking member on the Subcommittee for Highways and Transit.

Ms. NORTON. I thank the gentleman for yielding.

We will, of course, continue to press for the DRIVE Act funding, the small amount of increased funding in conference. But I do want to thank Chairman SHUSTER, Ranking Member DEFAZIO, Subcommittee Chair GRAVES, and all of the Members and staff who contributed to the Surface Transportation Reauthorization and Reform Act that has brought us to this point.

Of course, many of us wanted to invest even more in desperately needed transportation and infrastructure projects. However, we simply can't wait any longer to address the crumbling roads, bridges, and transit systems that Americans depend on every day.

While we will continue to press Congress to make more funding available in future years, I support moving this bill to conference as a means of providing necessary funding and certainty to our States and local partners for the next 6 years.

While this is not a perfect bill—it is a most imperfect bill—it is encouraging that we were able to get together

on both sides of the aisle to come together as a model for how we should proceed in the future.

Passage is necessary to shore up the highway trust fund and allow critical projects to move forward around the country. Now, as we move to conference, I will continue to work with Ranking Member DEFazio and our Republican counterparts to see this bill across the finish line.

Our work to ensure robust funding for our roads, bridges, and transit systems is just beginning. This bill is a good bridge to the future, but we must work diligently to identify and secure additional sources of revenue in coming years.

This motion is a first step on the path to higher investment levels. I look forward to working with the Senate to produce a comprehensive bill for the President to sign.

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Again, I want to thank all the Members that have worked on this bill. I know that the two Members on the floor here are valued members of the committee.

Again, I oppose the instruction because I believe it really—we have got a delicate balance here; and a strong position moving into the Senate to get this over the goal line and get ourselves a long-term, multiyear highway transportation bill is just something that I think we all want. It is all good for the country.

The gentleman brings up some good points on the funding of it. As soon as we get this bill passed, on the President's desk and signed, we have really got to sit down with the stakeholder community and Members on both sides of the aisle, both sides of the Capitol, people around the States, and figure out a way to move forward in the future to have a fully funded, robust transportation highway trust fund.

So again, I appreciate what the gentleman is saying, but, again, at this point, I urge opposition to this motion to instruct.

I yield back the balance of my time.

Mr. HUFFMAN. Mr. Speaker, I respectfully request an “aye” vote.

I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to instruct.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. HUFFMAN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, this 15-minute vote on the motion to instruct will be followed by a 5-minute vote on agreeing to the Speaker's approval of the Journal, if ordered.

The vote was taken by electronic device, and there were—yeas 179, nays 239, not voting 15, as follows:

VETERANS DAY

(Mr. HOLDING asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HOLDING. Mr. Speaker, after Mary Louise Roberts' father died during the Depression, she worked in a laundry, then she trained as a nurse. After Pearl Harbor, she joined the Army.

Two years later, she waded ashore at Anzio, Italy, to set up a field hospital on the battlefield. The hospital tent was bombed, killing three nurses. Three days later, German artillery killed two more nurses. As shrapnel tore through the burning tent, Mary Roberts calmly supervised surgeries on wounded soldiers.

Mary was called "the Angel of Anzio," and was the first woman to win the Silver Star.

Today, Mr. Speaker, all you have to do is open the newspaper to see the cruelest kind of barbarism has been reborn in the world—ISIS burns people alive and sells women in slave markets in Syria and Iraq.

On Veterans Day, let us remember Mary Roberts and all our veterans, and, by the grace of God, offer a prayer of thanks for the soldiers whose courage keeps us safe at home, every day.

WILLIAM C. WAGGONER

(Ms. TITUS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. TITUS. Mr. Speaker, I rise to honor my friend William C. Waggoner, a legendary union leader and a tireless advocate for the hardworking men and women who have built this country.

Mr. Waggoner first joined the Operating Engineers in 1951, and he rose through the ranks to occupy the highest office in the local union, business manager, which is the position he held for 40 years. While there, he established the cutting-edge Crane Operators Training program, which became the model nationwide.

Mr. Waggoner is known as a fighter for workers and their families. He believes in fairness above all and has consistently pushed for safety in the workplace, for fair wages and benefits, and for the right to collectively bargain.

Away from the union hall, he remains devoted to his wife, Patty, and his family, and he is committed to his community of Long Beach, California. Many Little League Baseball players

and children with special needs have greatly benefited from his generosity.

I humbly thank him for his tireless service, congratulate him on a career well spent, and wish him the best in retirement.

Now, don't be a stranger, Wag. You are welcome anytime in Las Vegas—a proud union town.

Mr. Speaker, I ask unanimous consent to address the House for one minute, and to revise and extend my remarks.

I rise to honor my friend, William C. Waggoner, a legendary union leader and tireless advocate for the hard working men and women who built this country.

Bill first joined the International Union of Operating Engineers in 1951 and immediately rose through the ranks, starting as a bulldozer operator before becoming a Foreman, Steward, Advisory Board Member, Business Representative, and District Representative for Southern Nevada and Orange County. In 1970 he was elected as President of IUOE Local 12, and in 1976 he was named to the highest office in the local union, Business Manager, a position he held for 40 years.

As Business Manager, Mr. Waggoner served as Trustee for Local 12's Pension, Health & Welfare, Vacation-Holiday, and Apprenticeship Trusts, and established state-of-the-art training centers, including the cutting-edge Crane Operators Training Program, which has become the model for all crane training in the nation.

In addition to his work with IUOP Local 12, Bill served as a Vice President of the California Federation of Labor, General Vice President of the International Operating Engineers, and President of the Western Conference of Operating Engineers.

Bill is known far and wide as a fighter for workers and their families. He believes in fairness above all. As his adversaries will tell you, he is an outstanding negotiator, always keeping the concerns and rights of his members at the forefront. He has consistently pushed for safety in the workplace, fair wages and benefits, and the right to collectively bargain.

Away from the union hall, Bill remains devoted to his wife Patty and his family and committed to his local community of Long Beach, California. Many Little League Baseball players and children with special needs have greatly benefited from his generosity. His awards are too numerous to mention but I know he is especially proud of being named "Man of the Year" by the Kern-Inyo Mono Counties Building Trades Council.

Jack Henning, retired Secretary Treasurer of the California Labor Federation, said Bill "represents the finest traditions of the American Labor Movement." I could not agree more. He has been there for me throughout my political career and for the working families I proudly represent.

I humbly thank him for his tireless service; congratulate him on a career well spent; and wish him the best in his retirement. Don't be a stranger, Wag. You're always welcome in Las Vegas, a strong union town.

ENSURING ACCOUNTABILITY AT THE VA

(Mr. PAULSEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAULSEN. Mr. Speaker, on November 11, Veterans Day, we will honor and remember the efforts of those who serve our country. We owe it to our veterans to keep the promises made to them when they first joined the military.

Despite bipartisan action in Congress to increase efficiency and care at the VA, we are still suffering from a lack of transparency that makes it very difficult to determine what actions still need to be taken to ensure quality, timely care for our veterans. Now we have learned that there are over 140 investigations by the inspector general that were hidden. These investigations were shelved; they were not made available to the public or to Congress.

That is why I am supporting bipartisan legislation, the Veterans Care and Reporting Enforcement Act, which will require reports from the investigations by the inspector general to be made public, to be made available to Congress.

I want to thank my Minnesota colleagues, Congressmen TOM EMMER and TIM WALZ, for bringing this legislation forward. It will go a long way toward making the VA more accountable so that our veterans get the care that they deserve.

FAIR RATES ACT

(Mr. KENNEDY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KENNEDY. Mr. Speaker, last year, when an energy capacity auction increased certain rates in my region from \$1 billion to \$3 billion, I asked the Federal Energy Regulatory Commission to take a close look at those prices and determine whether they were set fairly for consumers.

During the review, FERC had only four sitting Commissioners and deadlocked at 2-2. That meant that rates went into effect "by operation of law," and consumers were left with no avenue to appeal.

To me, that is unacceptable; so I introduced the Fair RATES Act to ensure that ratepayers are guaranteed an opportunity to have their voices heard.

Unfortunately, last week, Commissioner Philip Moeller stepped down—again, leaving FERC with just four Commissioners. Without a confirmation or even a nomination for a fifth Commissioner in sight, we find ourselves in the same situation. FERC is, once again, reviewing rising rates in my region and, once again, is at risk of a deadlock that would leave consumers holding the bag.

That is why we must pass Fair RATES today. Since last year's auction, our rates have jumped another billion dollars, and \$3 billion is too steep an increase for my constituents to pay just because Congress will not act.

PASSING THE NATIONAL DEFENSE AUTHORIZATION ACT

(Mr. ALLEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ALLEN. Mr. Speaker, I come to the floor today to commend my colleagues in the House for passing a second National Defense Authorization Act, or the NDAA.

The President's decision to veto Congress' first NDAA was nothing more than a cheap, political ploy, and it marked the first time a President vetoed the NDAA for nonpolicy reasons.

Today's NDAA authorizes funding to expand Fort Gordon to accommodate future growth, and it authorizes defense projects at the Savannah River Site, including the MOX program.

Cybersecurity is critical to the future of international warfare, and its future home in the Army is in Augusta, Georgia, at Fort Gordon. This legislation responsibly prepares Fort Gordon to house the Army Cyber Command and to protect our Nation from cyber threats in the coming years. I was happy to work with many members of the Armed Services Committee to maintain the authorization for these important programs.

Despite the President's unwarranted veto, we again fulfilled our duty to support our troops and their families, who sacrifice so much to protect our Nation.

CONGRESS MUST ACT TO STOP GUN VIOLENCE

(Mr. DEUTCH asked and was given permission to address the House for 1 minute.)

Mr. DEUTCH. Mr. Speaker, this House will be leaving today. Members will be going back to their districts. We leave after some dramatic changes have taken place in the House.

We elected a new Speaker within the past couple of weeks. There is a new, open process we have heard about. We saw much more debate this week. These are changes that affect this institution; but there is one thing that has not changed: Members of this House will be going home this weekend without this House or our committees having had any opportunity to debate ways to stop the spread of gun violence.

We are going to return home to environments where gun violence continues to plague every corner of this country; yet we cannot even have the debate here. Not only can't we have the debate, but, since 1996, there has been a prohibition on even having a study about the effects of gun violence in our communities.

Mr. Speaker, it is time for us to stop putting our heads in the sand. Congress must act. We must take our responsibilities seriously to address head-on the scourge of gun violence. We can do something about it, and it is time that we do.

HONORING OUR NATION'S VETERANS

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, next Wednesday, we will observe Veterans Day, which is dedicated to the brave men and women who have served in our Armed Forces.

I believe one of the most important things we can do is to instill respect and honor among our Nation's young people for our servicemen and -women. As a part of the Veterans Day activities, the elementary school students in my hometown of Howard will learn about the contributions made by our veterans both in harm's way and here at home.

While educating our young people is important, it is also essential to make sure our veterans have the services and the support that they need. This weekend, I will be speaking with a group that is actively involved in caring for our wounded vets: the Disabled American Veterans chapter, or DAV, in Warren, Pennsylvania. The DAV provides a wide range of services, from transporting the veterans to doctors' appointments to emphasizing the need for better care, both medically and for behavior health services.

November 11 is Veterans Day, but we need to strive to make sure we remember the contributions that these men and women make every day of the year.

VETERANS RECORD RECONSTRUCTION ACT

(Mrs. CAPPS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. CAPPS. Mr. Speaker, I rise today to address an issue that touches veterans in hundreds of congressional districts across this Nation.

In 1973, a fire at a U.S. Government archives facility destroyed as many as 18 million official military records. This loss has made it incredibly difficult for many veterans to prove the details of their service, and it has even prevented some from getting the benefits that they deserve. In the year since the fire, some affected files have been painstakingly reconstructed by using unofficial pieces of information, including postmarked letters and photographs, but this process can be confusing, time consuming, and costly to the veteran.

Somehow, in 42 years, no system has been established to assist these veterans—whose files were lost by no fault of their own—in reassembling their records. We simply must do better. That is why I have introduced the Veterans Record Reconstruction Act: to establish a clear set of guidelines for reconstructing a veteran's service record when it has been damaged or destroyed.

As we commemorate Veterans Day this next week, I urge my colleagues to support this commonsense, straightforward bill so that every veteran has the opportunity to receive the benefits he or she has earned.

WHITE HOUSE INITIATIVE ON EDUCATION EXCELLENCE FOR HISPANICS

(Mr. CURBELO of Florida asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CURBELO of Florida. Mr. Speaker, I rise to celebrate the 25th anniversary of the White House Initiative on Education Excellence for Hispanics and to recognize the bright spots that have been identified in Florida's 26th Congressional District.

The initiative was established in 1990 to address educational disparities faced by Hispanic students. As part of the 25th anniversary celebration, the initiative released the Bright Spots in Hispanic Education catalog to highlight the ongoing efforts in promoting educational achievement. Recognizing these bright spots will encourage collaboration between stakeholders to promote best practices and to develop effective partnerships.

I am proud to recognize two bright spots in the district I represent. Congratulations to Florida International University's Mastery Math Lab and the STEM Transformation Institute.

The Mastery Math Lab is a high-tech, individualized approach to improving student performance in mathematics. The STEM Transformation Institute is a multidisciplinary collaboration to research and develop effective approaches to STEM education. Both of these programs have made a substantial impact to the Hispanic community in south Florida.

I am also very happy to announce other programs in the 26th District that have made commitments as part of the initiative to support educational outcomes for Latinos. These include Achieving Community Collaboration in Education and Student Success, Teach: STEM: Miami, and Experience: STEM: Miami.

PASSING THE NATIONAL DEFENSE AUTHORIZATION ACT

(Ms. JACKSON LEE asked and was given permission to address the House for 1 minute.)

Ms. JACKSON LEE. Mr. Speaker, thank you to President Obama for working with us to get a real defense authorization bill and for us to be able to fix the broken defense bill that was passed previously in this House. I was prepared to sustain the veto, but through a very instructive and positive budget resolution that we passed just last week, we have been able to plus up the defense, and we have been able to plus up nondiscretionary defense spending.

Today, I voted for the defense authorization. Included were amendments that I offered that were sustained in the conference report which require the Department of Defense to conduct outreach programs to assist the concerns of small businesses that are owned and controlled by women, veterans, and socioeconomically disadvantaged minorities.

In addition, my amendment, which provides guidance to the Secretary of Defense in identifying HBCUs and minority-serving institutions and to assist them in developing and enhancing science, technology, engineering, and math, was also kept in the bill.

Finally, my amendment, which requires the Department of Defense to evaluate commercial, off-the-shelf business systems for security, resilience, reliability, interoperability, and integration with existing interrelated systems, was also incorporated.

So, in protecting the security of the defense mechanisms, in providing opportunities for small businesses, and in working with Historically Black Colleges and minority-serving colleges, this bill is a good bill.

I, again, support the fact that we are moving the defense bill forward and that we are protecting not only our veterans, but we are protecting the men and women who serve us in the United States military.

ACTION FOR DENTAL HEALTH: DENTISTS MAKING A DIFFERENCE

(Mr. SIMPSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SIMPSON. Mr. Speaker, I rise today in support of creating access to oral health care and to raise awareness for initiatives that deliver important dental services to underserved communities.

This year, more than 75 million Americans won't visit a dentist, even though nearly half of the people over 30 suffer from some form of gum disease and an estimated 25 percent of children under the age of 5 already have cavities.

It is time to take action.

That is why the American Dental Association launched Action for Dental Health: Dentists Making a Difference. This initiative is a nationwide, community-based movement that is focused on delivering care to people who are already suffering from dental disease, and on bringing dental health education and disease prevention into underserved communities.

This Sunday, the American Dental Association will transform the Walter E. Washington Convention Center into a Mission of Mercy—a 100-chair dental clinic—in order to treat 1,000 adults and children who don't receive regular dental care.

We can grow support for initiatives like these through H.R. 539, the Action for Dental Health Act, which will help

dentists and others improve the health of Americans who need it most but without requiring any additional tax dollars. I urge my colleagues to support H.R. 539.

TRI-VALLEY YMCA

(Mr. SWALWELL of California asked and was given permission to address the House for 1 minute.)

Mr. SWALWELL of California. Mr. Speaker, I rise to recognize the Tri-Valley YMCA, which on November 6 will be celebrating its 50th anniversary.

Since 1965, the Tri-Valley YMCA has been strengthening the communities of Dublin, Pleasanton, Livermore, and Sunol through its youth development, healthy living, and social responsibility programs. Among these is its work to promote our children's confidence and relationships, positive leadership, civic engagement, and community compassion. Through child learning centers, camp programs, Youth in Government, and family support programs, the Y is providing enriching education and life experiences for all children and teens in our community.

One of the most noteworthy commitments of the Y is that all of its programs and activities are open to everyone, regardless of the family's ability to pay. Led by Executive Director Kelly O'Lague Dulka, the Tri-Valley YMCA has also extended its community giving and distributed nearly \$1 million in household supplies last year.

Beyond personal character development, the Y has become a valuable safety net in my district, nurturing the potential of all children involved in their activities, helping people of all ages improve their health, and providing opportunities for the community to come together and support each other.

Congratulations to the staff and board of directors of the Tri-Valley YMCA for 50 years of selfless giving to our community.

NATIONAL APPRENTICESHIP WEEK

(Ms. FOXX asked and was given permission to address the House for 1 minute.)

Ms. FOXX. Mr. Speaker, today I rise to recognize the inaugural observance of National Apprenticeship Week. Across the United States, hundreds of thousands of apprenticeship programs are helping to prepare workers for today's high-skilled, in-demand jobs.

For far too long, there has been a discrepancy in what students are learning in the classroom and what employers say they need in the workplace.

Apprenticeships are key to narrowing that skills gap because they offer students a low-cost and, in many cases, a no-cost education that arms them with the knowledge and skills they need to

thrive in today's global economy. Apprentices often earn an average starting salary of \$50,000 and go on to make \$300,000 more than their nonapprenticeship peers over the course of their career.

Employers who invest in these work-based learning programs are attracting and retaining highly qualified employees. They are also seeing results in the form of increased productivity and greater innovation.

Apprenticeships can change lives, and I look forward to seeing how these valuable programs continue to strengthen America's workforce.

2015 WORLD SERIES CHAMPION, KANSAS CITY ROYALS

(Mr. YODER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. YODER. Mr. Speaker, I rise today to congratulate the 2015 World Series champion, the Kansas City Royals.

Some of my fondest memories growing up come from listening to the Royals play-by-play on the radio while riding with my dad in his tractor as he plowed our family field at dusk.

This year's playoffs run was filled with many exciting moments that will inspire lifelong memories for a new generation. It was particularly exciting for my family, as my wife delivered a beautiful baby girl, Eloise Jane, just hours after the Royals' World Series victory.

Perhaps the most memorable moment for all of Kansas City was Eric Hosmer making a mad dash home to score in the 17th hour and 38th minute of the World Series, tying game five in New York, which the Royals would eventually go on to win.

Mr. Speaker, this Royals team was backed by a proud and unified Kansas City, unifying both Kansans and Missourians. And these Royals embodied the Midwestern spirit. They worked hard, played as a team, always hustled, and never gave up.

So, Mr. Speaker, on behalf of the House of Representatives, and for the first time since 1985, I would like to say congratulations to the best team in baseball, the Kansas City Royals, and their Most Valuable Player, Salvador Perez.

ADJOURNMENT FROM THURSDAY, NOVEMBER 5, 2015, TO MONDAY, NOVEMBER 9, 2015

Mr. WOODALL. Mr. Speaker, I ask unanimous consent that when the House adjourns today on a motion offered pursuant to this order, it adjourn to meet at 2 p.m. on Monday, November 9, 2015, unless it sooner has received a message from the Senate transmitting its concurrence in House Concurrent Resolution 91, in which case the House shall stand adjourned pursuant to that concurrent resolution, and, further, that the order of the House of

January 6, 2015, regarding morning-hour debate not apply on Monday next.

The SPEAKER pro tempore (Mr. MOOLENAAR). Is there objection to the request of the gentleman from Georgia?

There was no objection.

PERSONAL EXPLANATION

Ms. JACKSON LEE. Mr. Speaker, I was unavoidably detained on November 2, 2015, through November 3, 2015. Had I been present, I would have voted as follows:

On rollcall vote No. 582, I would have voted "aye."

On rollcall vote No. 583, I would have voted "no."

On rollcall vote No. 593, I would have voted "no."

WORKFORCE DEVELOPMENT PROGRAMS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2015, the gentlewoman from North Carolina (Ms. FOXX) is recognized for 60 minutes as the designee of the majority leader.

Ms. FOXX. Mr. Speaker, ensuring Americans are capable of filling the skills gap and finding quality jobs through stakeholder-led and accountable workforce development programs has been one of my highest priorities in Washington.

That is why I was so proud last Congress to see legislation I sponsored, the Workforce Innovation and Opportunity Act, or WIOA, enacted into law. WIOA was the first major workforce development legislation to be enacted in more than 15 years and included many vital provisions to modernize, streamline, and localize our workforce development system.

The highway bill that passed the House earlier today included a frontline workforce development program intended to address human resources needs in public transportation that was not subject to the reforms contained within WIOA.

In order to ensure that program is assessed consistently with other Federal workforce development programs and targeted to areas that have identified needs in public transportation as part

of their broader workforce development programs, I introduced a bipartisan amendment to the highway bill with my colleague from Washington (Ms. DELBENE) that applied WIOA's performance measures and coordination reforms to the program.

All of our Federal workforce development programs should be assessed in a consistent manner and be considered as part of an overall package tailored to State and local needs that provide stakeholders on the ground greater input and control. That is why I am also pleased the House adopted our bipartisan amendment as part of the broader transportation package and strengthened the frontline workforce development program in order to better serve the workers who learn skills through the program and those policymakers who evaluate the programs to improve its future outcomes.

Mr. Speaker, I yield back the balance of my time.

WORKING TOGETHER

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2015, the gentleman from Georgia (Mr. WOODALL) is recognized for the remainder of the hour as the designee of the majority leader.

Mr. WOODALL. Mr. Speaker, everyone has gone back to their offices but you and me, and I appreciate you sticking around to get this hour in. It is not going to be an exciting hour. Ordinarily, I bring down charts and graphs and try to share something in a visual way that folks might not have seen before. Today, it is just words, because words matter.

Mr. Speaker, we have just finished in this Chamber this fantastic—you have heard me say it—it was a festival of democracy. Every Member who had an amendment, they brought them to the Rules Committee. We made over a hundred of them in order. It has been 3 days, Mr. Speaker, and we passed in a very bipartisan way Federal transportation policy for the first time in more than a decade. Democrats had failed to get it done. Republicans had failed to get it done.

We, as 435 individual Members representing diverse constituencies across the Nation, came together today and we got it done. They said it wouldn't be done. Chairman BILL SHUSTER said it could be done. Ranking Member PETE DEFAZIO of Oregon said it could be done, and we did it.

Something has happened, Mr. Speaker, in this town that has people identifying as Democrats or Republicans first and as Members of this body, of the Article I legislature, second. It is bad. It is bad for the country, and it is bad for the people we represent. It is a bad process.

Mr. Speaker, that is what I want to talk about today. You can't see the chart that I have here, but it is a quote from President Obama—you will remember it—back in August of 2013.

You will remember we worked together with the President. Nine different times, we repealed portions of the President's healthcare bill. We repealed them. They were unworkable. He knew it. We knew it. We came together nine times. He signed legislation into law that repealed parts of the President's healthcare bill.

It was the summer of 2013 and we were talking about how to come together on some of the bigger problems in the President's healthcare bill. You remember the mandates were getting ready to go into effect—the business mandates, the individual mandates—and the country wasn't ready. The country was not ready. We all knew it. Every Member, from left to right, Mr. Speaker, knew it.

The President held a press conference and he said this:

In a normal, political environment, it would have been easier for me to simply call up the Speaker and say: You know what? This is a tweak that doesn't go to the essence of the law. It has to do with, for example, are we able to simplify the attestation of employers to whether they are already providing health insurance or not. It looks like there may be some better ways to do this. Let's make a technical change to the law.

The President goes on to say, Mr. Speaker:

That would have been the normal thing that I would prefer to do, but we are not in a normal atmosphere around here when it comes to ObamaCare.

The President says:

We did have the executive authority to do so, and we did so.

Mr. Speaker, this was from that very contentious time trying to solve problems for the American people, again, problems the White House knew existed and problems the Congress knew existed.

The President says:

You know what? If it was ordinary times like any time in the past 225 years, I would have called the United States Congress and I would have said: "Listen, the Constitution gives you Article I powers to legislate, and I need a legislative change made because the law is not working."

He didn't, and he said he didn't, and he said he wasn't going to. He said he was going to go it alone. The disappointment in that decision, in this body, was very partisan, Mr. Speaker. It was very partisan.

I don't know how we get past the allegiance to the President because he is from our party. Republicans did this when George Bush was in office. Democrats are doing this when President Obama is in office. It is not about who the President is. It is about what the President does.

What the President does is implement the laws that we pass. He doesn't change the laws. And every time we fail on behalf of our constituents to stand together as 435 Representatives of the people and instead become Representatives of the Republican Party or the Democratic Party, we fail America.

Mr. Speaker, what I have here is the chart of the Supreme Court decision in

the NLRB v. Noel Canning case. You may remember that one. I had just gotten to Congress, Mr. Speaker. I had just gotten to Congress.

The President was talking about making appointments. As you know, the Advice and Consent Clause of the Constitution says the President can make appointments, but he needs to get the consent of the Senate to do so. Well, the Senate wouldn't give him consent.

So while the Senate was away for a day, the President went into the Recess Appointments Clause of the Constitution. In fact, we got a big letter from the legal department there at the White House that said he had the powers to pretend that the Senate had adjourned for the session and to go ahead and make appointments anyway.

□ 1245

The protest, Mr. Speaker, of the President usurping congressional authority was partisan. Republicans said no. Democrats said: Ah, he probably has the right to do it anyway.

We didn't stand up for the people we represent. We didn't stand up for the Constitution we swore to uphold, Mr. Speaker. We divided ourselves by party instead of uniting ourselves on principle.

We had to go to the Supreme Court, Mr. Speaker. The Supreme Court can't decide on anything unanimously, Mr. Speaker. If the question is: What time are we going to meet today to talk about cases?, it is a 5-4 decision. You know this to be true.

But the Supreme Court came together in Noel Canning and said: That's crazy. That's crazy. The President of the United States can't just pretend he is king. He is not the king.

I am paraphrasing when I say that, Mr. Speaker, but to quote the Supreme Court decision, they said this:

Regardless, the recess appointments clause is not designed to overcome serious institutional friction. It provides a subsidiary method for appointing officials when the Senate is away during a recess. Here, as in other contexts, friction between the branches is an inevitable consequence of our constitutional structure.

Friction between the branches, Mr. Speaker, is an inevitable consequence of our constitutional structure. That makes me feel good. It makes me feel good because, Mr. Speaker, I go back home all the time and constituents say: ROB, why can't you get more done? Why can't you get more done?

Well, it turns out it is because of this. It is because of this Constitution that says, listen, if Congress is at work, your liberties and your freedoms may be under attack. Right?

What we do here isn't generally to give freedoms back to people. Generally what we do is to restrict freedoms a little bit here. We want it to be slow. Here in the House, we are a little faster. There in the Senate, they are supposed to be a little slower, Mr.

Speaker. But it is supposed to be hard. It is supposed to be the inevitable consequence of our constitutional structure.

But, Mr. Speaker, this body—not Republicans in this body, not Democrats in this body—collectively was silent as power flowed down Pennsylvania Avenue, away from the Article I legislature down to the Article II executive. It took the Article III courts, Mr. Speaker, to right our constitutional framework. Shame on us. Shame on us, collectively, for not standing up.

Mr. Speaker, my constituents are frustrated by the pace of progress in this town. They are frustrated by what looks like the politics that are being played here, Mr. Speaker, when policy should be our focus.

I think it is up to us to educate folks, to proudly say it is the inevitable consequence of our constitutional structure, but when we stand together—as we have this week on this transportation bill—there is still more that unites us as a country than that divides us.

Environmental leadership, Mr. Speaker, is one of those areas of overreach that this particular White House is aggressively engaged in. Again, the pushback has been partisan pushback. It has not been Article I legislative pushback, as it should.

I want to go back to some prior Presidents, Mr. Speaker. I will look at Republican Presidents. I am a Republican. I will look at what it looked like when Republicans were running the show in the White House.

The EPA was signed into law by Richard Nixon, Mr. Speaker. On the creation of the EPA, President Nixon said this:

The reorganizations which I am here proposing afford both the Congress and the executive branch an opportunity to reevaluate the adequacy of the existing program authorities involved in these consolidations. I look forward to working with the Congress in this task. The Congress, the administration, and the public all share a profound commitment to the rescue of our natural environment.

Richard Nixon had a calling when it comes to the environment, Mr. Speaker. He had a calling. He didn't say:

I am the President of the United States. I am just going to rewrite the entire environmental code and dictate that it is the law of the land.

He came to Congress and said:

Protecting our natural resources is a shared American value. It is a shared American value. I am going to go to Congress. I am going to win the votes. We are going to change the law, and we are going to make it so.

The Clean Air Act, Mr. Speaker, was signed into law in 1990 by President George H.W. Bush. He said this:

Today I am signing S. 1630, a bill to amend the Clean Air Act. I take great pleasure in signing it as a demonstration to the American people of my determination that each and every American shall breathe clean air. Passage of this bill is an indication that the Congress shares my commitment to a strong Clean Air Act.

How do you know, Mr. Speaker, if Congress shares your commitment if you don't bring the language to Congress to have Congress ratify it? The President can propose all the legislation he wants to. We still have to pass it. If our frustration about results allows us to let folks shortcut the constitutional process, we will all—330 million of us—suffer.

I remember when President Reagan was trying to raise the gas tax, Mr. Speaker. I talk about that because we were talking about the transportation bill this week and transportation funding this week. He stood on the lawn, Mr. Speaker, there beside the Rose Garden, and he says:

We deserve a world class infrastructure in America, and I propose that we double the gas tax.

Yes, this is conservative Ronald Reagan talking about doubling taxes in order to build America. America didn't agree with him; yet, he went out there and sold it.

How did we get fundamental tax reform in this country, Mr. Speaker, in 1986? The country wasn't ready for fundamental tax reform. The Congress couldn't agree on fundamental tax reform. Ronald Reagan took it out there and sold it every single day until he got it done. That is what is supposed to happen. We work together to accomplish these priorities. Past Presidents have done exactly that.

Mr. Speaker, it hasn't been 2 weeks ago we were in here talking about the President's overreach on the Department of Labor fiduciary rule. You remember that bill. We had it here on the floor of the House, Mr. Speaker, where the President just decided, through the Department of Labor, that long-standing investment law, as determined by the SEC, was no longer going to be the law of the land, that the Department of Labor was going to take on some new rulemaking authorities in this area.

The President wanted to make some changes. Congress didn't want to make changes. The President said this:

What I won't accept is the notion that there is nothing we can do. So we are going to keep pushing for this rule.

Keep pushing, Mr. Speaker, didn't mean come to Congress to sell you and to sell me. Pushing didn't mean go to the United States Senate to build a coalition. Pushing meant ignoring the Congress and going straightaway.

Now, I point this out as a success, Mr. Speaker. I point this out as a success because our opposition to this wasn't partisan. Our opposition to this, Mr. Speaker, was bipartisan.

I have here a letter from September, Mr. Speaker, signed by 90 Democrats that said:

Mr. President, don't do this. Don't do this. This is not the proper path forward.

The plurality of the Democratic Caucus here said:

Mr. President, don't go forward. The President drove forward anyway.

Mr. Speaker, the times that I have seen the President change his mind in

my 4½ years in Congress have not been because of my persuasive oratory or even by the strength of this institution. It has been because the American people have spoken.

When the American people speak, the President is a good listener. What the President is hearing today is the ends justify the means. I need results. And so however you get those results, Mr. President, I will be behind you.

We are starting to turn that corner, Mr. Speaker, because I promise you, whatever is good for Democrats today is going to be bad for Democrats tomorrow. Whatever is bad for Republicans today is going to be good for Republicans tomorrow.

The parties will change. The political environment will change. But when you short-circuit the process, the short-circuiting lasts forever. We change expectations of the American people. We change expectations of what the Constitution means, Mr. Speaker. I applaud 90 of my Democratic colleagues standing with this Congress saying:

Mr. President, don't go it alone.

Mr. Speaker, this isn't something that I am just coming up with out of thin air. When the President wasn't President Obama, when he was Senator Obama, he had these same concerns.

He spoke out time and time again about overreaches of President George Bush. Oftentimes he spoke out alone. Republicans weren't standing with him to speak out because it was a Republican President.

Republicans said:

You know what. I want to support my President. So even if he is coloring outside the lines a little bit, it is probably important to the country that he do so. That is a failure. That is a failure because our primary job here is not to be Republicans and Democrats. Our primary job here is to be Article I Representatives of the American people.

The President said this on immigration. He's talking at a Univision townhall meeting in 2011, Mr. Speaker. He said:

This does not mean, though, we can't make decisions, for example, to emphasize enforcement on those who have engaged in criminal activity.

This was the beginning of his program.

But he goes on to say:

It also doesn't mean that we can't strongly advocate and propose legislation that would change the law.

Time and time again, folks would ask him to do what he could as the executive to change immigration law, and he would say:

Listen, I'm not the king. I am the President. The Congress has to change the laws. I can only enforce the laws.

He was right. He was right each and every time that he said that. The administration can propose, but we have to implement.

Fast-forward to about this time last year, Mr. Speaker, and the President says this:

And to those Members of Congress who question my authority to make our immi-

gration system work better or question the wisdom of my acting where Congress has failed, I have but one answer: Pass a bill.

Pass a bill, he says.

In the meantime, I am just going to do things the way I want to do things.

That is the opposite of the "I am just a bill sitting here on Capitol Hill" song that we all learned as children, Mr. Speaker. The bill comes first. The law change comes last. After the President signs the bill, it becomes the law. We have to propose it first.

How many meetings have you had with the President, Mr. Speaker, where he is pushing his immigration agenda, trying to get you to buy in to his bill? The answer is zero because he doesn't have a bill and he hasn't been knocking on any of our doors. And my Democratic friends would say the same.

How many meetings with the President have you had, Mr. Speaker, where the President is trying to persuade you about his fiduciary rule and why that change is important for America and why we should move that bill forward? The answer is zero because he has never come to Capitol Hill to make that pitch. He is not making it to Democrats, and he is not making it to Republicans. He is going it alone.

How many times has the President come and knocked on your door, Mr. Speaker, to try to sell you on his ozone regulations or his clean energy plan and on and on and on? And the answer is he hasn't. And we have been complicit in allowing that unilateral action. It is bad for America. It is not the process that our Framers envisioned.

This is what the President said on immigration. It is that same Univision townhall meeting. The question was:

Mr. President, my question will be as follows. With an executive order, could you be able to stop deportations of students?

Mr. Speaker, I am not down here talking about immigration policy today. I am not. Our immigration system is broken. I represent constituents, Mr. Speaker, who have had family members on the list not for 5 years, not for 10 years, not for 15 years, but for 20 years, and more are standing in line waiting for their chance to come to America. Our system is broken.

I have employers who want to build in our district. They can't get the people they need from their home countries to come and manage those operations. Our system is broken. We all know it. We have a chance to fix it.

But when the President goes around the Congress, he doesn't fix it. He breaks it further. He says this:

With respect to the notion that I can just suspend deportations through executive order, that is just not the case because there are laws on the books that Congress has passed. And I know that everybody here at Bell is studying hard. So you know that we have got three branches of government. Congress passes the law. The executive branch's job is to enforce and implement those laws. And then the judiciary has to interpret the laws.

□ 1300

The President says:

There are enough laws on the books by Congress, the President says, "that are very clear in terms of how we have to enforce our immigration system that for me to simply through executive order ignore those congressional mandates would not conform with my appropriate role as President."

Mr. Speaker, the words of President Obama:

There are enough laws on the books by Congress that are very clear in terms of how we have to enforce our immigration system that for me to simply through executive order ignore those constitutional mandates would not conform with my appropriate role as President.

That was March 2011. You wouldn't know that is what he believed in November of 2015.

Mr. Speaker, what happened in those 4 years? I will tell you. What has happened is we have been silent as a body. We have been vocal as Republicans, we have been vocal as Democrats, but we have been silent as a representative body.

Article I of the Constitution says it is our job to legislate and it is our job to rein in those Presidents who would legislate on our behalf.

What our Framers feared, Mr. Speaker, was an all-powerful executive. That is what they had come from. That is what we should fear today, not a Republican President, not a Democratic President, but an all-powerful President. Congress passes the law. The President enforces them.

Mr. Speaker, if you want to know the outcome of that overreach, if you want to know where Congress is, again, the President is not on Capitol Hill selling those priorities. He is simply down in the executive branch with a phone and a pen implementing those priorities. But if you want to know what the other two branches of government think, the judiciary said no and the Congress said no.

There is no confusion about where the different branches of government are. We have one branch that is saying yes. That is the executive, who has no lawmaking authority whatsoever. We have two branches saying no, the branch that makes the law, which is the legislative branch, and the branch that interprets the law, which is the judiciary branch.

We are united in the noes, but what we are not united on is the yeses.

We talk about bipartisan in this Chamber, Mr. Speaker. It is always striking to me that what is bipartisan is the opposition to the Presidential overreach. That is what is bipartisan.

Sometimes the support for it is partisan, with a minority of folks supporting the President on that. It is bipartisan in its—disdain is too strong of a word, Mr. Speaker, but in some ways, it is not strong enough. It is that we owe our constituents better. It is that we owe them better.

My voting card has my name on it, Mr. Speaker, but it is not mine. It is borrowed from the Seventh District of Georgia. It doesn't belong to me. It belongs to 700,000 folks back home who

didn't send me here to satisfy my priorities. They sent me here to satisfy their priorities.

I don't believe that, as a Nation, Mr. Speaker, we believe the ends justify the means. I hope that we don't. I hope that we have not fallen so far, Mr. Speaker, that we now believe the Constitution, the rule book for America, is less important than what the results are.

Anybody involved in manufacturing, Mr. Speaker, knows that, if you have a flawed process, you are going to produce a flawed product. Only with a good process can you produce a good product. The Constitution gives us a good process. When we ignore it, we have a flawed process and a flawed product.

I will go to the President's environmental policies, Mr. Speaker.

I want to make it clear: I represent a district that plays outside, I would argue, more than any other district in the country. If you want folks that love clean air and clean water, come down to my part of the world. If you want folks who are stewards of Mother Earth, come down to my part of the world. If want folks who love green space, who love parks, national trailways and bikeways, come down to my part of the world. We love being outside. We will ride a bike. We will push a stroller. We don't care. We just want to be outside.

And so, if the President came to me and said: "ROB, Mother Earth is in peril. I need you to work with me to solve that problem," I would be the best listener you could imagine. But that is not the way the process is working in the 4½ years I have been in Congress, Mr. Speaker.

The President's Clean Power Plan is shutting down power plants in the great State of Georgia, Mr. Speaker. It is the position of the administration to protect Mother Earth. We are going to close down the power plants that we have just spent billions of dollars improving to meet the last round of environmental regulation. And then, with those power plants closed down, we are now going to spend billions more to build brand-new facilities to generate electricity.

I promise you that is not going to result in fewer emissions in the atmosphere than if we let these plants run out their useful life with all of the improvements that have gone upon them. But we didn't get to vote on that, Mr. Speaker. We didn't get to vote on that. That was an executive decree.

We have the Waters of the U.S., Mr. Speaker. Well, when it was a bill, we rejected it. It is the initiative from the White House that said the framework we have had in this country for 100 years of the Federal Government controlling navigable waterways and the State governments controlling the other waterways is gone.

If a drop of water falls, it is now the Federal Government's responsibility to regulate. Why? Because, apparently, we

can't be trusted back in Georgia to take good care of our natural resources. Nonsense.

Mr. Speaker, my district sits on a continental divide. We have built a billion-dollar water treatment plant where we are putting the water back into our local lake cleaner than we took it out. While half the district's on the other side of the continental divide, we know that the Chattahoochee River Basin is in a water deficit. So we spend beaucoup money pumping the water back up from one side of the continental divide so that we can let it go in the basin that needs the water so badly.

We are stewards, Mr. Speaker. We are not stewards with your money. We are not spending somebody else's money on these projects. We are spending our money on these projects because we believe in taking care of America's natural resources.

The President, not through selling it to Congress, not through selling it to the American people, but with a pen and the phone federalized water across the board. Where was the bipartisan outcry? It was lacking.

And, finally, the revised Ozone Air Quality Standards, Mr. Speaker. If you are confused, it is that we never got the last round of ozone standards implemented. Those still haven't gone into effect yet. The President has dropped a new round of ozone standards on America not because Congress worked on it—we didn't—not because Congress passed something—we didn't—but because the President thought it was important and he wrote the law for himself.

How does Congress feel about this? Well, it turns out Members of this body said:

If this is the direction the President wants it to go, let me make this pitch to Congress and see if the Congress agrees with the President.

Carbon emissions, cap-and-trade, Clean Power Plan: Rejected. Waters of the U.S.: Rejected. Ozone standards: Rejected.

It is not that Congress hasn't spoken on these issues. We have, Mr. Speaker. We have. It is not that the President doesn't know what the Article I Congress wants. He does.

He just doesn't like what the Article I Congress decided. And so he has decided to do it himself. And we have been complicit in allowing that to happen. It is not even we, the 435 of us, Mr. Speaker. It is we, the 320 million of us. And there is going to be a price to pay for that.

Mr. Speaker, Congress is active on these issues. It is not as if folks in this body don't care. They care deeply.

We passed the REINS Act, Mr. Speaker, to say:

Listen, if the President is going to start doing some rules on his own, we need to come back and review those after the fact in Congress.

It passed 243–165.

We had the Regulatory Integrity Protection Act for those jurisdictions like

mine where the local governments are taking such good care of our natural resources, trying to protect their right to continue to protect our local natural resources. It passed 261–155.

The Ratepayer Protection Act said:

For Pete's sake, it hasn't been 5 years since you told us to spend billions to make these power plants workable for the next generation. Now you are telling us we have to close these power plants.

That can't possibly be the right way for America to get clean energy. It can't possibly be the right way to be stewards of taxpayer dollars. We passed that bill 247–180.

The EPA Science Advisory Board Act said:

We have got to get together on the science. If we can't figure out what the facts are, we are never going to agree on what the solution is. So let's have a standard for what good science looks like that we can all rally together around.

It passed here in the House.

Mr. Speaker, folks aren't confused about where the Congress is on this issue. The President is not confused about where the Congress is on this issue. The President believes the ends justify the means.

Article I: Congress passes the law. Article II: The White House enforces the law. Article II: The judiciary interprets the law.

Well, the judiciary had a chance to do a little interpreting. It had a chance to look at the Waters of the U.S. and the clean water issue, and the court said this. This is the Sixth Circuit Court of Appeals:

What is of greater concern to us in balancing the harms is the burden potentially visited nationwide on governmental bodies, State and Federal, as well as on private parties, and the impact on the public in general implicated by the rule's redrawing of jurisdictional lines over certain of the Nation's waters.

The court says:

Wait a minute. We are worried about the impact on America.

I don't want the court to be worried about the impact on America. I want the court to be worried about what the law of the land is. I want the Congress to be worried about the impact on America. I want the President to be listening to Congress and enforcing the laws that Congress passed.

It has taken the courts to say:

Mr. President, you have gone a bit too far.

The court goes on and says:

The sheer breadth of the ripple effect caused by this rule's definitional changes counsel strongly in favor of maintaining the status quo for the time being.

It is still being litigated. The court says the detrimental impact of this new rule that Congress has never seen, except in the form that we rejected it, the damage to America is so severe, we are going to issue an injunction to prevent the President from going forward.

Mr. Speaker, it gives me no pride to have nine Justices in robes running the United States of America. Americans

elected a President to implement the law and they elected a Congress to write the law. We should be doing that together. We found ourselves powerless in doing that, asking the courts to solve that issue instead.

The courts go on:

But neither is there any indication that the integrity of the Nation's waters will suffer imminent injury if a new scheme is not immediately implemented.

They said:

I don't know what it is the President is trying to solve here, but there is no harm coming. There is time to sort this out.

Now, they mean time to sort it out in the courts. What about time to sort it out in the Congress, Mr. Speaker?

Who is it who loves the Waters of the U.S. bill? If they do, they should come and make their pitch. The President should come and make his pitch. When was the last time you saw him on the TV selling the Waters of the U.S. bill, Mr. Speaker? The answer is that you haven't seen him on TV selling it. He is not selling it. He is just doing it.

When have you seen him selling the ozone standards? The answer is that he is not selling it. He is just doing it. And the list goes on.

Mr. Speaker, we have to ask him to get out there and sell it. Your job as President isn't just to do it. Your job as President is to get the Congress to allow you to do it, to sell the American people, who will sell the Congress, who will change the law of the land.

Mr. Speaker, I don't know if you know Laurence Tribe. He is a Harvard law professor. In fact, he was President Obama's constitutional law professor. I would not call him a conservative by any stretch of the word, at least not in political terms, but perhaps constitutionally.

Laurence Tribe says this about the President's Clean Power Plan. He says:

To justify the Clean Power Plan, the EPA has brazenly rewritten the history of an obscure section of the 1970 Clean Air Act. Frustration with congressional inaction cannot justify throwing the Constitution overboard to rescue this lawless EPA proposal.

Mr. Speaker, I want you to follow that rationale. This isn't something that has snuck up on us here in the past few weeks, here in the past few months, here in the past few years.

The President dug deep into a 45-year-old law and said:

It appears to me we have misunderstood this law for the past 45 years.

□ 1315

We have misunderstood it. And apparently, 45 years ago, we absolutely made an effort, through Congress and the White House, to give the President the authority, in fact, the obligation, to rewrite America's energy laws in this fashion.

Nonsense. Nonsense. The President is a constitutional law professor. Frustration with congressional inaction cannot justify throwing the Constitution overboard to rescue this lawless EPA proposal.

I get the frustration with congressional inaction. Mr. Speaker, I get it. If we had frustration meters around here, mine would be ticking up near the top. But my experience is, the way to address that frustration isn't to take my toys and go home. The way to address that frustration is to find somebody on the other side of the aisle who I think I can trust, who I think I can talk to, who I think I can listen to, and to work together to find an answer, to work together to find a solution.

What is absent in all of these proposals that I have listed, Mr. Speaker, is anyone working together to make this proposal the law of the land. The only working together that is happening, Mr. Speaker, are folks working together to prevent these proposals from being the law of the land.

Process matters. Process matters.

Mr. Speaker, I am going to finish close to where I began. I was a new Congressman, had just been elected, 700,000 people in the great State of Georgia counting on me to be their voice, counting on me to succeed on their priorities.

Right out of the gate, the President says:

You know what? I have been trying to get the people I want appointed to a board, and the Senate won't do what I want them to do; and because the Senate won't do what I want them to do, I am going to do it by myself.

When did that become okay, Mr. Speaker?

We suffer from a little of that here. The House won't do what I want it to do, so I am going to take my toys and go home. The House won't do what I want it to do, so I am going to gum up the works and shut down the process. The House won't do what I want it to.

Well, guess what? In a representative democracy, nobody does what you want him to do, Mr. Speaker. You have got to go out and find 51 percent of America to agree with you, and that is when you get things done.

I do not fault the President for his policies, though I disagree with him on them. I fault him for implementing those policies unilaterally, unconstitutionally, instead of going out and selling America on them.

That is what is so great about this institution, Mr. Speaker. If you have the votes, you don't have to fuss about it.

Folks come down to the House floor, gnashing of teeth, tearing of clothes, self-flagellation going on here on the floor on a regular basis. If you have the votes, you don't have to make a scene. You have just got to go out and win the votes. You just have to go out and win the argument. If you win the argument, the law will change.

Mr. Speaker, America works. America works. The Constitution works. You just have to follow it. You just have to believe in it. You have to believe in the Constitution. You have to believe in the American people that it governs.

So, 9-0, the Supreme Court told the White House and its entire legal team

that crafted a too-cute-by-half explanation of why this was all going to be okay and roses and sunshine, hunkydory, 9-0 the Court said no. No, that is not what the President does. That is not what the White House does. That is not what you are allowed to do in America. Regardless, the Supreme Court says the Recess Appointments Clause is not designed to overcome serious institutional friction.

Mr. Speaker, we have serious institutional friction. I don't bemoan this. I celebrate it. I think friction was part of the process. It turns out the Court agrees with me.

They go on to say it simply provides a subsidiary method for appointing officials when the Senate is away during a recess; hence, the term "Recess Appointments Clause."

Here, as in other contexts—in other contexts, Mr. Speaker—are all of these other issues the Court now has on their plate from executive overreach. Here, as in another contexts, friction between the branches is an inevitable consequence of our constitutional structure.

Mr. Speaker, I am just one vote in a 435-Member institution, but my constituents would place that one vote on the side of being the Article I legislature rather than on the side of being the best Republican America has ever seen. My constituents would ask me to place that vote on the side of being the legislative branch, that institution from which the ideas percolate, that part of the U.S. House that is closest to the American people. They would ask me to pledge to be a part of this institution, not the Republican National Committee, not the National Republican Congressional Committee, not the Democratic Congressional Campaign Committee, not the Democratic National Committee.

Mr. Speaker, we have an amazing opportunity and a solemn obligation in this institution. My commitment is to be a good listener to all the policy concerns my colleagues have on the other side of the aisle.

Mr. Speaker, I will be a good listener. I may not agree with you, but I will give you a chance to sell me.

But we have to be united on behalf of all of our constituents back home in saying that the Constitution gives only one branch the ability to write the law, and that is the Article I legislature.

When we ignore the President, Mr. Speaker, we do so at our own peril, at our institutional peril. When the President ignores the Congress, he does so at his own peril, at executive branch institutional peril.

I was on the elevator with one of the great leaders of this institution, Mr. Speaker, Mr. John Dingell out of Michigan, and he was on the elevator. A young Democrat climbed on the elevator with him. The young Democrat was complaining that he didn't have a personal relationship with the President. He said: I don't get to see enough of the President. The President is not on Capitol Hill enough.

Mr. Dingell said: Well, son, be careful what you wish for. Remember LBJ. We had LBJ over at the Library of Congress, a book study just this week.

Different Presidents handle their relationship with Congress in different ways. Some are involved too much, some are involved not enough, but everyone is involved.

Mr. Speaker, this is supposed to be a battle of ideas, not a battle of ideologies. This is supposed to be a battle of policy, not a battle of partisans.

This is supposed to be an opportunity to succeed on behalf of folks back home; and I will tell you, it is an opportunity that we are losing when we unite ourselves based on red and blue as opposed to uniting ourselves based on Article I and Article II.

Mr. Speaker, I yield back the balance of my time.

THE RETURN TO PRUDENT BANKING ACT

(Ms. KAPTUR asked and was given permission to address the House for 1 minute.)

Ms. KAPTUR. Mr. Speaker, I rise to encourage you to join with me and 69 of our colleagues, a total of 70 already, who have signed on to cosponsor H.R. 381, the Return to Prudent Banking Act. This bipartisan bill would restore the provisions of the Glass-Steagall banking law that separated prudent banking from wild speculation in the financial realm.

Yesterday marked the 16th year, to the day, that Congress repealed the Glass-Steagall Act in 1999, bestowing on financial institutions and investment firms the ability to put the life savings and deposits of the American people at greater risk.

I was one of the 57 Members of this Congress who voted against that repeal of Glass-Steagall. At that time, my colleagues and I were told by Wall Street that the banks were strangled by outdated restrictions, that the repeal was a modern experiment in deregulation; so Congress repealed this bedrock law, over our objections.

Look where that decision took America. We witnessed a terrible market crash in 2008; now, slow growth and the outrageous enormous accumulation of banking assets in a handful of institutions like JP Morgan Chase, Goldman Sachs, Bank of America. They are raking in record-shattering profits while paying depositors almost nothing on their interest or on certificates of deposit as wages for working-class Americans continue to flatline.

The original Glass-Steagall Act served our country well. It laid the foundation for an unprecedented half century without financial panics or crises. Just as important, it contributed to a right-sized banking system focused on serving our economy and society as a whole rather than enriching itself at everyone else's expense.

This Congress must reinstate the regulatory prudence of the Glass-Steagall

Act. Without these proper safeguards, it is only a matter of time before Wall Street's greedy operatives once again steer the American economy over the precipice.

Therefore, I urge my colleagues to cosponsor H.R. 381, the Return to Prudent Banking Act of 2015. Help restore prudence, discipline, and sanity to our financial system and, in turn, real economic growth to America.

The SPEAKER pro tempore (Mr. POLIQUIN). Is there objection to the request of the gentleman from Georgia?

There was no objection.

MESSAGES THE AMERICAN PEOPLE NEED TO HEAR

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2015, the Chair recognizes the gentleman from Texas (Mr. GOHMERT) for 30 minutes.

Mr. GOHMERT. Mr. Speaker, I do want to commend my friend from Georgia. He speaks eloquently.

I hated to lose dear friend, John Linder, from here in this body. He was a brilliant man, with great class. But since he is gone, I am delighted to have ROB WOODALL here in his stead—just clear-thinking, articulate, and makes the case that the American people need to hear.

□ 1330

Speaking of messages, Mr. Speaker, the American people need to hear, this is November 5, 2015. It was November 5, 2009, when a major in the United States Army at Fort Hood, Texas, killed Americans.

He had given plenty of warning signs that he was a ticking time bomb who was going to kill Americans, particularly American soldiers, especially if he were ordered to go overseas because he would much prefer to kill American soldiers than he would go overseas and risk killing a fellow Muslim.

Having heard about people in the United States Army, as I was in for 4 years, who had to deal with Major Hasan, it is appalling that political correctness led to this man's being allowed to remain in the military, ever being promoted, and being assigned to counsel troubled soldiers. Incredible. But political correctness has become more and more prominent.

It was November 5, 2009. President Obama had been in office since January of that year. Major Hasan had been in the military during the Bush administration. He should never have been promoted.

There were warning signs that we heard about after the fact, but nobody wanted to be the one to stand up and say: "This man is a threat. He is a radical Islamist. He is a threat not only to the good order and discipline of the United States military, he is a threat to the very lives of our military members."

Mr. Speaker, our military let those victims down at Fort Hood, Texas, before the shooting ever occurred. That is almost unbearable. But what becomes

unbearable is the fact that 6 years later victims of Major Hasan who are still alive are still being mistreated by this administration.

An article by Jacob Brooks and J.C. Jones in the Killeen Daily Herald today in the paper said: "Six years after the November 5, 2009, shooting at Fort Hood, at least one victim is still fighting for overdue benefits. Former Fort Hood Staff Sergeant Alonzo Lunsford, Jr., said pain, betrayal, disrespect, and patriotism all come to mind when he thinks about that tragic day. He said, 'It is a lot. It is really a lot that goes through my head.'"

He was shot seven times by Nidal Hasan, the Army psychiatrist who opened fire on unsuspecting fellow soldiers at a Fort Hood medical processing building for deploying soldiers.

Six years later, the building has been torn down. Many of the soldiers who were there have since moved on, are either no longer in the Army or stationed elsewhere.

Hasan, an Army major at the time of the shooting, was found guilty of killing 12 soldiers and 1 civilian on August 23, 2013, following a 12-day court martial at Fort Hood. Days later he was sentenced to die and is currently on death row at Fort Leavenworth, Kansas, awaiting automatic appeals.

Mr. Speaker, it took Congress battling and finally putting language in a bill that the Army and the Defense Department finally could not ignore that finally put enough pressure on the Army to do the right thing by these victims, and that is—for Heaven's sake, they were victims of an attack in the war against America by radical Islam.

As Muslim friends in the Middle East, leaders in the Middle East who are Muslims, have asked on different visits I have had in the Middle East: Why is it that this administration does not understand radical Islamists, particularly the Muslim Brotherhood, is at war with the United States? You keep helping the people who are at war with you, the Muslim Brotherhood.

They recognize it all over the Middle East. Muslims over there scratch their heads—moderate Muslims—and wonder what is wrong with America.

I met a number of the survivors of the shooting 6 years ago today when the Purple Hearts were finally awarded. A number of us were there from Congress because it was an important day and they needed to know Members of Congress do care.

So we were there as representatives of this body and all of those within it who recognize the loss and the sacrifice occurred at the hands of someone who is at war with the United States, a part of the bigger radical Islamist movement.

It is rather ironic that, as we think about and talk about the violations of the Iran treaty—yes, it is a treaty, despite the Senate's unwillingness to call it what it is and the administration obviously won't call it what it is—but the violations of the Iran treaty by Iran

are still resulting in this administration's sending billions and billions and billions of dollars to people who want to kill us and to eliminate our way of life.

Yet, this same administration that is sending billions and billions and billions of dollars to our enemy can't scrape together mere hundreds of dollars to send to someone like Staff Sergeant Alonzo Lunsford.

The article says he is now in North Carolina. I was impressed when I met him. He seems to be a very sharp man, a patriot, someone who cares about America. But like many of the victims, the wounds go even deeper than the shots that were fired. In his case, seven times he was shot. Oh, what a horrible day.

And, yet, this administration becomes accomplices to the after-the-crime episode and damage by still refusing to acknowledge it for what it was and pay these patriotic service-members the money they have coming as people who were wounded in the line of duty.

It is ridiculous that this administration will send billions and billions to our enemies who have already said that, with all the billions Obama is going to make sure that we get, we are going to be able to finance more, help Hamas more, help Hezbollah more. We are going to be able to help those who kill Americans.

What does the administration do? They want to make sure that nothing gets in the way of their sending money to people that want to kill Americans and people who have killed Americans.

A report out just this week indicates that Iran may be responsible for at least 12 percent of the Americans killed in Iraq. I can't help but think, based on those I have talked to in trips to Iraq and those who have researched even further, that when we get to the bottom line, it will likely be a lot more than 12 percent.

But even so, the country, the radical Islamist leaders in charge, are guilty of killing Americans, and this administration rewards them by sending them money and, whether it is intentional or sheer intentional neglect, refuses to acknowledge the patriotism and the act of war against our members of the United States Army and the United States military and the one civilian that was killed, refuses to acknowledge and adequately appreciate those patriots that were killed or wounded in the line of duty in an act of war by Major Nidal Hasan.

So, Mr. Speaker, the question arises: If this administration, either through neglect or intent, is so calloused and uncaring towards its own military members, then what is going on now that is going to result in future Americans, military members, being killed? How many more Major Nidal Hasans are there in the Army, Air Force, Navy, and Marines?

God, I hope and pray that people like Nidal Hasan are not still being pro-

moted because nobody wants to—in this administration, under this administration, under this Commander in Chief—rise up and say: This guy is giving all the indications of being a radical Islamist that will one day explode and kill Americans.

Mr. Speaker, we have seen record numbers of generals—officers with stars on their epaulets—being fired. Personally, I recognize Edward Snowden to be a traitor. I have tried felony cases, including death penalty cases.

Coupled with my experience here in Congress of trying to advise and help whistle-blowers and having seen this administration turn against whistle-blowers, use their own department they work in to destroy their careers, use the Department of Justice to harass them, and if it is somebody that has very damaging evidence about wrongdoing by this administration, then they will convene a grand jury to investigate and harass, never mind that it drives a spouse to the hospital near breakdown, never mind the damage that it does to those patriotic whistle-blowers who just want the government to do the right thing in all things.

I have to recognize, if I were sentencing Edward Snowden for his treason, that in this administration someone that were to come forth—if Edward Snowden had done this and come before superiors in this administration, he would likely have been destroyed, a grand jury convened, attempts to put him in jail, attempts to destroy his evidence.

That would have to be taken as evidence in mitigation of whatever the sentence was for the treason because, under this administration, I have struggled with people who wanted to get the truth out.

Where do you go? Eric Holder, as Attorney General, was not going to help a whistle-blower if they had information that was damaging to the administration. No. He was the head of the largest criminal defense firm in America defending the actions in this administration and going after and trying to destroy anybody who came forth with damaging evidence, particularly if it could have come before the election in 2012.

Loretta Lynch will always be a blot on the reputation of the United States Senate because she made clear she thought that the things Eric Holder did in violation of the Constitution, in contempt of Congress, the disingenuity and dishonesty, were okay in her book, and they confirmed her anyway. So the indications are things haven't gotten any better than they were.

□ 1345

What do you do if you are a patriotic whistleblower in this administration and you want to out Nidal Hasan, you want to come forward with documentation that shows this administration has acted inappropriately? It has been

made clear to people, you raise your head up to try to speak up and speak truth, then we will make you rue the day you ever worked for the government.

We won't help with mere hundreds of dollars to American patriots who were wounded in an act of war, and, obviously, 13 killed in an act of war by radical Islamists. We won't even call radical Islam what moderate Muslims in the Middle East recognize that it is. And a man of great courage I think will end up being recognized as one of the great leaders in the Middle East of any age. President el-Sisi gets the back of the hand most of the time from this administration. When he has had the courage to stand up to imams in a room, looking them in the eye, and say: It is time to take back our religion from the radicals.

Because of his courage, because of his recognizing the threat that radical Islam is, not only to Christians and Jews, but to moderate Muslims, then there is no doubt there are people that want to kill him, when this administration ought to be doing everything they can to help them.

I was asked by Egyptian leaders: Does your President not understand that the Apache helicopters that he promised the Muslim Brother Morsi that he withheld for so long, that we used those to keep the Suez Canal open, does he not want the Suez Canal open? Does President Obama not care? Well, that would certainly be the indication if you look at the actions of his administration.

When I was in Egypt in September, people who desperately want to be friends with the United States, they yearn for freedom, they yearn for a free Egypt, free of radical Islam, even though they are Muslims themselves, they want to be friends with freedom-loving Americans, and yet with dozens and dozens and dozens of leaders from countries around the world, including Russia, top leaders from countries around the world, being there to note the incredible historic event in world history when Egypt, after having gotten rid of the radical Islamist Muslim Brother Morsi, who was refusing to keep his conduct within the requirements of their Constitution, was removed after the biggest peaceful demonstration in the history of the world. Over 30 million people are said to have gone to the streets to demand his removal.

After Morsi is removed, people of vision like el-Sisi took over and they dug another lane to the one Suez Canal, so there are two lanes for a big part of it there. That was a historic day in June. The people of Egypt should have been lauded by all of those in this administration.

Yet, not only did this administration not care to recognize the great historic fete of Egypt struggling as it is to achieve greatness once again, they didn't even send anybody from Washington. My friend DARRELL ISSA went. Congress was represented.

I was not allowed to go, of course, because Speaker Boehner wasn't allowing people like me who spoke up for what we believe is right to travel. And, according to his staff, Speaker Boehner saw taxpayer-funded travel as a reward for people that apparently voted like he wanted them to, which kind of sounds like it would be a crime.

But, nonetheless, we were represented. Congress was represented there, but not the administration. Leaders from around the world were there. Not this administration.

It is time to recognize the good Muslims, the moderate Muslims in the world, with whom we can be friends, who want to be our friends, who want to work with us, and recognize those, like the Muslim Brotherhood, who want to destroy our way of life. And it is time to stop the political correctness that got 13 people killed at Fort Hood 6 years ago today and got so many more wounded.

Since this administration doesn't want to properly recognize efforts to keep the Middle East peaceful and out of the hands of radical Islamists, like the Muslim Brotherhood, well, we had the Iran treaty that this administration pushed and the Senate refused to take up and vote on as a treaty.

The Corker bill clearly didn't apply because the Iranian treaty did include terms about ballistic missiles, about weapons buying, about release of money under the sanctions. It did change the terms of the nonproliferation treaty. It was clearly a treaty.

It really will be another blot on the Senate's reputation that they did not stop that. By taking a vote on ratification, it wouldn't have gotten the two-thirds required. And then we could have prevented the \$100 billion plus—we are told \$100 billion or so each year thereafter—that will be going to a country that, according to this news this week, where “‘Death to America’ Stands Despite the Nuclear Deal.” This report from AFP, dated November 2, from Tehran, says, “the Islamic Republic will not abandon the slogan of ‘Death to America’ despite its July nuclear accord with world powers.”

“The martyr-nurturing nation of Iran is not at all prepared to abandon the slogan of ‘Death to America’ under the pretext of a nuclear agreement,” 192 members of Iran's 290-seat parliament said in a statement carried by state news agency IRNA.

“They said the slogan, chanted at the weekly Friday prayers in mosques and at protests, had ‘turned into the symbol of the Islamic republic and all struggling nations.’”

So let's look, Mr. Speaker, at what has occurred since the Iran treaty that was not ratified was placed into being by this administration and by the Senate looking the other way.

Well, they have had ballistic missile tests. They have had joint military operations with Russia and Syria.

Those certainly violate the terms of the Iran deal.

They have had open violations of international travel bans. We have had a cyber attack from there. We have had an arrest of a U.S. resident, Nazar Zaka. “Death to America” is still their chant.

And yet here is this story from October 21 by Reuters. It says:

“The United States, Britain, France and Germany called on Wednesday for the United Nations Security Council's Iran sanctions committee to take action over a missile test by Tehran that they said violated a U.N. ban.

“In a letter containing details on the launch, they said the ballistic missile was ‘inherently capable of delivering a nuclear weapon.’

“The letter, seen by Reuters, was sent to the committee after the United States raised the issue in the 15-member Security Council.

“‘We trust that this information will assist the Committee in its responsibility to examine and take appropriate action in response to violations of U.N. Security Council resolutions,’ they wrote.”

“Diplomats have said it was possible for the sanctions committee to blacklist additional Iranian individuals or entities if it determined that the missile launch had breached the U.N. ban. However, they said Russia and China, which have opposed the sanctions on Iran's missile program, might block any such moves.

“‘The United States will continue to press the Security Council to respond effectively to any future violations . . . Full and robust enforcement of all relevant U.N. measures is and will remain critical,’ U.S. ambassador of the United Nations Samantha Power said in a statement on Wednesday.”

Now, the reason that the United States has sent this letter, participated in it, asking the U.N. to take appropriate action, is because this administration is gutless to do what needs to be done. You have Iran, it has been confirmed, that killed so many hundreds responsible for the death of so many Americans. And this administration struck a bad deal with them that could never get two-thirds of the Senate to ratify it, so we just act like it is a treaty that is ratified, even though it isn't.

But it is gutless to stand up to Iran and say: You violated the deal. We are not going to allow \$100 billion to \$150 billion to go to you while you continue to say “death to America”; you continue to have ballistic missile tests; you continue to have joint operations, in violation of our deal, with Russia and Syria; you continue in open violation of international travel bans; you continue to attack us or have cyber attacks from your country; and you continue to stir up violence against the United States. You are not getting any money.

How about giving just a little bit of that \$100 billion to the victims of Nidal Hasan? How about giving it to the victims of radical Islamist violence? How

about giving it to the victims of over 400 days in captivity in Iran under the Ayatollah Khamenei's leadership?

This administration has got to act. This is outrageous.

And then we have an International Business Times report, "Iranian Airline Violates Terms of Nuclear Deal By Purchasing Planes To Use In Syrian War." This says:

"One of Iran's commercial airlines last week bought a UK-manufactured jet with the aim of using it to deliver Iranian soldiers and weapons to Syria . . . The purchase of the aircraft by an Iranian concern represents a clear violation of the deal brokered by the administration of U.S. President Barack Obama."

It is outrageous. The Iran deal needs to be brought to an end. No more money needs to go to Iran. No money for killers, for terrorists, but money to the victims in our United States military.

With that, I yield back the balance of my time.

WASHINGTON, THURSDAY, NOVEMBER 5, 2015

No. 165

Senate

The Senate met at 9:30 a.m. and was called to order by the President pro tempore (Mr. HATCH).

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Spirit of God, who brought light from darkness and order from chaos, we praise Your Holy Name. Lead our law-makers, using their daily experiences of joy and sorrow, pleasure and pain, victory and defeat for Your glory. Bless their labor, providing for their needs and preparing tables of peace and confidence for them. As they rejoice because of Your faithfulness, protect them with the shield of Your love.

Lord, fill all of our hearts with Your joy and give us Your peace. Thank You for continuing to be our ever-present help in turbulent times.

We pray in Your sovereign Name. Amen.

PLEDGE OF ALLEGIANCE

The President pro tempore led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

Mr. McCONNELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. HELLER). The clerk will call the roll.

RECOGNITION OF THE MAJORITY LEADER

The PRESIDING OFFICER. The majority leader is recognized.

OBAMACARE

Mr. McCONNELL. Mr. President, I remember a recent time when President Obama tried to spin Americans on ObamaCare. The best he could muster then was a condescending, sort of cringe-inducing message that likely turned off more people than it converted. He even said that Americans who already had health insurance “may not know that they’ve got a better deal now [under ObamaCare] than they did, but they do.”

As I said, it was condescending and cringe-inducing. It was so out of touch with the priorities of America’s middle class.

Well, it looks as though the President is going to try again today with a series of regional TV interviews. He will do so with headlines such as these as a backdrop: CBS, “Affordable Care Act not so affordable”; AP, “More than half of health law’s insurance co-ops are closing.” Here is a headline about the President’s home State: “Some Obamacare marketplace prices see double-digit jump in Illinois.” And here is one about mine: “Health co-op closes, 51,000 need new insurance.” This is on top of the massive premium increases so many Kentuckians have faced.

This isn’t just a Kentucky story or an Illinois story. In every corner of the country, we see story after story about sharply rising premiums. The largest insurers in Tennessee have rates going up 36 percent. A large insurer in Oklahoma is raising premiums by 35 percent. In Hawaii, families are looking at increases of 26 and 34 percent. It is easy to glaze over the numbers, but this is real money coming out of the pockets of real families. This is money that could help send a child to college or put Thanksgiving dinner on the table, but instead it will go to insurance bills made unnecessarily expensive in part because of ObamaCare’s costly rules and regulations.

Perhaps the President will settle today for trying to convince Americans

that ObamaCare’s Web site is at least working better than in years past, but that just means it will be a little easier for middle-class families to pay more for unaffordable health insurance and higher out-of-pocket costs. That is hardly the makings of better headlines or better outcomes for the American people.

RECOGNITION OF THE MINORITY LEADER

The PRESIDING OFFICER. The Democratic leader is recognized.

OBAMACARE

Mr. REID. Mr. President, ObamaCare is working, as the New York Times indicated in a strong column this week showing how dramatically the rates of uninsurance have dropped since this bill passed. The initial posting of premiums doesn’t tell the whole story. The law requires the Department of Health and Human Services to post only the proposed increases that exceed 10 percent. Many of those proposed rates have gone through a review process at the State level, and after that review, States will reduce many of those rates. Remember, we are talking only about the States that had an increase of more than 10 percent. Almost all the States had increases that were far less than that.

The health reform law caps 85 percent of exchange enrollees’ premiums as a share of their income, and because of the health law, insurance companies must spend at least 80 cents of every dollar on health services. Prior to this law passing, these health insurance companies spent huge amounts of their money on salaries and other things that didn’t relate to the health of their enrollees, and now 80 percent of every dollar must be spent on the enrollees. This has resulted in rebates totaling \$9 billion paid to consumers since 2011. Eighty cents of every dollar is spent on

health services rather than administrative costs and profits.

Addressing insurance premium increases in the individual market was a key reason we enacted the health reform bill in the first place. Before the health reform law, patients were subject to premium increases, cancellations, denials for preexisting conditions, and arbitrary limits on how much care insurance would cover.

Thanks to this health reform law, proposed premium increases are seeing the light of day and are subject to scrutiny, which wasn't the way it was before.

Under the health reform law, insurance companies cannot deny coverage or charge more because of a preexisting condition or for simply being a woman. Insurance companies cannot arbitrarily cut off benefits when you really need them.

TRIBUTE TO WADE HENDERSON

Mr. REID. Mr. President, the true test of leadership is whether one leaves behind the conviction that others will carry on. Yesterday Wade Henderson, one of the fathers of the civil rights movement, announced that he will retire from the position as president and CEO of the Leadership Conference on Civil Rights and the Leadership Conference Education Fund to make room for future leaders.

Wade Henderson has inspired a new generation to hold our country to its most sacred values: liberty and justice for all. Wade has been a true leader. For the past 20 years he has been a tireless advocate for justice and equality. His conviction, skill, and expertise can be found in every major civil rights victory over the past two decades.

Wade has led the Leadership Conference on Civil and Human Rights through the successful passage of the Help America Vote Act of 2002; the Voting Rights Act reauthorization of 2006; the ADA Amendments Act in 2008; Matthew Shepard and James Byrd, Jr. Hate Crimes Prevention Act in 2009; Lilly Ledbetter Fair Pay Act of 2009; Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010; and the Fair Sentencing Act of 2010.

From the passage of the hate crimes laws in the early 1990s to efforts to end racial profiling and pass comprehensive immigration reform, Wade Henderson has carried the weight and responsibility of the modern civil rights movement on his shoulders.

As Wade transforms and transitions into the next stage of his life, I have no doubt he will continue to be a champion of people of color, women, children, organized labor, persons with disabilities, seniors, the LGBT community, and faith communities.

Today I congratulate Wade Henderson for his years of service to our Nation and the world. I wish him continued success in all of his future endeavors.

Will the Chair announce the business of the day.

RESERVATION OF LEADER TIME

DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2016—MOTION TO PROCEED

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of the motion to proceed to H.R. 2685, which the clerk will report.

The legislative clerk read as follows: Motion to proceed to Calendar No. 118, H.R. 2685, a bill making appropriations for the Department of Defense for the fiscal year ending September 30, 2016, and for other purposes.

The PRESIDING OFFICER. Under the previous order, the time until 11 a.m. will be equally divided in the usual form.

The Senator from Maine.

Ms. COLLINS. Mr. President, I come before the Senate to express my strong support for proceeding to the fiscal year 2016 Defense appropriations bill. This bill provides vital funding for the men and women of our armed services at a time of serious and growing threats to our own national security and at a time of troubling instability and violent conflicts in many countries around the world.

Proceeding would allow the Senate an opportunity to debate defense funding in an open and transparent manner and to meet our constitutional obligations. I am truly perplexed to hear some of my dear friends and colleagues on the other side of the aisle suggest that there is a Republican plan to enact only the Defense appropriations bill and then proceed to a continuing resolution for all of the other vital appropriations bills. It would be an understatement to say that continuing resolutions are certainly not the preferred option of the Appropriations Committee, and I say that as a proud member of that committee. Continuing resolutions create uncertainty, they lock in last year's priorities, and they continue to fund programs that should be eliminated. They are not effective ways to govern.

I want to be clear. Supporting an individual appropriations bill in no way suggests that the Senate is somehow giving up on passing the other 11 subcommittee appropriations bills, whether they are brought to the floor individually or as an omnibus package.

Members of the Appropriations Committee now have working numbers as a result of the budget agreement. We are working together diligently in a bipartisan, bicameral manner to craft a bipartisan omnibus that can be supported by both Chambers.

Democrats and Republicans came together to pass a budget agreement just a few short days ago, and our ongoing negotiations prove our sincerity and determination to move ahead with individual bills and in crafting an omni-

bus. We have already made great progress this year. As our chairman, THAD COCHRAN, has noted previously, this is the first time in 6 years that the Appropriations Committee has approved all 12 of its bills. Many of those bills, due to the leadership on the Democratic side of my dear friend BARBARA MIKULSKI, and others, have been bipartisan when they were reported by our committee. I would note that we completed our work despite terribly strict budget constraints months ago.

Now, we are in a new stage. We have a bipartisan, 2-year budget agreement that has provided some much needed relief to some of the budget caps, while keeping us on a fiscally responsible path.

This is the third time the Senate has attempted to take up this vital appropriations bill. The last time, my Democratic friends objected because there was no bipartisan, bicameral budget agreement. In the absence of such an agreement, they said they could not proceed with a bill. Now, I didn't agree with that rationale, but I understood it. I do not understand the situation we find ourselves in today. We have a budget agreement—a bipartisan, bicameral budget agreement. I do not understand why we cannot move forward with the Defense appropriations bill and, I hope, other bills individually and then ultimately an omnibus bill for those that we simply run out of time to consider this year. Next year, due to this budget agreement, I hope we can bring each and every one of the individual appropriations bills before the Senate for debate and amendment the way we used to do, and that is our goal.

December 11 is quickly approaching, and that is the date when the current continuing resolution expires. We must act before then to ensure that the Federal Government remains open. We must act to ensure that vital Federal programs are funded and not operating under yet another continuing resolution, which is such poor policy. That is what we are trying to prevent.

Let's get the Defense appropriations bill approved. Then, I hope we can bring up at least one or two or perhaps three other appropriations bills. In the meantime, we are already working on the omnibus bill.

As chairman of the Transportation, Housing and Urban Development, and Related Agencies Subcommittee, I have already met with my ranking member, Senator JACK REED of Rhode Island, and with our counterparts on the House side to begin the negotiations on our bill. We are operating under a very tight timeframe that will require Members to work around the clock and a good-faith effort from all sides. That is what I am asking for today: for Members on the other side of the aisle to take the majority leader, the Republican leader, at his word, to pass this bill—this vitally needed bill—and then to go on to a second individual appropriations bill, all the while we are working in a bipartisan way to craft an omnibus bill.

I appreciate the opportunity to speak on the importance of advancing the fiscal year 2016 appropriations bills. Let me reiterate that it is simply wrong for any of my Democratic colleagues to assume that proceeding to the Defense appropriations bill somehow suggests that there is no interest by our leader in passing an omnibus that will include the other vital bills funding essential education, biomedical research, transportation, housing, agriculture, energy, environmental, and other important programs.

I urge my colleagues to support proceeding to this vital bill. To fail to do so once again, for the third time, despite the existence of the budget framework that we have agreed to, and to fail to do so just days before we honor our Nation's veterans would be a grave disservice to those who serve in our military today.

Thank you, Mr. President.

Seeing no one seeking the floor, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DAINES. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. ROUNDS). Without objection, it is so ordered.

Mr. DAINES. Mr. President, for months, we have called for Senate Democrats to stand and support our troops and pass the Defense appropriations legislation. In fact, this is the first time—the first time since 2009—that all 12 appropriations bills were reported out of committee, and most with strong bipartisan support.

I serve on the Appropriations Committee. In fact, I serve on the Defense Appropriations Subcommittee. But today we are once again considering opening debate on the Department of Defense Appropriations Act of 2016, a bill that passed out of the Appropriations Committee on June 11 with a very strong bipartisan vote of 27 to 3.

As we approach Veterans Day next week, today could mark the third time that Democrats have blocked this critical legislation to fund our troops. This comes at a time when our troops are actively engaged in multiple theaters abroad and they need the critical support of our Nation's growing mission overseas. But rather than passing this vital funding bill, my Democratic colleagues would rather play politics and perpetuate the obstruction that plagues their party. The minority leader's constituents in Nevada deserve more. They deserve better. Montanans deserve more. The American people deserve more.

So here we are debating, for the third time, simply to proceed on Defense appropriations legislation and to open it up for debate. Let's be clear. The way the process works is we have to have first a vote to bring the bill to the floor to begin deliberation. This, the great-

est deliberative body in the world, can't even deliberate on the Defense appropriations bill because our friends across the aisle are blocking it. It is time to open it up for debate, open it up for amendments. This is the process of the Senate. The American people and the troops deserve more.

It appears that the Democratic leader and his Democratic colleagues would rather huddle in back rooms somewhere and concoct yet another deal behind closed doors versus in full daylight in transparency on the Senate floor because they would rather negotiate in private than engage in an open and honest debate in front of the American people.

Unfortunately, today the Senate Democrats will put partisan politics ahead of funding the troops. The senior Senator from New York, the likely next Democratic leader, has already foretold that Democrats would rather throw together another massive spending package than to allow open consideration of each part of the Nation's budget. No wonder we are \$19 trillion dollars in debt. Senator SCHUMER said:

We could pass a defense bill and then they could say, "Well, we'll do a [continuing resolution] on the rest of it," violating the 50-50 deal. We need to negotiate an omnibus all at once and all together.

I reject that. Montanans know firsthand the importance of supporting our men and women in uniform. The passage of this legislation is critical to carrying out our missions in an increasingly dangerous world, and it is important regarding missions we support in Montana. This Defense appropriations bill protects the Montana Air National Guard C-130 mission by moving forward with the Avionics Modernization Program, or AMP Increments 1 and 2, which are improvements from the original costly AMP program. This will ensure the C-130s at the Montana National Guard will be certified to continue flying by 2020 and provide a pathway for a full-scale avionics upgrade that addresses outdated components. It also funds key engine modifications for those C-130s.

The Senate Democrats would prefer to once again obstruct regular order in the same fashion they did during the past few years, which became the hallmark—it became the trademark of a failed Democrat-led Senate majority. So as the Senate heads home for the weekend, I challenge my Democratic colleagues to look at their veterans, to look their active duty troops and military families in the eye and ask themselves: Did I serve these selfless men and women or the Washington establishment? I think we know which one they will choose.

I encourage my Senate Democratic colleagues to change course. We have a chance to change course on this upcoming vote. Vote yes on moving this critical defense legislation forward.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DAINES. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DAINES. Mr. President, I ask unanimous consent that all time in a quorum call before the 11 a.m. vote today be charged equally against each side.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DAINES. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DURBIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DURBIN. Mr. President, at 11 o'clock the Senate is going to vote on the Defense appropriations bill. This is a bill I have worked on with Senator COCHRAN of Mississippi. He not only chairs the Appropriations Committee but the Subcommittee on Defense, which I serve as ranking member on as well.

The effort in this bill is extraordinary because it comprises virtually 60 percent of the domestic discretionary spending of our government. It, of course, deals with the Department of Defense and intelligence agencies. I just want to say we have worked on this on a bipartisan basis from the start. It has been a real pleasure to work with Senator COCHRAN. I commend him for his leadership and his gentility and thank him for all of the good work he has put into this bill.

It is going to be a procedural vote that we anticipate is not going to allow this bill to go forward. It is not a reflection on the substance of the bill at all. Though we may disagree with one or two provisions in the bill—and even as one of the authors I can say that—the fact is that what we are trying to do now is position ourselves to complete the work of last week's budget agreement.

I think there is an understanding, at least at this moment, of how we will move forward, but I say to my colleagues that we can stand behind the substance of this bill. Procedurally, we may be delaying it today, but ultimately it will pass and I look forward to supporting it at that time.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. ALEXANDER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ALEXANDER. Mr. President, I ask unanimous consent to speak up to 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ALEXANDER. Mr. President, I would like to address my remarks to my colleagues on the other side of the aisle, my Democratic colleagues. Yesterday I spent almost a whole day working with Democratic colleagues on a variety of proposals to try to get bipartisan results in the Senate. We have had more bipartisan results this year than most people think, whether it is the progress we have made on No Child Left Behind or on the trade bill or on the doc fix or on changing the way we pay doctors or on the USA Freedom Act, or on the Defense authorization bill. It is a long list.

I was working to get bipartisan results yesterday because that is what I am supposed to do as a United States Senator. I am not sent here to posture or to make a political point. I am sent here—given this privilege—in order to create an environment where we can solve problems for the benefit of the taxpayers, for the benefit of the American people. So that is how I spent my time yesterday. I do not think any other Republican spent more time than I did working with colleagues on the Democratic side to do that, which is why I am addressing my remarks to my Democratic friends.

What they have proposed to do is block our moving to the appropriations bill for the defense of this country for the third time—for the third time. There is no justification whatsoever to do that. What I am saying to my friends is don't go there, because if you continue to block appropriations bills, you are going to set in motion an irreversible trend toward partisanship in this Senate and I am going to lead it. I am going to lead it.

Instead of spending my time working with Democrats to get bipartisan results, we are going to go in another direction. Now, why would I say that? Because I am not here to be partisan. Let me give you the example of the appropriations bill that Senator FEINSTEIN from California and I have worked on. We worked on that bill in a bipartisan way. I think even she would say she wrote about as much of it as I did. There's a page full of things she thought are important for our country that are part of the bill. There are probably more than 75 Senators who wrote us letters—about half of them Democratic Senators—who wrote us letters saying: These are important provisions in the Energy and Water Appropriations bill. Those provisions are in our bill. They are ready to be considered.

Twice, the Democrats have kept us from considering the Defense Appropriations bill. Today, they are going to do it again. What they are saying to us is that we are going to come up with any reason—any excuse—not to have a normal appropriations process. The last time Democrats argued: We did not have enough money. The way you deal with not enough money, if that is

your opinion, is you bring a bill to the floor, you vote on it, you pass it if you can, you send it to the President, if the President disagrees with you, he vetoes it. It comes back and we negotiate and we have a compromise.

That is the way it works. You don't just jam something through because you have the power to stop something or the power to jam it through. That is the way you pass ObamaCare. That is the way you make sure the country has no respect for what we are trying to do. But that is what the Democrats did with appropriations this year and they got a result. I am not unhappy with the result, and I voted for the budget agreement. But what it does is it creates additional spending for defense and nondefense discretionary funding for the Energy and Water appropriations bill. I am pleased to see that because that money goes for ports, locks, and dams. That money goes to the Office of Science so we can have revolutions in manufacturing that create jobs. Money that can help with our biomedical research that we need to do. There are important things we need to do, and this bill will help us do them. But why would we not begin to debate that? Why would we not let the other Senators debate it? All we are proposing is to begin to do some of what in December we should have done in June and July.

The majority leader knows he can't put every one of the 12 appropriations bill on the floor. There is not enough time left this year. Why is there not enough time? Because Democrats blocked it in June. They kept us from going to the bills even though this is the first time in 6 years that all 12 appropriations bills have passed the Appropriations Committee.

Why is that important? That is what we do here. Our job is to review the purse, to decide what to spend—more for this lock, less for that project—and keep the budget in balance when we can. That is our job. They blocked it twice and they are getting ready to block it again with a vote today.

I'm saying, don't go there because you are going to set in motion an irreversible course in this Senate, and I'm going to lead it. I am going to use whatever skills and powers I have to do that.

All of these Democratic provisions don't have to be in the Energy and Water appropriations bill. They don't have to be in any of the bills because we have the majority and you don't. So if they're going to play that kind of game, we can play it too. I am not one who usually does, but I am able to play. I am able to play or I wouldn't have gotten here.

So I want to say to my friends on the other side: Don't go there. Vote to put the bill on the floor. Vote to give us a chance to have amendments.

Why would the other 70 Senators not want to have a chance to have a say about the appropriations bill? Thirty of us are on the Appropriations Com-

mittee. We did our work. We approved the bill—in our case by a vote of 26 to 4. It is a bipartisan bill. Why would we not put bills like that on the floor and let the other 70 Senators have their say? What are they here for if they don't want to have a say about appropriations? They might as well be home watching television. They should be here deciding the issues that face our country.

I hope my friends on both sides of the aisle can tell I am not happy this morning with the direction things are taking. I don't like the fact that I spent all day working with Democratic colleagues to get bipartisan results and they come along with a tactic—for the third time—that says: If we don't get everything we want, we are not going to have an appropriations process.

Well, we will see how that goes. And it will go not in a way that is good for the country, not in a way that is good for the Senate, but it will allow the people who have a majority in the Senate a chance to assert themselves and write the bills. At least we can do that.

There is really no reason we need to have 75 Senators' ideas about priorities in the Energy and Water appropriations bill if the majority doesn't want to. There is no reason to have the ranking members' opinions in any of these appropriations bills if the majority doesn't want to.

The way we have worked in our committee is—and I have worked with the Senator from California for several years, and she is a terrific person and a wonderful Senator—we work together. Now why should we stop that process when the bills come to the floor?

So through the Chair I respectfully ask my colleagues to think again. Don't do this. Don't send us a signal that we are never going to have another normal appropriations process in the United States Senate. The American people don't want that. We don't want that, and I can assure you my friends on the other side don't want that.

So my hope is that one way or another the majority leader and the Democratic leader have a conversation. And that the Senate comes to its rational senses and begins a normal appropriations process, with as much time as we have between now and the end of our time here in December. Which would be a signal to all of us that we are going to work in a bipartisan way on a normal appropriations process for the good of the country. And that we are not just going to try to think up any excuse we can not to move an appropriations bill to the floor.

Two years ago the majority leader simply wouldn't bring the bills to the floor. This time the minority leader has blocked the bills from coming to the floor. Let's get back to work. For heaven's sake, that is what we are here for. I am ready to go to work. I much prefer the way I worked yesterday, working with my colleagues. But I am

prepared to work in another way if that is what we need to do to get some balance in the Senate.

I yield the floor.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. COCHRAN. Mr. President, I compliment the distinguished Senator from Tennessee for his remarks. I extend my appreciation for his strong leadership in developing and bringing to the floor of the Senate the Defense appropriations bill for fiscal year 2016.

Specifically, I urge the Senate to do as he suggests. Let's get this bill before the Senate, offer amendments if Senators have suggestions for changes in the bill, and move ahead to completing action on this bill on time so we can predict with some certainty what our obligations are going to be and we can more thoughtfully with a sense of confidence know that we are doing the right thing to protect the security interests of our country, our citizens, and our interests around the world.

We have before us an effort to move to the consideration of the Department of Defense appropriations bill for fiscal year 2016. The bill provides \$514.1 billion in base budget funding and \$58.6 billion in overseas contingency operations funding for the Department of Defense.

The Senate Appropriations Committee has worked on a bipartisan basis to write and approve 12 individual appropriations bills this year for the first time since 2009. Senators should have the opportunity to debate, amend, and approve the Defense appropriations bill. The legislation is a bipartisan national security measure that provides the resources that are necessary to protect our Nation, support our servicemembers and their families, and meet current and future threats to our national security.

We have no greater priority than protecting our national security interests here at home and abroad. I urge Senators to cooperate and support our efforts and to vote to proceed to the consideration of this bill. I am hopeful that the leadership can get together and work out a time that is convenient and appropriate for carrying out this responsibility.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. ALEXANDER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CLOTURE MOTION

Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The senior assistant legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the

Standing Rules of the Senate, do hereby move to bring to a close debate on the motion to proceed to H.R. 2685, a bill making appropriations for the Department of Defense for the fiscal year ending September 30, 2016, and for other purposes.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the motion to proceed to H.R. 2685, a bill making appropriations for the Department of Defense for the fiscal year ending September 30, 2016, and for other purposes, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. CORNYN. The following Senators are necessarily absent: the Senator from South Carolina (Mr. GRAHAM), the Senator from Florida (Mr. RUBIO), and the Senator from Louisiana (Mr. VITTER).

Mr. DURBIN. I announce that the Senator from California (Mrs. BOXER) and the Senator from Vermont (Mr. SANDERS) are necessarily absent.

The PRESIDING OFFICER (Mrs. FISCHER). Are there any other Senators in the Chamber desiring to vote?

MILITARY CONSTRUCTION AND VETERANS AFFAIRS AND RELATED AGENCIES APPROPRIATIONS ACT, 2016—MOTION TO PROCEED

Mr. McCONNELL. Madam President, I move to proceed to H.R. 2029.

The PRESIDING OFFICER. The clerk will report the motion.

The legislative clerk read as follows:

Motion to proceed to Calendar No. 98, H.R. 2029, a bill making appropriations for military construction, the Department of Veterans Affairs, and related agencies for the fiscal year ending September 30, 2016, and for other purposes.

Mr. McCONNELL. Madam President, for the information of all Senators, there will be a rollcall vote on the motion to proceed to the Military Construction and Veterans Affairs appropriations bill shortly after lunch. The chairman of that committee, Senator KIRK, is working with the ranking member to move that bill across the floor next week. They will have a Senate substitute to the bill pending, and Senators will then further amend. If Senators cooperate in moving things along and scheduling votes on amendments to the bill, we can vote on passage on Tuesday night so that Senators can commemorate Veterans Day back home with their constituents.

Obviously, this is going to require some cooperation from all Members. However, I encourage those Senators with amendments to the MILCON-VA bill to work with Senator KIRK and Senator TESTER to get them in the queue for floor consideration.

I yield the floor.

The PRESIDING OFFICER. The Senator from Texas.

STOP SANCTUARY POLICIES AND PROTECT AMERICANS ACT

Mr. CORNYN. Madam President, 2 weeks ago, the Senate was unable to proceed to consider a very important piece of legislation called the Stop Sanctuary Policies and Protect Americans Act. The goal of this legislation is to protect our communities from criminals who violate our laws and who pose a danger to those communities—often minority communities themselves. The aim of this legislation is to restore law and order across the country by holding those accountable who are defying Federal law and refusing to cooperate with the Federal Government when it comes to communicating the status of people who are illegally present in the country who have committed other more serious crimes and refusing to honor Federal detainees.

As we discussed the need for this bill, several of my colleagues highlighted the importance of this issue, but unfortunately, we lost that vote because only 54 Senators voted to proceed to the bill and obviously we needed 60 votes.

I am concerned that this debate does not focus on the people harmed the most because of the status quo, and that is why I have come here to the floor to talk about the larger problem of violent crime committed by those who are here illegally and are not being punished according to our laws. I also want to highlight the importance of the victims and families across the country who are suffering because we have not taken the appropriate action to stop these criminals.

There is one person in particular whom I wish to talk about today. My plan is to come to the floor and tell these stories one at a time over the next few weeks.

This is Javier Vega, Jr., who grew up in La Feria, a small town of about 7,000 people in South Texas. Javier was known by the name Harvey to his friends, interestingly enough, and he spent his entire life thinking of ways to help others before himself.

From a young age, he knew he wanted to serve in the military, and so he volunteered for the Marine Corps and embarked on a military career after graduating from La Feria High School. Harvey thrived in the Marine Corps. So after leaving the Marines and working day and night to put himself through college, he decided the next step in his public service was to join the U.S. Border Patrol.

Harvey's mother said that he approached his work at the Border Patrol just like everything else he pursued in life—with diligence, dedication to hard work, and trying just simply to be the best he could be. He was proud to help protect his fellow neighbors and serve our country, and he worked tirelessly to do so.

But, tragically, Harvey's service to his country was cut short. Last summer he was out at one of his favorite fishing spots with his family. He loved fishing. It was a family tradition, and Harvey wanted to pass along his love for this pastime to his sons. Shortly after he and his family members cast their lines into the water on that Sunday afternoon, he was ambushed by two men who tried to rob him, and, heartbreakingly, the encounter turned violent.

Harvey's lifelong commitment to protecting those around him—something he seemed born to do—kicked in instantly. As Harvey and his father, and eventually his mother, tried to fend off the attackers, tragically Javier "Harvey" Vega, Jr., was killed. His father, Javier senior, was shot in the hip and still suffers from the wounds inflicted that afternoon.

This was supposed to be another normal weekend fishing with the family. But instead, this normal weekend—or

what was supposed to be a normal weekend of fishing for Javier and his family—turned deadly.

Who were the killers? They were two illegal immigrant criminals who had repeatedly violated our laws, and by that I don't mean they just entered the country without the appropriate visa. Both had been deported multiple times but managed to repeatedly find their way back into the country, even after committing a long list of crimes.

In fact, according to some witnesses, these two men had been terrorizing the community for months, committing armed robberies and carjackings, and, clearly, they were capable of attacking and killing a hard-working father on a fishing trip with his family.

This is a difficult topic for some because some people would like to mischaracterize what we are trying to do with this legislation as somehow being anti-immigrant. But indeed, legal immigrants and people who live in the communities along South Texas—many of them have had family members come here from Mexico and elsewhere over the years—recognize how much people who illegally enter the country and commit multiple crimes can terrorize communities and victimize the very people whom those who block this legislation say they want to protect.

I don't raise this issue or this story lightly, but the country should know that for the family of Javier Vega, Jr., this is their reality. Illegal immigrant criminals who were deported multiple times attacked them and killed their son—their father, their brother, and their friend. Their lives will never be the same.

A number of our colleagues voted to block our ability to even consider this important legislation that seeks to merely enforce existing Federal law and to defund those jurisdictions that defy Federal law, and this is the consequence of doing nothing—people like Javier Vega, Jr., being victimized by criminals who violate our laws over and over and over, and when we catch them and they are deported, they simply come back into the country and victimize more people and more communities and kill people like Javier Vega, Jr.

The lives of the Vega family will never be the same, and I know they don't want other families in Texas or elsewhere around the country to have to suffer like they have suffered.

It doesn't seem like a lot to ask—that our Federal laws be enforced to protect our communities from criminals. That is all the legislation attempted to do. Yet there was a concerted effort across the aisle to filibuster the bill and prevent us from even considering this legislation, along with any suggestions our colleagues might have for improving it.

The goal of the bill, the Stop Sanctuary Policies and Protect Americans Act, is not to keep legal immigrants from entering the United States or to

disparage law-abiding immigrants. Even the victim's mother, Marie, someone with justifiable, personal anger, noted that this tragedy does not mean that her family is against immigration—far from it. This legislation is narrowly targeted to address the root cause of the tragedies like the one I have been talking about, by targeting criminal illegal immigrants who repeatedly ignored the rule of law and who live with virtual impunity in our country and victimize people like the Vega family.

We can't, in good faith, address immigration reform until the American people see us doing more to enforce our existing laws. I have been here for a while, and I have heard the arguments across the aisle that our colleagues would say: Well, the only thing we need to do to fix problems like what the Vega family experienced and otherwise is to pass comprehensive immigration reform. But the American people simply don't have enough confidence in us if we are unwilling to take the necessary steps to see that the laws on the books are already enforced—the very laws that would protect people like Javier Vega, Jr., and his family.

We have a lot of work to do to regain the public's confidence, because we can do other things that I believe we need to do to fix our broken immigration system. It is imperative, it is our responsibility, and it is something we referred to in our oath—that we will uphold and defend the laws and the Constitution of the United States. It is our responsibility to make sure that local governments comply with Federal laws and do not prevent the Department of Homeland Security from doing its job in enforcing them.

America's law enforcement community, including heroes like Harvey, put their lives on the line every day to protect our citizens. They work tirelessly to try to protect our safety.

I hope our colleagues will come to their senses and stand up for those who provide for our public safety and not contribute to a situation where other families, such as the Vega family, will lose a loved one to the sort of career criminals whom I was referring to earlier who killed Javier Vega, Jr.

I have recently joined with Congressman FILEMON VELA to send a letter to the Commissioner of U.S. Customs and Border Protection requesting that they reclassify the death of Javier Vega, Jr., as a line-of-duty fatality. Everybody in law enforcement knows that you are never truly off duty, and Javier's brave actions that fateful day back in 2014 should be classified as a death occurring in the line of duty, just like every other law enforcement officer.

I look forward to hearing back from the Commissioner on this soon. I am thankful to Paul Perez, president of the National Border Patrol Council in Kingsville, and to the Rio Grande Valley Union of the National Border Patrol Council for helping the Vega family highlight this issue.

We have a duty to help our brave men and women in law enforcement do their job by passing this legislation and to regain some of the lost confidence the American people used to have in our ability to actually do our job and to keep illegal immigrant criminals and repeat offenders off our streets.

This issue is not going away. There are countless other stories in Texas and across the country, such as the story of Kate Steinle, out in San Francisco, who tragically was murdered by the same sort of repeat illegal immigrant criminal who killed Harvey Vega.

There are a lot more stories to tell—a lot more stories that I hope we will tell in the coming days. It is our duty as Members of Congress to put a stop to this, and I pledge to keep fighting on behalf of the Vega family for legislation that will do just that.

Madam President, I yield the floor.

The PRESIDING OFFICER. The Senator from Virginia.

(The remarks of Mr. KAINE pertaining to the introduction of S. 2256 are printed in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

Mr. KAINE. Madam President, I yield the floor.

Mr. COATS. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. We are not in a quorum call.

Mr. COATS. Madam President, do I have a limitation on speaking time?

The PRESIDING OFFICER. There is no limitation.

Mr. COATS. I thank the Chair.

WASTE OF THE WEEK

Madam President, this is my weekly "Waste of the Week" speech. It is time for another one.

Let me just say up front this involves Department of Defense spending. Now, I am a strong advocate. I am an Army veteran. I have served on the Senate Armed Services Committee for nearly two terms. I am a strong advocate of a strong national defense, but it doesn't mean we give a blank check to the Department of Defense. It means we have to scrutinize their expenditures and their engagement in spending taxpayers' dollars just as carefully as we scrutinize every other agency. Everybody is involved in terms of finding the best and most effective way of using taxpayer dollars, hopefully without going into debt to do so and hopefully directed to those issues of priority and necessity that we have to fund. The Department of Defense of course is one of those. Although, as I said, it doesn't mean they get a blank check.

I am deeply disappointed that my Democratic friends across the aisle have denied us the opportunity to take up the Department of Defense appropriations bill, where we would have the opportunity to offer amendments to strike money or to save money that could be used for essential, necessary

efforts in spending by the Department of Defense.

Clearly every agency has to do some triage if we are ever going to get control of our out-of-control budget and our out-of-control plunge into deficit spending year after year, with the debt ever growing. I just heard today that we are now at \$18.5 trillion in debt, and that is going to come back to haunt us in future generations.

So the triage involves defining what is essential. Is this an essential expenditure that only the Federal Government can make? Defense spending falls into that category; that is, something that we can't leave to the States. Secondly, there is a lot we would like to do that may be necessary but is not urgent, a priority, or essential—when we have the money to do it. The third category is, Why in the world are you doing that in the first place? How can we define those items that are not necessary and take those funds and use them? Either give them back to the taxpayer or put them toward something that is essential rather than continuing to raise the funding, keeping all of the "why we are we doing this in the first place?" stuff funded year after year. We are not being given the opportunity to do that.

It is beyond this Senator's comprehension that, having established the caps with the agreement that passed last week—which I couldn't vote for because it kept adding more to our debt and didn't fully address the real problem of entitlement spending. But nevertheless, the decision was made, and we had to pass it. Now it is simply a process of allocating the money within the limits of how much can be spent. That is what we are supposed to be able to do, of course, in committee.

We are also supposed to have the opportunity as Members of the Senate to bring forward amendments, to bring forward policy issues, to debate on the floor, and hopefully to improve the bill, making it better, more cost effective, and efficient.

OK. Here we go—waste of the week. I think this is the 20th-something time I have been on this floor during this year. Every week the Senate is in session, I come and do the waste of the week. This week it addresses, as I said, the Department of Defense. I want to highlight what a recent inspector general Department of Defense report found: over \$40 million of overspending by the Department of Defense to build one gas station in Afghanistan.

The special inspector general for Afghanistan reconstruction found that the Department of Defense Task Force for Stability and Business Operations actually spent \$43 million on a single natural gas fueling station in Afghanistan. The station was originally projected to cost \$3 million—and we will talk about how ever got to \$3 million, let alone how in the world this could have gotten to a total of \$43 million.

According to the IG report, DOD spent this money "to fund the con-

struction and to supervise the initial operation of the station. Specifically, it spent approximately \$12.3 million in direct costs"—I guess that was building the station—"and \$30 million in overhead costs."

We are digging in to find out what those overhead costs were, but somebody came away with a pretty good profit margin just by submitting bills for \$30 million in overhead costs which apparently were approved and spent and given to the contractors.

To make matters worse, the inspector general's office found that the reasons the gas station needed to be built in the first place were not legitimate. They said there is zero evidence that the Department of Defense conducted the prior research necessary to identify potential obstacles before initiating this \$43 million project. Wouldn't you think somebody would have said: Wait a minute. What is this for? Where is it going to be? How much is it going to cost? Is it worth it? What is the projected spending? Is it going to be worth doing this? Does it make any sense? The IG office said there was zero evidence in the DOD's research that there could be a potential obstacle in going forward with this. One of those obstacles is Afghanistan doesn't have the pipeline infrastructure to get the gas to the gas station. Another key obstacle is that on average it would cost more to convert a vehicle in Afghanistan to use compressed natural gas than the average Afghan earns in a single year. What all this means is that the Department of Defense built a gas station that doesn't consistently have gas or customers, all for \$43 million.

Most outrageously, the original \$3 million allocated to this project was over and above the international norm for building this kind of compressed natural gas station. The International Energy Agency analyzed global construction costs for similar fueling stations and found that construction costs ranged from \$200,000 to \$500,000 per station. It did acknowledge that in non-industrialized countries such as Afghanistan, costs would be on the high-end. OK. The high-end is \$500,000. It still raises the question, If nobody is going to use it or we can't get gas to the station to put into the vehicles, why are we doing this in the first place? It also raises the question, Why did it cost \$3 million in projected construction costs when the average high-end is \$500,000 per station in places like Afghanistan? What do you get for \$3 million? What they say you get for \$3 million ended up costing \$12 million, and then the final bill is \$43 million. What do you get?

As you can see on this photograph, you get one of these out in the desert in Afghanistan. It is a little bit blurry. There is the structure. You have some pumps here. They actually did want to prove that some cars use this, so there are a couple of vehicles pictured out there in the desert. There is a telephone pole, I guess, out there. You can

see we are not talking about the mid-
dle of a city.

So that is what you get. That is what you get, folks, for \$43 million of expenditures. This is almost beyond the pale. It is almost something that you come down here and say: This can't be true. You can't make this stuff up. This is an example, though, I am afraid, of a lot of other overspending which we are going to dive into. But this one example alone illustrates that someone is making some very bad decisions and that taxpayers' dollars were not, at the least, properly stewarded by someone.

American taxpayers deserve an answer to this fraud, to this waste. Why did we pay \$43 million to build this gas station when there was no research justifying building it in the first place? They want an explanation of why this particular project was \$40 million over budget, and even the budgeted price was significantly higher—8 to 10 times higher—than the projected average cost of building something like this in a third-world country. Taxpayers need an explanation of how and why this could have ever happened, and there needs to be a full investigation. We need and will demand answers.

What has been illustrated is a perfect example of why not only my constituents but the American public feels that Washington can no longer be trusted and that no one in Washington gets it. Well, I get it. I get it, and we ought to all get it. We ought to be just as outraged as our constituents in terms of our performance here. This is totally unacceptable.

As has been said, this Senator is one of the biggest supporters of a strong national defense as anyone standing on this Senate floor, but we are weakening our defense and not allocating our money to the essentials that we need to support our soldiers in the essential tasks they have and the equipment they need. We are doing this kind of stuff, and it has to stop.

Our waste of the week is now totaling over \$117 billion of identified waste, and who knows what the total would be if we could comb through every agency. Our former colleague Tom Coburn used to say there is a good \$1 trillion if added all up. I don't know if it reaches that or not, but we are well on the way. We are at \$117 trillion, and these are the things I have identified and addressed coming to the floor this year.

Hopefully my colleagues will pay attention. We can't get the big things done. The President won't sign anything or engage in anything relative to the real gorilla in the room that is going to take us down economically, which are the runaway entitlements. Despite all the efforts, many of them bipartisan, the President has said: No, no, no, no, no, not on my watch.

The spending is continuing to go up, but the least we can do until we get somebody more responsible as our leader in the White House and until we have the will and courage to take on

what we all know needs to be done to get our fiscal house back in order—in the meantime, we can at least stop this egregious spending and waste of taxpayer dollars through fraud and abuse.

I am going to continue to do this. Next week we have lined up in our office what we will do, coming down virtually every day to do this and not run out of examples of how taxpayers' dollars are being wasted.

As you can tell, I am getting worked up about all this. Somebody needs to get worked up about this because it is not happening and we are spending money, and the public has given up and thrown up their hands and said we are dysfunctional, and they are right.

With that, Madam President, I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. UDALL. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The remarks of Mr. UDALL and Mr. HEINRICH pertaining to the introduction of S. 2254 are printed in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

Mr. HEINRICH. Madam President, I yield to my colleague from Michigan.

The PRESIDING OFFICER. The Senator from Michigan.

TRIBUTE TO AMY JISHI

Mr. PETERS. Madam President, I rise to recognize the heroic efforts of Amy Jishi, a Michigander who serves as a transportation security inspector at Detroit Metropolitan International Airport. I just spoke to her a few moments ago on the phone and thanked her for her brave actions.

Recently, while leaving work at the airport Amy observed an accident at a traffic light. She noticed that one of the cars was leaking gasoline and a fire had started underneath it. Without hesitation, Amy selflessly placed herself in harm's way to offer assistance and to warn others about the fire, and she worked to free the driver from the vehicle, despite a stuck door, and was able to free him shortly before the car burst into flames. Afterwards, Amy told a reporter, "When I saw the accident, the only thought that went through my mind was to help them."

Amy is a lifelong resident of Dearborn Heights and has worked with the Transportation Security Administration in Detroit for 8 years. She and her TSA colleagues across the Nation work to keep the American people and the traveling public safe each and every day.

As a member of the Senate Homeland Security committee, it is a privilege to hear the stories of the men and women at the Department of Homeland Security who work around the clock and around the world to keep our country safe. These individuals are dedicated to

public service and are willing to put Americans' safety and well-being above their own, and they deserve the recognition, as well as the resources and policies that will continue to position them for success in the mission they take so seriously and personally.

I would like to recognize Amy's selfless action, quick thinking, and dedication to her fellow Americans. Because of her actions, a young driver was able to walk away from what would have been a terrible tragedy.

I yield the floor.

The PRESIDING OFFICER. The Senator from Massachusetts.

Ms. WARREN. I thank the Presiding Officer.

SAVE BENEFITS ACT

Ms. WARREN. Madam President, exactly 3 weeks ago the Social Security Administration made a very quiet announcement. Next year, for just the third time since 1975, seniors who receive Social Security won't be getting an annual cost-of-living increase.

Two-thirds of seniors depend on Social Security for the majority of their income. For 15 million Americans, Social Security is all that stands between them and poverty. But not one of these Americans—not one—will see an extra dime next year. Millions of other Americans whose benefits are pegged to Social Security—millions who receive veterans' benefits, disability benefits, and other monthly payments—won't see an extra dime either.

These are tough times—but not for everyone. According to most recent data from the Economic Policy Institute, CEOs at the top 350 American companies received on average a 3.9-percent pay increase last year. That is a lot of money because the average CEO pay at one of the top 350 American companies was a cool \$16.3 million in 2014. On average, they got more than half a million dollars each in pay raises. So CEOs get huge pay raises while seniors, veterans, and others who have worked hard—70 million of them—will get nothing. Why? It is not an accident; it is the result of deliberate policies set right here in Congress.

Social Security is supposed to be indexed to inflation so that when prices go up, benefits will go up, too. But Congress's formula looks at the spending habits of only about a quarter of the country, and the formula isn't geared to what older Americans actually spend. Projections for costs of core goods and services, projections that remove the components of prices that are the most uncertain and erratic, show that inflation is up about 2 percent, but seniors, who usually get a boost on January 1, won't see an extra dime next year, mostly because of falling gasoline prices, which just don't mean as much to millions of seniors who don't commute to work. Meanwhile, seniors who are trying to cover things such as rent and exploding prescription drug prices are left out in the cold. It is all Federal policy.

What about those huge CEO bonuses? They are also the consequence, in part,

of congressional policy. A report released just last week from the Center for Effective Government and the Institute for Policy Studies details how taxpayers subsidized CEOs' huge pay packages through billions of dollars in giveaways, including subsidies such as special tax-deferred compensation accounts and a crazy loophole that allows corporations to write off obscene bonuses as a business expense.

Companies can make their own decisions on how much to compensate their executives, but because of the laws Congress has passed, American taxpayers are forced to subsidize these multimillion-dollar pay packages.

It is time for Congress to make different choices. If we do nothing, on January 1 more than 70 million seniors, veterans, and other Americans won't get an extra dime. While Congress sits on its hands and pretends there is nothing we can do for seniors or vets, while Congress claims there just isn't any money to fix the problem, American taxpayers will keep right on subsidizing billions of dollars' worth of bonuses for highly paid CEOs. It is a choice. Congress can spend taxpayer money subsidizing billions of dollars for bonuses for corporate executives or Congress can use that very same money to help 70 million people who live on Social Security, veterans' benefits, and disability payments. Congress makes the choice.

That is why I am here today, along with a number of my colleagues, to introduce the Senior and Veterans Emergency Benefits Act. The SAVE Benefits Act will give seniors on Social Security, veterans, those with disabilities, and others a one-time payment equivalent to an average increase of 3.9 percent—the same tax-subsidized pay increase top CEOs received last year.

We can increase pay for seniors and vets without adding a single penny to the deficit simply by closing one of the many tax loopholes that subsidize these giant pay packages for executives. In fact, according to the Chief Actuary of the Social Security Administration, closing this loophole will create enough revenue to help seniors and vets and there will still be enough money left over to help extend the life of the Social Security trust fund. This should be a bipartisan act. Nobody wants to see seniors struggle to pay their grocery and utility bills. Everybody should want to extend the life of Social Security.

Both Democrats and Republicans have expressed contempt for this tax loophole. Back in 1993, Congress passed section 162(m)—a Tax Code provision designed to rein in excessive corporate compensation—but the provision includes so many loopholes, most corporations just get around them. In fact, in 2006 Republican Senator CHUCK GRASSLEY said that “sophisticated folks are working with Swiss-watch-like devices to game this Swiss-cheese-like rule.” In 2009 Republican Senator JOHN MCCAIN and Democratic Senator

Carl Levin introduced a bill to shut down access to this loophole for corporate stock options. Just last year, the Republican chairman of the House Ways and Means Committee included reform of this loophole as part of his flagship tax reform bill. So let's just do it. Let's close the loophole, and let's use the money to give seniors and vets the support they need.

Think about what this change would mean. That 3.9 percent is worth about \$581 a year, a little less than \$50 a month. I know that is a rounding error for those top corporate executives who are pulling in an average of over \$16 million each. But Social Security payments average only about \$1,250 a month, and millions of seniors who rely on those checks are barely scraping by. A \$581 increase could cover almost 3 months of groceries for seniors or a year's worth of out-of-pocket costs on critical prescription drugs for Medicare beneficiaries. That \$50 a month is worth a heck of a lot to the 70 million Americans who would have just a little more in their pockets as a result of this bill. In fact, according to an analysis from the Economic Policy Institute, that little boost could lift more than a million people out of poverty.

We all know someone who lives on Social Security—every single one of us. We know family members, a friend, a neighbor, people who worked hard all their lives and who now rely on Social Security checks to get by. Giving seniors a little help with their Social Security and stitching up these corporate tax write-offs isn't just about economics; it is about our values. For too long we have listened to a handful of powerful folks who have had one message: Cut taxes for those at the top, cut rules and regulations that keep businesses honest, and let everybody else fight over the scraps. We have tried that approach, and now we have a retirement crisis. Guaranteed pensions are gone, and 401(k)s and IRAs have been decimated by the stock market. Fewer and fewer people can afford to save for the future. We tried it, and it was a complete failure.

These same powerful folks will tell you there is nothing we can do to help 70 million seniors, veterans, Americans with disabilities, and others who will not see an extra dime this year. They will say we can't afford it. They will say we can't do anything to expand Social Security. They will say we need to gut Social Security in order to save it. They will say all of this, exactly at the same moment that we continue to shovel billions of dollars in taxpayer subsidies out the door for corporations to boost pay to their highest paid executives.

That is the problem. The money is there, only right now it goes to a handful of CEOs because that is where the law written by Congress sends it. But Congress can make a different choice—a choice that reflects our deepest values, a choice to give a boost to 70 million Americans who have earned one, a

choice to lift over 1 million people out of poverty, and a choice to extend the life of Social Security. It is all about choices—millionaire and billionaire CEOs or retirees, vets, and disabled Americans.

I ask my colleagues to support the SAVE Benefits Act. January 1 will be here soon, and we need to make a choice now.

Madam President, I yield to my colleague from Connecticut.

The PRESIDING OFFICER (Mrs. ERNST). The Senator from Connecticut.

Mr. MURPHY. Madam President, I thank the Senator from Massachusetts.

We spend a lot of time here on the floor of the Senate talking about how our States are different. That happens in the House of Representatives where I served as well. But there is one thing that certainly unites all of our States and, frankly, one thing that unites all of the front desks of our Senate offices, and that is this: We have all been flooded with phone calls from the thousands upon thousands of constituents in each one of our districts who are furious that they are going to get no increase in Social Security at the beginning of next year. Despite the fact that prices for virtually everything that fixed income seniors are paying for are going up, they are getting absolutely nothing to try to compensate them for those cost of living increases.

We are hearing from people like Kevin in Bridgeport, who said:

Dear Senator Murphy, I am a lifelong resident of Bridgeport. . . . I am 63 years old . . . living on SSDI due to a rare disease of the spinal cord. . . . Since my only source of income is SSDI, I am concerned about the recent announcement that there is going to be no COLA increase for 2016. If there is anything you can do to reverse this decision, millions of Americans like myself would be greatly helped and greatly appreciative.

Or there is Fred from Wolcott, who said:

I understand the lower gas prices have kept the CPI lower with the result [being] no [Social Security] increase in 2016. Many of us do not drive or drive a limited amount and the lower gas prices do not place additional funds in our pocket.

Meanwhile, the cost of beef, chicken, eggs and milk etc., the things we live on have risen, and have reduced our purchasing power. Many on Social Security have no other form of income.

Adeline of New Fairfield, CT, says:

My husband and I were very disappointed that we did not receive our cost of living raise in our check. . . . Please let that be the last time. With all the medical deductibles and food and clothes and taxes going up, it gets discouraging. . . . We are up in age and not in the best of health and because of that we are unable to get a job. [Social Security is what we depend on.]

These stories can be multiplied millions of times over, and all over our districts. What are we going to do about it? Are we going to sit here, as we do with issue after issue, and offer no response to the millions of our constituents who are telling us that they are going to have trouble making ends meet? Or are we going to make a

choice? Are we going to make a choice to end an unjustifiable loophole that allows corporations to hand over millions of dollars to their CEOs virtually tax-free or are we going to invest in the millions of seniors and disabled across this country who are going to have a hard time living and making ends meet if we don't make the change involved in the piece of legislation that we are announcing today? The SAVE Benefits Act is going to save the lives of seniors who without a cost of living increase are going to have trouble affording medication and food. It really comes at no cost to the corporations that are right now receiving an unjustifiable tax benefit—one that Congress really never intended.

Congress passed and has accepted as part of our tax law for 20 years this provision that doesn't allow companies to take a tax benefit for salaries over \$1 million. It is not surprising that companies found a way around that provision because it exempted performance-based pay. So bonuses and stock options could be handed over with full tax benefit, and that became the standard for compensation packages. All of a sudden it wasn't about salary any longer, and it became about this performance-based pay.

You live in a world today in which there is this perverse system—the more corporations pay their CEOs, the lower their tax bill is.

It is not going to hurt corporations to simply have to pay taxes on the bonuses above \$1 million that they send to their CEOs and big executives. They are going to continue paying their CEOs a lot of money. A lot of them live in Connecticut. I don't have any fear that there is going to be a rapid diminution in the amount of money that CEOs are making, but at least those companies will pay taxes on those exorbitant salaries. We will be able to use that money to make sure that their customers—the people who are buying the goods that these big companies make—actually have the purchasing power with which to enter and be active in the economy.

I guess that is the piece of economics that I will end on here. By putting \$50 more a month into the hands of frail, poor seniors and disabled, you are providing an enormous economic benefit to the economy, because all of that money is going to go into the economy.

Let me tell you what a senior living at or below the poverty line is going to do with \$50 a month. They are going to put it into food. They are going to put it into medicine. They are going to put it into Main Street businesses. The fact is that when you decide instead to subsidize salaries of above \$1 million, that money isn't going back into the Main Street economy. Maybe a portion of it is, but a lot of it is ending up in giant accrued pensions and savings accounts or in offshore investments—not in the Main Street economy.

This is not just the right thing to do for these seniors who are crying out to

every single one of our offices to do something about this unjustifiable lack of a COLA, but it is the right thing to do for the economy at large because the money is going to find its way into all sorts of crevices and corners of this economy that badly need that kind of infusion.

I wish to thank Senator WARREN for introducing this legislation. I wanted to come down to the floor to lend my voice to it and for it on behalf of the hundreds and hundreds of seniors in Connecticut who are contacting and calling our office asking for the Senate to do something.

With that, let me yield to my colleague and friend from Connecticut, Senator BLUMENTHAL.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. BLUMENTHAL. Madam President, I am grateful to my colleague and friend from Connecticut for quoting some of the literally hundreds of letters that both of our offices have been receiving from Social Security recipients and also from veterans in my State. I suspect my colleagues from Massachusetts have been receiving the same letters. I want to thank Senator WARREN for her leadership on this issue but also Senator REED, who joined me some years ago in seeking to close the loophole that is fundamentally undermining not only the fairness but the effectiveness of our Tax Code.

Let's understand what this loophole means to us as taxpayers. The performance pay loophole means that effectively unlimited corporate tax deductions are provided for executive pay. Put aside the issue of whether this pay makes sense or is fair, whether you agree or disagree with these gargantuan amounts. Who should pay for those extraordinary amounts of compensation? This loophole means that you and I as taxpayers are the ones who shoulder at least part of the burden. We do it because the money lost to the Federal Government as a result of this tax deduction must somehow be gained in some other way. Guess where it comes from. It comes from you and me—not from those corporations that can deduct it. It comes from you and me.

Senator REED and I have sought over the years to close this loophole to make sure that the tax-deferred compensation for corporate executives and the performance pay loophole are effectively closed and the Tax Code is made fair. But Senator WARREN has introduced a new and profoundly important element to this fight. And that is this: How should we use the proceeds from closing this loophole? The answer is this: In recognition of the reality that current economic burdens are falling hardest on people who least can afford them—seniors, veterans, and families who depend entirely or in significant part on benefits through Social Security and the VA—should be given the benefit of closing this loophole. Why? First of all, because it is the right thing to do.

The current measures of the cost of living fail to measure the cost of living for them. That is because we don't all buy the same thing. The index or the formula that is used to calculate costs-of-living increases fail to measure the real economic burden on certain groups, namely our seniors and our veterans. You have heard very eloquently and powerfully from my colleagues, from Senator WARREN and Senator MURPHY, about the impact on our Social Security recipients.

I am here as the ranking member of the Senate Veterans' Affairs Committee to say that those benefits affect 25,000 veterans in Connecticut who receive VA compensation for a service-connected disability, more than 2,000 survivors or dependent children who receive VA compensation, and 4.3 million veteran beneficiaries nationwide. They earned their benefits through their sacrifice and service to this country.

This issue is about keeping faith with our veterans and making sure we leave no veteran behind. They earned those benefits through their service as well as sacrifice—sometimes unimaginable sacrifice. They earned those benefits through injury and wounds on the battlefield, and those benefits are necessary to ensure a smooth transition into civilian life for service-disabled veterans and their families who often face enormous and staggering additional costs and a reduced ability to work.

To ensure that these vital benefits correspond to the actual cost of food, housing, clothing, gas, and other basic elements of daily life, the VA is authorized to adjust them—adjust them for inflation—and the index they use is the one that Social Security relies on as well. That is the connection to veterans. And that volatile formula, as I have said, too often fails to reflect the actual cost of living for this group of people, leaving millions of our veterans, as well as our seniors, without a realistic chance to keep pace.

Our disabled veterans deserve better. It is that simple. They deserve better than what is happening to them right now. They deserve real compensation that recognizes rising real-world costs, escalating living expenses that are painfully squeezing them, as well as our seniors, and they deserve a fair raise and a fair choice.

I urge my colleagues to join with us. Close this loophole, make the Tax Code fairer to all taxpayers, and also make sure our seniors and veterans get what they need and deserve, to live with the basic necessities that are essential to them. We need to keep faith with our veterans and make sure the greatest Nation in the world recognizes the greatest of its heroes, our veterans.

I thank the Presiding Officer.

I yield the floor to my colleague and great friend from Hawaii, Senator HIRONO.

The PRESIDING OFFICER. The Senator from Hawaii.

Ms. HIRONO. Madam President, last month the Social Security Administration announced some disappointing news. For only the third time in 40 years Social Security beneficiaries will not receive a cost-of-living or COLA increase in January 2016.

In Hawaii, one out of four seniors relies on Social Security as their only source of income. They are struggling to keep a roof over their heads, pay for medicine, and buy groceries—basic necessities. Many Hawaii seniors have told me their stories about how costs for essential goods keep rising while the Social Security checks do not.

Meanwhile, by contrast—and we heard this from my esteemed colleague the Senator from Massachusetts—the CEOs of the wealthiest companies in America are doing great. The average CEO at America's top 350 companies saw a raise of 3.9 percent just last year. Since the economic recovery of 2009, these CEOs have seen their pay increase by a whopping 54.3 percent. I have nothing against hard-working people, including CEOs, getting a raise. If CEOs came up with a good idea and they are managing a successful company, that is great for them, their companies, and one hopes for the company's employees, but did you know taxpayers are partly footing the bill for CEO pay raises?

The Tax Code today has a “performance pay” loophole that provides tax subsidies for high-level corporate executive compensation packages. That is why I am proud to join Senator WARREN and others in introducing the SAVE Benefits Act. Our bill would provide a modest cost-of-living increase next year, the same 3.9 percent increase our Nation's top CEOs received this year. This would mean an average payment increase of about \$580 for our seniors. This is money that makes a huge difference to all of our seniors. This one-time COLA payment would also apply to veterans' benefits—as my colleague RICHARD BLUMENTHAL just focused upon—Federal disability insurance, and equivalent State or local retirement programs. To pay for this one-time COLA, our bill would close the tax giveaways to the wealthiest CEOs. Closing the performance pay loophole is a bipartisan idea, even supported by the former chair of the House Committee on Ways and Means in his tax reform proposal.

In the long run, we should also modernize the formula Social Security uses to calculate COLAs each year, and that is why I introduced the Protecting and Preserving Social Security Act, which would base COLAs on a more accurate formula of what seniors actually buy, the Consumer Price Index for the Elderly or CPI-E. The CPI-E gives more weight to items seniors actually buy, such as medicine, housing, and home energy costs rather than electronics or clothing that younger workers buy more of. My bill would pay for the CPI-E by requiring millionaires and billionaires to pay the same rate into the So-

cial Security trust fund that everybody else pays year-round. Otherwise, under the current law, once workers earn more than \$118,500 in the year, they stop paying the payroll taxes that support the Social Security trust fund.

I was on the Senate floor last month and shared the story of one of my constituents from with Wahiawa, and it bears repeating. She wrote to me recently and said:

I find it incredible that there are people who actually believe that Social Security is too generous. The average Social Security benefit is a whopping \$14,000 a year, and we've only seen an average 2 percent COLA over the past five years. I can assure you my health care costs have far exceeded that tiny increase.

Congress needs to listen to seniors like her and act to provide this modest one-time increase to help seniors make ends meet in 2016 and to change the way COLA is calculated. I urge my colleagues to join me in letting seniors in Hawaii and seniors all across the country have this one-time boost to their Social Security payments.

I urge my colleagues to cosponsor the SAVE Benefits Act as well as the Protecting and Preserving Social Security Act.

I yield the floor to my colleague from Massachusetts, Senator MARKEY.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. MARKEY. Madam President, I thank the Senator from Hawaii for her eloquent statement on this very important issue, and I thank the Senator from Massachusetts Senator WARREN for once again, as usual, putting her finger right on the heart of a huge issue in our country.

We have seniors, veterans, and SSI recipients across our country who will receive zero this year in terms of an increase in their benefits that they have so rightly earned by their service to our country. What Senator WARREN is essentially saying is, Who really built this country? Who made this great country the place that we live in today? The truth is grandma and grandpa built this country. Grandma and grandpa got up every single day, went to work, built this incredible economy, and now that they are in retirement, grandma and grandpa are being told for the next year they don't get a raise. They don't get anything. They don't get a cost-of-living adjustment. They don't get any increase at all. They built this country. The veterans who are seniors, they protected this country. The veterans who are disabled, they built this country, they protected this country.

What Senator WARREN has done so accurately is essentially point out that there was a big loophole in our laws, and that loophole is a corporate compensation loophole that allows unlimited corporate deductions for executive performance pay.

What have we learned over the last 20 years in America? The rich are getting richer, but the people at the bottom

are not. All this bill says, quite simply, is, Let's have the raise go to the seniors for 1 year. Let's have the raise go to grandma and grandpa. Let's give them a reward for the incredible benefits that have been flowing disproportionately to the upper 1 percentile. Let's give them the 3.9-percent raise. Let's give them the kind of comfort and thanks they deserve for all of their hard work.

What happens too often in Congress is that grandma and grandpa just get forgotten. There is a constant debate over whether grandma and grandpa are getting too much in Medicare, too much in Medicaid, and too much in Social Security benefits. “We must solve that problem,” say too many people here and around the country.

No, grandma and grandpa are not the problem. By their hard work every single day for their entire lives, by getting up, going to work, and creating these great families who make us the greatest country on the planet, they are the ones who created this incredible wealth that we have in our society.

I think we all owe an enormous debt of gratitude to Senator WARREN because she has found a quite brilliant way to frame this debate on the Senate floor and for our country because it really does force us to all step back and ask the question of who contributed the most to our country over the last generation—a small handful of people at the top or everyone in the country who got up every single day who are the people we now call grandma and grandpa. I don't think we should be shortchanging them. I think Senator WARREN's bill is the right way to solve that problem in order to make sure they get what they deserve. I thank Senator WARREN for her great leadership on this issue.

I yield to the Senator from Montana.

The PRESIDING OFFICER. The Senator from Montana.

Mr. TESTER. Madam President, I want to speak on the MILCON-VA bill. We have 1 minute. We are going to take a giant leap of faith that the majority is going to do the right thing by our veterans and by this country. I will vote to proceed on this bill with the hope that Members of this body are finally ready to honor our commitment we made to the veterans of this country.

As everyone knows, for most of the year, the Senate Appropriations Committee was crafting appropriations bills that fit under disastrous spending caps put forward by the majority's budget resolution. As a member of the VA appropriations subcommittee, I was especially concerned that because of the budget resolution, we were underfunding the VA by over \$850 million. This shortchange to our veterans would have been a disgrace.

Back in May when I introduced an amendment in the committee to provide an additional \$857 million to the VA—\$857 million the VA needs to do its job—every Republican on the Appropriations Committee voted against my

amendment. I find it troubling that there are some so quick to send our troops into harm's way but neglect them when they return from war. That is exactly what happened, and we saw an appropriations bill that underfunded veterans health.

The good news is that under the budget agreement we voted on this last week, that Senators in this body supported, we are going to fix the problem. It is now time to show the American people that we can govern responsibly by standing up for our veterans.

With that, I yield the floor.

The PRESIDING OFFICER. The majority leader.

Mr. MCCONNELL. Madam President, I know of no further debate on the motion to proceed to H.R. 2029.

The PRESIDING OFFICER. Is there further debate?

If not, the question is on agreeing to the motion.

Mr. MCCONNELL. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

MILITARY CONSTRUCTION AND VETERANS AFFAIRS AND RELATED AGENCIES APPROPRIATIONS ACT, 2016

The PRESIDING OFFICER. The clerk will report the pending business. The bill clerk read as follows:

A bill (H.R. 2029) making appropriations for military construction, the Department of Veterans Affairs, and related agencies for the fiscal year ending September 30, 2016, and for other purposes.

Thereupon, the Senate proceeded to consider the bill, which had been reported from the Committee on Appropriations, with an amendment to strike all after the enacting clause and insert in lieu thereof the following:

That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for military construction, the Department of Veterans Affairs, and related agencies for the fiscal year ending September 30, 2016, and for other purposes, namely:

AMENDMENT NO. 2764 TO AMENDMENT NO. 2763

Mr. KIRK. Mr. President, I call up my first-degree amendment.

The PRESIDING OFFICER. The clerk will report.

The bill clerk read as follows:

The Senator from Illinois [Mr. KIRK] proposes an amendment numbered 2764 to amendment No. 2763.

Mr. KIRK. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To clarify the term "congressional defense committees")

At the appropriate place in title IV, insert the following:

SEC. . For the purposes of this Act, the term "congressional defense committees" means the Committees on Armed Services of the House of Representatives and the Senate, the Subcommittee on Military Construction and Veterans Affairs of the Committee on Appropriations of the Senate, and the Subcommittee on Military Construction and Veterans Affairs of the Committee on Appropriations of the House of Representatives.

The PRESIDING OFFICER. The majority leader.

SUPPORTING OUR TROOPS

Mr. McCONNELL. Well, amazingly enough, our colleagues across the aisle just voted to proceed to an individual appropriations bill. We have been trying to do this for months. Finally, they have approved going to an appropriations bill. This should not be breaking news, goodness gracious, but it is newsworthy because of what has been going on around here for the last 2 or 3 months. Democrats have repeatedly blocked the Senate from even debating individual appropriations bills. They never had a good excuse, of course, and the excuses kept changing as each previous excuse got debunked, but nevertheless they kept it up month after month. Well, finally that seems to have changed today. Maybe we can assume that this is the end of the filibuster summer, in November, a partisan season of obstructionist Democratic filibustering in which they have blockaded government funding bills entirely—all of them. Nearly every one of those bills was bipartisan.

Our Democratic friends, as they voted for them in committee, would send out press releases praising the bills, and then when they got out here on the floor, they all blocked them. They said no to funding for bridges and infrastructure. They said no to funding for energy conservation and clean water. They said no to funding for absolutely anything at all, especially for our troops.

You know, it is particularly jarring when you consider some of the things written recently by President Obama's own Defense Secretary in an op-ed entitled "U.S. Military Needs Budget Cer-

tainty in Uncertain Times." Here is what this Obama administration Cabinet Secretary said:

While Washington struggles to get its house in order, the challenges around the world continue. China continues its dubious and destabilizing land-reclamation activities in the South China Sea. Islamic State continues its barbarous campaign. Russia continues to violate the sovereignty of Ukraine and pour gasoline on the Syrian conflict. In this uncertain security environment, the U.S. military needs to be agile and dynamic.

This is the Defense Secretary of the President's administration.

What it has now is a straitjacket. At the Defense Department, we are forced to make hasty reductions when choices should be considered carefully and strategically.

This is President Obama's Defense Secretary talking about the necessity for these bills that are being blocked by his own party.

Here is the way he continues in his op-ed. He said:

I appeal to Congress to act on a long-term budget deal—

We did that—

that will let the American troops and their families know we have the commitment and the resources to see them succeed, and send a global message that the United States will continue to plan and build for the finest fighting force the world has ever known.

This is the Secretary of Defense in the Democratic administration. Sounds like he is lecturing the guys on the other side here who are the obstacle.

In spite of these pleas from the Secretary of Defense, we are still unable to get on a defense appropriations bill. One Member of the other side said that funding our troops was wasting the Senate's time—wasting the Senate's time.

We have seen them all filibustered repeatedly. They just did so again this morning. At a time when a vast number of threats face our country, as Secretary Ash Carter alluded to, our colleagues across the aisle actually voted to filibuster the bill that funds our troops and our military one more time. Democrats filibustered for months on end to hold hostage the men and women who voluntarily put themselves in harm's way, for reasons that shifted constantly and had little to do with our troops.

Mr. CORNYN. Will the Senator yield for a question?

Mr. McCONNELL. I will.

The PRESIDING OFFICER. The Senator from Texas.

Mr. CORNYN. Mr. President, I would ask the distinguished majority leader whether he finds it ironic—and perhaps he has a better word than "ironic" to describe the situation we find ourselves in—that three separate times the Democrats have filibustered the funding that provides the resources to our troops to fight our Nation's battles and keep us safe, but then a few short days before Veterans Day, they decide to allow us to finally get on a veterans and military construction bill. I would hope it is not because they had second thoughts about going home on Wednes-

day and giving patriotic speeches about their support for our troops and military but then realizing what a spot they have put themselves in. I wonder if the majority leader shares my view that that is at least ironic, and perhaps "cynical" would be a more appropriate description.

Mr. McCONNELL. Yes, I would say to my colleague from Texas, they were afraid to feel the heat next Wednesday on Veterans Day, having stopped a veterans appropriations bill. Frankly, I hope they still feel a little heat on stopping the Defense bill because the vast number of veterans in our country don't just care about their own well-being after they served, they care about the well-being of those who are still serving.

Mr. CORNYN. Mr. President, will the Senator yield for one additional question?

Mr. McCONNELL. I will.

The PRESIDING OFFICER. The Senator from Texas.

Mr. CORNYN. Mr. President, I would ask the majority leader, having been through what we have been through here in just this last week in establishing spending caps for this year and next in this bipartisan and bicameral Budget Act, if he can think of any possible rationale for the Democrats filibustering the Defense appropriations bill, when, in fact, those spending caps are subject to a law which the President has now signed into law, and which were the subject of this bipartisan, bicameral agreement that passed just last week.

Mr. McCONNELL. Well, you know, as each obstacle has been removed, as each reason for filibustering these bills earlier is removed, they come up with a new one. We obviously last week agreed on how much we were going to spend, so the question of spending has been removed. The 302(b) allocations were completed yesterday. Our friends on the other side said they were happy with them. They are running out of excuses, but the end result is the same: They are still not allowing us to go forward on the Defense bill.

I would say to my friend and colleague from Texas that I heard these conspiracy theories that we had some trick to play here. I made it clear not only to my counterpart the Democratic leader but to other Democratic Senators that there is no nefarious scheme. We thought, all objections having been removed, the appropriate thing to do would be to try—by pursuing regular order, try to pass some of the appropriations bills, given the limited amount of time we have left. Yet they kept on doing the same thing with the exception of the veterans bill. It is a mystery.

The level of dysfunction the other side seems to be promoting is bad for the institution and bad for the country.

The PRESIDING OFFICER. The Senator from Texas.

Mr. CORNYN. If the Senator will yield for a question, I ask the distinguished majority leader if it is still true that in order to accomplish this delusional scheme that our friends across the aisle have somehow dreamed up as a way to block this funding for our troops, even if that were true—which it is not, as you have pointed out—isn't it still true for an appropriations bill to become law it requires the signature of the President of the United States? So it would literally be impossible to do what they have dreamed up in their delusional state when they are accusing us of this sort of a scheme and plan, which is absolutely false.

Mr. MCCONNELL. Yes, my friend from Texas is entirely right. There would be no way—consistent with the Constitution that James Madison wrote—that they would in the end not have some considerable sway over how this episode ends.

What I think it says, more than anything, is how committed to dysfunction our friends on the other side are—dysfunction for the sake of dysfunction. The American people are sick and tired of that. They want to see us do our work like adults, serious adults taking the responsibility we have been given by our constituents to do our very best for this country.

This is the same party on the other side that I remember lecturing everyone else about the dangers of the filibuster. Apparently they weren't very serious because it is obviously their new best friend now. This is the same party we remember bashing legislative "hostage-taking," but apparently they weren't serious about that either because they basically have become experts.

Look, the Democrats may never be able to fully remove the stain of this filibuster summer gridlock gambit from their party's reputation, but they can work with us now to finally start turning the page.

I ask my friends on the other side: When are we going to get back to normal if not now? When, if not now, when we have agreed to all of the contentious parts of the appropriations process. Every excuse has been wiped away. We have settled our own budget agreement. We have agreed on topline budget numbers. We have settled on subcommittee allocations, and we have just proceeded to an individual appropriations bill at long last.

It is time for the appropriations process to finally be allowed to move forward, time for the Senate to finally be able to get back to regular order. It is time for each of us to get back to work, not just because it is the right thing for our country, not just because it is the right thing for the brave men and women who are voluntarily putting themselves in harm's way, but it is the best way for Senators of both parties to have the most say in the process, for the American people to be best represented, with their Members debating

each appropriations bill on the floor with the opportunity for amendments to be offered.

A lot of work went into developing these appropriations bills—the occupant of the chair is on that committee. Most passed the committee with bipartisan support. That was certainly true of the Defense appropriations bill. It passed out of the Appropriations Committee 27 to 3. It was similarly true of the appropriations bill that funds veterans, which passed the committee with bipartisan support. That is the bill we just voted to proceed to.

It would support veterans by funding the health care and the benefits they rely on. It would support military families by funding the housing, schools, and health care facilities that serve them. It would provide support for women's health, for medical research, for veterans suffering from traumatic brain injury. It would do a lot of good in many of our home States too. In my State it would provide funding for design work at a new VA medical center in Louisville, a special operations headquarters at Fort Campbell, and an educational facility at Fort Knox.

The bill would do right by our veterans. We should pass it. With continued cooperation, we can pass it by Veterans Day. Then the appropriations process can continue after we pass this bill. It is obvious why we started with a Defense appropriations bill first. While this morning's filibuster was deeply regrettable, to say the least, we have the option to reconsider that bill and we will. We are going to keep working to ensure its passage.

Look, as we approach Veterans Day, I ask my colleagues to consider this. We have an all-volunteer force in this country. The young men and women who sign up to defend our Nation don't ask for a lot, but our Nation certainly asks a lot of them. These mothers and brothers and friends and neighbors aren't legislative poker chips, and helping them isn't a "waste of the Senate's time." These are Americans who deserve our support. Let's put the past in the past and unite to finally give it to them. Both parties did so in committee a few months ago and both parties could do so now.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

GETTING THE BUSINESS OF THE COUNTRY DONE

Mr. REID. Mr. President, I had the pleasure of listening to the Republican leader's speech a few minutes ago. I understand he has two-thirds of his caucus who voted against the budget agreement and he has to kind of play to his audience. I think the words he used were: We are the party of dysfunction.

All you have to do is read the newspaper to find out that is not the case. The fact is, it has been shown time and time again in recent years the party that is not working is the Republican Party. There is no more evidence of that when you see who is running for President. All you have to do is look and see what happened in recent weeks in the House of Representatives, where the Speaker of the House of Representatives, when asked a week before he resigned: How do you put up with those people over there, and he said: If you are around garbage long enough, you can't smell it.

So let's not talk about us being the party of dysfunction.

The Republican leader has complained about delay. I don't know what kind of glasses he is wearing, we were ready to negotiate in June. We kept saying that over and over again. Right now we don't have anything we can move forward on. Let's sit down and talk. They refused to talk time and time again. We asked for consent agreements. They refused to do that.

Time was marching on. The debt ceiling was fast approaching where, if we had not advanced that, this country would have basically shut down and it would have had a dramatic negative effect on the world economy.

Please, I say to my Republican colleagues, don't talk about delay. We haven't delayed anything. These bills that are going to be in the form of an omnibus, they should have been done one at a time, but you couldn't do it because they were spending everything for defense and nothing for nondefense. So with the budget agreement, as we have said, we wanted to make sure sequestration was taken care of—and it was. Drastic cuts in sequestration are gone for 2 years. We wanted to make sure if there was any increase in defense the middle class got equal parity, and they did. We are satisfied where we are, but the time for casting blame is gone and my friend the Republican leader should stop trying to blame it on us. We didn't do it. We are not the party of dysfunction.

From the very beginning we sought funding levels that were fair to the middle class and to the military. The military is going to get their money. Everybody knows that. The Presiding Officer knows it. Everybody knows it, but it is not a bad deal that the middle class also gets enough to take care of them. Republicans seem compelled, as they did this morning, to once again fund one part of the government they like—the Pentagon—without doing anything for the needs of the rest of the country: the middle class, those people here at home.

We can give a speech just as patriotic as my Republican friend. We believe in the military. They have made great sacrifices for all of us, but we don't need to give great speeches about how patriotic we are. What we need to do is get the business of the country done, and that has not happened. Hopefully,

with this step forward and being on this Military Construction and Veterans Affairs appropriations bill, we can do that.

Democrats opposed the motion to invoke cloture on the Defense bill this morning because Republicans again were compelled to do everything they could for the Pentagon and ignore the rest of the country, but this afternoon we have been willing to move ahead the Military Construction and Veterans Affairs bill. It is the right thing to do. That bill has both defense and domestic matters contained in it. It is a non-controversial bill, and it will give us an opportunity to start the appropriations process. It doesn't seem fair to us that we would rush forward and do the Defense bill, which is more than 50 percent of all the money this country spends in a year—more than 50 percent of the discretionary spending that we have to appropriate.

Now we have a December 11 deadline and we have to fund all the government to avoid a shutdown. So I hope we are considering this Military Construction and Veterans Affairs appropriations bill. The Appropriations Committee will be working together to put together funding—likely in an omnibus—for the rest of the government. Dealing with the Military Construction and Veterans Affairs appropriations bill is a small step to rebuild trust and experience in working together.

Democrats are willing partners to carry out the budget agreement Congress passed last week, but we will continue to fight for the needs of the middle class while we continue to fight and make sure the military is taken care of and also continue to fight poison pill riders.

Mr. President, we have a number of people on the floor. Is anyone seeking recognition?

The PRESIDING OFFICER. The Senator from New Hampshire.

UNANIMOUS CONSENT REQUEST—S. 552 AND S. 966

Mrs. SHAHEEN. Mr. President, I come to the floor this afternoon to ask the Senate to take up and pass two bipartisan no-cost bills that will help small businesses with one of their most urgent needs; that is, access to credit. Specifically, I am referring to Senator Risch's bill to enhance the SBA support for startup firms, which is called the Small Business Investment Company Capital Act, and the bill I have sponsored with Senator ISAKSON, the Commercial Real Estate and Economic Development Act, which is also known as the CREED Act.

Both of these bills have broad bipartisan support. In April, almost 6 months ago, the Senate Committee on Small Business and Entrepreneurship voted unanimously to pass both of these bills. I had introduced the CREED Act with my friend from Georgia Senator ISAKSON to reinstate a new version of a successful no-cost program at the SBA known as 504 refinancing. That program had expired before many of the small businesses that needed

help could benefit. Congress had created this refinancing program during the financial crisis when small business lending was frozen. As real estate values declined, many small businesses, even those that were performing well and were current on their mortgage payments, were unable to refinance their loans through traditional methods. Small businesses with equity in their properties were often unable to access that equity for additional operating capital.

That 504 refinancing program worked. For the short time that it was active, SBA and its loan partners were able to help a lot of those small businesses. More than 2,300 small firms refinanced \$5 billion of small business debt. Unfortunately, the program expired in September of 2012, even though there was still significant demand for this type of financing. In fact, on the last day this program was authorized, more than 400 businesses from around the country applied.

There is still a significant demand for this lending today. We keep hearing from small businesses that they would benefit greatly from this type of financing. In particular, it would help the many small businesses who are paying too much in interest because they took out their loans during the recession. As one lender in New Hampshire said:

During the crisis, businesses took whatever financing they could get. The banks wouldn't commit to long terms. Today the rates are much better, [so businesses holding those loans are paying too much].

Now, while the economy is better and lending to small businesses is starting to recover, many banks today either cannot or will not refinance or renew an existing commercial real estate loan on terms as beneficial as the 504 refinancing loan could.

We know there is real need for this program. We have heard it from small businesses, and we have heard it from groups that work directly with small businesses. I have a chart here that shows a number of those groups we have heard from. The U.S. Chamber of Commerce and the American Bankers Association support the legislation. The National Association of Development Companies; the National Small Business Association; the Consumer Bankers Association; the Small Business Majority; Women Impacting Public Policy, which does so much to support women-owned businesses; the Association of Women's Business Centers; and then we have a whole list of those development companies that support this legislation. I won't read through those development companies, but these are all organizations and businesses that want to see us start this program again because they have small businesses that need this lending.

I have a number of letters here that I will just hold up and show. We have a whole packet of letters, and I ask unanimous consent to have printed in the RECORD these letters.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

GSDC
AUG. 4, 2015.

Hon. JEANNE SHAHEEN,
Committee on Small Business & Entrepreneurship,
U.S. Senate, Washington, DC.

DEAR RANKING MEMBER SHAHEEN: Thank you for introducing S. 966, the Commercial Real Estate and Economic Development Act of 2015 (CREED Act). This bill is important to small businesses in New Hampshire and across the country. It would re-instate the 504 Refi program, a two-year initiative that permitted refinancing of existing commercial real estate debt using the Small Business Administration (SBA) 504 loan program.

We also want to thank the Members of the Senate Committee on Small Business & Entrepreneurship for voting unanimously to pass the bill out of Committee on April 23, 2015. That was three months ago, and we are counting on the full Senate to pass the bill because it is an important source of financing for small businesses. We need to get it up and running again as soon as possible.

The biggest impact of the SBA 504 Refi program is to allow small businesses access to equity in their business real estate thereby allowing the bank and SBA 504 to consolidate shorter term, higher interest rate loans. This directly benefits the small business by 1) lowering interest payments and monthly payments, 2) locking in low rate mortgage payments for 20 years, 3) freeing up working assets (Accounts Receivable, Inventory, FF&E—Furniture, fixtures, and equipment) allowing the business access to working capital to support business growth and the hiring of new employees.

The SBA 504 Refi program is only available to existing businesses that are financially viable with experienced management and all loan payments current. This is not a bailout for big businesses on the brink of collapse but rather a credit enhancement for small businesses with equity in real estate that banks are not willing to leverage without the assistance of the SBA 504 Refinance program. The small business owner is savvy enough to realize the significant benefit of the program and is willing to pay the small fees to cover all costs, if they only had the opportunity.

Below are three specific examples of small businesses that benefited from the SBA 504 Refi program.

1. A building supply company headquartered in Merrimack, NH, that was significantly impacted by the recession with sales decreasing over 30% from 2007 to 2010. The business's \$1,000,000 LOC (line of credit) was demanded by the bank with payment due in full in less than 6 months. The SBA 504 Refinance program allowed the business to access the equity in their real estate by taking out a new 90% LTV mortgage (50% new bank, 40% SBA) providing 1) sufficient funds to pay off the \$1,000,000 LOC, 2) convert short term working capital with higher interest rate to long term lower interest debt with a fixed rate, and 3) free up access to new working capital. The new bank provided a new \$250,000 LOC and a new \$200,000 term loan.

2. A manufacturing company that provides drilling and routing services to high-tech industries located primarily throughout the northeastern United States and has its headquarters located in a 9,620 SF manufacturing facility in an Industrial Park in Salem, NH. The company's original \$575M mortgage required monthly P&I payments of \$4,500 (priced @5.65%) and the SBA 504 Refi program refinanced their mortgage and reduced monthly mortgage payments to approximately \$3,950 creating an annual savings of

over \$6,600. The interest rate on the new mortgage was also decreased to 4.25% with the assistance of the SBA 504 Refinance program. This 504 Refi transaction allowed the Bank to reduce its mortgage exposure to the customer by \$250M, which in turn allowed the Bank to consolidate three term loans and provide a single \$460M term loan, creating an additional \$3,000 yearly savings at a lower interest rate. Finally, debt consolidation and SBA 504 refinance allowed the Bank to grant the customer a new \$50M RLOC for working capital needs to keep the customer operating during the slow winter months.

3. A grocery store located in Littleton, NH. The store carries a full line of grocery store products as well as natural, organic and locally produced goods. With the assistance of the SBA 504 Refi program the business was able to access equity in their real estate and consolidate eight short term mortgages and equipment terms loans totaling \$3,231,000 reducing payments by \$114,000 per year. With this annual savings the business was able to add long term financial stability to costs and free up working capital to allow the business to hire new employees. This business has seen steady growth and is planning to expand in 2015.

There are more small businesses that could use this financing. Please urge the Senate to pass this bill.

Thank you,

CHAMBER OF COMMERCE OF THE
UNITED STATES OF AMERICA,
Washington, DC, Aug. 19, 2015.

Hon. JEANNE SHAHEEN,
U.S. Senate, Washington, DC.
Hon. JOHNNY ISAKSON,
U.S. Senate, Washington, DC.

DEAR SENATORS SHAHEEN AND ISAKSON: The U.S. Chamber of Commerce, the world's largest business federation representing the interests of more than three million businesses of all sizes, sectors, and regions, as well as state and local chambers and industry associations, and dedicated to promoting, protecting, and defending America's free enterprise system, supports S. 966, the "Commercial Real Estate and Economic Development Act of 2015," (CREED Act) which would help provide small business owners with much needed access to capital when attempting to refinance their commercial real estate loans.

Many small business owners are challenged to refinance real estate loans structured as balloon payments and collateralized by devalued assets when the loan matures. Even though the small business borrower may be current on their payments, the financial institution experiencing tightened lending standards and increased oversight by examiners may not have a choice but to either force the business into foreclosure, or take a loss by writing down the loan.

S. 966 would help small businesses and financial institutions overcome these hurdles by allowing small businesses to refinance eligible debt with a Small Business Administration 504 loan, at no expense to taxpayers.

More than ninety-six percent of the Chamber's members are small businesses with fewer than one hundred employees. The Chamber thanks you for introducing S. 966, the CREED Act, and looks forward to working with you on its passage.

Sincerely,

R. BRUCE JOSTEN.

SEPT. 25, 2015.

Sen. BOB CASEY,
393 Russell Senate Office Building,
U.S. Senate, Washington, DC.
Sen. PAT TOOMEY,
248 Russell Senate Office Building,
U.S. Senate, Washington, DC.

DEAR SENATOR CASEY AND SENATOR TOOMEY: On behalf of Northeastern Economic Development Co. in Pennsylvania, I write to share my enthusiasm for S. 966, the CREED Act. This bill was unanimously voted out of the Senate Committee on Small Business and Entrepreneurship in April and has been waiting to be passed by the full Senate for more than three months. The bill is bi-partisan and has zero cost.

I urge you to push for quick consideration of this bill in the Senate and vote in favor it so that Pennsylvania small businesses, and small businesses everywhere, can once again have access to this valuable program.

The CREED Act will reinstitute a program that permits conventional loans to be refinanced with the SBA's 504 loan program. When this refinancing was in place from mid-2011 to September 2012, more than 2,300 small business owners were able to refinance existing equipment or owner-occupied real estate debt. During this economically challenging time, these entrepreneurs refinanced \$5 billion of their own capital to reinvest in their business and create jobs. One of the states to use this program the most was Pennsylvania—roughly \$68 million in loans went to small businesses that refinanced existing loans on essential fixed assets.

While large businesses have equal access to capital as they did before the recession, small businesses still have a tight credit market. This valuable refinancing tool is needed to help America's 28 million small businesses grow. The demand is certainly there—over 400 businesses applied to the refinancing program on its final day, but were left out from participating when it closed. With interest rates at historic lows, reinstituting the refinancing program will give small business owners a once-in-a-lifetime opportunity to lock in a fixed-rate refinanced loan and be able to use those savings to reinvest and grow their businesses. We hope with your leadership, this program will be available to them again.

Thank you in advance for your support of S. 966, the CREED Act, and for your continued support of small businesses.

Sincerely,

STEPHEN URSICH,
Executive Director.

CSRA BUSINESS,
OCT. 26, 2015.

Sen. JOHNNY ISAKSON,
131 Russell Senate Office Building,
U.S. Senate, Washington, DC.

DEAR SENATOR ISAKSON, We the non-profit SBA Certified Development Companies in the State of Georgia, are jointly writing you this letter to thank you for your support and co-sponsorship of S. 966 (the CREED Act) and to ask you to assist in the passage of the bill that is expected to be introduced on the floor of the Senate in the coming days. We as a group unanimously support this legislation which is a badly needed rule change to the SBA-504 loan program that we all operate in our various communities which would allow small business owners throughout our state to tap into the equity in their buildings and refinance debt at our current low historical rates.

This bill was unanimously voted out of the Senate Committee on Small Business and Entrepreneurship in April and has been waiting to be passed by the full Senate for more than four months. As you well know, the bill is bipartisan and has zero cost to the taxpayers.

As one of the lead cosponsors of this bill, you understand the benefits it will provide to small businesses. The CREED Act will reinstitute a program that permits conventional mortgages and other loans to be refinanced with the SBA's 504 loan program if a small business owner can demonstrate sufficient equity and cash flow exists. When this refinancing was in place from mid-2011 to September 2012, more than 2,300 small business owners were able to refinance their owner-occupied business real estate debt.

While large businesses have equal access to capital as they did before the recession, small businesses still have a tight credit market. This valuable refinancing tool is needed to help America's 28 million small businesses grow. The demand is certainly there—over 900 businesses applied to the refinancing program on the final day it was in place. With interest rates at historic lows, reinstituting the refinancing program will give small business owners the same opportunity consumers have had—to refinance into a low fixed-rate loan and be able to use those savings to reinvest and grow their businesses. We hope with your leadership, this program will be available to them again.

It is our understanding that some have suggested that this program be held to accounting standards outside of the current federal budgeting procedure. The process of how the budget is managed is a contentious one and one that should not hold this bill hostage. That issue should be handled through the Senate Budget Committee and not a bipartisan bill that gives small businesses an opportunity to grow.

We know the performance of the loans that were refinanced during the downturn while program was in place, have outperformed OMB projections and the regular default rates on standard SBA loans. SBA implemented credit safeguards by making the program available only to businesses who have been in business two or more years and by not allowing business to refinance debt that has been past due in the year prior to application.

We appreciate your leadership on S. 966, the CREED Act, and ask for your assistance in its passage in the Senate.

Sincerely,

RANDY GRIFFIN, President,
CSRA Business Lending, Augusta,
On Behalf of the Attached.

Mrs. SHAHEEN. The support for this bill is so broad, as indicated by this chart and as indicated by these letters, because the need is so great. There is no reason we shouldn't take up and pass this bill. It has been approved by the committee—the small business committee. It has broad bipartisan support. It is cosponsored by Senators FISCHER, AYOTTE, COONS, CANTWELL, HIRONO, FRANKEN, and CASEY. I thank them for their support, and I thank the small business committee for its work.

Mr. President, like so many of the important bills that go through the Senate, this bill has been paired, as I said earlier, by the chairman of the small business committee, Senator VITTER, with another no-cost small business bill which is authored by Senator RISCH from Idaho. That bill, along with the CREED Act, will provide no-cost solutions that will help small businesses in this country get the credit they need to fuel our growth.

Again, both of these bills passed unanimously out of the small business committee. I believe the time has come

to pass them in the Senate. They have been held up for too long.

At this time I want to yield to my colleague, who is going to talk about the hold problem we have been facing on this bill.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. WYDEN. Mr. President, I would like to be recognized to ask my colleague from New Hampshire a question.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. WYDEN. Mr. President, it has been more than 4 years since the Senate overwhelmingly passed a bipartisan resolution ending the ability of Senators to place secret holds as a way to block passage of legislation and confirmations of nominees. The resolution—which I worked on with our colleague from Iowa Senator GRASSLEY for more than a decade, and Senator MCCASKILL joined in these efforts—overwhelmingly passed the Senate by a 92-to-4 vote. Under the resolution, Senators who object to requests to pass legislation by unanimous consent are supposed to record their opposition by sending notice to the cloakroom and to the Secretary of the Senate, notifying colleagues of their objection. The objection is then listed in the Senate Calendar on a page—I took today's with the title "Notice of Intent to Object to Proceeding."

Mr. President, if you look at the page in the Senate Calendar where holds on bills are supposed to be listed, right now you will find a single entry on the page. It concerns a public hold that I placed on the intelligence authorization legislation last July. I wish I could say the reason that only one objection to a unanimous consent request is listed in the Senate Calendar is that my objection is the only hold placed on a bill in the past few months.

Regrettably, that does not seem to be the case. For example, my colleague from New Hampshire has been talking about her bill, known as the CREED Act, S. 966. It was hotlined back on June 18 to determine if any Senator objected to passing that bill by unanimous consent. An objection was made after the bill was hotlined back in June, but the objecting Senator was not publicly identified as the timely objection was made. My understanding is that Senator SHAHEEN and her staff subsequently learned that multiple Senators had objected to passing her bill by unanimous consent, but not one of those Senators made their objection public through the notice requirements that were part of the bipartisan resolution.

I think it is important to note that Senator SHAHEEN's CREED Act was determined to have no cost to Federal taxpayers. It is funded entirely by fees paid by the borrowers and lenders under the SBA 504 Loan Program. It strikes me as a very good bill that would benefit America's economy.

I gather there are some Senators who might not agree about the value of the

program, which, of course, is their right as Senators. But if they object to passing a bill, Senators ought to be publicly accountable. That is how we voted—92 to 4. They shouldn't be able to hide opposition behind anonymous objection. Senator GRASSLEY and I and Senator MCCASKILL and others have said: Look, public business has got to be done in public. So Senator GRASSLEY and I have publicly announced our holds by putting statements in the CONGRESSIONAL RECORD, and I don't think that Western civilization has exactly been harmed as a result of this kind of transparency and accountability.

I would like to ask my colleague Senator SHAHEEN, given her interest in living up to both the letter and the spirit of the bipartisan resolution, whether it is her intent to state a unanimous consent request at this time to ensure the kind of transparency and accountability that was envisioned in the bipartisan resolution.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mrs. SHAHEEN. I thank my colleague from Oregon for pointing out the fact that people who want to hold up legislation that has broad bipartisan support are supposed to make themselves publicly known. It took us months to figure out who was actually holding up this bill. So I do intend to ask unanimous consent to move the bill forward. I appreciate the Senator pointing out the change we have agreed to as a Senate in how we handle those holds and that the people holding up the legislation should be public so the public understands who is objecting and has a chance to weigh in with the people who are objecting.

Mr. President, with that said, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 104, S. 552, and Calendar No. 107, S. 966, en bloc; that the bills be read a third time and passed; and that the motions to reconsider be considered made and laid upon the table with no intervening action or debate.

The PRESIDING OFFICER. Is there objection?

The Senator from Pennsylvania.

Mr. TOOMEY. Mr. President, reserving the right to object, I want to address the unanimous consent request, and I am delighted to continue the ongoing conversation we have been having about this for many months now with the minority staff on the small business committee and with the office of the Senator from New Hampshire.

I might preface my comments by observing that I used to own and operate my own small business. I helped launch a little community bank in eastern Pennsylvania, western New Jersey. I have some firsthand personal experience both as a small business borrower and as a small business lender, and that experience informs my judgment about this and other things.

I should also point out that this is a unanimous consent request to consider

two bills together en bloc. I have made it clear that I have no objection to S. 552, but I do have some concerns about S. 966 that I want to address.

Let me be clear about what this does. This legislation would reactivate an expired program that requires taxpayers to guarantee certain loans. By the way, taxpayers are already on the hook for over \$3 trillion of loans we force them to guarantee through many different programs. This would bring back to life another taxpayer loan guarantee program. It does it by specifically requiring taxpayers to guarantee loans that would refinance existing debt.

So this particular legislation that we are considering today is about the refinancing of existing debt. It is not taking on new debt for the purpose of expanding an existing business or something like that; it is refinancing existing debt.

As the Senator observed, this would sort of reincarnate a program that was launched in 2010. This was launched in 2010 because we were still in the very early days of recovering from a severe financial crisis. It was designed intentionally to be temporary—to require taxpayers to finance these loans for small businesses but only for this 2-year period. And that is what happened.

Here are my problems with this. I have two problems. One is the cost this imposes on taxpayers. I have heard it described as a no-cost program on several occasions. That is absolutely not true. The fact is that no small business goes through the hassle of applying for and participating in this program unless it can get the loan at a lower rate than what is generally available from banks. That difference between this taxpayer-subsidized lower rate and a market rate is the cost to the taxpayers. You don't have to take my word for it; that is what the Congressional Budget Office said. I will say more on that in a moment. In addition, the parent program that provides similar types of loans has lost \$300 million for taxpayers over just the last several years. How is that no cost?

The second concern I have is that there is no job requirement whatsoever in this particular legislation, unlike the existing program—the parent program, if you will, the 504 program that never suspended. That has an explicit job requirement for additional taxpayer liabilities. This one doesn't. It explicitly exempts the business borrowing this money from having to create or even retain so much as a single job.

So I would like to modify the unanimous consent request, and my modification does three things: No. 1, it allows the resumption of the program. That is the first thing it does. It allows this program to resume, which is the intention of the Senator from New Hampshire, I believe. But what it also does, after 1 year of resumption, is require that we begin to have some taxpayer protections on this. Specifically,

the form that would take would be to require the Office of Management and Budget to certify that the program doesn't cost money on a fair value basis. The fair value basis is taking into account the fact that not all credits are equal. For instance, the corner pizza shop is not as creditworthy as the Treasury of the United States of America. So a true cost of a loan differs between that which you would extend to the Treasury of the United States of America and the local pizza shop. If you don't have a differential between those two, then someone is getting the wrong rate. And if you lend to the pizza shop at the same rate you lend to the Federal Government, you are surely not being compensated adequately for the risk you are taking.

So this methodology, the fair value methodology, is the same one we use when we quantify the cost of the TARP program, when we quantify the cost of GSE guarantees, and when we quantify IMF liabilities. That is what I am suggesting we use.

The Congressional Budget Office has weighed in with their views on fair value accounting, and they said:

When the government extends credit, the associated market risk of those obligations is effectively passed along to taxpayers, who, as investors, would view that risk as having a cost. Therefore, the fair-value approach offers a more comprehensive estimate of federal costs.

That is the second thing we do. First, we extend the program and allow it to resume. Secondly, we impose fair value, which is to say an honest assessment of the true cost to taxpayers. Finally, my suggestion is that we enact the very same jobs test that the parent legislation—the alternative, similar legislation, the 504 program—requires, and that is, for every \$65,000 of new risk that taxpayers are being forced to take, let's at least make sure we are creating or retaining at least one job. Think about the alternative. Someone could go out and refinance an existing loan at a lower rate because the government—the taxpayers—is subsidizing the rate. They could use the savings to buy automation equipment and actually eliminate jobs. How could that make any sense at all?

My modification would restore the program, would provide some protection to taxpayers, and would require job creation in the process.

I ask that the Senator modify her request, that the bills be passed en bloc, and that my amendment to S. 966, which is at the desk, be agreed to.

THE PRESIDING OFFICER. Will the Senator so modify?

Mrs. SHAHEEN. Reserving the right to object to the modification, let me point out that Senator TOOMEY's objection to this bill is not only wrong, it is inconsistent. The Senator is not objecting to Senator RISCH's bill, S. 552, which is also being considered today. He not seeking to amend it, even though it would increase small business assistance and also require taxpayer guarantee.

We have also recently passed bills that increase small business assistance, including Senator VITTER's disaster legislation and an increase to the cap for the SBA 7(a) Loan Program. The fact is that the amendment Senator TOOMEY is proposing is really not a compromise. Let me take a few minutes to explain why.

This amendment would essentially gut the pre-legislation, the 504 refinancing program, and it would prevent it from ever helping small businesses.

I appreciate Senator TOOMEY's experience as a small business owner. My husband and I started out our married life as small business owners. We had a family business. It did very well by us. I learned a lot about the challenges facing small business. One of the major ones is access to credit.

What Senator TOOMEY is talking about would single out this legislation and gut the intent of this legislation, and that is not what small businesses need.

I want to read a letter that we received from nine lenders—the nonprofit SBA certified development companies in the State of Georgia that worked with this program—about their assessment of what Senator TOOMEY is proposing. They say:

It is our understanding that some have suggested that this program be held to accounting standards outside of the current federal budgeting procedure. The process of how the budget is managed is a contentious one and one that should not hold this bill hostage. . . . We know the performance of the loans that were refinanced during the downturn while [the] program was in place have outperformed OMB projections and the regular default rates on standard SBA loans. SBA implemented credit safeguards by making the program available only to businesses who have been in business two or more years and by not allowing businesses to refinance debt that has been past due in the year prior to the application.

That is the end of the quote from the letter, and it was submitted as part of the package of letters I submitted earlier.

What Senator TOOMEY's proposal would do is single out this program and make it subject to a budget standard that would artificially raise the cost of programs meant to help small businesses, farmers, students, and so many others get access to credit.

I understand the Senator from Pennsylvania wanting to change budget rules for credit programs. Certainly, if he has a concern about that, he should try to do that. I am happy to have that debate. But this isn't the right place to do it. We shouldn't be holding small businesses hostage.

The Budget Committee recently started a series of hearings on budget reforms, and I think that is the right venue for this discussion.

I would point out that Senator ENZI, who chairs the Budget Committee, voted for this legislation. He was part of the vote in the Small Business Committee that passed this legislation.

I would also like to note that the CREED Act, as passed by the com-

mittee, was supported by a number of organizations from the Commonwealth of Pennsylvania.

I will quote again from one of the letters we received from one of those lenders from Pennsylvania, NEDCO. They said:

I write to share my enthusiasm for the CREED Act. . . . I urge you to push for quick consideration of this bill in the Senate and vote in favor of it so that Pennsylvania small businesses, and small businesses everywhere, can once again have access to this valuable program. . . . While large businesses have equal access to capital as they did before the recession, small businesses still have a tight credit market. . . . With interest rates at historic lows, reinstituting the refinancing program will give small business owners a once-in-a-lifetime opportunity to lock in a fixed-rate refinanced loan and be able to use those savings to reinvest and grow their businesses.

The letter goes on. That is just one lender. Across Pennsylvania, the program had a big impact while it was up and running. In fact, Pennsylvania was the 12th most active State, with more than \$64 million in loans and more than 1,700 jobs supported in about the 18 months of the program.

We did amend the bill in the Small Business Committee to address some of the concerns from Republican Members about its budget implications. Those changes have been made. They have been vetted by our committee. But now, after months of delay, Senator TOOMEY has proposed an amendment that is not a good-faith effort at compromise, from my perspective, that would effectively prevent the program from ever helping small businesses that we need to help.

For all of these reasons, I object, and I would again ask unanimous consent to take up and pass both bills as reported by the committee of jurisdiction.

THE PRESIDING OFFICER (Mr. CASIDY). Objection is heard to the modification.

Is there objection to the original request?

The Senator from Pennsylvania.

Mr. TOOMEY. Mr. President, reserving the right to object, I am a little surprised and disappointed to be accused of not operating in good faith when I attempted to reach a compromise by allowing one of these two bills to go exactly as the proponent advocated.

I would be happy to extend fair value accounting treatment to the Risch bill as well. The Senator from New Hampshire is concerned about consistency. Let's consistently apply honest accounting for the risks we are imposing on taxpayers. And to think that is not an appropriate conversation to have at a time when we are asking taxpayers to take new risks—I don't know what better time there could be, especially after we have saddled taxpayers with over \$3 trillion of guarantees that they have been obligated to already.

If somehow my modifications would make it impossible to make the loans,

that should tell us something about this program. In other words, if we say that they can't proceed with a loan if a fair and honest accounting, as prescribed by CBO, shows it to be in a loss, then apparently they are concerned about the program being at a loss—as well they should be since the most closely related program has lost hundreds of millions of dollars for taxpayers.

So I think this is exactly the time to have this conversation. We have been having this conversation for months with the Senator from New Hampshire's staff and the small business committee's minority staff. If we can reach an agreement on this, as I said before, I am happy to allow this program to resume, but it should be done in a way that it actually creates jobs and actually does provide some protection to taxpayers. So since we can't agree to that today, I object.

The PRESIDING OFFICER. Objection is heard.

The Senator from New Hampshire.

Mrs. SHAHEEN. Mr. President, I understand Senator TOOMEY has objected to my unanimous consent request, but I do think it is important to point out that in fact the amendment he has proposed would essentially undermine the program. That is why I say that is not an amendment that is a real effort to improve the bill. In fact, it is not being offered on any other of these kinds of programs—didn't offer it on Senator VITTER's legislation, on increasing the SBA 7(a) program cap.

If that is a conversation he wants to have as a member of the Budget Committee and for the Budget Committee to start talking about that, that is very appropriate, but that should not undermine the efforts of small businesses to get the lending they need. In fact, this is a program that has a history. It has a history that shows that it has a lower default rate than other SBA loan programs. In Pennsylvania alone, it created 1,700 jobs during the time it was in effect.

So I think there is the possibility to get to some agreement, even though we have already made some reforms to this bill in committee, but I don't think gutting the program in a way that makes it ineffective is the way to do that.

I yield the floor.

The PRESIDING OFFICER. The Senator from Michigan.

Ms. STABENOW. Mr. President, first, I thank the senior Senator from New Hampshire for her advocacy for small business. We work together on a number of different small business issues dealing with capital, and I appreciate her advocacy. Her partnership has helped us in Michigan on some very important things on which I hope we are going to be able to move forward, so I thank her.

AFFORDABLE CARE ACT

Mr. President, I want to speak today about the importance of having access to quality, affordable health care. The

Affordable Care Act has fixed a lot of what has been wrong with our broken health care system in the past. We no longer have to be afraid of someone in our family getting sick and being dropped from our insurance plan. Being a woman is no longer viewed as a pre-existing condition. Young people are able to stay on their parents' plan while they are looking for a job with full health benefits. That has certainly affected people in my family, as I am sure everyone in the Chamber and certainly those across the country have felt this, as they are supporting young people who are moving from high school or college and looking for a job. And we are slowing the growth of health insurance premiums. And, as we have this first week of open enrollment and Americans are heading to healthcare.gov to sign up and get covered, we know we now have 17.6 million more Americans enrolled in the Affordable Care Act who know that if the kids get sick tonight, they will be able to make sure they can go to a doctor and get the health care they need. If they themselves get sick, they won't just be relying on emergency rooms, which are the most expensive way to get regular health care. They will have the peace of mind of knowing they are covered if there is cancer discovered or if there is an accident or something else happens in their family.

According to the Centers for Disease Control, the number of people who are uninsured has fallen to 9.2 percent. I would like to see that still lower, but the good news is that it is half of what it was just 2 years ago. So in 2 years we have seen the number of people without health insurance cut in half—I think that is good news—even before the opening of the marketplace and State exchanges.

Thanks to the ACA, the rate of uninsured children dropped to 6 percent last year, which is the lowest in history. We have the lowest number of children who are now in a situation where they don't have health care coverage. Unfortunately, just as Americans are reviewing their options right now during the open enrollment period, Republicans are looking to pull the rug out from under these children and their families.

A few weeks ago Republicans in the House passed what is called a budget reconciliation bill that essentially, bottom line, guts the Affordable Care Act, removing major provisions that help families get access to quality affordable health care coverage. According to the nonpartisan budget office, the bill on the whole “would increase premiums . . . by roughly 20 percent above what would be expected under current law” and cause 16 million people of the 17.6 to lose health insurance. Why in the world would we want to pass this bill? I don't know why in the world the House wanted to pass this bill, but why in the world would we want to pass a bill that will roughly increase premiums by 20 percent above what they otherwise would be and

knock 16 million people off their health insurance? Unfortunately, we are going to have that bill in front of us very shortly. I hope we are all going to vote no.

Of those who lose insurance, up to 20 percent of them—over 3 million—are children. After achieving the lowest rates of uninsured children in history, we are going to have in front of us a bill that would require elimination of 3 million children from being able to get health insurance.

The bill also eliminates the Prevention and Public Health Fund. As they say, we know that an ounce of prevention is worth a pound of care. It is much better to focus on healthy outcomes, to focus on reducing obesity, diabetes, heart disease, strokes, and all of those things that allow us on the front end to do prevention and public health and wellness rather than picking up the pieces. It would eliminate that thought.

In Michigan these funds have been used to help prevent tobacco use and to promote awareness of the importance of children getting immunized against debilitating and deadly diseases, to name just a few things. Critically important, the House bill strips funding for Planned Parenthood. The budget office again estimates that up to 25 percent—one out of four—people currently being served by clinics for preventive health care would face reduced access to care. It makes absolutely no sense to roll back preventive health care for women, to roll back prevention that allows us to create opportunities for people with information and tools they need to be healthy rather than getting diseases down the road. Certainly, it makes no sense to raise premiums by 20 percent or to see 16 million people lose their health care.

I hope when that budget reconciliation bill comes before the Senate that we will say no and allow millions of Americans to continue to have the peace of mind of knowing they will have access to the medical care they need for themselves and their families.

I yield the floor.

The PRESIDING OFFICER. The Senator from Utah.

F-35 PROCUREMENT

Mr. HATCH. Mr. President, I rise in strong support of the current plan to procure around 2,500 F-35s for our men and women in uniform.

Recently, I understand the chairman of the Armed Services Committee called upon Congress to cut the number of F-35s our Armed Forces will produce. Usually, I fully agree with the chairman's astute assessment of national security matters. In fact, I think he is a terrific chairman. In particular, I applaud his vital work in drawing attention to this administration's lack of effective strategies to eliminate the current threats posed by the Taliban, Al Qaeda, and the so-called Islamic State.

Nevertheless, I must respectfully disagree with his call to reduce the number of F-35s to be acquired by our Nation's military. In doing so, I reiterate my full support for the existing program of record, which calls for the procurement of 1,763 F-35s for the Air Force, 420 for the Marines, and 260 for the Navy.

As we assess the question of F-35 procurement, we should remember how the Department of Defense determined the number of aircraft it would purchase in the first place. I can assure you, this decision was neither hasty nor taken lightly. The Pentagon based its estimates on a thorough review of our Nation's airpower readiness and the capabilities needed to deter and defeat future threats to our national security. The Department's procurement request doesn't reflect an arbitrary estimate but the number of F-35s needed to keep our Nation safe.

If we reduce the number of F-35s to be acquired by the military, we hamstring our own ability to defend ourselves against America's enemies. Despite the formidable war-winning capabilities of the F-35, this weapon system cannot be in more than one place at once. One F-35 aircraft cannot simultaneously deter Russian aggression in Eastern Europe, patrol free waters in the South China Sea, target the Islamic State of the Middle East, and provide critical air support for our allies in Afghanistan. With every aircraft we cut, we are spreading our defenses thin, putting our national security at risk, and limiting the ability of our men and women in uniform to complete their mission.

Now is the worst time imaginable to limit production of the F-35. Not only does the quantity and magnitude of threats facing our Nation continue to increase, so does the number of locations from which these threats emanate. Moreover, when the Department of Defense made the initial assessment for F-35 procurement, we did not face the exponential growth of threats which continue to metastasize under the Obama administration's failed foreign policy. In this sense, the military's request to procure just under 2,500 aircraft is not only reasonable but actually highly conservative.

As some of my colleagues discuss reducing the number of F-35s we provide to our Nation's military, they should remember to consider the economies of scale. With every single aircraft we cut, the individual cost of each F-35 actually increases, but if we keep current procurement levels the same, the price of each aircraft remains the same. We should be actively looking for ways to lower costs, not raise them.

Thanks to the hard work and dedication of the F-35 Joint Program Office, its program executive officer, Lt. Gen. Christopher Bogdan, and its industry partners, we are finding ways to drive down costs and make the F-35 more affordable. They are doing a terrific job. In fact, the pricetag for the F-35 in our

country is actually decreasing. Currently, each aircraft costs roughly \$104 million to produce, but with the projected purchase of over 3,500 jet fighters worldwide, I believe that price will continue to fall.

At full production, the price of the F-35 will be comparable to the cost of new versions of the aircraft it is designed to replace; namely, the F-16 and the F/A-18, which raises another question. Why is it vital to replace our aging aircraft with the F-35? Why don't we just purchase new and improved versions of aircraft which are already in the fleet? The answer is simple. No matter how many improvements and modifications we make to the design of the A-10, F-16, and F/A-18 aircraft, they will never be stealth aircraft, nor will they ever match the capabilities of a fifth-generation jet fighter.

Stealth technology is absolutely critical to the future of our Armed Forces. Stealth fighters are the only aircraft capable of penetrating airspace protected by advanced area denial anti-aircraft systems. Both Russia and China are developing these advanced anti-aircraft systems, and both nations appear willing to sell their technology to potential adversaries, including Iran. Because of Russia's propensity to proliferate weapon systems to rogue regimes and China's startling advancement in technology to include the J-31 stealth aircraft and the PL-15 air-to-air missile, it is all but inevitable that our forces will routinely encounter these sophisticated systems in both the near- and the long-term. Because stealth technology is the most effective means of defeating these anti-aircraft systems, we hold a solemn duty to our servicemembers to provide them with the superior capabilities of the F-35.

I will not deny that the F-35 has had its fair share of problems. Its development program was not well-planned, and along the way there were abundant technical hurdles, cost overruns, and program execution concerns, but as is the case in the development of any breakthrough technology, setbacks are not only probable, they are expected. What matters now is how we react to these setbacks to make the program a success.

We have now rounded the corner and are on the cusp of fielding the most remarkable strike aircraft ever developed. The F-35 will help our Nation reclaim its technological edge at a critical time. Our enemies have been working tirelessly to match our military might, and they have made significant progress in achieving parity with our current technology systems, but the F-35 will widen the technological gap once again. Its superior capabilities will put us far ahead of our adversaries, and we can stay one step ahead by keeping procurement numbers for the F-35 at their current levels.

In all of my years of public service, the F-35 is the most impressive weapon system I have ever seen. I am con-

vinced this platform will give our Air Force, Navy, and Marine aviators the military advantage they need to protect us against tyranny, deter our foes, and protect our cherished liberties for years to come. I urge my colleagues to support this program, including the military's initial procurement request.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. MCCAIN. Mr. President, I ask unanimous consent to be recognized as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MCCAIN. Mr. President, what is the business before the Senate?

The PRESIDING OFFICER. The Senate is considering H.R. 2029.

Mr. MCCAIN. Which is?

The PRESIDING OFFICER. The MILCON-VA appropriations bill.

DEPARTMENT OF DEFENSE APPROPRIATIONS
BILL

Mr. MCCAIN. Mr. President, we are now considering the MILCON-VA appropriations bill. Obviously, anything we do for our veterans is something that is laudable to all of us, but earlier a very interesting vote took place in the U.S. Senate, when the Department of Defense appropriations bill which funds the appropriations for the Department of Defense for the fiscal year ending September 30, 2016, and for other purposes, et cetera—in other words, the Defense appropriations bill which provides for the training, the equipment, the pay, the medical care, all of those vital necessities for the men and women who are serving in the military—a sufficient number of my colleagues, I believe all but one on the other side of the aisle, decided to vote against moving to that legislation.

I want the record to be clear, all but one of my colleagues on the other side of the aisle, as I understand it, voted against moving to the legislation which provides the funding for the defense of this Nation and the men and women who serve it—items that are vitally important to the men and women who are serving, items such as military personnel. The committee recommends \$3 billion for pay allowances and other personnel costs for Active Reserve and Guard troops activated for duty in Afghanistan and other contingencies, counterterrorism partnership funds, a money provision that recommends \$300 million for the Ukrainians who are now being dismantled by Vladimir Putin. The committee, as I mentioned, recommends money for pay allowances and other personnel costs for Active, Reserve, and Guard troops activated for duty in Afghanistan and other contingency operations. The recommendation includes funding for subsistence, permanent change of station, travel, and special pays, including imminent danger pay, family separation allowance, and hardship duty pay.

I will have some other selections, but I think the American people ought to know what my colleagues on the other

side of the aisle just voted against. They voted against paying allowances and personnel costs for the Active, Reserve, and Guard troops activated for duty in Afghanistan, including funding for subsistence, permanent change of station, travel, and special pays, including imminent danger pay. We won't fund the men and women serving in imminent danger. We decided not to fund them. That is amazing—truly amazing.

One of the programs in here is the Counterterrorism Partnership Fund. There is item after item listed here. These appropriations are for the men and women in the armed services. These appropriations include their pay, their benefits, their weapons, and their means to carry out their duties in dangerous times.

Other programs in here include countering violent extremism online, the European Reassurance Initiative, and, as I mentioned, Ukraine and counterterrorism. All of these provisions are contained in probably what is the most important obligation that we have. I don't know of a greater obligation that we have to the American people and the security of the Nation. If there is any doubt about what is going on in the world, one might just want to look back at what happened in the last couple of days—the loss of a Russian airliner under very suspicious circumstances, the continued pouring of weapons and capabilities into Syria by the Russians and Iranians, and the continued gains made by ISIS in many parts of the world, including even as far away as parts of Africa and Afghanistan.

Do any of my colleagues know of the strategy that the United States has to address these issues? They can't because there is none. But here we are doing our duty—our constitutional obligation—to provide for the men and women who are serving and defending this Nation. And for obscure reasons—perhaps the Democrats, my colleagues and friends on the other side of the aisle, will come to the floor and explain why they would not go to a piece of legislation that protects this Nation and the men and women who serve it.

I am sure that in about 6 days—I believe it is—on November 11, Veterans Day, every one of my colleagues, like me, will go and be part of the celebration of the men and women who served and sacrificed.

What do you have to say about the men and women who are now serving? What you just did was to vote to not fund, train, equip, and defend these men and women, and without this, their lives are in greater danger. So don't go back and say that you are doing everything you can to defend this Nation. You are not.

Right now we have a very turbulent political situation in America. We have people who are now leading in the polls and perhaps have never held public office. The approval rating of Congress is at 12 percent or lower, and sometimes I

hear some of my colleagues wonder why we are held in such low esteem. If we can't even fund the men and women in the military and take care of their needs, who in the world will we take care of?

I believe the Republican leader voted in a way so that we can reconsider the vote. We need to reconsider the vote. We need to vote, and we need to be on record that we have done our barest of duties—our fundamental duty as elected officials, which is to ensure the security of this Nation.

Right now my colleagues on the other side of the aisle who voted not to move forward with this legislation have a lot of explaining to do on Veterans Day—a lot of explaining to do as to why they wouldn't take up the legislation that takes care of their change of station, their pay, their benefits, and takes care of their health care. It is all in this legislation, and yet my colleagues, for reasons which I do not understand, did not vote to take up this legislation.

I say to my colleagues on the other side of the aisle: Where are your priorities? Where are they? Is it somehow to gridlock this legislation because you want a certain piece of legislation brought up instead of this one? Is it for some other obscure reason or is it because you don't give a damn?

This is an embarrassing time for me in this body, when we have enough Senators to prevent us from taking up what are our barest minimal requirements of our obligations, which are to provide for the defense of this Nation and the men and women who serve it. It is foolish, cynical, and dangerous to hold defense legislation hostage until every one of their political demands is met simply because of that.

Veterans Day is 1 week away. I urge my Democratic colleagues to stop treating our national defense as a tool for extracting political leverage. Let's return to the bipartisan tradition of providing for the common defense. That is what the men and women serving in the military deserve and require from us, it is what Americans expect from us, and it is what the Constitutional demands of us.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. CARPER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

TRANSPORTATION AUTHORIZATION BILL

Mr. CARPER. Mr. President, it is always a pleasure to spend these late afternoons—sometimes Thursday afternoons—when the current Presiding Officer gets stuck presiding, when I come to the floor to talk, yet again, about funding—paying for—these roads and highways, bridges and transit systems that we use. I thank the Chair for being here. As I look around, some-

times we have more than a few folks on the floor, but I think a lot of people are headed for home on Thursday afternoon when we have no more votes.

Looking back over the last several days, there are actually a couple of things to feel good about. Last week we passed very important legislation improving the strength of our cyber defenses and our ability to fend off some of the 24/7 attacks that are being visited on financial institutions, on our military, on colleges and universities, on research operations, and on businesses in our country. I am very proud of the bipartisan work we did on cyber security, information sharing, and some of the new technologies that are being deployed to help fend off attacks from the bad guys around the world. I felt very good about that.

Not everybody likes the 2-year budget agreement that has been worked out in rough form. But I like to say about a friend, when you ask him how he is doing, he says: Compared to what? The idea of living from week to week, not knowing if we are going to have to shut down the government, continuing to spend enormous amounts of human time and capital getting ready for a shutdown and hoping it won't happen but preparing for the worst and having to do that month after month—I think we have, for the most part, said we are not going to do that for the next 2 years. Whether one likes every morsel or portion of the budget deal, I think we can pretty much all say: Compared to what? Well, it is better than the path we were on.

Today, as we prepare to take up over the next couple of weeks transportation policy for our country and transportation funding to fund that policy, there is the late-breaking news this morning from the House of Representatives that they have taken a very modest transportation bill including authorization—it is probably a two-part deal where we actually authorize transportation policy and then we try to figure out how to pay for it.

Too often in the past we have decided to pay for it by bailing out the transportation trust fund. The legislation we passed and I voted against here in the Senate last month on transportation—during the last Congress I chaired the Senate subcommittee on transportation infrastructure. I am I think the No. 2 Democrat on the Environment and Public Works Committee. I am a former Governor. I spent 8 years as Governor in my own State of Delaware. We focused on transportation infrastructure. I chaired the National Governors Association for a year. So I have looked at these issues nationally as well as a Governor.

But if we look at the authorization bill—again, that is one of the two parts of our legislation, to authorize programs. A lot of what we did in the Senate, coupled with what they did in the House, was pretty darn good. I was very proud of it. I want to give shout-outs to some of my colleagues, including Senator BOXER and Senator INHOFE.

I don't always think of them as two people who work well together, but on transportation and infrastructure, they do. They provide very good leadership, and they were good enough to let the rest of us join in. I think we had a good policy or set of policies that we can be proud of. I will just run through a couple of them here, using of this chart.

I have made a big focus on freight transportation. It is not just people who use roads, highways, bridges, and transit to get places, but we move an enormous amount of freight in this country. We move it on barges—actually, I don't know how many people think of that—or ships. We move a fair amount on airplanes. We move a fair amount on trains. We also move a great deal of our freight by roads, highways, and bridges.

The legislation we passed out of the Environment and Public Works Committee on I believe a unanimous vote makes good progress on the freight transportation side, trying to make our roads, highways, and bridges more reliable, more affordable, and more efficient. That is good.

The legislation we passed out of committee, which I think is mirrored in the House Transportation bill, is that we prioritized bridge safety. I think something like one out of every four bridges in our country, deemed so by people a lot smarter than me, are not safe. So in our legislation, we focused on bridge safety and we focused on large facilities, large projects of national importance—not little projects but big ones of national importance, regional importance.

The Transportation authorization legislation from the House and from the Senate also increases baseline funding and funding for public transportation. And it focuses on clean air funding toward the most dangerous diesel emissions to increase the bang for the buck, if you will. If you ever go by road projects, highway or bridge projects and transit projects, you will often see this yellow equipment that is almost always powered by diesel, and they put out—those vehicles put out a lot of pollution. We provide some money here in the authorization legislation to say that can't be good for us. It can't be good for the people who work around there and live around there. Let's see if we can't get some reduction in those emissions.

The other thing I liked about our authorization bill is research grants that go to States to see if we can't find a better alternative to user fees, which we have historically traditionally used, and to eventually replace the gas tax or something that makes more sense. It could be something called a road user charge, it could be tolling in conjunction with public-private partnerships, but just to look at the alternatives to user fees like the gas tax and diesel tax, which has not been raised for 22 years.

Let's see what we have next. The last time we raised the user fees in this

country—part of me wishes I could be doing this speech surrounded by former Presidents who have supported the use of user fees. I think we go back a long time, actually, when I was a little kid, before the Presiding Officer was born. Dwight Eisenhower, the President who brought us the State highway system, was an advocate of user fees. Since then we have had other Presidents—let me think of another President who thought that was a—Bill Clinton thought user fees were appropriate. I want to say George Herbert Walker Bush might have been one who thought that things that are worth having—that folks who use our roads, highways, and bridges ought to pay for it. I think there might have been one more. Ronald Reagan supported that notion as well. So in a bipartisan way, Democrats and Republicans have said for a long time that if we really want to have a better transportation system, we have to pay for it.

The idea is that folks who use that system and the businesses that use that transportation system have some responsibility to pay for it. That has been the way we have done it for a long time. Maybe someday, when we have the ability to do these vehicle-miles-traveled deals, where we don't have to worry about privacy concerns, figure out how many miles every car, truck, van in the country travels and be able to assess a user fee—I don't know if we are going to be able to do it. We have been trying for a long time. Maybe somebody will be able to do it, but concerns have been raised about doing that as well.

Anyway, since 1993, what has been happening? Maintenance costs continue to rise. We raised the gas tax in 1993 to 18.3 cents per gallon. We raised the Federal tax on diesel to I think 24.3 cents. What has happened in the last 22 years, believe it or not, is the cost of concrete has gone up a lot. The cost of asphalt has gone up a lot. The cost of steel and the cost of labor has gone up a lot. And the gas tax and the diesel tax have stayed right where they were 22 years ago.

The gas tax has lost almost 40 percent of its purchasing power—18.3 cents in 1993 is today worth about a dime. I think the 24.3 cent diesel tax is now worth somewhere between 10 and 15 cents. We have done nothing about it. We have not even been willing to consider indexing these user fees to the rate of inflation.

Has the highway trust fund eroded? Not everybody knows we have a highway or transportation trust fund. We do. Not everybody understands it is largely fed by user fees. Not everybody understands that when we run out of money in the transportation trust fund, we have to—if we are going to still build roads, highways, bridges, and transit systems, we have to do something about it. What we often-times do is we move money from the general fund for our country and move that money over to fill up the trans-

portation trust fund or the highway fund. When we run out of money in the general fund, we go around the world with a tin cup in hand and borrow money from all kinds of people, including the Chinese. We say: We would like to borrow some money from you, and, by the way, we don't want you to be mucking around in the South China Sea and all those other places where I used to fly around. We don't want you to be inflating your currency. We don't want you to be dumping your stuff on the American markets.

And the Chinese say: Well, we thought you wanted to borrow money, so get off our backs.

We don't want to be in that situation.

There is a growing need for road repair, as I mentioned earlier. One out of four bridges is bad. Two out of every 10 miles of highway surfaces are not good.

We have vehicles that are more fuel efficient. That is a good thing. We adopted CAFE legislation, and Senator FEINSTEIN was good enough to let some of us help her write that. But probably over the next 10 years or so we are going to continue to require more energy-efficient vehicles.

There has been a reduction in the annual miles driven. A lot of the millennial generation don't want to have a car. I remember as a kid growing up—maybe the Presiding Officer growing up couldn't wait to have and drive a car. That sure was my generation.

We have an aging system that needs to be addressed. In the face of congressional inaction, what have we done to pay for our transportation system? Well, we use budget gimmicks. We are pretty good at pension smoothing. Our pensions must be pretty smooth, because we have used that. We have used unrelated offsets to pay for some. Say, for example, monies that go to TSA to supposedly provide for safer travel in our airlines and airways, we are going to use that money instead to go into transportation—money that should be used to strengthen our ability to monitor traffic coming across our borders, a lot of vehicular traffic, a lot of trade. We are going to raise those Customs fees, but we are not going to use it to build up our defenses along our border and other stuff that probably has no relationship with transportation. That is what we have done—gimmicks.

It is not an easy thing to think about, but these are some numbers that we ought to look at. We bailed out the transportation trust fund in 2008 to the tune of \$8 billion. We bailed it out again in 2009, \$7 billion; the next year, 2010, almost \$20 billion; 2013, over \$6 billion; and we really got into the bail-out business in 2014, \$23 billion; and for the current year, 2015, \$10 billion. Add it all up, it is about \$75 billion in bail-outs. We moved money from the general fund. That means we don't have money to spend on other things that are legitimate needs in our country, and we are using it to pay for things that ought to be actually paid for by

the folks and businesses that use our roads, highways, and bridges.

Now, a lot of people are saying to me: Why should we raise the user fees? Why should we raise the gas tax or the diesel tax? Because it is fair. The notion that people and businesses that use these roads and highways and bridges ought to pay for them, to me, that seems fair. Frankly, it seemed fair in this country for about 60 years. We seem to have gotten away from that. We need to get back to that.

Here are a couple of questions—or the same question asked several times. Why raise the gas tax and fix the trust fund? This is \$324. What is that number? That is how much the average driver in this country spends a year in vehicle repairs, such as replacement of tires, axles, wheel rims—you name it. I have seen it actually as high as \$500, but we will take the low range of \$324. We pay for it one way or the other, and that is how much we spend on average in vehicle repair.

Again, the same question: Why raise the gas tax and fix the trust fund? The number 42 shows up. That is because that is how many hours a year we spend sitting in traffic. These are not my numbers. Every year Texas A&M updates this number, and they say that in Washington, DC, and up the road from where Senator COONS and I live, in New York City, where some of our family members live, or Denver or L.A., it is about 82 hours per year sitting in traffic, wasting gas, and putting out harmful emissions.

This is the number of billions of gallons of gas we waste just sitting in traffic every year—2.9 billion gallons of gas a year. That is a lot.

I don't know if it is the last poster that we have, but it is not a bad one to close on. One of the major roles of government is to provide a nurturing environment for job creation and job preservation. It is not the main role of government, but a major role of government is to provide a nurturing environment for job creation and preservation. We don't create jobs. Senators, Governors, and county executives don't create jobs, no matter how talented they are. Presidents don't create jobs. What we do is create a nurturing environment to help support job creation and job growth. What does that include? A world-class workforce, young people and not-so-young people coming out of colleges and universities who can read, write, think, and use math and technology, and who have a good work ethic—public safety and rule of law, affordable energy, affordable health care, access to foreign markets, and also the ability to move goods and products from place to place in this country and through our export markets.

McKinsey has a piece of their operation that does consulting and it is called McKinsey Global Institute. They have done a little bit of thinking and calculating to see if we actually made robust investments—not just little in-

vestments, not just creeping from year to year borrowing money from the general fund but actually making robust investments.

What would it do? We are talking about \$150 to \$180 billion of annual investments from all sources—State, local, and Federal—and to do this for 15 to 20 years. What would it do in terms of employment and GDP? Here is what it would do. Those kinds of investments in our transportation system would raise GDP anywhere from 1.4 to 1.8 percent per year. In addition to that, it would add almost 2 million jobs. Half of those jobs would be men and women going to work building highways, roads, bridges, and transit systems. We would have a more efficient economy—an economy to move products and goods more effectively, more efficiently, and more productively.

We say thanks very much to the McKinsey Global Institute. If we did this, a lot of people would be put to work building our roads, highways, bridges, and transit systems. They haven't been working much because we have underfunded transportation investment now for years at the local, State, and Federal levels. If we had funded it in a more appropriate and robust way, then a lot of people who have been on the sidelines who are either unemployed or underemployed would be doing something productive with their lives and at the same time strengthen our economy.

I see my colleague has been waiting patiently for me to finish. I will close with these words. Someone said to me: How do you feel that the House seems to have come up with a little bit more money?

We are not sure what the pay-fors are that they are using. Somehow we found some magic money in the Federal Reserve, and I hope it is legitimate. I hope there are no unintended consequences that we are aware of, but we will find out about that over the next several days, I hope. I am not outraged.

I was, frankly, outraged by what we passed here a month or so ago—so grossly underfunded, 3 years of not very thoughtful funding. What we hear from the House is that it is more robust, and I am happy to take a look at that. But it is not a user fee approach. It basically doesn't say: OK, those who use our highways, roads, and bridges ought to pay for those. We strayed from that. It is sort of a grab bag from places that have nothing to do with transportation. We are going to use that money, and it is only for a short while. We will be back in the soup again in 4 or 5 years.

This Senator thinks we can do better than that. It is not just me who is disappointed. People are disappointed, but we will live to fight again another day. It is too bad that we didn't take advantage of this day and seize the day.

Thank you, Mr. President.

The PRESIDING OFFICER. The Senator from Kansas.

Mr. ROBERTS. Mr. President, it is my desire to address the Senate about a particular serious problem that faces us. I ask unanimous consent that I be granted 7 minutes as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

GUANTANAMO BAY DETENTION FACILITIES

Mr. ROBERTS. Mr. President, I rise today regarding President Obama's most recent, egregious attempt to close the Guantanamo Bay Naval Base detention facilities and relocate enemy combatants, i.e., terrorists, to the United States.

Who are we talking about here when we say enemy combatants with regard to our national security and the problems that this may pose? We still have some high-level terrorists at Gitmo. It reminds me of the five terrorists that we let out sometime ago in exchange for a Sgt. Bergdahl. These are high-level terrorists. Khalid Shaikh Mohammed we know is the mastermind of 9/11. Abd al-Rahim al-Nashiri, the USS *Cole* bomber. I was a member of the Intelligence Committee when that happened, and I was concerned that we didn't connect the dots with regards to our national security and our national safety. That certainly was the case. We have Hambali, who is the Bali bomber. We have four coconspirators with Khalid with regards to 9/11—Ramzi bin al-Shibh, Mustafa Ahmed al-Hawsawi, Abd al Aziz Ali, and Walid bin Attash.

These are folks that are still determined to do great harm to the United States. I don't think they changed their minds.

The President's determined effort to close Gitmo began his first days in office when he signed Executive Order 13492, requiring the close of Gitmo within 1 year. Fortunately, for the security of the United States, the Congress stood up to this Executive order and stopped it, and the President's attempt to close Gitmo was also met by strong objections from all across the country, even in his home State of Illinois. Illinois turned its back on a plan to transfer detainees to a state-run prison, the Thompson Correctional Facility.

More importantly, the Congress laid down its first marker on prohibiting the President from transferring or releasing detainees to the United States through the Supplemental Appropriations Act passed in June of 2009. Every year since then—7 years—the Congress has maintained this prohibition.

This year's National Defense Authorization Act continues to enforce the will of the American people and the Congress. Yet just yesterday the President's Press Secretary announced blithely that the President is not bound by Congress—and I would include the American people—and the President will do what he wants to do by another Executive order if he determines that is the best approach.

National Security Advisor Susan Rice has just been quoted as saying: "I

can't say with certainty that we're 100 percent going to get there, but I can tell you we're going to die trying." That is a pretty bold statement.

What the President wants to do doesn't equate with national security. I think he wants to fulfill his campaign promise and preserve his alleged legacy and simply close Gitmo, not taking a hard look at what may take place.

Now I have gone head-to-head with this administration on many issues but none are as close to my strong belief and commitment to protect the United States, the people of Kansas, and all Americans. It does not make sense to locate terrorists at Fort Leavenworth, KS, which is the intellectual center of the Army, and to pose a threat to that community. I have often said that the first obligation of any Member of Congress is to protect our national security. Allowing Gitmo terrorists to set foot in the United States is in direct violation, in my view, of that commitment, and we should not stand for this President or any future President to threaten our security by Executive order.

It is regrettable that I have to be here making this speech at all in response to the administration and the news that suddenly appears in the Nation's press that there were people visiting Colorado, Fort Leavenworth, and Charleston, SC.

In September, in response to the administration's visit to Kansas, I placed a hold on the administration's nominee to serve as Secretary of the Army. I don't like doing this. I have no personal bias whatsoever with regard to this person politically or the ability to do the job. I did so with purpose and respect. I articulated this to the Army. I articulated this to my good friend and colleague John McHugh, who was the Secretary of Army, to the Department of Defense and the Secretary of Defense. During my conversations I was reminded that the administration could not implement any parts of this study without explicit authorization from Congress. So if and when a study is produced—if there is a plan, and we don't know if there is a plan—the administration would come before Congress to ask for that authority and the money. Guess what; no money can be spent on that. So it seems to me that is already a violation.

The administration's threat to act by Executive order yesterday speaks to the exact opposite of the understanding that I have. Congress has listened to the American people and done what is necessary to uphold national security and prohibit this administration from behaving in an unleashed fashion.

I know the President is resolute. He reminded us of that fact by signing 223 Executive orders during his Presidency. It is not so much the number of Executive orders but Executive orders that are in direct violation or in opposition to the intent of the Congress.

I just don't think this should be determined by ignoring the Congress and

simply issuing an Executive order. That is not the way to go. It just raises all this dust in opposition, and people like me come to the floor extremely worried about what this could bring.

I remember before 9/11, when I made the statement that the oceans no longer protected us. Our threat level remains high today. The threat of ISIS grows, stability in Syria continues to erode, Russia is advancing in the Middle East, and Iran continues to churn its nuclear reactors.

We cannot, it seems to me, we must not act politically. We must not take action simply because of "legacy" and a political campaign promise. Instead, we must act conscientiously. The only conscientious way forward on this issue is to maintain detention at Guantanamo Bay. To do otherwise would be a violation of U.S. law, not to mention a bull's-eye on Fort Leavenworth, where we have the intellectual center of the Army and the Army Command and General Staff College. That is not wise. That does not make any sense.

Let me say that there is another issue the President has brought up, and that is the issue of recruitment. We hear this from people who honestly believe that if we close Gitmo, somehow it will take away the incentive for various terrorist groups to recruit other terrorists from this country and all across Europe, all around the world, saying: Oh my goodness, we have terrorists at Gitmo, and when will the United States close that so that we can close our recruiting?

If we have terrorists located in the United States, it seems to me that the recruiting would simply be this: All right, Gitmo is closed, but we have our brothers at Fort Leavenworth, we have our brothers in Charleston, and we have our brothers in Colorado. What do you think would happen with regard to what they would do in response to that, not only to recruit people but to act? This goes back to the welfare of all Americans, not to mention those in Colorado, Kansas, and South Carolina. This is a bad idea—a very bad idea.

I hope those of us in the Congress will maintain our vigilance and make sure that no money will ever be authorized or appropriated with regard to taking terrorists from Gitmo and locating them in the United States. We must not do it. It is the wrong decision. It is a bad decision. I don't know why the President is so stubborn about it.

I yield the floor.

The PRESIDING OFFICER. The Senator from Delaware.

NATIONAL APPRENTICESHIP WEEK

Mr. COONS. Mr. President, I rise today to shine a spotlight on apprentices, one of our Nation's oldest forms of education and still one of the smartest investments we can make as a nation. The week we are in the middle of right now—this very week—is National Apprenticeship Week. I am honored to be joined today by Senator FRANKEN, who will also be making remarks in support of the value of apprenticeships.

In this body, we often discuss the importance, the value of expanding early childhood education, strengthening our public schools, and making college more affordable. Indeed, these investments are critical, but let's not forget about what I call the other 4-year degree. It is a degree that guarantees you a well-paying job and a career path after graduation. It is a degree that gives you experience that employers demand and teaches you skills that last a lifetime. It is a degree that provides a paycheck even while you are still in school. And it is a degree that leaves you debt-free. But where is the catch? Well, you might have to wake up early every day. You might have to work on nights and weekends. You will definitely have to complete thousands of hours of hands-on on-the-job training and 4, 5, or more years of work in your trade. In many apprenticeship programs, if you miss even a few days of work, that is it, you are done. On-the-job training, years of work experience, and a limited number of absences does not sound like a typical college curriculum, and it is not. It is an apprenticeship.

Broadly defined, apprenticeships are programs that train workers in highly skilled occupations by providing instruction and on-the-job training. After apprentices complete their programs, they receive journeyman papers and are set up for a job with the employer, the union, or the association that sponsored the program. These programs are long, challenging, and competitive. An appropriate question at the outset is, Do they work?

Well, ask Ed Woodrum, an instructor at the Carpenters Joint Apprenticeship Center in New Castle, DE. Ed tells the story of Scotty. Scotty is a Delawarean who was literally living on the streets, destitute, who was blessed to land an opportunity through the Challenge Program, a not-for-profit rehabilitation and skills organization in Wilmington which I know well and have always supported and have enjoyed seeing the impact of their work, both the materials they introduce and the impacts on the lives of the young men and women they train.

The Carpenters have a partnership with the Challenge Program, and through that relationship Scotty began working as an apprentice with the Carpenters. Fast-forward to today, years later, and Scotty is still a journeyman with the Carpenters. He recently got engaged, he owns a car, and he is living in a townhouse in Wilmington. So do apprenticeship programs work? In Scotty's case, it transformed his life.

If you want to know if they really work, ask Jim Maravelias with Laborers Local 199, also from Delaware. The laborers apprenticeship program requires 4,000 hours in the field and at least five core classes in heavy construction, although most apprentices take over a dozen classes in that time. Jim has seen his laborers journey men and women go on to leadership and

management roles in construction as foremen or shop stewards or business agents. Jim knows how important apprenticeships are not only for the construction industry but for the lives and futures of the Delawareans who are so deeply affected positively by their apprenticeship experience. As Jim puts it, through these apprentices, “we offer them a career, not just a job.”

So do apprenticeship programs work? Ask Tony Papili, my friend from the Glasgow area who runs the Plumbers and Pipefitters Local 74. Fresh out of college with a traditional bachelor's degree, Pip went back to school as an apprentice. Today Pip knows from firsthand experience how valuable apprenticeship programs are, which is why Local 74 trains fitters, plumbers, HVAC service technicians, welders, and instrument technicians. Local 74's program is no cakewalk. Once an applicant is accepted, they are committed to 5 years of night classes, on top of the 8,500 hours they will spend in the field learning their trade before becoming a journeyman.

Apprenticeship programs are not just difficult, they are competitive too. Take the program at the IBEW 313 in New Castle, DE, of which Doug Drummond is one of the leaders and a trustee. The IBEW's apprenticeship program is the largest in Delaware today with 120 active apprentices. Each year, 313's apprenticeship program has 2,500 applicants competing for just 1 of 24 open spots. That is a 1-percent acceptance rate.

The fitters, the electricians, and the carpenters in these programs are just some of the 1,100 Delawareans actively working through apprenticeship programs with lots of different businesses, unions, and organizations. Last year, my home State saw 119 apprentices complete their programs and get their journeyman papers. So far, 109 have gotten their papers this year, and we want to see these numbers continue to steadily rise.

Right now, across the entire country, over 440,000 aspiring journeymen are working through apprenticeship programs, knowing that if they put in the time and effort, they will earn an opportunity to unlock a steady, high-paying job. On average, the starting salary for an apprentice is \$50,000, which is several thousand dollars more than the average starting salary for a college graduate with a bachelor's degree, and typically there is no debt for an apprentice.

The benefits of apprenticeship programs are sustainable. Over the course of their career, American workers who complete an apprenticeship program can expect to earn \$300,000 more than their peers who don't go through a comparable program. If that is not the ticket to the middle class, I don't what is.

I want to commend today the 150,000 employers across this whole country who host apprentices, who partner with apprenticeship programs. Businesses

are not doing it as a public service; they are investing in apprenticeships because they typically get \$1.50 in return for every \$1 they invest. Tony Papili and the members of Local 74 pay for their own apprenticeship program out of pocket. They take money that would otherwise go to a pay raise or their benefits and put it back into the program. The electricians at Local 313 put in over 1 million hours of work a year, and for every hour they work, they put 55 cents back into their apprenticeship program. These are significant investments. More importantly, they are smart investments that are helping to fill a much needed gap in the American workforce with high-quality, high-paying jobs and by helping train workers for skilled trades and the vital manufacturing jobs of this century.

Strengthening America's 21st-century workforce is essential to the competitiveness of our economy in the world today and to the continued revitalization of our manufacturing sector. That is why it is one of the four core pillars of the Manufacturing Jobs for America Initiative, which includes a number of additional proposals to strengthen career development and on-the-job training programs.

Last year's reauthorization of the Workforce Innovation and Opportunity Act, which was a real win for job-training programs across the country, included five different policy ideas, many of them bipartisan, which came from the Manufacturing Jobs for America Initiative. I would like to see this momentum continue by making a sustained commitment to expanding apprenticeship programs.

The thousands of hours of on-the-job experience produce journeymen with a keen understanding of the techniques and the tools they need to do their jobs, and it makes them safer, more skilled, and more productive employees. Employers know this too. Electrical contractors in Delaware are hiring journeyman straight out of the IBEW's apprenticeship program because they know they are well trained, well equipped, and ready to work. Same for the pipefitters.

Pip said he is training apprentices to be “smarter and better skilled than the last generation,” but he adds, “I don't think people realize what we do to train these young men and women to become journeymen in the field.” Pip is right. That is why after I get off the 5 o'clock train I am taking home to Wilmington tonight, my first stop will be a trade and apprenticeship open house at Delcastle High School.

I urge my colleagues to learn about the apprenticeship programs in your States. Go and visit employers who depend on apprentices and talk to your constituents who have gone through these programs. I know you will be impressed.

Too often we define “education” too narrowly here. We talk about education as a ticket to the middle class,

but we often don't include apprenticeship programs. That has to change. Apprenticeship programs work.

Ed Woodrum with the Carpenters sees it as simple math. He describes apprenticeship programs as “opportunity plus resources plus support which equals changed lives.” Ed is right.

That is why I am so proud to join Senator FRANKEN in cosponsoring Senator MURRAY's bipartisan resolution honoring the inaugural National Apprenticeship Week this week. I am also proud to join President Obama and Delaware's own Vice President JOE BIDEN in support of their goal to double the number of apprenticeships in 5 years—a goal all of us should share. I especially want to recognize and thank the Vice President for his effective and long leadership in reviewing our Nation's job-training programs and finding ways to meaningfully improve them.

I commend the administration's efforts to expand access to registered apprenticeships to make it easier for apprentices to turn their experience into college credit. Besides apprenticeships, there are very few other Federal programs we know that are estimated to return \$27 in economic productivity for every dollar we invest. Budgets are tight today, and we are all looking for smart, cost-effective investments that create jobs and that can help revitalize manufacturing. That is why apprenticeship programs deserve our continued support.

Before I yield the floor, I want to thank my colleague Senator FRANKEN for his passionate, engaged, and sustained leadership on making sure that community colleges and apprenticeship programs work for the working men and women of this country and help create new opportunities for manufacturing jobs that are high-skill, high-wage, and high-quality for folks all over this country.

I yield the floor.

The PRESIDING OFFICER. The Senator from Minnesota.

Mr. FRANKEN. Mr. President, I would like to return the kind words of my colleague from Delaware and thank him for his leadership in this whole field of manufacturing and filling the skills gap that we see all over this country and getting young people and getting people in midcareer trained up to do jobs that manufacturers and people in the IT industry and other industries need to fill.

I rise today to recognize the very first week of November as the very first ever National Apprenticeship Week. I want to talk a little bit about the benefits of apprenticeship training programs, about what I hear in my State of Minnesota, and about my bill, the Community College to Career Fund Act, which would expand apprenticeship training programs through partnerships between employers and community and technical colleges.

When I travel around my State—and I am sure the Presiding Officer hears

this in Louisiana as well—I hear over and over again that employers are desperate to hire good people with the right skills for jobs that pay well.

Today there are over 6,500 open manufacturing jobs in my State. And other sectors such as IT, health care—and mechanics for the aerospace industry, for airplanes—these sectors in our economy are experiencing similar problems. They cannot find workers with the necessary training and the right skills to fit jobs that are there. These jobs are there. This is what is called the skills gap. I am sure that my friend, the Presiding Officer from Louisiana, sees the skills gap in his State as well.

One Minnesota employer, Kimberly Arrigoni of Haberman Machine in Oakdale, MN, put it this way:

For my company specifically it no longer is a capacity issue because of equipment, but one with people. We are limited in what we can produce and ship out the door. . . . Imagine what this very ripple effect is causing my state and our country as a whole.

She is right, by the way. I visited Haberman Machine, and it is a very good precision machine tooling company. It is a family-owned business, and it is great. They have jobs they want to fill, but people aren't being trained up fast enough.

There are many registered apprenticeship programs nationwide in more than 1,000 occupations that prepare workers with the skills they need for tomorrow's jobs, yet they don't get the support they need. I have a bill that would address that and provide that support. My bill, the Community College to Career Fund Act, would encourage apprenticeship training programs by supporting public-private partnerships among communities, technical colleges, and businesses. These partnerships create job-training programs that provide direct hiring opportunities for students, and they give businesses the trained workforce they desperately need at little or no cost to the student. Programs such as the one supported by my bill will help employers fill available jobs, they will help students get those jobs and graduate with very little or no college debt, and they help our economy stay competitive globally. This is a win, win, win.

Labor Secretary Tom Perez has described apprenticeship programs as college "without the debt" or "earn while you learn."

In Minnesota we have many great examples of such programs. I want to talk a little bit about one of them.

Erick Ajax is the co-owner of EJ Ajax Metalforming Solutions in Fridley, MN. This is the third generation of Ajaxes. It was Ajax and Son, but the son, I think, is too old to be called a son anymore. Erick is third generation.

They make 70 percent of North America's appliance hinges. His company has over 70 employees—one for every percent, evidently, of our appliance industry. Half of his employees were

trained, hired, and had their college tuitions fully paid through his earn while you learn registered apprenticeship program. To do this, Erick partnered with local community and technical colleges to find and train students, including veterans, women, first-generation Americans, and ex-offenders.

I went to his factory floor, and he introduced me to an ex-offender who had been working there at EJ Ajax for 6 years. He just bought his first home because of a training program he had taken that had been made available through a community technical college.

For all of these categories I am talking about, I met first-generation Americans who have great middle-class jobs, got their training, and received degrees. There was a veteran who has his bachelor's degree now, paid for by Erick, by the company. These are full-time, high-paying, solid, middle-class jobs.

Because Erick fully covered college tuition for his employees, some of his veteran employees were able to transfer their GI bill benefits to their spouses and their children to help pay for them to go to college. This is a great answer to our college affordability, our vexing college affordability problem that we all talk about. Erick Ajax's employees are evidence that apprenticeship training programs work. They increase their career opportunities, they provide businesses with skilled workers, they generate higher paying jobs, and they help our competitiveness globally.

Did you know that individuals who have completed registered apprenticeship programs earn, on average, a starting salary of \$50,000 a year and \$300,000 more over their careers than their peers who did not participate in registered apprenticeship programs? In fact, the apprenticeships can be the start of a pathway to business leadership positions.

Take Martin Senn, who is Swiss. Martin is the CEO of the Zurich Insurance Group, a Swiss company with offices around the world. The last I checked, it was one of the Fortune 500 companies—well, actually, in the Fortune 200 companies in 2012. I don't know exactly where it is now, but Martin is CEO of a huge company. Like many Swiss executives, he is a believer in apprenticeship programs.

When he was asked why Swiss executives choose to implement apprenticeship programs in the United States, he said: "I started my career as an apprentice and know first-hand how powerful such a program can be in inspiring young people to achieve their full potential."

From apprentice to CEO, I would like to see more of these success companies involving U.S. companies here at home. Not all apprentices are going to become CEOs, but apprenticeship programs—their training programs—are providing a proven path for workers to

enter the middle class and for business owners to develop a high-skilled workforce to fill today's available jobs.

So as we recognize the first ever National Apprenticeship Week, I invite my colleagues to take a close look at my Community College to Career Fund Act. Let's expand the apprenticeship training model so we can better serve the needs of our students seeking good-paying jobs and of our businesses looking for qualified employees.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Ms. HEITKAMP. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXPORT-IMPORT BANK

Ms. HEITKAMP. Mr. President, finally we see the light at the end of the tunnel, and it is not a train. It is, in fact, the eventual and necessary passage of the Ex-Im reauthorization bill.

As you know, last week the Ex-Im bill passed the House by a vote that was 72 percent in favor. We have been told for months and months as we debate the Ex-Im Bank that this bill could not possibly pass the House as a stand-alone bill. Remarkably, when that myth was put to the test, we found out that not just 51 percent, but 72 percent of the House supports reauthorization of the Ex-Im bill.

Last night we faced another challenge for the Ex-Im bill which was, in fact, a series of amendments on the Ex-Im portion of the Transportation bill. Once again, we exceeded expectations by having supermajorities on almost—in fact, all of those amendments suffering defeat at a very wide margin. So now what we know is we have a bill that continues to have broad-based support and continues to represent the necessary steps that need to be taken to reauthorize and reopen the Ex-Im Bank.

Let's just recount history. The Export-Import Bank has been closed for over 3 months, preventing needed support for small business across the country. Many of those small businesses—guess where they are? They are in States such as North Dakota. A lot of people, such as my colleague from Washington State who has come on the floor—I think everybody understands the significance of exports to States on the Pacific Rim and understands that story, but I don't think anyone really thinks about the Ex-Im Bank in conjunction with places such as North Dakota. So I wish to take a few moments today to talk about small business, to talk about the people who have been dramatically affected by the closure of the Ex-Im Bank and why it is so important that we understand, appreciate, and not have a long-term history that does not move the Ex-Im Bank forward.

Let's start out by talking about the 5,800 small businesses around the country that depend on the Export-Import Bank to finance export deals and how many of them right now have no support as this issue has languished in the Senate. I think we all know that small business makes up a large percentage of that economic opportunity in the United States. That is true in North Dakota and true to a greater extent because probably 95 percent of all employers in North Dakota qualify as small businesses. For many of these businesses, if they do not have help exporting their products, that help, which the Export-Import Bank provides, they can't grow. With more than 95 percent of all consumers in the world living outside the United States, if businesses in the United States do not export, if they are not competitive, we will lose economically.

Several of my colleagues have been on the floor talking about manufacturing and talking about economic opportunity. At the end of the day this is about small business, but it is also about the jobs that small business create. So we have seen companies such as GE and Boeing, which use, interestingly enough, 16 suppliers in North Dakota that are dependent on the work GE and Boeing does—and their necessary reaction to the failure of this Congress to appropriately and timely reauthorize the Ex-Im Bank has been to look for other ways to encourage their business growth, and that encouragement has not been in this country. They have had to look overseas.

So it is critically important we understand the idea of a supply chain. Everybody says: Well, this is a bank for big business. This is a bank for these people. That is just pure nonsense. In every one of those deals that is done for one of these major manufacturers, inside that deal are literally thousands of small businesses and hundreds of thousands of jobs created in those small businesses as they support the supply chain.

I want to talk about a number of the export-import uses in my State and brag a bit about the work they do because they are on the cutting edge with a lot of their technologies. The first business I want to talk about is Amity Technology. It is a 20-year-old family-owned company based in Fargo that sells farm manufacturing equipment to companies around the world. They began in August of 1977. They sold their first business to Case International and then built Amity in the winter of 1996.

What I love to tell about this story is these brothers—one of whom I went to college with—come from the family who actually created the Bobcat. So they have been entrepreneurs, they have been inventors, they have been innovators, and they have driven a lot of jobs in North Dakota.

Amity is a big user of the Ex-Im Bank. It is the largest distributor of sugar beet equipment, working with some of the world's largest farm equip-

ment companies around the world. With agriculture markets slowing down, business is harder to come by and so it is particularly important they have all the tools in their arsenal. Without the help of the Export-Import Bank, the company, which employs 70 North Dakotans, could quickly lose out on at least 10 percent of their business and face tough questions about the future of their exports.

The next business I want to talk about is WCCO Belting in Wahpeton. Wahpeton is a small community in the far southeastern corner of our State. It is a 60-year-old, family-owned rubber supply company often used in farm equipment that is supplied to every major farm equipment company in the world.

For 12 years, the Export-Import Bank has allowed WCCO Belting to continue to export opportunities it had previously been ignoring. The Bank has supported over \$850,000 in exports from the belting company since 2007. The company employs 200 employees who generate more than 60 percent of their annual revenue from customers that are located outside of the United States. That would not be possible if it were not for the Ex-Im Bank; if that 60 percent of their business is driven by the opportunity that the Ex-Im Bank gives them.

I want to talk about JM Grain. That is a small grain company in Garrison. They are a young family-owned pea, lentil, and chickpea distributing company that supplies their products to top packaging and food companies around the world. When you look at their numbers, \$15 million—in fact, 70 percent of the company's annual revenue for almost a decade—has been backed by the Ex-Im Bank. It has allowed JM Grain to pursue export opportunities to top manufacturing and packaging food ingredient companies that demand buyers to provide financing for 90 to 100 days—something they could not do on their own.

Incidentally, they could not find a private bank that would be willing to do it. Without the Export-Import Bank, JM Grain would not have been able to pursue exports to such high-quality, high-selling companies because it would have to significantly cut its price or risk going under.

The company now has doubled or tripled the pay of its workers, retaining its workforce throughout the oil boom, which has been awfully tough in North Dakota given high living costs, and has been able to hire top technological workers. It is incredible. It is an incredible story, but it is a story that would not be possible without the Ex-Im Bank. It is responsible for \$10 million of the company's annual \$15 million in revenue. Without the Export-Import Bank, the company would risk losing sales to competitive exporting companies abroad, including companies from India, China, and South America.

The last company I want to talk about is Equipment Wholesalers based

in Fargo, ND, and Sioux Falls, SD. They sell equipment such as John Deere tractors in the United States and abroad. Equipment wholesalers told us if the Export-Import Bank is not reauthorized, it will have a negative impact on the company's sales. How great is that? Well, it will be a 35- to 40-percent impact on their sales. Imagine that. Just because of the inactivity of Congress, we have risked 35 to 40 percent of this company's business. The company acknowledges it has already lost business to companies in Germany that have access to Germany's export-import agency. They say without the Export-Import Bank being reauthorized, Equipment Wholesalers will lose even more business.

While our businesses are left at a disadvantage because the Export-Import Bank expired, foreign—foreign—export-import banks, including those in India and China and 60 other places around the world, are hugely benefiting. In fact, they are wondering what is going on in the United States, but we are not going to let any grass grow under our feet as we run to daylight and a take advantage of the inaction in Washington, DC. They are already stepping in and filling our place.

If we do not reauthorize the Export-Import Bank to support American businesses and manufacturers, China and India will step in. There is no doubt about it. They are already doing it. In fact, during the recent downturn in both of those economies, the first investment they made was putting billions more in their export credit agencies. Do you know why? Because it made business sense. It made sense to their balance of trade. It made sense to their economy to support their manufacturers, especially in an environment where we weren't supporting ours.

Last week my bipartisan bill with Senator KIRK, which would reauthorize this agency, passed with the support of more than 70 percent of the House. Just yesterday—again, I will repeat—the Export-Import Bank reauthorization was attached to the House Transportation bill. Despite efforts to once again derail the Export-Import Bank from people who believed they could kill it altogether with amendments, over two-thirds—and in most cases those same House Members who tried to kill it—voted against those Export-Import Bank-killing amendments.

Doesn't that tell us something? Doesn't that tell us that the vast majority of people here are not ideologues; that they look at the facts? They say: In what world would you not support exports?

We used to do this in State government when I was attorney general and when I served on the Industrial Commission. We would talk about North Dakota's economy and we would say: What do we do to grow economies? We say: We have new wealth creation. I am not picking on retail businesses. Retail businesses typically, unless we are inviting Canadians, which we do, to come

down and spend money, they are not new wealth creation. It is those things that bring new dollars to our State. If you look at new wealth creation in this country and look at what creates wealth in this country, guess what it is. It is exports. It is having a favorable balance of trade. It is making sure we are a country that believes in reaching out to the 95 percent of the consumers in this world and saying to them: We produce the best quality agricultural products, we produce the best quality manufacturing products, we are the top supplier and the most trusted source of products in the world, but we need the tools to make those sales, and the Ex-Im Bank is a critical tool. It is part of that structure of trade infrastructure that we need to make this work.

I hope, I sincerely hope—because I don't know whether I am going to be here when we go through this again—I hope the lessons of the last 3 months have been learned. I hope the lessons we have been preaching since really this spring—that we cannot let this Bank expire and there will be dire consequences if we do—have been learned and that the Ex-Im Bank and the people at the Ex-Im Bank, but more importantly that our American businesses that rely on the Export-Import Bank, our jobs that rely on the Export-Import Bank, and our opportunities created by the Export-Import Bank, are never forgotten; that they are never left behind.

Once again we have cleared yet another hurdle. The light is at the end of the tunnel. We believe we are ready, willing, and excited about the opportunity of once again opening the doors of the Export-Import Bank and welcoming American business in and saying once again, “America is open for business” to the rest of the world.

Mr. President, I yield the floor to my friend from Washington.

The PRESIDING OFFICER. The Senator from Washington.

Ms. CANTWELL. Mr. President, I thank my colleague from North Dakota for coming to the floor again to talk about the Export-Import Bank and today specifically outlining how this program of credit insurance helps finance the sales of U.S. products in overseas markets, particularly for small businesses.

She and I, obviously, are stalwarts on what are economic opportunities in a global economy. We want to make things in the United States of America and we want to sell them to overseas markets. So we are here today to thank our House colleagues for standing up and defeating amendments last night that would kill the Export-Import Bank as a part of a package in the transportation deal. We are proud of those Senators who have supported this in the Senate, but we are especially proud of those House Members who went to the extent of getting a discharge petition to demonstrate that 313 Members of the House of Representatives support this policy.

My colleague and I are not giving up on trying to emphasize to people we have waited way too long to get this done and now we should not wait one moment longer. We should make sure this part of a transportation bill—while not necessarily our choice for how this gets done—finally gets over the finish line so we can put our small businesses back to work.

As my colleague said, small businesses are the key to her State's economy. Well, they are really the key to the U.S. economy. Fifty percent of all U.S. jobs are provided by small businesses. So that is why we have talked about this issue as it relates to those job providers.

If you are in North Dakota and Washington State and you are growing an agricultural product, you show me the bank that is going to finance that sale. I know maybe people don't think about agricultural products when it comes to Ex-Im Bank, but that is exactly what we have in mind because our States produce so many agricultural products.

The fact is small businesses need global customers. Why? Because if we are just going to grow product for the United States of America, we are not going to be growing much job opportunity. Ninety-five percent of consumers live outside the United States, and we want to make sure we are selling to them, but when we are selling to a country in Africa or we are selling to a country in Asia and you go to that bank in North Dakota or even in Walla Walla, WA, or someplace, and you say: Listen, I want you to help me do a deal with this buyer in a very small country, they want to know, what the securitization is. The securitization of that issue is usually all the capital of that company, which means they are not going to do the sale or they are going to try to find a bank that is also not going to do it because they do not have the security to put behind that.

That is why credit insurance was created—to help those sales actually happen. That is why this is such an important issue to small businesses. People think, well, OK, we get it, you are concerned about jobs. This is not just about the jobs in our State today, although we care immensely about that; this is about the way the Senator from North Dakota and I view the economy of the future. We view it as an economy that is taking opportunity of what is happening with the growth of the middle class outside the United States, that and selling them U.S.-made and U.S.-grown products.

Less than 3 percent of small businesses today are exporters. How are we going to get them to be exporters? We want them to take risks. How are we going to get them to take risks if they can't get financing for their products? If 95 percent of consumers live outside the United States, that is where the rising growth is happening, that is where the big opportunity is, and we want our small businesses to do something about it. Yet we take away the

one tool that has been there to help small businesses finance those. It was a big mistake. My colleague talked about that.

There were more than 3,300 small business deals approved by the Export-Import Bank in 2014, so that was a lot of economic opportunity. I have met people from many of those companies. They warm my heart and make me believe the United States of America can win at any economic opportunity it sets its mind to.

When I think about a Yakima company that makes music stands—Manhasset has been in the music stand business for 40 years. They are selling music stands all over the United States of America. They get up every morning, they go into that factory, and they try to figure out how they are going to improve their processes, how they are going to improve access. But if you say to them that every sale they make to an overseas market has to be backed with their own capital—from Manhasset—how long will it take before someone comes in and competes with them and basically knocks them off and defeats them? It is not going to take long.

What they have to do is constantly grow their market opportunities and stay ahead of technology investments, even with a music stand, the best techniques, the best practices, and get your reputation as the best product and advertise and continue to dominate in the marketplace. That is what selling and exporting are all about.

The two of us come from export States, Washington State being a major exporter and North Dakota being an exporter. We know in our DNA that we have to compete. We want our small businesses to compete, and that is why both of our States have been big users of the Export-Import Bank, and we want these deals.

In helping to support those small businesses, the Export-Import Bank has done \$10 billion worth of exports. Isn't this what we want? Isn't this what we want in the United States of America, to help small businesses grow and become exporters? They are winning. They want their products to be purchased by overseas consumers.

When they don't support the Export-Import Bank, they are saying: I want to make it really, really, really hard or impossible for you to make that sale, because you are going to have to go find somebody to finance it. And we all know that people would rather do a lot more financing of dark derivative markets than helping small businesses get their deals done.

We are so happy that our colleagues in the House of Representatives last night defeated 10 amendments to kill the Export-Import Bank and that it is now traveling over here as part of a transportation package that will go to conference, and hopefully in the next 2 weeks we will be able to rectify this issue and put our small businesses back to work. This is so important not just

for the companies using the Export-Import Bank today but because my colleague and I know we have to grow our economy. We know we do great work and we produce great products. We need to make sure that in the developing world, we can access the opportunity to get our foot in the door and make the sale. Don't stop us from doing that. Let's finally get this Bank reauthorized and get on our way to growing a stronger economy.

I yield the floor.

The PRESIDING OFFICER. The Senator from North Dakota.

Ms. HEITKAMP. Mr. President, I want to make one final point, along with my colleague from Washington State. I don't know how many times the Senator from Washington and I have been on the floor telling the story of the Ex-Im Bank, about what the problems have been since we have closed the Bank for business, talking about what this means for small business, trying to reflect the amazement we get from our small businesses: Why is this happening when we return money to the Treasury and this doesn't cost anything?

I find it curious that as many times as we have been down here, there has been no one down here arguing the counterpoint. There has been no one down here willing to ask us to yield for a question about why we believe what we believe about the Ex-Im Bank. There is no one down here challenging what we are saying about the Ex-Im Bank. I find that interesting, and I think it is a lesson maybe for the future—let's not mess around with jobs; let's not mess around with people.

I think everybody thinks they are picking on some kind of large corporation, but the reality is that those large corporations in many ways can wait this out or they can devise a business plan that gives them a workaround from the Ex-Im Bank or they can assemble their materials someplace other than the United States. But my small businesses, the ones I just outlined, don't have that choice, and they don't have a big line of credit they can use to just wait this out. They don't have the ability to wait.

It is one thing to say we are all about small business and helping small business. We hear it every time. The two great lines that are used here: We care about the middle class and we care about small business. But as it relates to the Ex-Im Bank, there has been no activity here that would actually prove the point that we care about small business.

So I want to say I do find it extraordinarily curious that we have gone unchallenged in this whole discussion. No one really wants to take us on because at the end of the day there is no argument on the other side. Yet we have closed this Bank for over 3 months. We have closed this Bank and this opportunity for America's manufacturers, America's small businesses, and all of the great people who work there.

Just know that I am so grateful for the work of my colleague from Washington. She has been an incredible leader. I thank her for everything she has done. She is an expert on the Export-Import Bank but also a woman who has been in business most of her life and who understands the critical importance of the Ex-Im Bank.

So let's not unlearn this lesson. Let's make sure this never happens again and that we never disrupt Americans' economic opportunity the way we have by shutting down the Export-Import Bank for the last 3 or 4 months.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. SCHATZ. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SCHATZ. Mr. President, I ask to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

SOLUTIONS TO DEFORESTATION

Mr. SCHATZ. Mr. President, I rise to talk about one of the solutions to one of the driving forces behind global climate change; that is, deforestation. After fossil fuel combustion, deforestation is the single largest contributor to human-induced climate change, but the exciting thing is that we have proven cost-effective solutions at hand that can go a long way in addressing this problem.

Forests in the United States and around the world provide important services to people—services that are not adequately or appropriately valued by the free market, creating a market failure. These services include many things that we all take for granted—clean air, clean water, wildlife habitats, and long-term carbon sinks that absorb and sequester carbon pollution for years. Because these functions of a healthy forest ecosystem don't have a dollar sign attached to them, they are often not incorporated into decisions made by businesses, consumers, and governments, but just because they don't have a pricetag does not mean they are without value. In fact, the 2008 study pegged the cost of deforestation to the global economy at between \$2 trillion and \$5 trillion per year.

As the U.S. Forest Service put it, "When our forests are undervalued, they are increasingly susceptible to development pressures and conversion. Recognizing forest ecosystems as natural assets with economic and social value can help promote conservation and more responsible decisionmaking."

I agree. Adequately valuing forests, and the services they provide offers many benefits to local populations to the climate. Limiting deforestation and forest degradation will not reduce global carbon pollution and slow the pace of climate change. It will also

help to safeguard the livelihoods of the more than 1.6 billion people who the U.N. estimates depend on forest services.

What is more, tropical forests are the source of over one-quarter of all modern medicines. Forests impede the transmission of insect- and animal-borne infectious diseases. So beyond the economic benefits, we know that keeping our forests intact can improve the livelihoods of billions of people while avoiding drastic increases in global temperatures.

Thankfully there are good solutions available to address deforestation. We can start by properly enforcing laws that are already on the books. I plan on working with my colleagues to ensure that we fully fund the agencies charged with enforcing the ban on illegally sourced timber and paper included in the 2008 amendments to the Lacey Act.

When the leaders, environmental ministers, finance ministers, and climate negotiators from all nations meet in Paris later this month, I hope they will keep in mind the many advantages of reducing forest loss in rainforest nations and other developing countries. I hope my colleagues will recognize the crucial role that the United States can play in sharing our best practices and helping to build capacity in those countries so we will all be better stewards of our natural environment.

A changing climate brings with it a unique set of challenges, but it is not too late to take the necessary steps to avoid the worst impacts of climate change. There is good news to be had. We have at our disposal a wide range of solutions for reining in our emissions of carbon pollution. Addressing deforestation is one of the most effective and cost-effective ways to slow global warming, while enhancing the lives and livelihoods of the hundreds of millions of people who rely on forests and the services they provide.

CLEAN POWER PLAN

Mr. President, I wish to talk about another aspect of climate change and another reason for hope. Two weeks ago the Clean Power Plan was published in the Federal Register, meaning that it is now the law of the land. This is the signature achievement of President Obama's efforts to reduce carbon pollution. It will reduce carbon emissions from the power sector by 32 percent by the year 2030. The power sector is the source of some of the most cost-effective emissions reductions, and the Clean Power Plan is the most critical and vital step toward putting the United States on a path to a low-carbon economy.

Powerplants are the largest single source of greenhouse gas emissions in the Nation, accounting for more than 30 percent of all U.S. carbon pollution. There are currently no limits to the amount of carbon pollution that can be emitted from powerplants. I want to repeat that. There is no limit under the law before the Clean Power Plan to the

amount of carbon pollution that can be put into the air.

This is despite having landmark legislation already in the books called the Clean Air Act. The Clean Air Act requires the Federal Government to regulate airborne pollutants. It doesn't require or allow the Federal Government to select from among a menu of airborne pollutants and decide which ones will be most cost-effective or most important to regulate. It says the EPA is charged with taking airborne pollutants and regulating them, to place limits on them. It is a mistake that over the last 20 years, even though we have recognized that carbon is an airborne pollutant, that it is not regulated under the Clean Air Act.

The Clean Power Plan fixes this problem. It is an innovative and flexible solution that gives States the right to develop their individual plans. This is also an important point. The first iteration of the Clean Power Plan was a little more of a blunt instrument. It was geographically constrained. It was powerplant constrained. Therefore, a lot of States, a lot of utility companies came back and said: Look, there are going to be individual instances where it is going to be very difficult to reduce carbon pollution at a particular site because it is rural, because it has already been capitalized, because we can't get the financing to reduce the carbon pollution at a particular site, but if you allow us to work what they call outside of the fence and you allow us State by State to reduce in the aggregate the amount of carbon pollution put into the air, then we can make this work. We can still have what they call good power quality, which is to say you don't want undulations in power quality to the point where you have blackouts and brownouts. That was industry. That was regulators. That was a public utilities commission. That was energy companies coming back and saying this is not workable.

The EPA came up with a scenario where we are still regulating carbon pollution under the Clean Air Act, but we are doing it in a way that is totally workable for every State and every energy portfolio in every region in every State. It gives States the rights to develop their own individual plans to cut carbon pollution from the energy sector. The Clean Power Plan has sent a signal to the rest of the world that the United States is serious about preventing catastrophic changes to our climate.

The American public knows that climate change is a problem and large majorities want us to act. A Stanford poll found 83 percent of Americans, including 61 percent of Republicans, say that if nothing is done to reduce emissions, global warming will be a serious problem in the future. Now, 77 percent of Americans say the Federal Government should be doing a substantial amount to combat climate change, and 67 percent of Americans support EPA action to curb carbon pollution.

In other words, 67 percent of Americans support the EPA action that is being undertaken right now. They support the Clean Power Plan. They may not know the details, but they understand the basic premise which is that the Clean Air Act is the law of the land. It was passed a long time ago with large bipartisan majorities. The basic idea that the Federal Government has some simple responsibilities, and one of them is to keep us safe from air and water pollution, is a bipartisan consensus not in this Chamber, unfortunately, and not in the other Chamber, unfortunately, but across the country, everybody understands that carbon is a pollutant, and we should try to reduce it over time as much as we possibly can.

I think it is time we acknowledge that the electricity industry is already changing. We are rapidly moving away from fossil fuels as the dominant source of electricity generation. Soon even low-priced natural gas may not be able to compete with wind and solar energy. We should be celebrating these advances and devoting ourselves to finding ways to accelerate this transition, not throwing up roadblocks.

The truth is the Clean Power Plan is merely accelerating market trends that are already underway. Listen to this. Through the first 9 months of this year, over 60 percent of new U.S. capacity additions were renewable energy. More than 60 percent of the new power generation in the United States over the last 9 months has been clean energy. That is the change that is happening. That is the clean energy revolution.

In 1998, when I was in the State legislature and I was helping to work on net energy metering laws, solar tax credits, and a renewable portfolio standard, this was aspirational. This was something we hoped we would eventually achieve, but 60 percent of new generation this year in the United States is clean energy. It is already happening.

As wind and solar prices fall, they are increasingly competitive with new fossil generation in more and more places around the country. To my colleagues who warn of massive price shocks from the transition to clean energy, I point out that we are already underway with our transition, and the massive price shocks have not happened. The Clean Power Plan is the most important power tool that we have in our arsenal to fight climate change.

To my colleagues who are trying to stand in the way of making real progress toward reducing greenhouse gas emissions, I say this: When you are ready to be constructive and work on a comprehensive energy policy, to work on a comprehensive climate policy, we are open.

I have continued to come to the floor of the Senate over the last several months, over the year of 2015, and have said this is an issue that has unfortunately become incredibly partisan.

This is an issue where we have Democrats coming to the floor offering constructive solutions and an empty side of the Chamber on the other side, but this is the challenge of our generation. This is our obligation as the indispensable Nation. The United States has to lead. The Senate has to have a real debate on climate and energy policy, and we need Republicans to step up. This issue is crying for Republican leadership, and I am looking forward to the day—hopefully very soon—where we will have it, where we will have a serious negotiation.

I understand that not all of my ideas will win out, not all of the progressive perspectives will win out, but that is the legislative process. We need a dance partner. We look forward to that moment.

Mr. President, I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. McCONNELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. McCONNELL. Mr. President, I ask unanimous consent that the Senate be in a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

(At the request of Mr. RISC, the following statement was ordered to be printed in the RECORD.)

VOTE EXPLANATION

Mr. RUBIO. Mr. President, today the Senate voted on a motion to proceed to H.R. 2685, the Department of Defense Appropriations Act. I would have voted yes.

Funding our military and keeping Americans safe used to be a point of bipartisan consensus in Washington. Unfortunately, for the third time this year, Senate Democrats have blocked a bill that provides funding for American men and women in uniform, their housing, health care, and benefits. Although we will ultimately need additional funding to confront the vast array of national security threats we face in this century, this bill includes important funding we need now for procurement, modernization, construction to maintain our military bases, and vital funds for the intelligence community who work in secret as our first line of defense. It also includes funds for ongoing operations against ISIS, Al Qaeda, and terrorist organizations globally who seek to do us harm.

As they have shown on issue after issue, President Obama, his administration, and Washington Democrats are not serious about confronting the challenges we face as a nation. We need

new leadership in Washington that will restore American strength and keep the American people safe.

RECOGNIZING THE USS "PITTSBURGH"

Mr. TOOMEY. Mr. President, I wish to honor the skilled, brave, and determined sailors who served aboard the USS *Pittsburgh*.

The third of four naval vessels named after the Steel City, the USS *Pittsburgh* was a Baltimore-class heavy cruiser that served 6 months in the Pacific theatre during World War II. In that short time, the cruiser earned two battle stars. However, her greatest accomplishment was assisting in the rescue of the crew of a disabled ship in enemy waters.

In March 1945, Japanese bombers began an air raid on a task force assigned to the U.S. 5th Fleet. This attack severely damaged the aircraft carrier USS *Franklin* and set it ablaze. The USS *Franklin* lost 725 crew members, with another 264 injured in the bombing, and it was left stranded in the water just 50 miles from the Japanese coast. The USS *Pittsburgh* quickly came to the rescue, saving 34 men from the water. Along with another ship, a light cruiser, the USS *Santa Fe*, the USS *Pittsburgh* was able to tow the carrier to safety while fighting off enemy attacks.

The crew of the USS *Franklin* was highly decorated for their bravery during the fight, but the crew of the USS *Pittsburgh* has never received any honors for their bravery. Today I rise to recognize and honor the crew of the USS *Pittsburgh* for their heroism and bravery displayed rendering aid and assistance to the USS *Franklin* on March 19, 1945.

Along with this heroic action, the USS *Pittsburgh* faced another big fight against a different kind of enemy: Mother Nature. On June 5, 1945, the ship encountered a typhoon and suffered extensive damage, including loss of its bow, but was kept afloat because of her skilled crewmembers' damage control efforts. The USS *Pittsburgh*'s captain maneuvered the boat entirely by cleverly manipulating the ship's engines until the storm subsided, returning to Guam a few days later.

I would especially like to recognize three veterans of the USS *Pittsburgh* who are still living in southwestern Pennsylvania. Their names are: Robert McKnight, seaman 1st class, of Connelville, Fayette County; George Jock, seamen 1st class, of Somerset, Somerset County; and Paul Gaudi, seaman 1st class, of Jeanette, Westmoreland County.

I thank them and their fellow USS *Pittsburgh* crew members for their valiant heroism and service to our country. I ask unanimous consent that the additional information that was obtained with the help of the Congressional Research Service and National Archives be printed in the RECORD.

Lastly, I appreciate having the opportunity to provide my remarks about the USS *Pittsburgh* and its crew's unique and extraordinary contributions to our Nation's history in World War II. It is an honor to serve in the U.S. Senate on behalf of the great city for which this cruiser was named and represent those veterans who served aboard her.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

On the morning of 19 March, 1945, while a part of Fast Carrier Task Group 58.2, the U.S.S. PITTSBURGH was ordered by Commander Cruiser Division TEN to "Proceed to FRANKLIN and render all possible assistance".

The PITTSBURGH cleared the formation and proceeded at 30 knots to the vicinity of the burning carrier FRANKLIN, which had been severely damaged, both by a Japanese bomb and by the following internal explosions and fires which were still raging.

After picking up 34 of her men from the water during the approach, the carrier was taken in tow at 1402, 19 March, in position Latitude 30°-10' N., Longitude 133°-50, E., 57 miles southeast of the southern tip of Shikoku, Japan; and towed for 22½ hours away from the coast of Japan in southwest, southeasterly and south directions, a distance of approximately 120 miles, until the FRANKLIN could proceed under her own power.

At the commencement of the towing operation the FRANKLIN had a list to starboard of about 15°; had no power, or steering control, and her rudder was jammed right 3°. The list of the carrier away from the wind, which was blowing from an easterly direction, caused her to sail up into the wind, making towing on southerly courses most difficult and prohibiting steering a given course away from Japan for any continuous length of time.

At 1550 our speed by pitometer log was 6¼ knots, however speed varied from 1½ knots to 8 knots.

At about 2300 the FRANKLIN's starboard list was corrected and became about 5° to port. With the change in list to port, the sail area of the carrier was reduced and it was possible to keep a steady course of 155° (T) and maintain a fairly constant speed between 6 and 7 knots.

At 0245, 20 March, the FRANKLIN began to turn over her engines, and by 0400 she was making turns for 4.5 knots, and we were making 7.5 knots through the water.

At 0930, the FRANKLIN gained steering control, and towing speed was gradually increased to 13.7 knots with the FRANKLIN engines assisting.

At 1233, in position 160 miles from Shikoku (Latitude 30°-14.5 N., Longitude 134°-23.2 E.) the tow was cast off and the FRANKLIN proceeded under her own power.

The PITTSBURGH assisted in repelling two air attacks during the towing operation. The first attack occurred while in process of passing the tow wire, and the second attack after the carrier had been taken in tow. Neither attack was successful, and two Japanese planes were shot down by Combat Air Patrol.

The FRANKLIN is of about 27,000 tons displacement, and so far as I know this is the first large carrier to be towed any from the scene of action to safety.

No damage was suffered by this vessel during the towing operation.

Sufficient praise cannot be given the commanding officer of the FRANKLIN and his heroic rescue crew, who, in spite of all odds, fought fires, repaired machinery and righted

the heavy initial list. The cooperation of the FRANKLIN was complete, and made bringing her to safety possible.

The SANTA FE went alongside the FRANKLIN, transferred personnel, and assisted in line handling while ammunition was exploding and fires were raging. The destroyer MILLER (DE535), likewise, repeatedly and with great courage went alongside the FRANKLIN and under her stern to put down fires and cool her bulkhead with water.

TRIBUTE TO GRADY TARBUTTON

• Mr. HELLER. Mr. President, today I wish to congratulate Grady Tarbutton on his retirement after over 8 years of service to Washoe County Senior Services. It gives me great pleasure to recognize his years of hard work and dedication to this important community in northern Nevada.

Mr. Tarbutton first began his career working to aid seniors at the Washington County Department of Disability, Aging, and Veterans' Services in Oregon, as the senior program coordinator. In 2005, he moved to Portland, OR, and served as the community services manager for Multnomah County Aging and Disability Services. He began his tenure as director for Washoe County Senior Services in November of 2007, sacrificing countless hours to build the department and offer an array of key resources to our senior community. His commitment to our seniors stands as a shining example of

true selflessness and empathy for those in need.

With the help of Mr. Tarbutton's leadership, Washoe County Senior Services offers a variety of assistance to help Nevada's seniors, including guidance on community senior centers, health programs, food services, housing and care options, legal services, and Federal programs such as Medicare, Medicaid, and veterans benefits. The department also offers Meals on Wheels, which is an important program that provides meals and support for seniors in need. This department truly goes above and beyond, providing seniors with the tools necessary to create a higher quality of life through steadfast support and help.

Mr. Tarbutton's work has had a great impact on Washoe County's residents. Through his unwavering commitment and tireless work ethic, Nevada's seniors and their families have had an unparalleled support system, ready to assist in times of difficulty or uncertainty. I have visited the Washoe County Senior Center and have witnessed firsthand the positive impact Washoe County Senior Services has on this center's residents. The strong foundation Mr. Tarbutton has built will be felt for years to come.

As a member of both the Senate Special Committee on Aging and the Senate Committee on Finance, I understand the importance of assisting the needs of Nevada's seniors and ensuring our communities are equipped to serve our State's aging population. Washoe County's seniors have benefited greatly from the work of this organization. This community is fortunate to have had someone like Mr. Tarbutton there as an ally and friend.

Today I ask my colleagues and all Nevadans to join me in thanking Mr. Tarbutton for his dedication to Washoe County Senior Services. He exemplifies the highest standards of leadership and service and should be proud of his long and meaningful career. I wish him well in all of his future endeavors.●

TRIBUTE TO VICTORIA NAPOLES

● Mr. HELLER. Mr. President, today I wish to congratulate Victoria Napoles on her retirement after decades of service to the Las Vegas Latin Chamber of Commerce. I am proud to recognize Ms. Napoles, who has contributed so much to the success of this important entity in southern Nevada.

Throughout her 25 years of service to the Las Vegas Latin Chamber of Commerce, Ms. Napoles worked diligently to establish the chamber as a tireless force in helping Las Vegas' Hispanic business community. STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. DURBIN (for himself and Mr. CASEY):

S. 2248. A bill to amend the Public Health Service Act to coordinate Federal congenital heart disease research efforts and to improve public education and awareness of congenital heart disease, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. DURBIN. Mr. President, every 15 minutes in America, a baby is born with a congenital heart defect. Many of these congenital heart defects are simple and can be easily corrected. Others are complex; some can require a lifetime of specialized medical care.

If you want to know what fear and powerlessness feels like, imagine being a young parent, listening to a doctor tell you that your new baby—who appears so perfect to you—has a threatening heart problem.

Fortunately, congenital heart defects aren't as deadly as they once were. In the 1950s, only 20 percent of American babies with congenital heart defects survived infancy. Today, 90 percent survive. Many children born with serious heart defects grow up to be adults with active, productive lives.

That progress didn't happen by accident. It happened because Americans made a decision in the 1960s to reduce these mortality numbers. We invested in research that led to better understanding and better treatments of the heart, from infancy to old age.

That investment in research has paid off in many ways. Some heart conditions that used to kill adults quickly often are managed now with medications and life style changes. The number of Americans with congenital heart disease living full, healthy lives increases by about 5 percent every year. About 2 million Americans are living with congenital heart disease today. We have come a long way—but there is more that we can do.

We know that the sooner a baby with a congenital heart defect is diagnosed and treated, the better the chances are to live a long and healthy life. But, the Centers for Disease Control and Prevention estimates that 30 percent of babies with critical congenital heart defects aren't diagnosed in the first few days, when treatment is most effective; 1 in 200 babies die from complications that might have been avoided if their heart disease had been detected.

In 2009, I introduced the Congenital Heart Futures Act to study people of all ages with congenital heart disease and coordinate research. That bill expired this year.

Today I am introducing the Congenital Heart Futures Reauthorization Act of 2015. This bill will save lives by allowing us to build on the knowledge we have gained about congenital heart defects and the best ways to treat them.

My bill directs the Centers for Disease Control and Prevention to study

people of all ages with congenital heart disease. The CDC would make the results of its research available to congenital heart disease researchers and to Congress. We will enable some of the best scientific and medical minds in America to evaluate the best ways to diagnose and treat congenital heart disease.

Many adults living with congenital heart disease are not aware they need specialized care throughout their lives. And fewer than 10 percent of adults with complex congenital heart disease receive the care they need.

The Congenital Heart Futures Reauthorization Act directs the CDC to create a public awareness campaign to educate both patients and doctors about congenital heart disease and the need for lifelong specialized care for those living with congenital heart defects.

Finally, my bill directs the National Institutes of Health to conduct a review of ongoing research on congenital heart disease, identify areas of greatest need for research, and identify plans for future research.

We are not powerless when it comes to congenital heart challenges. We have made tremendous progress in my lifetime. Millions of Americans with congenital heart defects are living happy, healthy lives today because of that progress.

The Congenital Heart Futures Reauthorization Act bill will help us better understand what congenital heart disease looks like in the United States and what we can do to help those living with this disease live longer. This bill will save lives and ultimately it will save taxpayers money—a lifetime of specialized heart care is expensive.

I would like to thank Senator CASEY for joining me in introducing this bill, and Representatives BILIRAKIS from Florida and ADAM SCHIFF from California in the House for introducing the companion bill. I look forward to working with them on this issue that affects so many families.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 2248

“(1) outlining the ongoing research efforts of the National Institutes of Health regarding congenital heart disease; and

“(2) identifying—

“(A) future plans for research regarding congenital heart disease; and

“(B) the areas of greatest need for such research.”.

By Mr. UDALL (for himself, Mr. HEINRICH, Mr. BENNET, Mr. WYDEN, and Mr. MARKEY):

S. 2254. A bill to modify the requirements applicable to locatable minerals on public domain land, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. UDALL. Mr. President, I rise today to introduce the Hardrock Mining Reform and Reclamation Act of 2015.

First, I thank Senator HEINRICH, who will be here with me in a moment, for working with me on this bill. He is a dedicated conservation Senator from the West and really cares about this issue, and we have both been working together on this bill. I so much appreciate all of his hard work and his commitment to this important legislation. I also thank Senator BENNET and Senator WYDEN for their hard work and support on this bill. I also thank our New Mexico colleague, Congressman BEN RAY LUJÁN, for his efforts on the House side.

We are proposing this bill for one reason: to reform the mining law of 1872. It is a matter of simple fairness, it is a matter of common sense, and it is a reform that is long overdue.

The 1872 mining law played a historic role in the settling of the West. It encouraged mining for silver, gold, copper, uranium, and other minerals on public lands. It helped the West to grow, but there was a price—one we are still paying. It did almost nothing to compensate the public, it did nothing to protect the environment, and it did nothing to require mines to clean up the mess. It did nothing to require those mines to clean up the mess. The legacy is clear—thousands of abandoned mines, contaminated land, polluted streams, costly cleanup, and taxpayers stuck with the bill. We have a 19th-century law which is totally inadequate to 21st-century challenges.

The spill at the Gold King mine earlier this year tells the story. With terrible damage in my State, in other States, and in the Navajo Nation, this is a disaster on many levels—to our water, our economy, and to our culture.

Mistakes were made at the Gold King mine. We have to do all we can to make sure they are not made again and to make sure our communities are fairly compensated for losses. That is why Senator HEINRICH and I introduced the Gold King Mine Spill Recovery Act of 2015.

The Gold King mine disaster is also a wakeup call. The mine is still there; the owners are not. There are up to 500,000 abandoned mines in our country. They are a ticking timebomb. They are leaking toxins into our rivers and streams in the West and have been for decades. It will cost tens of billions of dollars to fix this. The estimates are anywhere from \$20 billion to \$54 billion, with a “b”—billions. A mining royalty will bring fairness to taxpayers and help pay for the cleanup.

I have pushed for—and will keep pushing for—mining reform, first in the House and now in the Senate because I believe in the simple principle that the polluter pays. The polluter pays, but under current law the mining companies do not pay—not for the minerals they take, not for the damage they have done. This cannot continue. They cannot continue to reap all the benefits and hundreds of millions of dollars while taxpayers continue to shoulder all the burden. This goes against every notion of simple fairness. Working Americans know this, middle-class families know this, and both sides of the aisle know this.

The 1872 mining law also basically gives away Federal land for \$5. Less than what a working American pays for lunch, mining companies can buy an acre of Federal land if they discover a valuable mineral deposit. So there is no surprise here. Hard rock mining companies don't want reform. They have had a free ride for a long time—no wonder they want to keep it—but it is long past time for that ride to end.

Coal, oil, and gas companies have paid royalties for many decades. Hard rock mining companies, including foreign mining companies, should do the same. Our bill will require that they do that. It is not a radical idea. The oil industry pays a small fee on every barrel of oil, the coal industry pays a small fee on each ton of coal, and the sky has not fallen in. And when disasters happen, from oil spills to abandoned coal mines, these industries bear some of the cost.

History may explain why the 1872 law was created, but it is hard to see now why it should continue. What began as an effort to settle the West has become a gravy train for multibillion-dollar companies and not just American companies but foreign ones as well. We know the taxpayers are getting short-changed. We just don't know how much.

In 2011 I asked the General Accounting Office for the numbers. They couldn't say. Not only do the hard rock mining companies not pay, they do not disclose, and under current law they do not have to—not how much they extract from Federal lands, not where the minerals are sold, not the overall value. Yet at the same time, oil, gas, and coal brought in \$11.4 billion in Federal revenue.

We need to get this done. We can't keep asking working Americans and struggling communities to foot the bill while mining companies reap the profits. Let us be clear. The silver and gold on public lands are a natural resource. They belong to the American people. They should be an investment for public good, not a giveaway for private gain.

After my father left office after 8 years as Secretary of the Interior, he was asked what were his big regrets, and he said mining reform was his greatest unfinished business. Fifty years later we still need to do this and

we still need to do it now. We have an outdated law. Special treatment for the profits of large hard rock mining companies is not a reason to keep it, at least not to the taxpayers of my State.

It is time to stop giving away the store. It is time to reform the mining law of 1872. It is the right thing to do. It is the fair thing to do. I urge my colleagues to support this bill and let us get this done.

Mr. President, I was just in a press conference with Senator HEINRICH and Senator BENNET where we talked, and one of the questions that was asked was: How are you working at building bipartisan support and is there bipartisan support? I want to say a word on that because we have seen very solid bills pass here in Washington with bipartisan support. One of the ones I wanted to point out was in 2007 in the House. Nick Rahall had a mining reform bill. He had Republican cosponsors by the names of Wayne Gilchrest and Representative Christopher Shays—24 Republicans in the House—and the bill was passed 244 to 166. PAUL RYAN, who was in my class when I came into Congress in 1998—we arrived at the same time and PAUL is now the Speaker over in the House—voted yes for mining reform back in 2007 on this Rahall bill.

So I think if you look at the history, this is a bill where we need to work with both sides of the aisle, and I hope and wish Congressman RYAN—Speaker RYAN—the best and I hope he will join us in this effort to reform this long outdated law.

With that, I see my good friend and partner in this, Senator HEINRICH, is on the floor, so I yield the floor at this time.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. HEINRICH. Mr. President, I want to begin by thanking my colleague the senior Senator from New Mexico TOM UDALL for the incredible leadership he has shown on this issue. I know it is something near and dear to his heart and something he absolutely and truly cares about. We have had a good team working on this over the course of the last couple of months. Senator MICHAEL BENNET of Colorado has been a great contributor to this effort. Congressman BEN RAY LUJÁN of northern New Mexico has taken a leadership effort on a similar effort in the House, and today we are joined by Senator RON WYDEN of Oregon on this legislation as well.

As many folks know, in August a large plume of bright orange mine waste spilled into the Animas River, which leads into the San Juan, and polluted the Four Corners region from Colorado to New Mexico and through the Navajo Nation.

If you take a look at this photo, which was shared with me by the president and vice president of the Navajo Nation, this is not what you want to see when you look at the river that you take your drinking water from or the

river that you use for irrigation or the place you go fishing or recreate and kayak on. This is not how our mountain streams in the Southwest are supposed to look. I think visually this got the attention of people all around the country as to the scope and scale of this problem.

After the mine spill, I toured affected communities in New Mexico and the Navajo Nation. I met with impacted residents, including farmers in Aztec and Shiprock, San Juan County leaders, Navajo Nation President Russell Begaye, Vice President Jonathan Nez, and the attorney general, Ethel Branch. In the Southwest, water is by far our most precious resource, so you can imagine the kind of impact this disaster had on our communities.

My colleagues in the Environment and Public Works Committee and the Committee on Indian Affairs have now held hearings to investigate the Environmental Protection Agency's actions which led to this spill and to seek to bring proper oversight to the Agency's response. Last week, the Department of the Interior released a report of its independent technical evaluation of the EPA's action. The evaluation found that the EPA did not properly appreciate the engineering complexity of trying to clean up the Gold King mine and that it could in fact have prevented what we see here.

I share the anger and frustration that not only my colleagues but, more importantly, our constituents have expressed over this terrible accident. It is why Senator UDALL and I have introduced separate pieces of legislation specifically to make these communities whole. We need to continue to demand the EPA act with urgency to protect the health and the safety of the affected communities and to repair the damage inflicted on this watershed. That is our first and top priority.

We are doing a disservice to the American people by not also taking action to address the thousands—thousands—of other similarly contaminated abandoned mines that literally litter the West and are leaking toxins into our watersheds—into the watersheds that provide drinking water and irrigation to our communities all across the West.

There are estimates that 40 percent of western watersheds have been polluted by toxic mining waste and that reclaiming and cleaning up abandoned mines to make this right is going to cost tens of billions of dollars.

This latest disaster was all too familiar for those of us from the Four Corners region and to many people around the West. Back in 1975, in an even larger accident than the Gold King blow-out, a tailings pile near Silverton, CO, spilled 50,000 tons of tailings laden with toxic heavy metals into the Animas River Watershed—the watershed that drains from Colorado into New Mexico, into the San Juan and through the Navajo Nation in Arizona as well.

In 1979, a breached dam at a uranium mill tailings disposal pond near Church

Rock in New Mexico on the Navajo Nation sent more than 1,000 tons of solid radioactive waste and 93 million gallons of acidic liquid into the Rio Puerco.

Disastrous blowouts and spills like these are easy to see. They get the media's attention, but the toxins leaking silently out of thousands of abandoned hard rock mines are doing even more damage to our watersheds each and every day.

For decades before the spill, the Gold King mine actually leached water laced with heavy metals and sulfuric acid into Cement Creek, which is a tributary of the Animas. Over the last 10 years, an average of 200 gallons of highly polluted water each and every minute, or more than 100 million gallons per year, flowed out of this mine and into the Animas River via Cement Creek. The Gold King and other abandoned mines in the San Juan Mountains in southwestern Colorado continue to pollute the Animas and the San Juan Watershed as we speak.

Beyond the immediate cleanup of the Gold King spill, it is high time we as a Congress overhaul our abandoned mine cleanup policies to make future disasters less likely and to address the thousands and thousands of abandoned mines that are polluting our watersheds.

The Navajo Nation, which was perhaps most affected by the Gold King mine blowout, has more than 500 abandoned uranium mines. Last month, I met with officials at the Navajo Abandoned Mine Lands Reclamation and Uranium Mill Tailings Remedial Action Office and learned about their efforts to clean up these literally hundreds of sites. I visited a large uranium tailings disposal pile in Shiprock—in the town of Shiprock—that sits close to the San Juan River.

If you look at this map, this is the San Juan River. This is the community of Shiprock. We have the high school, the fairgrounds, and the residential area all around a permanent tailings disposal site—something that is going to require stewardship for literally hundreds, if not thousands, of years.

Melvin Yazzie, a senior reclamation specialist with the department, also took me through an abandoned uranium mine site in the Red Valley Chapter of the Northern Navajo Nation. Carrying a Geiger counter, he showed me the abandoned mine and a nearby house that was constructed using materials contaminated with radioactive materials.

Here we see Mr. Yazzie with his Geiger counter. This is obviously no longer occupied, but it gives us a sense of the impact to members of the Navajo Nation, some of whom literally have their homes built with the spill-over, the rock materials that came out of these mines, and live with that irradiation each and every day.

The Navajo Government is doing its best to address this legacy of uranium mining and milling, but they do not

have anywhere close to enough resources or funding necessary to clean up the waste from decades and decades of uranium mining.

A large reason why the Navajo Nation lacks adequate resources and why communities all across Indian Country and the entire West are dealing with pollution from abandoned mines and lack resources is that we have not updated our Federal laws on hard rock mining in 143 years.

During the era of manifest destiny, the Federal Government encouraged Americans to settle newly acquired lands in the West by passing laws—laws like the Timber and Stone Act of 1878 and the Desert Land Act of 1878, laws like the Homestead Act, which my grandparents took advantage of. Some of these laws gave away public lands and resources to private users with no strings attached and often no price tag attached.

The General Mining Act of 1872 came along during this era of unrestrained western expansion. It allowed individuals and companies to claim ownership of minerals in the public domain—minerals owned by us as a nation, such as gold, silver, copper, uranium, molybdenum, and others—simply by locating a mineral source, staking a claim, and paying \$5 for an acre of land. Miners did not have to consider environmental impacts or make any plans to clean up the waste, which has created the pollution and contamination we confront today. This law drew thousands of people to the West. My father and my mother's father both made a living working in hard rock mining. But shortsighted policy also left behind a scarred legacy on our lands.

Unlike other 19th-century western settlement laws which have long since been reformed or replaced, the Mining Act of 1872 remains on the books today. While developers of resources such as oil, natural gas, and coal all pay royalties to return fair value to taxpayers for our public resources, hard rock mining companies still mine publicly owned minerals for free—for free—and we still don't have a plan to address a century of pollution from abandoned mines.

We desperately need to bring our mining laws out of the 19th century and into the 20th century. That is why I am joining my colleagues—Senator UDALL of New Mexico, Senator BENNET of Colorado, and Senator WYDEN of Oregon—to introduce legislation to reform our outdated and ineffective Federal policy on abandoned mines and on hard rock mining. Our legislation will require that reasonable royalties and fees from hard rock mining be used to create a dedicated funding stream for cleaning up mine waste. A reclamation program will allow States, tribes, and nonprofit organizations to collaborate on projects to restore fish and wildlife habitat affected by past hard rock mining and to repair watersheds that are the very center of our economy in the West, the source of our essential agri-

cultural and drinking water supply for western communities up and down the spine of the Rockies.

This legislation will also reform the permitting process for new mines. Hard rock mining companies will need to protect water and wildlife resources and provide financial assurance that they can actually fund reclamation cleanup and restoration efforts after their mines close so that in the future we don't have this legacy of abandoned hard rock mines.

These are simply, commonsense reforms—reforms that, frankly, Congress should have adopted decades ago.

I appreciate the value of the hard rock mining industry. My own family has benefited from it, and I recognize that the industry continues to provide good-paying jobs in States throughout the West. Some mining companies are already stepping up to help clean up old mining waste sites. I look forward to working with industry stakeholders to find practical ways to bring our policies into the 21st century. We cannot wait for more disasters like the Gold King mine spill for us to act. We cannot continue to do nothing while thousands of abandoned hard rock mines drain toxic metals into our rivers, water supplies, and our drinking water each and every day. We must come together and press forward for pragmatic reforms to our outdated Federal hard rock mining laws.

By Mr. KAINE (for himself and Mrs. CAPITO):

S. 2256. A bill to establish programs for health care provider training in Federal health care and medical facilities, to establish Federal co-prescribing guidelines, to establish a grant program with respect to naloxone, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. KAINE. Mr. President, I rise to discuss a bill I am introducing called the Co-prescribing Saves Lives Act.

All across the Nation, and certainly all across my Commonwealth, we are seeing the scourge of prescription drug abuse and a heroin epidemic. These opioids are having major impact in communities everywhere in Virginia, from the coal mines of Appalachia to rural communities in the Shenandoah Valley, to right here in suburban Fairfax County.

I have heard, as have my colleagues, stories from parents who have buried children, from companies that can't find employees who can pass drug tests, and certainly from law enforcement officials, including judges, prosecutors, police officials, and sheriffs, who talk about the dramatic expansion of opioid addiction in this country. The numbers are kind of shocking. When I came to the Senate and started doing tours around the State in the spring of 2013, I really wasn't schooled about this, and I started to hear stories.

Heroin and opioids now account for 25,000 American deaths a year. In Virginia, and in much of the United

States, the deaths from opioid overdoses are now exceeding deaths from motor vehicle accidents. According to the Centers for Disease Control, in the United States fatal opioid-related drug overdose rates have quadrupled since 1990 and have never been higher than they are right now.

The question is, How do we address this crisis? Obviously, the answer is there is no single answer. There are a lot of things that have to be done. The Federal Government, State and local communities, faith communities, non-profit organizations, families, individuals educating themselves—there are a lot of answers, but we have to move forward with steps that we know can reduce overdose deaths.

There is some good news. There are advances that can help us do this, and one of the advances has been the development of a drug called naloxone, which is a medicine that is safe and effective as an antidote to all opioid-related overdoses, including heroin, prescription opioids, and fentanyl. It is a critical tool—it has been proven to be a critical tool since its development in preventing fatal opioid overdoses.

One of the neat things about naloxone is if you come across somebody who is in respiratory failure from an overdose or for some other reason, you can administer naloxone to that individual, and if it is not an overdose, it doesn't have any side effects. It can bring somebody back from the overdose-caused respiratory failure, but it doesn't have any negative side effects if it turns out the person is suffering from something else.

In Virginia there is an organization called Project REVIVE! that trains people to administer naloxone. In one of our communities in Russell County in Southwest Virginia, about a year ago I took the training with a lot of family members and others—just 2 hours of training—to learn how to do this.

Since naloxone has been developed and come into more common usage beginning in the late 1990s, it has saved more than 26,000 people who have been in the throes of an overdose. Naloxone has brought them back to life. I think a lot of professionals—public safety professionals and health care professionals around the country—have seen how effective it is.

One answer to our overdose problem is to co-prescribe naloxone when someone is getting a prescription for an opioid. Opioids have legitimate uses, to manage pain. So when somebody is getting a prescription for that, co-prescribe naloxone so they have the antidote right there in case of an overdose.

There are overdoses from people who are using drugs inappropriately and grabbing somebody else's prescriptions and using opioids, but there are also quite a few overdoses where people who are legitimately prescribed the drug—and they are usually prescribed it for pain—they develop a tolerance to the drug. The package may say to take one

pill every 6 hours, but the pain is strong, and after 3 hours they start to feel it again and somebody thinks, OK, the drug has worn off now so I can take another one. So a person can start to take too many because of pain symptoms, and they get into an overdose situation for that reason too. If a person has a naloxone co-prescribed, they can have the antidote right there that they can administer themselves, or someone else can, if they get into an overdose situation.

Many communities, States, national organizations, and medical organizations have supported co-prescribing naloxone to patients who are taking opioids as a critical part of this overdose problem, and we have guidelines. Not everybody who gets an opioid prescription needs naloxone. My wife broke and dislocated her shoulder two Good Fridays ago, and she was prescribed a powerful opioid pain killer. She used about a day and a half's worth of it. It made her sick to her stomach so she quit using it. Not everybody who gets prescribed a prescription opioid needs naloxone, but there are certain warning signs—the medical profession has developed the warning signs—and if you have the warning signs, you should get the co-prescription. Developing these guidelines helps physicians, pharmacists, and other providers determine who is at risk and whom we should be proactive with regarding a co-prescription.

What this bill does is the following: It improves access to naloxone by encouraging physicians to co-prescribe in a couple of circumstances, to co-prescribe this lifesaving drug alongside opioid prescriptions and make it more widely available in Federal health settings.

The Co-prescribing Saves Lives Act would require that the Secretaries of Health and Human Services, Defense, and Veterans Affairs would establish physician education co-prescribing guidelines for all Federal health centers, including VA hospitals, DOD hospitals, the Indian Health Service, and federally qualified health centers. So within Federal health care facilities, if there is going to be an opioid prescription to somebody in a high-risk situation, there would be a mandate that naloxone would be prescribed as well.

This bill is based upon work that has already been done in the Federal Government. The VA especially has been a real leader in setting up these co-prescription guidelines. In addition, the bill would provide a program of grants through State departments of health that are interested in doing the co-prescribing guidelines for private physicians not in Federal settings in their States. The funding would allow States to purchase naloxone, to provide copay assistance for uninsured patients, and to fund training for health professionals and patients. Grant funding could also support State innovation and provide for community outreach. The kind of program where I trained

last summer, Project REVIVE!, is just a community program trying to battle opioid overdose deaths in the coalfields of Appalachia. That would be the kind of program that if other States wanted to do that, could be eligible for grant funding.

In closing, this is just one solution. Obviously, the real solutions, the important ones, are still around prevention. Why do Americans get prescribed so many more opioids than folks in other nations? What do we do about prescriptions when the quantities that are given are too big and then we end up with a lot of unused opioids that can be taken by young people or stolen and sold? There are a lot of issues we have to solve, but there is this bit of good news; that naloxone saves lives and it is easy to administer. It doesn't have a negative effect. If we can broaden access to naloxone for those who have been prescribed opioids—we have saved lives in the past and we are going to save a lot more.

I will conclude by saying there is a dad in Northern Virginia—a guy by the name of Don Flattery—who has been very public about the loss of his son, Kevin, who was a 26-year-old graduate of UVA in 2014. He talked about his son, the family, the advantages they had, and his educational track record of success at UVA, but then he fell into the just bottomless pit of opioid prescription, opioid addiction, and he perished in 2014. What Don said is that "I feel we need to keep personalizing what is happening. We are not addressing shocking, obtuse statistics—we are speaking about my son, your daughter, our neighbors . . . they are real people with real lives, and their losses are the face of the epidemic we must stop."

That is what this bill intends to play a part in.

By Ms. CANTWELL (by request):
S. 2257. A bill to prepare the National Park Service for its Centennial in 2016 and for a second century of protecting our national parks' natural, historic, and cultural resources for present and future generations and for other purposes; to the Committee on Energy and Natural Resources.

Ms. CANTWELL. Mr. President, I am pleased to introduce, by request, the Administration's legislative proposal the National Park Service Centennial Act.

The bill authorizes or expands several authorities to assist the National Park Service in managing the over 400 units of the National Park System as it prepares for the centennial anniversary of the agency's establishment in 1916.

While I may not agree with every provision in the administration's proposed bill, I believe it is important for this legislative proposal to be considered in the Senate, which is why I agreed to introduce it by request. At the same time, I will continue to work with other Senators on both sides of the aisle to develop a bipartisan consensus on a national park centennial

bill so that the Senate can consider and pass a bill before the National Park Service’s centennial anniversary next year.

Mr. President, I ask unanimous consent that the administration’s letter to the Senate transmitting the legislative proposal and a section-by-section summary of the bill prepared by the Department of the Interior be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

THE SECRETARY OF THE INTERIOR,
Washington, DC, August 31, 2015.
Hon. JOSEPH R. BIDEN, JR.,
President of the Senate,
Washington, DC.

DEAR MR. PRESIDENT: Enclosed is a draft of a bill entitled, the “National Park Service Centennial Act.” Also enclosed is a section-by-section analysis of the bill. We recommend that the bill be introduced, referred to the appropriate committee for consideration, and enacted.

The National Park Service (NPS) will celebrate its centennial in 2016. As we look ahead to the next century, there are a number of key authorities that need to be authorized, clarified, or expanded to allow us to better serve the American people.

Title I, the Centennial Declaration, would recognize that the NPS has responsibility not only for administering the units of the National Park System, but for programs that provide financial and technical assistance to states, communities, and individuals to protect our national heritage. Title I would also direct the Secretary of the Interior to utilize these financial and technical assistance programs to further the conservation and enjoyment of the natural and cul-

tural heritage of the Nation for the benefit and inspiration of the public.

Titles II–IV of the proposed legislation would implement part of the President’s Fiscal Year (FY) 2016 Budget request to Congress. Title II would establish a National Park Centennial Challenge Fund of up to \$100 million for FY 2016, FY 2017, and 2018 to be used for signature projects that will help prepare the national parks for another century of conservation, preservation, and enjoyment.

Title III would provide a mandatory appropriation of \$300 million to the NPS Construction Account for FY 2016, FY 2017, and FY 2018, to correct deficiencies in NPS infrastructure and facilities.

Title IV would establish the Centennial Land Management Investment Fund, consisting of a mandatory appropriation equal to \$100 million for FY 2016, FY 2017, and FY 2018 to provide funding for the Secretaries of the Interior and Agriculture to jointly establish a competitive program available to the four Federal land management agencies for projects that enhance visitor services and outdoor recreational opportunities, restore lands and waters, repair facilities or trails, or increase energy and water efficiency.

Title V would direct the National Park Foundation (NPF) to establish a special account known as the Second Century Endowment for the NPS, consisting of gifts or bequests provided for this purpose, for projects and activities that further the mission of the NPS.

Title VI would establish the NPS Second Century Fund in the Treasury, which would be funded through additional lodging or camping fees and funds collected from purchases of the lifetime pass for citizens 62 years of age or older.

Title VII would clarify or expand authorities for activities that the NPS are already conducting to allow us to better serve the American people. This includes providing

clear authority for the interpretation and education work of the NPS by consolidating a number of disparate authorities currently used, and directing the Secretary to ensure that management of National Park System units and related areas is enhanced by the availability and utilization of a broad program of the highest quality interpretation and education. Title VII would also raise the age limit for participation in the Public Lands Corp from 25 to 30 and extend the direct-hire authority from 120 days to 2 years, consistent with Department of the Interior resource assistant direct-hire authority. And, this title would remove the \$3.5 million authorization ceiling for the Volunteers in the Parks to accommodate the funding needed to support this growing program.

Title VIII would establish the NPS Visitor Services Management Authority (VMSA), and authorize the Secretary to establish a program to allow the VMSA to award and manage contracts for the operation of commercial visitor services programs and activities.

Title IX would authorize the Secretary to enter into agreements for the creation of reproductions of a museum object in which the object and its intellectual property rights are under the control of the Secretary. The Administration is developing additional language related to the protection of NPS intellectual property, which we intend to transmit under separate cover.

Title X would redesignate the Secretary of the Interior and the Director of the NPS as ex officio members of the NPF board. It also would authorize appropriations of \$25 million for each of FY 2016 through FY 2026 to NPF that would be used to leverage additional non-federal funds to support our national parks.

The effect of this draft bill on the deficit is:

FISCAL YEARS											
(dollars in millions)											
2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	Total
45	312	476	386	67	–71	–11	–52	81	–38	–92	1,103

The Statutory Pay-As-You-Go (PAYGO) Act of 2010 provides that revenue and direct spending legislation cannot, in the aggregate, increase the on-budget deficit. If such legislation increases the on-budget deficit and that increase is not offset by the end of the congressional session, a sequestration must be ordered. This proposal would increase direct spending, is therefore subject to the Statutory PAYGO Act, and should be considered in conjunction with all other proposals that are subject to the Act.

The Office of Management and Budget has advised that there is no objection to the enactment of the enclosed draft legislation from the standpoint of the Administration’s program.

Sincerely,

SALLY JEWELL.

NATIONAL PARK SERVICE CENTENNIAL ACT
SECTION-BY-SECTION SUMMARY
TITLE I—CENTENNIAL DECLARATION

Recognizes that the National Service has responsibility not only for administering the units of the National Park System, but also for programs that provide financial and technical assistance to states, communities and individuals to protect our national heritage.

Reaffirms and directs the Secretary of the Interior to utilize these financial and technical assistance programs to further the conservation and enjoyment of the natural and

cultural heritage of the nation for the benefit and inspiration of the public.

TITLE II—NATIONAL PARK CENTENNIAL
CHALLENGE FUND

Establishes in the Treasury a fund to be known as the National Park Centennial Challenge Fund, which will consist of an annual appropriated amount equal to the qualified donations received in the same fiscal year not to exceed \$100 million for each of fiscal years 2016 through 2018. The fund will be used for signature projects identified as ones that will help prepare the National Parks for another century of conservation, preservation and enjoyment.

TITLE III—SECOND CENTURY INFRASTRUCTURE
INVESTMENT

INVESTMENT PROGRAM

Establishes in the Treasury a fund to be known as the Centennial Land Management Investment Fund, consisting of a mandatory appropriation equal to \$100 million for each of fiscal years 2016 through 2018. The Secretaries of the Interior and Agriculture are required to establish jointly a competitive program available to the four federal land man-

agement agencies for projects that enhance visitor services and outdoor recreational opportunities, restore lands and waters, repair facilities or trails, or increase energy and water efficiency.

EXTENSIONS OF REMARKS

RECOGNIZING THE DUNES 50TH ANNIVERSARY

HON. PETER J. VISCLOSKY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. VISCLOSKY. Mr. Speaker, it is with great pleasure and tremendous pride that I recognize the 50th anniversary of the Indiana Dunes National Lakeshore. The Indiana Dunes National Lakeshore is dedicated to preserving the lands along the southern shore of Lake Michigan that are protected within the park's boundary. Since its inception in 1966, the Indiana Dunes National Lakeshore has acquired and maintained over 15,000 acres of land and, in doing so, it provides a home for endangered plants and animals to thrive as well as a rich natural resource for residents of, and visitors to, Northwest Indiana to enjoy. On November 5, 2015, the Indiana Dunes National Lakeshore launched its 50th anniversary celebration, which will run through the end of 2016.

The Indiana Dunes long served as a destination for those weary of city life to escape and reconnect to nature at the turn of the twentieth century. Chicagoans in particular found respite among the shoreline, seeking peace among the valleys of the tranquil sand dunes. In 1896, University of Chicago botanist Henry Chandler Cowles traveled to Indiana and discovered the Indiana Dunes for the first time, where he found conditions to be an ideal location to study the relationship between plants and their environment. His observations documented the unique ecology of this region, laying the foundation upon which future organizations would base their arguments for protecting this resource from industrial development by designating it as a national park.

Following the appointment of Stephen Mather as the first director of the National Park Service, hearings were held in Chicago in 1916 to weigh public opinion on the creation of "Sand Dunes National Park." Over 400 people were in attendance at this meeting and forty-two people spoke in favor of the proposal. There were no opponents to the proposal, but the United States' entry into World War I changed national priorities, and plans for the park were shelved. The Great Depression followed the war, and many worried a national park that would allow for the preservation of the dunes would never come to fruition.

Post World War II America saw much growth in industrial development, and Indiana moved to capitalize on this trend by seeking a deepwater port on Lake Michigan. Port construction would require the demolition of Central Dunes. In 1952, the Save the Dunes Council, now known as Save the Dunes, was created when a group of concerned citizens came together and took on the extraordinary task of establishing the Indiana Dunes National Lakeshore to protest the destruction of the dunes and protect the remaining dune complex along the shoreline. With support

from then-Senator Paul Douglas, and through the tireless efforts of many, including the Council's founder, Dorothy Buell, and activists Herb and Charlotte Read, Ruth and Ed Osann, and Sylvia Troy, as well as countless others who championed the cause, the Indiana Dunes National Lakeshore was established in 1966 when the 89th Congress passed a bill authorizing the preservation of eight miles of shore and 8,330 acres of parkland along the lake.

Throughout the last three decades, the Indiana Dunes National Lakeshore and Save the Dunes have worked tirelessly to secure the lands within the park boundary, increasing its holding to 15,000 acres. Today, people can enjoy a variety of landscapes inside the park such as dunes, wetlands, prairies, rivers, and forests. In the coming year, Indiana Dunes National Lakeshore will sponsor several events to celebrate its history, including a year-long lecture series, a science conference, and a youth poetry and art contest in honor of those citizens involved in the creation of the park.

Mr. Speaker, I ask you and my other distinguished colleagues to join me in commemorating the 50th anniversary of the founding of the Indiana Dunes National Lakeshore. Throughout the years, the staff and volunteers of the Indiana Dunes National Lakeshore, Save the Dunes, and other organizations have dedicated themselves to preserving the natural landscape of the Lake Michigan shoreline, and their passionate commitment to the park is worthy of the highest praise.

SIMPSON HOUSE SESQUICENTENNIAL CELEBRATION

HON. CHAKA FATTAH

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. FATTAH. Mr. Speaker, on November 13, 2015, administrators of the Simpson House, the oldest existing retirement community in the world that is historically related to the United Methodist Church will celebrate its Sesquicentennial Anniversary; a significant milestone for the Simpson House and the City of Philadelphia.

Founded in 1865, in Philadelphia, wounded Civil War soldiers needed care. Memorialized in the Ladies' United Aid Society meeting minutes is the sentiment that compassionate Methodist women found themselves, called to work in spheres of which they had never dreamed or had the remotest idea. At the end of the Civil War, in 1865, Jane Henry, Simpson House Foundress knew experienced empowered volunteers could capably address other issues of their era. When she felt a call to ensure that aged individuals who had no money, no family and no means of supporting themselves had a safe and secure place to live, she did not sit idly by. Rather, she took decisive actions which would lead to a meet-

ing on June 14th 1865, and the founding of the Methodist Episcopal Home for the Aged, today known as Simpson House.

Dedicated volunteers and staff have led and guided the Simpson House since the beginning. They include its Founder, Jane Henry, Mrs. Ellen Holmes Verner Simpson and her husband Bishop Matthew Simpson who served as the second president and member of the Advisory Committee; Arthur & Anne Flanagan, unpretentious and generous donors; Margaret McKay Gerhart, volunteer and executive director; and The Rev. David W. Powell, Executive Director. Richard Coyle, RN, NHA, Simpson House Executive Director and Kim W. Williams, Simpson House Senior Services President and CEO are their successors and guardians of the mission.

Generous and ongoing support from many donors helps make commitment to high quality and dignified housing and health care services to the women and men of the Greater Philadelphia Region possible. The Simpson House continues its commitment to benevolent and charity care, a promise since its founding.

Today the Simpson House offers independent living apartments; personal care apartments; memory support and skilled nursing care, serving an average of three hundred senior adults per year. A committed and dedicated staff of more than three hundred employees provides these service and care.

The Simpson House Sesquicentennial Anniversary celebrates the fifteen decades of service. They are honored to serve residents who wish to share their lives and common interests in a caring and active setting. I urge this body to join with me in celebrating the Simpson House and the quality affordable care and accommodations it provides for Philadelphia's older adults.

FUSION CENTER ENHANCEMENT ACT OF 2015

SPEECH OF

HON. MICHAEL T. MCCAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Monday, November 2, 2015

Mr. MCCAUL. Mr. Speaker, I submit the following exchange of letters between the Committee on Homeland Security and the Transportation and Infrastructure Committee, regarding H.R. 3598, for the record.

HOUSE OF REPRESENTATIVES, COMMITTEE ON TRANSPORTATION AND INFRASTRUCTURE,

Washington, DC, November 2, 2015.

Hon. MICHAEL T. MCCAUL,
Chairman, Committee on Homeland Security,
Washington, DC.

DEAR CHAIRMAN MCCAUL: I write concerning H.R. 3598, the "Fusion Center Enhancement Act of 2015." This legislation includes matters that I believe fall within the Rule X jurisdiction of the Committee on Transportation and Infrastructure.

In order to expedite floor consideration of H.R. 3598, the Committee on Transportation and Infrastructure agreed to forgo action on this bill despite the fact that the Parliamentarians were unable to fully litigate the jurisdictional question. However, this was conditional on our mutual understanding that forgoing consideration of the bill would not prejudice the Committee with respect to the appointment of conferees or to any future jurisdictional claim over the subject matters contained in the bill or similar legislation that fall within the Committee's Rule X jurisdiction.

I request that you please place a copy of this letter and your response acknowledging our jurisdictional interest into the Congressional Record.

Sincerely,

BILL SHUSTER,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON HOMELAND SECURITY,
Washington, DC, November 3, 2015.

Hon. BILL SHUSTER,
Chairman, Transportation and Infrastructure
Committee, Washington, DC.

DEAR CHAIRMAN SHUSTER: Thank you for your interest in H.R. 3598, the "Fusion Center Enhancement Act of 2015." I appreciate your cooperation in refraining from requesting a sequential referral on this bill in the interest of allowing it to move expeditiously under suspension of the House Rules on November 2, 2015. Because H.R. 3598 has now passed the House, the Parliamentarians can no longer render an official decision as to

any jurisdictional claim the Transportation and Infrastructure Committee may have had.

I therefore acknowledge that the question of the Transportation and Infrastructure Committee's jurisdictional interest in a certain provision of H.R. 3598 has not been fully adjudicated and that no final decision as to that point was made. I further agree that the absence of a final decision will not prejudice any claim the Transportation and Infrastructure Committee may have with respect to this legislation in the future.

A copy of this letter will be entered into the Congressional Record.

Sincerely,

MICHAEL T. MCCAUL,
Chairman.

HIRE MORE HEROES ACT OF 2015

SPEECH OF

HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, November 3, 2015

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 22) to amend the Internal Revenue Code of 1986 to exempt employees with health coverage under TRICARE or the Veterans Administration from being taken into account for purposes of determining the employers to which the employer mandate applies under the Patient Protection and Affordable Care Act:

Mr. SHUSTER. Mr. Chair, I submit the following exchange of letters between myself and Chairman LAMAR SMITH.

HOUSE OF REPRESENTATIVES, COMMITTEE ON TRANSPORTATION AND INFRASTRUCTURE,

Washington, DC, October 30, 2015.

Hon. LAMAR SMITH,
Chairman, Committee on Science, Space, and
Technology, Washington, DC.

DEAR CHAIRMAN SMITH: Thank you for your letter regarding H.R. 3763, the Surface Transportation Reauthorization and Reform Act of 2015. I appreciate your willingness to support expediting the consideration of this legislation on the House floor.

I acknowledge that by waiving consideration of this bill, the Committee on Science, Space, and Technology does not waive any future jurisdictional claim to provisions in this or similar legislation. In addition, should a conference on the bill be necessary, I would support your effort to seek appointment of an appropriate number of conferees to any House-Senate conference involving provisions within this legislation on which the Committee on Science, Space, and Technology has a valid jurisdictional claim.

I will include our letters on H.R. 3763 in the Congressional Record during House floor consideration of the bill. I appreciate your cooperation regarding this legislation, and I look forward to working with the Committee on Science, Space, and Technology as the bill moves through the legislative process.

Sincerely,

BILL SHUSTER,
Chairman.

HOUSE OF REPRESENTATIVES, COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY,

Washington, DC, October 30, 2015.

Hon. BILL SHUSTER,
Chairman, Committee on Transportation and
Infrastructure, House of Representatives,
Washington, DC.

DEAR MR. CHAIRMAN: I write to confirm our mutual understanding regarding H.R. 3763,

the "Surface Transportation Reauthorization and Reform Act of 2015," which your Committee ordered reported on October 23, 2015. H.R. 3763 contains provisions within the Committee on Science, Space, and Technology's Rule X jurisdiction. However, in order to expedite floor consideration of this important legislation, the committee waives consideration of the bill.

The Committee on Science, Space, and Technology takes this action only with the understanding that the Committee's jurisdictional interests over this and similar legislation are in no way diminished or altered, and with the understanding that an amendment which includes provisions of H.R. 3585, the Surface Transportation Research and Development Act of 2015, will be supported by you when it is submitted to the Rules Committee and offered on the Floor.

The Committee also reserves the right to seek appointment to any House-Senate conference on this legislation, with the understanding that you will support such a request.

I would appreciate your response to this letter confirming this understanding, and would request that you include a copy of this letter and your response in the Congressional Record during the floor consideration of this bill. Thank you in advance for your cooperation.

Sincerely,

LAMAR SMITH,
Chairman.

IN RECOGNITION OF CITIZENS FOR CITIZENS, INC.

HON. WILLIAM R. KEATING

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. KEATING. Mr. Speaker, I rise today to recognize Citizens for Citizens, Inc. on its 50th anniversary.

Citizens for Citizens, a Community Action Agency, assists over 42,000 households in the Greater Fall River and Greater Taunton areas in Massachusetts every year by providing short term services that support families during financial crisis through its Fuel Assistance, Food Pantry and Rental Assistance programs.

Founded in 1965 under the leadership of its first Executive Director, Edward J. (Jud) Sullivan, Citizens for Citizens opened a Head Start program to provide pre-school education programs for children ages 3 to 5. Recognizing the needs of its community, the programs were quickly expanded to include employment opportunities for individuals over the age of 55 through the Senior Aide Program, nutritional services through the Women, Infants & Children (WIC) feeding program, and utility mitigation opportunities through the Fuel Assistance and Weatherization program. By 1982, Citizens for Citizens had also started an After School and Family Day Care program and Retired Senior Volunteer Program.

Today, Citizens for Citizens is an ever-present and integral part of our community's fabric. Hardly a demographic is overlooked by its wide variety of new and continuing programs. In addition to its initial focus on education and employment opportunities, Citizens for Citizens also provides elderly individuals with an opportunity to earn additional income by working with children with special needs through the Foster Grandparent program, and

utilizes the many skills of willing and able neighbors through voluntary assistance programs, such as the Volunteer Income Tax Return Preparation program.

Mr. Speaker, I am proud to honor Citizens for Citizens on behalf of all of the families and individuals that the organization has helped over the last fifty years. Citizens for Citizens has had a tremendous impact on the Fall River and Taunton communities, and the Commonwealth as a whole. I ask that my colleagues join me in congratulating all of its staff and volunteers and in wishing them another fifty years of success.

IN RECOGNITION OF THE 12TH PASTORAL ANNIVERSARY OF PASTOR AND FIRST LADY HENDRICKS

HON. DEBBIE DINGELL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mrs. DINGELL. Mr. Speaker, I rise today to recognize the 12th pastoral anniversary of Pastor and First Lady Hendricks. Pastor and First Lady Hendricks have continually served their community with passion and integrity.

Originally from Chicago, Illinois, Pastor Hendricks moved to Ypsilanti, Michigan in 1969. For 35 years, he worked at General Motors, ultimately retiring as a journeyman pipefitter. Not long after moving to Ypsilanti, he joined St. John Missionary Baptist Church. It was not until 1996 that he heeded God's call into the ministry.

In 2003, Pastor Hendricks was installed to lead St. John Missionary Baptist Church. Under the vision and leadership of Pastor and First Lady Hendricks, the church has experienced continued growth and innovation. The church building has been remodeled, and the empowerment of youth has manifested itself through the formation of Youth Church and Youth Choir.

The strength of Pastor Hendricks' vision has included the expansion of his role through service in other leadership positions. In addition to his current ministry, he was called to serve as president of the Minister's Alliance, president of the General Missionary Baptist State Convention of Michigan, and First Vice Moderator of the Eastern Progressive Baptist District Association of Detroit and Vicinity.

Mr. Speaker, I ask my colleagues to join me today to honor the 12th anniversary of Pastor and First Lady Hendricks. This partnership has faithfully spread the Word and selflessly served their community.

IN RECOGNITION OF DOCTOR ROCCO ARMONDA

HON. WILLIAM R. KEATING

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. KEATING. Mr. Speaker, I rise today to recognize and honor Dr. Rocco Armonda, who has been awarded the Hero of Military Medicine Award by the Cape Cod Veterans, Inc. and the Korean War Veterans Association for saving over one thousand American lives.

Dr. Armonda's military career began at the prestigious United States Military Academy. He then went on to earn his degree as a Doctor of Medicine from the Uniformed Services University of the Health Sciences in Bethesda, Maryland, and complete his Neurosurgery Residency at Walter Reed Army Medical Center in Washington. Adding to his growing list of qualifications, he took a fellowship with the Thomas Jefferson University in Philadelphia, specializing in Cerebrovascular Surgery and Interventional Neuroradiology. Dr. Armonda then deployed to Iraq from March 2003 to February 2004 as Commander of the 207th Neurosurgery Team.

Dr. Armonda has saved the lives of over one thousand U.S. servicemen, including a life particularly close to home: Corporal Vincent Mannion-Brodeur of Hyannis, Massachusetts. While serving with the 82nd Airborne Division in Tikrit, Iraq in 2007, Corporal Mannion-Brodeur was critically injured by an enemy explosion. Due to Dr. Armonda's expertise, bravery, and poise, Corporal Mannion-Brodeur is still with us today. His road to recovery has been long, but Corporal Mannion-Brodeur has used this opportunity to dedicate his time to working with other injured veterans.

This is not the first time Dr. Armonda has been honored for his work—among others, the American Association of Neurological Surgeons and the International Brain Mapping and Intraoperative Surgical Planning Society have awarded Dr. Armonda with their own recognitions. Currently, Dr. Armonda is affiliated with numerous hospitals, including Walter Reed Army Medical Center and the MedStar Washington Hospital Center. He also serves as an Associate Professor of Neurosurgery at the Uniformed Services University of the Health Sciences and, incredibly, has found time between saving lives to travel to Boston multiple times to run the Boston Marathon in honor of Corporal Vincent Mannion-Brodeur.

Mr. Speaker, I am proud to honor Dr. Rocco Armonda for his many years of service and outstanding dedication to military medicine. I ask that my colleagues join me in congratulating him and in extending our humble gratitude for all that he has done for Corporal Mannion-Brodeur and for our country's military service members.

lating him and in extending our humble gratitude for all that he has done for Corporal Mannion-Brodeur and for our country's military service members.

END PREDATORY LENDING TO VETERANS

HON. RAÚL M. GRIJALVA

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. GRIJALVA. Mr. Speaker, in commemoration of this year's Veterans Day, I want to take this opportunity to highlight the progress we have made in the past year protecting service-members, veterans and their families from harmful financial products and practices.

Earlier this year, the Department of Defense finalized new rules to protect service-members and their families from triple-digit interest rate payday and car title loans that threatened their security clearance and careers. Unfortunately these protections are only available to active duty members, leaving our nation's veterans susceptible to predatory financial practices. Let us honor our veterans by declaring them off-limits to predatory lending and protecting them from the worst abuses in the payday lending industry.

To protect veterans, their families, and all consumers, the Consumer Financial Protection Bureau (CFPB) must adopt the strongest possible rule to rein in the worst abuses in the payday loan market. Specifically, I ask that the CFPB meaningfully reform the marketplace by implementing rules governing both storefront and online payday lending that would require the lender to determine the borrower's ability to repay the loan, including consideration of both income and expenses.

CFPB should not sanction any series of repeat loans or provide any safe harbor, and recognize that borrowers need small dollar loans with good terms, not short-term loans that are difficult for them to repay. These short-term loans are renewed a multitude of times and trap the average borrower in debt for more than half the year at rates that average 391 percent.

The CFPB should establish an outer limit on length of indebtedness that is at least as short as the FDIC's 2005 guidelines—90 days in a twelve-month period, and lastly prohibit lenders from using post-dated checks of electronic access to a borrower's checking account as evidence of ability to repay the loan.

Too many veterans are living in poverty and desperation—some are even driven to homelessness—due to these consumer protection loopholes that predatory lenders take advantage of, and we must do better. One homeless veteran is too many. This Veterans Day, let's end this predatory lending epidemic.

HIRE MORE HEROES ACT OF 2015

SPEECH OF

HON. LUCILLE ROYBAL-ALLARD

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, November 3, 2015

The House in Committee of the Whole House on the state of the Union had under

consideration the bill (H.R. 22) to amend the Internal Revenue Code of 1986 to exempt employees with health coverage under TRICARE or the Veterans Administration from being taken into account for purposes of determining the employers to which the employer mandate applies under the Patient Protection and Affordable Care Act:

Ms. ROYBAL-ALLARD. Mr. Chair, I rise in support of the House amendment to the Senate amendment to H.R. 22, the DRIVE Act. I believe many areas of this legislation still need improvement, and I am hopeful this will occur in conference. I will support the legislation in order to move the process forward and help provide greater certainty for the delivery of current and pending transportation projects across the country.

The legislation only provides \$325 billion over the course of six years. The funding level proposed in this legislation will not be sufficient if we truly want to improve our infrastructure and keep our country competitive in the years to come. In addition, this six-year legislation is only paid for through the first three years. Congress needs to pay for all six years to ensure that the federal government can engage in new transportation projects with the states during the final three years of the legislation. As the legislation goes to conference, I will keep fighting to increase its funding.

While I am concerned about several elements in the legislation, I am glad that it includes the reauthorization of the Export-Import Bank, which passed the House with bipartisan support last week. The Export-Import Bank supports millions of dollars in exports by businesses in my district, and helps them to better compete in the global market. The reauthorization of the Export-Import Bank will strengthen American businesses and create American jobs.

I look forward to continuing to work with my House colleagues to resolve the issues of concern in the Surface Transportation Reauthorization. I encourage my colleagues to support this legislation and help to move the process forward, for the sake of our economy and our national infrastructure.

IN RECOGNITION OF SERGEANT
MAJOR (RET.) DANIEL BULLIS

HON. WILLIAM R. KEATING

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. KEATING. Mr. Speaker, I rise today to recognize Daniel Bullis, a Vietnam veteran who is not only being honored by the Korean War Veterans Association but also Cape Cod Veterans, Inc. for his outstanding military service and dedication to military medicine.

Sergeant Major Bullis is a respected veteran of the war in Vietnam and served for 31 years on active duty in the United States Army Medical Department. During his illustrious career, he assumed numerous leadership responsibilities—the culmination of which led to his selection as the first Sergeant Major, Army Medical Department/Senior Enlisted Advisor to the Surgeon General of the U.S. Army. He was also appointed as the first Regimental Sergeant Major of the Army Medical Department Regiment, a position in which he provided leadership and guidance concerning the health, welfare, and training of 90,000 enlisted medical personnel.

After Sergeant Major Bullis retired from the Army, he joined the Department of Defense Deployment Health Clinical Center as the Chief of Staff and also serves as Vice President for Patient and Family Services with the Walter Reed Society—a non-profit charitable organization that helps wounded veterans with the unanticipated and often burdensome financial needs. The Society provides these veterans with specially identified equipment and services related to their care when other resources are not available. Originally chartered in 1996 for the benefit of the Walter Reed Army Medical Center, the Society now serves its successor organization, Walter Reed National Military Medical Center, in Bethesda, Maryland. Sergeant Major Bullis serves proudly and voluntarily on the Board of the Society. His efforts on behalf of the Walter Reed Society have helped hundreds of service members and their families receive the assistance they deserve.

Mr. Speaker, I am proud to honor Sergeant Major Bullis for his many years of service and outstanding dedication to the care of our nation's service members. I ask that my colleagues join me in congratulating him and in extending our gratitude for all that he has done.

INTRODUCTION OF THE ENSURING
CONTINUED OPERATIONS AND
NO OTHER MAJOR INCIDENTS,
CLOSURES, OR SLOWDOWNS (ECONOMICS)
ACT OF 2015

HON. DAN NEWHOUSE

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. NEWHOUSE. Mr. Speaker, I rise today to introduce my legislation, the Ensuring Continued Operations and No Other Major Incidents, Closures, or Slowdowns (ECONOMICS) Act of 2015. From late 2014 through February 2015, a dispute between the Pacific Maritime Association and the International Longshore and Warehouse Union drastically slowed import and export traffic at our 29 West Coast ports, paralyzing supply chains and the economy west of the Mississippi River. This dispute had severe and devastating economic impacts on Washington's 4th Congressional District, the Pacific Northwest, and the country—as agricultural producers, retailers, manufacturers, and countless other businesses and consumers were unable to get their goods through the ports and to foreign as well as domestic markets.

This legislation would create new economic safeguards and triggers that mandate a legal mediation process in an employer-labor dispute at our nation's ports, in order to prevent future disputes and slowdowns. The measure would require the Administration to investigate a dispute and prevent unnecessary economic harm by mandating that a Board of Inquiry be convened within 10 days of any of the safeguards being triggered and then report its recommendations to the President and the public on whether there should be a judicial injunction.

Mr. Speaker, it is imperative that Congress provide additional tools to keep supply chains operating and the economy running during times of severe economic hardship and this

legislation does just that. This commonsense and straightforward bill takes an important first step in mitigating the negative impacts of future labor disputes at our nation's ports, which will help protect the economy, as well as families, businesses, and agricultural producers, many of whom are still recovering from the most recent slowdown at our West Coast ports.

IN RECOGNITION OF THE MILITARY
SERVICE OF MR. LEONARD
PITEK

HON. DEBBIE DINGELL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mrs. DINGELL. Mr. Speaker, I rise today to honor Mr. Lenny Pitek for his service to the nation. The sacrifices he made while stationed in Germany from 1957–1960 and in the Army Reserve from 1960–1963 helped keep America safe, and the Dearborn community is better off because of his hard work over the years.

Mr. Pitek's commitment to serve the Dearborn community for more than three decades is truly extraordinary. He is an active member of the American Legion Fort Dearborn Post 364, Polish Legion of American Veterans Chapter 75, and the Dearborn Allied War Veterans Council (DAWVC). He also served as a chaplain for the DAWVC and American Legion Post 364. Lenny is also an original member of the Ritual Team, which provides military honors at ceremonies and funerals to ensure that every veteran is laid to rest with the honor and dignity they deserve. As a result of his direct actions, military families find peace, veterans are comforted, and our military members are buried with honor. Based on this service, Mr. Pitek was selected by his military peers to receive the DAWVC 2015 Dearborn Veteran of the Year Award.

Lenny Pitek is a longtime resident of Dearborn and lives there with his wife of 45 years, Dianne. Together, they raised three children; Anthony, Jennifer, and Monica, and they have three grandchildren. Mr. Pitek served as the past President of St. Martha's Dad's Club, where he helped organize Christmas parties, Easter egg hunts and raised money for families in need. He also volunteers at the John D. Dingell VA Medical Center distributing Christmas gifts during the holiday season. Mr. Pitek is a true hero to veterans and to all families he reaches with his unwavering dedication to service.

Mr. Speaker, I ask my colleagues to join me today to honor Mr. Leonard Pitek for his military service and inspiring dedication to veterans and the City of Dearborn.

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. KEATING. Mr. Speaker, I rise today to recognize Ronald J. Teixeira for receiving the Silver Star for his gallantry in action against an enemy of the United States on March 22nd 1969.

Mr. Teixeira was destined for a life of bravery. Born soon after the end of World War II on Veterans Day, he first joined the U.S. Army at Fort Dix, New Jersey to complete his basic training before being transferred to Ft. Gordon and Ft. Benning in Georgia to finish his training as a Non-Commissioned Officer (NCO) in the airborne infantry. In December of 1968, he received orders and shipped out with the 101st Airborne for Vietnam. Due to a shortage of NCOs in the 4th Infantry Division, Sergeant Teixeira was placed with Company B, 2nd Battalion (Mechanized), 8th Infantry of the 4th Infantry Division as part of security details for bridges, artillery units, medic visits to friendly villages and resupply convoys.

It was while protecting a resupply convoy on March 22, 1969, that enemy forces attacked. Sergeant Teixeira's armored personnel carrier was destroyed and he was wounded along with several of his crewmen. Rather than seeking safety and medical attention immediately, Sergeant Teixeira returned enemy fire and engaged their positions until his ammunition had been expended. After receiving basic medical attention, he assisted in the treatment of other wounded soldiers and set up defensive positions until a medical evacuation (medivac) helicopter came to the aid of the ambushed unit.

Sergeant Teixeira's fight to survive and protect his fellow soldiers that day was not over, however. While lifting off from the landing zone, his medivac helicopter was shot down by an enemy rocket. Pulling out the other wounded and injured from the wreckage, Sergeant Teixeira valiantly continued to risk his safety and life in order to keep his fellow soldiers alive until they were evacuated out of Vietnam and to Japan to receive medical attention.

With a slip of fate, Sergeant Teixeira never received the Silver Star during his service in the United States Army. Instead of returning home to file the necessary paperwork to receive this award, Sergeant Teixeira shipped out to Korea after recuperating in Japan to continue protecting American lives. His bravery, service, and dedication is unmatched.

And so, on this Veterans Day and, coincidentally, his 70th birthday, it is my sincere honor to be able to present one of our nation's highest military commemorations to Sergeant Teixeira for his outstanding military service and for the great credit he has brought upon himself, the Army and the United States of America.

Mr. Speaker, please join me in honoring this distinguished soldier for his determination and exemplary devotion to his duty. I ask that my colleagues rise and join me in wishing Mr. Teixeira a happy 70th birthday and thanking

him for the sacrifices he made in service to his country.

HONORING BETTY GRAY

HON. ADAM SMITH

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. SMITH of Washington. Mr. Speaker, I rise to honor Betty Gray, a loyal public servant and a key staff member on the House Armed Services Committee. Betty has served in Congress for 40 years—a benchmark only the most dedicated public servants achieve.

Betty typifies what it means to be a public servant, a colleague, a friend and, most importantly, a mother and wife. Anyone who has had the opportunity to meet Betty quickly understands that the most important thing to her is her family. Her husband, Dick, and two children, Zach and Cal, are at the center of her life.

We all fear the day Betty decides to retire. While no one is irreplaceable, some people come very close. Betty is one of those people. Her institutional knowledge and administrative skill set are unrivaled. After 40 years of service, Betty has accumulated a wealth of knowledge and depth of understanding about the Armed Services Committee and Congress that cannot be replaced. When she retires, a part of Congress will retire with her.

Betty is a true professional. Ask anyone who has worked with her about the quality of her service and the response is unequivocal: Betty has always been the quiet, consistent presence on the committee—the person who is never rattled, regardless of how chaotic or stressful things become. She is always here to remind us of what has been tried before and whether it did or did not work.

An eagle-eye editor of letters and memoranda, Betty is literally the person who makes sure that we “cross our T's and dot our I's.” Not only is she the person with the clipboard checking off staff at Member meetings, she is the person who assures that the Members know the who, what, where, when, why, and how of the meeting. Throw five conflicting times and dates at her, and Betty can make calm out of schedule chaos. As security administrator for classified information, Betty literally handles our deepest, darkest secrets. For 37 years, she has shepherded every National Defense Authorization Act through committee markup, ensured every roll-call vote is tallied correctly, and served as the committee's unofficial historian.

On a more personal level, Betty is the librarian of the House Armed Services Committee, the school counselor, the motherly presence who remembers everyone's birthdays and, on occasions, even the school nurse. She is the go-to person to get things done and the one who lends a helping hand or a listening ear.

Betty has outlasted eight Speakers of the House, seven Presidents, and ten House Armed Services Chairmen. Speaking as someone who has been here for a while, I understand the difficulty of achieving that level of longevity. We are here today to celebrate all that Betty has done for her country and for Congress, and to thank her for her service. You are a true public servant, Betty. Thank you.

Mr. Speaker, it is my honor to recognize Betty Gray for her distinguished career. I am confident that others will continue to benefit from her service.

HONORING THE CAREER OF BEN FLANAGAN

HON. KENNY MARCHANT

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. MARCHANT. Mr. Speaker, I rise today to celebrate the long, successful career of Ben Flanagan, who served the Grapevine Police Department for 25 distinguishable years.

Ben served the Grapevine Police Department in several capacities from 1989 to 2014, ultimately retiring as Assistant Chief of Police. Born and raised in Grapevine, Texas, Ben graduated from Grapevine High School in 1970. Upon graduation, he joined the US Army for two years before attending Tarrant County Community College where he studied political science. Ben would then serve the Lewisville Police Department for one year before beginning his exceptional career with the Grapevine Police Department.

The career Ben made for himself is full of honors, success, and hard work as he held seven different positions within the department, quickly moving up the ranks. In 1989, Ben began as a patrol officer and eventually retired as Assistant Chief of Police, acquiring an impressive resume along the way. Ben was honored as officer of the year in 1991 and detective of the year in 1994. He also participated in hostage negotiations and was a member of the SWAT team. Ben played a pivotal role in shaping the police department into the institution it is today, as well as helping keep the city safe for its residents, businesses, and visitors.

Ben's North Texas roots are deep, as he grew up fishing the shores of Lake Grapevine and his father had farmed the land that is now part of Dallas/Fort Worth International Airport. To this day he enjoys the outdoors and many of its activities including fishing and hunting. Ben accumulated 46 commendations during his career, including an outstanding service award in 2004 from Mothers Against Drunk Driving. Ben's dedication and positive attitude is known throughout the community and travelled with him during his tenure. It is an honor and a privilege to recognize one of the great citizens of the 24th district.

Mr. Speaker, it is a pleasure to recognize the career of Ben Flanagan. I ask all of my distinguished colleagues to join me in celebrating this milestone in his remarkable life.

HIRE MORE HEROES ACT OF 2015

SPEECH OF

HON. BRAD SHERMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 4, 2015

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 22) to amend the Internal Revenue Code of 1986 to exempt employees with health coverage under

TRICARE or the Veterans Administration from being taken into account for purposes of determining the employers to which the employer mandate applies under the Patient Protection and Affordable Care Act:

Mr. SHERMAN. Madam Chair, I support the Neugebauer amendment because it will force the Conference Committee to deal with the use of enterprise guarantee fees in the Highway Bill. I do not necessarily oppose the reduction of dividends paid by the Federal Reserve to the largest banks.

IN RECOGNITION OF WILLIAM
WHIPP

HON. WILLIAM R. KEATING

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. KEATING. Mr. Speaker, I rise today to recognize a distinguished veteran from my district in Massachusetts: William David Whipp. This Veterans Day, Mr. Whipp will be recognized by the Dartmouth Veteran's Advisory Council for his outstanding service during the Battle of the Bulge in World War II.

Born in 1926, Mr. Whipp joined the Army soon after his eighteenth birthday on April 11, 1944. Following his basic military training as an infantry scout, Mr. Whipp was assigned to the 11th Infantry Regiment of the 76th Infantry Division and deployed as a Private First Class to Western Europe as part of the European-African-Middle Eastern Theater of Operations in World War II.

It was during Mr. Whipp's deployment to Ardennes that the Germans launched one of the most brutal offensive campaigns against Allied forces in this densely forested region. Known as the Battle of the Bulge, this bloody ground offensive claimed over 19,000 American lives—more than any other single battle in World War II. Surviving this fierce surprise attack and the ensuing counteroffensive by Allied forces, Mr. Whipp went on to serve through the end of World War II until, having received, among other medals and awards, the illustrious Bronze Star for his actions during battle, Mr. Whipp received an honorable discharge in January of 1946.

Upon the conclusion of the war and his return home, Mr. Whipp has been viewed by the citizens of Dartmouth and the Commonwealth as a leader, a trusted civil servant, and a friend to the community. His guidance on several Town Boards over the last twenty years has contributed significantly in improving the lives of everyone in Southeastern Massachusetts and beyond.

Mr. Speaker, I am proud to honor Mr. Whipp for his years of service to a grateful nation. I ask that my colleagues join me in congratulating him for receiving this recognition and in humbly thanking him for all that he has done for his country.

CELEBRATING THE STATE CHAMPION
MARIAN HIGH SCHOOL
BOYS' SOCCER TEAM

HON. JACKIE WALORSKI

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mrs. WALORSKI. Mr. Speaker, I rise today to pay tribute to the Marian High School

Knights for their victory in the IHSAA Class 1A Boys Soccer State Championship. Hard work and dedication led the Knights to this victory and allowed them to finish out the season with twenty wins, eight of which were shutouts, and two losses. The championship game was the team's first appearance in the state finals and is their first state title.

During the championship game, Marian senior Augie Hartnagel started off with high intensity, scoring a goal within the first 20 minutes. The team took this momentum and scored two more goals, made by Kevin Torres and Jordan Morris. The team finished with 24 shots to Cardinal Ritter High School's four and a 3-0 victory.

I also would like to highlight the many players who were honored for their performance in the tournament. Seniors Richie Ontiveros and lead scorer Augie Hartnagel were named to the Northern Indiana Conference's First Team, Kevin Torres and Cristian Juarez were named to the NIC's Second Team, and Christian Verstraete received Honorable Mention. Keeper Michael Cataldo also walked away with eight shutouts for the season.

I want to congratulate Coach Ben Householter on this victory, which is truly a testament to his dedication to the boys' soccer program. This win gave Householter his first state championship in 18 years as head coach and earned him recognition throughout the entire conference as Northern Indiana Conference Coach of the Year.

The Knights' level of excellence as a whole is a reflection of the individual players and their desire for success and dedication to hard work. This victory is a result not only from talent, but also from hours of practice, strategic planning, and fine tuning the skills of each player. I look forward not only to cheering for the Knights in the future, but to cheering on the men of this year's team as they pursue their goals in the years to come. I have every confidence that they will succeed.

Congratulations to the entire team for their contributions: Kevin Torres-Villa, Christian Verstraete, Richie Ontiveros, Augie Hartnagel, Carlos Torres, Nate Pullin, Lorenzo Martinez, Michael Wuszke, Michael Cataldo, Max Frausto, Justin Saavedra, Alex Kokot, Cristian Juarez, Oscar Tavarez, Johnathan Tavarez, Roberto Ontiveros, Jordan Morris, Alex Rodela, Will Tiller, De'Quarius Strowder, Dennis Mammolenti, Gabriel Martinez, Juan Botello, Adam Evans, Alfredo Medina, Jonathan Magallon, Head Coach Ben Householter, Assistant Alfredo Juarez, Assistant Coach John Jonas, Assistant Coach Matt Englert, Manager Chloe Householter, Manager Jenna Householter, Athletic Trainer Anne Micinski, Assistant Athletic Director Linda Martin, Athletic Director Reggie Glon, and Principal Mark Kirzeder.

The Knights' dedication and sacrifices have truly paid off, and is a source of pride for the entire city and Indiana. This is truly an exciting victory and this is a memory these students will have for a lifetime. On behalf of the people of the Second Congressional District of Indiana, I applaud Coach Householter for building this program, thank the student athletes for their determination, and congratulate them all on an amazing season. It is my honor to represent Marian High School, and I wish continued success to the team and each of its members in their future endeavors.

DEMANDING ACCOUNTABILITY:
EVALUATING THE TRAFFICKING
IN PERSONS REPORT

HON. CHRISTOPHER H. SMITH

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. SMITH of New Jersey. Mr. Speaker, yesterday I convened an oversight hearing on the 2015 Trafficking in Persons Report. Far more than simply ink on paper, this report has proven to be both prize and prod: a prize for those countries whose progress in the fight against the grave abuse of human trafficking the report acknowledges, a prod to those nations that are failing the trafficking victims within their borders.

The power of the report lies in its credibility. And the credibility of the report lies in its accuracy. We must get the report right, or we will lose the most effective tool we have to help the more than 20 million victims of trafficking enslaved around the world today.

Some countries openly credit the TIP Report for their increased and effective anti-trafficking response. Over the last 14 years, more than 100 countries have enacted anti-trafficking laws, and many countries have taken other steps required to significantly raise their tier rankings: Tier 1 for those who fully meet minimum standards, Tier 2 for those who are making significant efforts to meet minimum standards, and Tier 3 for those who are not making significant efforts to meet minimum standards and, indeed, may be subject to sanctions.

And for those in a purgatory between Tier 2 and 3, Congress in 2003 created a "Tier 2 Watch List" for those which may have undertaken significant anti-trafficking steps late in the evaluation year. Unfortunately, this ranking has been misused to allow countries to escape accountability.

I held the hearing yesterday due to well-founded concern that some of the rankings in the most recent report are grossly inaccurate and greatly undermine the credibility of the report.

Indeed, we have massive grade inflation for certain favored countries, thereby defeating accountability, and demoralizing countries that actually made significant progress last year.

The State Department heard from many House members—161 to be exact—when it was leaked that Malaysia was upgraded this year from Tier 3 to the Tier 2 Watch List.

The report justified the upgrade because Malaysia introduced—but did not pass—an amendment to their trafficking law, and allowed a limited number of their trafficking victims to work outside of detention, while keeping the rest of the victims in detention.

These incomplete actions pale in comparison to the size of Malaysia's trafficking problems. Malaysia was the subject of a Reuters investigative report in 2014, which found that human traffickers were keeping hundreds of Rohingya refugees from Burma captive in houses in northern Malaysia, beating them, depriving them of food, and demanding a ransom from their families.

At least two million vulnerable migrants work in the informal economy in Malaysia. NGOs on the ground tell us that traffickers operate openly and with impunity. And that those who get in their way are killed.

Only three traffickers were convicted in Malaysia last year. Three in a country of more than 30 million people.

If that ratio were not bad enough, it also marks the third year of decline in convictions. Three convictions is one-third of the convictions Malaysia had in 2013—when Malaysia was Tier 3—and one-seventh of the convictions in 2012.

Trafficking in Malaysia is getting worse and the Government's enforcement of the law was nearly non-existent, and yet Malaysia was upgraded.

So what happened?

What happened is that this Administration wanted Malaysia to be eligible to join the Trans-Pacific Partnership. This spring, Congress approved the Trade Priorities Act of 2015, excluding Tier 3 countries from expedited consideration by Congress, for the simple reason that Congress did not want to increase trade with countries that engage in persistent labor trafficking.

Malaysia was disqualified—until their upgrade.

More than “bad optics,” more than flouting the will of Congress, such circumventing of accountability is disastrous for the labor trafficking victims in Malaysia.

Instead of demanding change before Malaysia became a major trading partner, the Administration changed our standards to give Malaysia a pass. In other words, we looked the other way to empower a slave economy.

The Administration also upgraded Cuba this year to the Tier 2 Watch List on flimsy justifications—namely, that Cuba began sharing information with the U.S. on trafficking and that it convicted 13 traffickers two years ago (which is outside the reporting period).

But what has changed in Cuba for trafficking victims in the last year?

Cuba legally permits the pimping of 16 year old girls, is the top destination in the Western Hemisphere for child sex tourism, and does not criminalize labor trafficking at all—indeed, Cuban health care personnel who are sent abroad by the Castro regime to generate income for the government report being forced to work in medical missions, having their passports withheld and their families threatened.

The trafficking rankings should not be used in hopes of bringing about better bilateral relations with Cuba; rather, better relations with Cuba should be pre-conditioned on real protection for Cuba's prostituted children and recognition of labor trafficking.

The bar also seemed to be lowered this year for Uzbekistan, which was upgraded to the Tier 2 Watch List despite the fact that Uzbekistan's Government openly and unapologetically forces its population into forced labor every year during the cotton harvest.

In recent years, the government has shifted away from pulling young children out of school and allowed the International Labor Organization to monitor conditions. But instead of children they conscripted adults, continuing the systematic exploitation of its population.

China's premature upgrade to Tier 2 Watch List in 2014 and continued presence there in the 2015 report also raises the question—How can a country that systematically traffics its own people be anything other than Tier 3?

After one year on Tier 3 in 2013, China passed a law to allegedly close its 320 Re-education Through Labor (or RTL) detention

centers, which forced prisoners and other detainees to perform manual labor and padded the pockets of the government.

The State Department upgraded China because of the “reform” in 2014. But now we know from the report itself that the government only closed “several” of the 320 forced labor sites, and converted other RTL facilities into state-sponsored drug detention or ‘custody and education’ centers.

In other words, China continues to force detained citizens to perform manual labor—and yet it got to keep the Tier upgrade it was given for allegedly ending this practice.

Additionally, China's official birth limitation policy, in combination with a cultural preference for boys, has resulted in approximately 40 million women and girls missing from the population—making China a regional magnet for sex and bride trafficking as men who reach marrying age cannot find a mate.

Just ask the Burmese, Cambodian, Vietnamese, Laotian, and North Korean women imported to meet China's demand.

To wit, an estimated 90 percent of North Korean women seeking asylum in China have been trafficked. Yet China refuses these women refugee status and sends them back to possible execution in North Korea.

Nothing in China's record in 2014 warrants any ranking other than Tier 3.

Consider this: China convicted 35 traffickers last year in a country of 1.3 billion people. That is one trafficker out of every 37 million people.

I wrote the TVPA to allow flexibility and discernment in rewarding a country for making progress over their record from the year before. And for significant—not just any—efforts that go to prosecutions, protection, and prevention.

Tier rankings are a tool to aid real change, not a rubber stamp for simply holding a meeting and being a major trading partner.

The rankings in this 2015 report seem to be a real opportunity lost, not just for the countries we gave a pass to but other countries whose good faith efforts at reform were not acknowledged.

No country will take U.S. trafficking rankings seriously when there seems to be a ‘wink and nod’ agreement to look the other way when it suits U.S. business or other interests.

Tellingly, Reuters reports that there was a lot of infighting at the State Department between the trafficking experts, and the bureaus. This year the two sides split on 17 countries in particular—and that J/TIP lost almost all of the conflicts.

Real people are suffering. Real lives are at stake.

HONORING THE LIFE AND
ACHIEVEMENTS OF BROTHER
HERBERT HAROLD SIMPSON

HON. CEDRIC L. RICHMOND

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. RICHMOND. Mr. Speaker, I rise today to honor the life of Brother Herbert Harold “Briefcase” Simpson, exemplary Christian Brother and prominent professional baseball player in the Negro League. Brother Simpson passed away on January 7, 2015, at the age of 94.

Brother Simpson was born August 29, 1920 in Algiers, Louisiana. In his early years, Brother Simpson attended New Orleans public city schools where he played semi-pro baseball with the Algiers Giants while still in high school. After graduating from high school, he enlisted in the military and served in the United States Army.

During World War II, Brother Simpson served in General Patton's Third Army Red Ball Express. He was also the only African-American player on a baseball team that played in the Battle League.

After his honorary discharge, Brother Simpson played professional baseball in the Negro League for the next decade. Earning the nickname, “Briefcase,” he was selected to play in Hawaii as a member of the all-star team called the All Star Cincinnati Crescents. Brother Simpson displayed great courage and perseverance when he integrated two minor league teams, the Seattle Steelheads and the Albuquerque Dukes.

Brother Simpson returned to his hometown where he played semi-pro baseball with the New Orleans Creoles while working for the New Orleans Parish School Board for 20 years and the State of Louisiana for ten years. Brother Simpson later became Deacon of the First Free Mission Baptist Church of Algiers. Brother Simpson's dedication to community extended beyond his Deacon duties. He was a member of Pride of Algiers Lodge #102 Free and Accepted Mason, Prince Hall Affiliation where recently Brother Simpson was honored as the society's oldest member.

Mr. Speaker, I celebrate the life and legacy of Brother Herbert Harold Simpson, a soft-spoken man remembered for his faith and humility, and for his dedication to life-long civic and community service. His service and professional athletic achievements contribute significantly to our city's rich history.

IN COMMEMORATION OF THE 100TH
ANNIVERSARY OF THE GREATER
WILKES-BARRE ASSOCIATION OF
REALTORS

HON. LOU BARLETTA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. BARLETTA. Mr. Speaker, it is my honor to help commemorate the 100th anniversary of the establishment of the Greater Wilkes-Barre Association of Realtors. The association and its members have played a crucial role in helping my constituents realize the American dream of home ownership.

Since 1915, the association has been able to support the interests of local realtors in Northeastern Pennsylvania. The organization has enjoyed a distinguished history of real estate brokerages that have grown from sole proprietorships to multiple offices over the course of the past century—a notable feat. The senses of entrepreneurship and dreams shared by all of its realtors have perpetuated a long list of members and have survived to the present day. They truly embody the spirit of American entrepreneurialism, and I am thankful for the services that they provide my constituents on a daily basis.

Mr. Speaker, it is my pleasure to recognize the Greater Wilkes-Barre Association of Realtors as it celebrates its 100th anniversary, and

I look forward to the group's continued success for years to come.

CELEBRATING THE 100TH ANNIVERSARY OF THE COLLINSVILLE MEMORIAL PUBLIC LIBRARY

HON. JOHN SHIMKUS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. SHIMKUS. Mr. Speaker, I rise today to congratulate the Collinsville Memorial Public Library on their 100th anniversary of service to our community.

On October 15th, 1915, Mrs. John Bruso, the president of the Collinsville Study Club, now the Women's Club, tasked Mrs. Charles Holding, Mrs. Charles Listeman, and Mrs. AC Powel with establishing a Library for the city of Collinsville. Less than a year later, the library opened on the second floor of city hall. One hundred and twenty-one volumes were donated for public use.

Since opening, the library has seen many moves and structural modifications, as well as the addition of the Collinsville Historical Museum. I am proud to say the library also serves as a memorial. On November 30th, 1938, a tablet was dedicated to fifteen Americans who heroically gave their lives in World War I, and exactly ten years later another tablet was dedicated to fifty soldiers who defended our freedom in World War II.

I am proud of the history the Collinsville Memorial Public Library has in our community, and I'm excited to see what it will bring to our future generations.

ANNIVERSARY OF THE UKRAINIAN FAMINE-GENOCIDE OF 1932-1933

HON. BRENDAN F. BOYLE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. BRENDAN F. BOYLE of Pennsylvania. Mr. Speaker, as we near the anniversary of the Ukrainian Famine-Genocide of 1932-1933, I would like to extend my deepest sympathies to the victims, survivors and families of this tragedy.

During this time, nearly 10 million Ukrainians were killed under the direction of Soviet dictator Joseph Stalin who ordered the borders of Ukraine sealed to prevent anyone from escaping the man-made starvation and prevent any international food aid from entering.

Grain harvests were deliberately confiscated so millions of innocent men, women and children starved all to destroy the nationally conscious movement for independence.

In 1985, the United States Commission on the Ukraine Famine formed to expand the world's knowledge and understanding of the events of this genocide of 1932-1933. They found that the victims were "starved to death in a man-made famine" and that "Joseph Stalin and those around him committed genocide against Ukrainians in 1932-1933".

And so, today I stand here in solidarity with the Ukrainian people, to remember the suffering experienced under Stalin. I am a proud representative of Pennsylvania's 13th District

where I have many Ukrainian constituents whom I would like to specifically acknowledge.

I commend the Congress when in 2006 legislation was enacted to authorize the construction of a memorial in the District of Columbia to honor the victims of the Ukrainian Famine-Genocide. Today, we can see the culmination of this effort with a meaningful memorial by Union Station that I visited earlier today.

Unfortunately, today many people have never heard of Holodomor, despite the 10 million that perished. I call for more efforts to be made like that of the Commission to educate the public on this issue, so everyone understands the events of this genocide. We must learn our history so we do not repeat the mistakes of our past. We must ensure this never happens again—especially at a time where Russia continues to show aggression in Ukraine.

RECOGNIZING THE 35TH ANNIVERSARY OF THE GUILLAIN-BARRÉ SYNDROME/CHRONIC INFLAMMATORY DEMYELINATING POLYNEUROPATHY FOUNDATION

SPEECH OF

HON. STENY H. HOYER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. HOYER. Mr. Speaker, I rise to recognize the Guillain-Barré/Chronic Inflammatory Demyelinating Polyneuropathy Foundation International's thirty-fifth anniversary. For more than three decades, the GBS/CIDP Foundation has done more than advocate for effective treatment; it has provided hope and resources to those who suffer from these disorders. The Foundation's staff and volunteers help those with GBS and CIDP recognize that they are not alone—and that they have powerful allies in their corner.

Last night, I had the privilege of serving as master of ceremonies for the Foundation's anniversary gala, at which my friend and colleague, Representative JOHN GARAMENDI of California was honored as "Legislator of the Year." JOHN's two daughters, Christina and Elizabeth, experienced GBS, and he is not only a great leader on this issue but also a steadfast advocate for access to quality, affordable health care for all who need it.

Many of those who suffer from GBS and CIDP find themselves experiencing a physical disability, which can have a profound effect on their quality of life and, potentially, their ability to work. One of the proudest moments of my career in public service was leading the effort in the House to pass the bipartisan Americans with Disabilities Act in 1990, ensuring that every American with a differing ability can have his or her equal rights, equal access, and equal dignity recognized and respected.

This year we're celebrating the twenty-fifth anniversary of that landmark legislation, which did more than change the way we construct buildings or crosswalks—it changed attitudes. Changing attitudes about what GBS and CIDP means for those experiencing it and why we must work together to find new treatments and a cure has been the great work of this Foundation.

I am proud to have been a part of last night's event, and I ask my colleagues to join me in congratulating the GBS/CIDP Foundation International on this milestone anniversary. I want to thank organizers Ralph Neas and Katherine Beh Neas, both for their friendship over the years and for their untiring efforts to raise awareness, provide resources, and support research to benefit those suffering from GBS/CIDP. I look forward to continuing my support for their important and impactful work.

RECOGNIZING STRATEGIC STAFFING SOLUTIONS AND PRESIDENT AND CEO CINDY PASKY ON THEIR 25TH ANNIVERSARY

HON. DEBBIE DINGELL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mrs. DINGELL. Mr. Speaker, I rise today to recognize Strategic Staffing Solutions and

President and CEO Cindy Pasky on their 25th Anniversary. Their longevity as a company is a testament to their innovative services, the drive of their leaders, and the hard work of their employees. The mission of Strategic Staffing Solutions (S3) is to build trusting relationships and deliver solutions that positively impact their customers, consultants, and community. This has been a mission that President and CEO Cindy Pasky and her team have proudly embodied for the past 25 years in Metro Detroit. They deserve to be commended for this milestone anniversary and for their contribution to the renaissance of Detroit.

Founded in 1990, Cindy Pasky set out to create a company that would set the standard for service and community engagement and has succeeded in an extraordinary way. In the first year, S3 posted revenues over two million dollars and was employing over forty consultants and team experts; incredible growth for a start-up company. Today, S3 is one of the largest and fastest growing staffing firms in the country, employing over twenty seven hundred team members with offices across the United States and Europe. We are proud to have such a strong global company headquartered in Metro Detroit.

The company has been a great success, but the impact that President and CEO Cindy Pasky has had on our region is almost immeasurable. Cindy is involved in a wide variety of regional collaborative and charitable organizations all with the goal of creating a more beautiful and prosperous Detroit region. In acknowledgement of her work, Cindy has been inducted to the Michigan Women's Hall of Fame, named Michigania of the year by the Detroit News and named a Woman of Achievement by Michigan WIPP. In addition, she is Founding Chair of the American-Lithuanian Business Council and serves on the Investor Advisory Committee of the Government of Lithuania. In sum, Cindy Pasky is considered among the most influential and accomplished people in our region and state, and I am fortunate that I can call her a friend.

Mr. Speaker, I ask my colleagues to join me in honoring Cindy Pasky and Strategic Staffing Solutions for 25 years of success, service and commitment.

RECOGNIZING FOREST PRODUCTS

HON. G.K. BUTTERFIELD

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. BUTTERFIELD. Mr. Speaker, we recently celebrated National Forest Products Week. Today, I rise to recognize the importance of the forest products industry to the United States, and in particular, my home state of North Carolina where the industry sustains over 40,000 jobs.

Many of those stable and good-paying jobs are in rural communities including Roanoke Rapids, Plymouth, and New Bern, in North Carolina's First Congressional District which I represent. The economic and employment opportunities provided by the forest products industry are especially important to those communities and others I represent.

The forest products industry is evolving. It is the largest producer and user of bioenergy. And further investments in and expansion of

bioenergy—at these mills and bioenergy facilities like Craven County Wood Energy—are being made today. These efforts help reduce our country's greenhouse gas emissions and create innovative new markets to help conserve forestland for rural jobs, recreational activities, and wildlife protection.

Mr. Speaker, I urge my colleagues to join me in recognizing National Forest Products Week. The industry creates and sustains jobs, makes important economic contributions to our communities, and is innovating and developing new technologies supporting a healthier environment.

HIRE MORE HEROES ACT OF 2015

SPEECH OF

HON. GWEN MOORE

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 4, 2015

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 22) to amend the Internal Revenue Code of 1986 to exempt employees with health coverage under TRICARE or the Veterans Administration from being taken into account for purposes of determining the employers to which the employer mandate applies under the Patient Protection and Affordable Care Act:

Ms. MOORE. Mr. Chair, a driver's license is not only a rite of passage for many youth but also a gateway to employment opportunities and to jobs that are increasingly located far from public transportation.

In my district, the majority of job openings in the Milwaukee area are beyond the bus lines.

Yet, vast disparities exist in access to this critical document needed for the world of work, especially among minority youth who live in the poorest neighborhoods.

According to a recent report, only 4% of over 6,500 sixteen-year-olds in some of Milwaukee's poorest zip codes have driver's licenses in good standing. In contrast, in wealthier zip codes, over 30% of sixteen-year-olds have driver's licenses in good standing.

Less than 25 percent of the 19,000 black males age 16 to 24 in Milwaukee County had a driver's license in good standing in 2015, compared to nearly half of the 32,000 white males in that age group.

29% of African American females ages 16 to 24 in Milwaukee County have a driver's license in good standing, compared to 57% of the white females in that age cohort.

Only 12% of 17-year-old African American males in Milwaukee County have driver's licenses in good standing.

One reason for this disparity is that in the poorest neighborhoods, there are few families that are able to afford the costs of classroom and behind-the-wheel driving instruction now required for licensing of school-age youth.

My state, Wisconsin, ended state support for driver education in March 2004 after the federal government stopped supporting driver's-ed in schools.

According to NHTSA, in the 1970s in all States and the District of Columbia, about 95 percent of eligible students received driver education coursework, usually in their high

schools. Now, there are minimal or no funds available for effective program management in States and jurisdictions and many programs, in whole or in part, have been removed from the schools altogether, or are only offered after school, on weekends, or during summer vacation.

A number of other states have eliminated funding for driver's education in schools even as they are moving to Graduated Driver's licensing requirements that impose additional costs on young people seeking to drive legally.

Graduated Driving License systems often include a learner's permit period, followed by a provision license with nighttime restrictions during late night hours, limitations on the passengers teens may carry, and prohibition of use of any electronic communication device while driving, followed by a period of time when teens may drive unsupervised without crashes or citations. They often include mandated classroom instruction as well as behind the wheel time.

Congress is incentivizing states to adopt GDL systems.

As publicly funded driver's education declines, the only other way to get driver's training is through paying private providers. However, this becomes a barrier for low-income and low-resource teens who still need to comply with increasing GDL requirements.

My amendment would allow the use of teen driving safety funds to support school based driver's education, especially to meet a state's GDL requirements. States that choose to take advantage of this option will help driving safety among this high risk populace, reduce racial and economic disparities that exist between those who hold and do not hold a valid driver's license, and help address lack of employment opportunities for youth (limited by lack of transportation).

Improving access to quality driver's education classes can be an effective way to reduce the crash risk for young drivers by focusing efforts on areas of teen driving that show the most promise for improving safety.

Allowing for the use of federal funds to support school-based driver's education will ensure that more young drivers can meet the new requirements and be safer drivers. It would also help reduce unlicensed driving.

A 2012 report by NHTSA (A Fresh Look at Driver Education in America) found that driver education appears to do a good job in preparing students to pass State licensing examinations and that expanding driver education training beyond the current classroom and behind-the-wheel training by integrating it with graduated driver licensing may have increased traffic safety benefits for young drivers, among other findings.

I also want to talk about another reason for the wide gap in access to driver's licenses for low-income youth; the growing practice by state and local government of suspending licenses for nonpayment of fines that have nothing to do with unsafe driving. My amendment initially addressed this issue but I dropped those provisions. I have introduced a bill, Young Adults Driving Safety Act of 2015 (H.R. 3792) to address this second issue.

Court-ordered suspension of driving privileges for low-income residents of all ages is increasingly being used to collect municipal fines, forfeitures and fees (including violations unrelated to driving).

According to the American Association of Motor Vehicle Administrators, "what was originally intended as a sanction to address poor driving behavior is now used as a mechanism to gain compliance with non-highway safety, or social non-conformance, reasons."

Suspending driver's license mainly to collect outstanding municipal debt rather than for public safety reason disproportionately impacts the poorest neighborhoods.

In my district, a review of four years of failure to pay fines suspensions (from 2008 through 2011) in Milwaukee County for those ages 16 through 19 found 8,700 teens received driver's license suspensions for failure to pay court fines and forfeitures.

Most of them (85% of the total) did not have driver's licenses so a suspension added a two year wait to them becoming eligible for their license unless they pay their outstanding municipal tickets and court fees.

We need to address that issue as well as we work to ensure that more young adults, of every race, gender, and income bracket, have a fair chance to get the skills they need to safely operate a motor vehicle.

IN MEMORIAM OF JACK ALBERT BROWN, MAY 2, 1929–OCTOBER 28, 2015

HON. KYRSTEN SINEMA

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Ms. SINEMA. Mr. Speaker, I rise today to remember one of Arizona's greatest law-makers and statesmen, Jack Albert Brown (Jack). Jack was one of the Arizona Legislature's longest serving Members and one of our last cowboy legislators. He served for 17 terms and represented 5 rural counties; he was elected Assistant House Minority Leader and House Minority Leader Pro Tem. Jack was Senate Floor Leader during a time in Arizona history when both parties held an equal number of seats in the Senate. Jack would later describe this period as his favorite, because both sides of the aisle worked together like no other time in Arizona's history.

Jack was a passionate voice for our farmers and ranchers throughout his career. He routinely visited every town in his vast district and was a welcomed and familiar sight in his pickup truck, often bringing his homegrown tomatoes, citrus and pecans to the many friends he had made throughout the years.

I had the honor of serving with Jack from 2005 until his retirement in 2010. He taught me patience, how to collaborate, how to build bridges with our colleagues, and how to work in the best interest of our great state. Above all else, Jack was my friend, and like everyone who knew this wise and gentle man, I will miss him very much. On the evening of October 28, 2015, Jack passed away, with Beverly, his wife of 21 years by his side. Members, please join me in extending condolences to Beverly, his 8 children, 36 grandchildren, 30 great-grandchildren, and thank them for sharing Jack with Arizona. Our state is stronger because of Jack Albert Brown and we will never see his likes again. Thank you, cowboy. You will be dearly missed and fondly remembered.

145TH ANNIVERSARY OF PALM VALLEY LUTHERAN CHURCH

HON. JOHN R. CARTER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. CARTER of Texas. Mr. Speaker, I rise today to honor the incredible longevity of a place near and dear to me and many others. In a country that commemorates the 25th or 50th anniversary of an event, Palm Valley Lutheran Church has a special distinction. On November 8, 2015, it celebrates its 145th anniversary of ministry to the growing town of Round Rock, Texas.

In the early 1850's a small number of Swedish immigrants began settling in an area known then as "Brushy," located a few miles east of the present day town of Round Rock. Although there was neither a Swedish Lutheran Church nor pastor in all of Texas at that time, these hard-working pioneers met together in a local cabin for prayer, Bible reading, and singing of hymns.

On November 27, 1870, the "Swedish Evangelical Lutheran Brushy Church" was officially founded. In 1872 a wood-frame church was built to replace the original log cabin. The name remained until 1936, when it was changed to Palm Valley Lutheran Church.

Palm Valley Lutheran Church has been a silent witness to a country coming into being, its expansion across a continent, the aftermath of a civil war that pitted brother against brother, the strength of a people tested by the Great Depression and world wars, and the rise of a superpower. It has been the site of countless baptisms, weddings, funerals, and sermons. For 145 glorious years, this church has been a place where faith was nurtured, renewed, and embraced.

Palm Valley Lutheran Church remains committed to proclaiming the gospel of Jesus Christ in word and deed to a community that has changed much during the past 145 years. Let us honor the durability of this steadfast source of identity and pillar of stability for all Christians in Central Texas.

OUR UNCONSCIONABLE NATIONAL DEBT

HON. MIKE COFFMAN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. COFFMAN. Mr. Speaker, on January 20, 2009, the day President Obama took office, the national debt was \$10,626,877,048,913.08.

Today, it is \$18,532,338,091,711.48. We've added \$7,905,461,042,798.40 to our debt in 6 years. This is over \$7.5 trillion in debt our nation, our economy, and our children could have avoided with a balanced budget amendment.

HONORING JEFF ZONDLO, MARSHFIELD, WISCONSIN

HON. SEAN P. DUFFY

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. DUFFY. Mr. Speaker, I rise today to honor Mr. Jeff Zondlo—a Purple Heart recipient who volunteered to serve his country during the Vietnam War.

Mr. Zondlo, of Marshfield, Wisconsin, voluntarily entered the draft for one noble reason: to give back to his then struggling country.

While stationed at Chu Lai, Vietnam the enemy attacked his camp in the early morning hours of June 11, 1969.

Several grenade explosions knocked Mr. Zondlo unconscious, left him with devastating burns, ruptured ear drums and a gaping hole in his lower back.

In the process of receiving treatment for his wounds, a doctor asked him if he would read letters from home to a soldier whose injuries prevented him from reading them on his own. Despite his own pain, Mr. Zondlo relayed the words of love and encouragement to the soldier. Unfortunately, the soldier would not live to see his loved ones again, but his brother in arms, Mr. Jeff Zondlo, offered patient watch over him in his final days.

It's for that selflessness—both in the call to serve his country and the drive to help others—that we pay tribute to Mr. Zondlo today.

Mr. Speaker, please join me in recognizing Mr. Jeff Zondlo for his unending devotion to our nation. On behalf of this body and a very grateful nation, thank you.

HIRE MORE HEROES ACT OF 2015

SPEECH OF

HON. JERROLD NADLER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 4, 2015

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 22) to amend the Internal Revenue Code of 1986 to exempt employees with health coverage under TRICARE or the Veterans Administration from being taken into account for purposes of determining the employers to which the employer mandate applies under the Patient Protection and Affordable Care Act:

Mr. NADLER. Mr. Chair, I rise in support of the Lipinski-Nadler-Dold Amendment to restore the ability of state and local agencies to use various transportation programs for transit projects.

Under current law, highway and transit projects can receive up to 80% in federal funding. When it comes to transit Capital Investment Grants (also known as New Starts and Small Starts), it has become common practice for transit agencies to receive less than 80% from that account. Agencies often receive closer to 50%, in part because New Starts is funded through general revenue in the appropriations bill, funding is stretched thin, and agencies "overmatch" to submit more competitive applications.

Transit agencies are currently able to use CMAQ, STP, and TIFIA, to help fill the gap between whatever they receive in transit New

Start funding and the 80% federal funding allowed under the law.

H.R. 3763 does two things that harm New Starts projects. It codifies a reduction in the transit New Start federal share to 50%, and it prohibits the use of other federal transportation dollars to fill the gap.

Nothing in the bill reduces the amount these states and localities will receive, so this provision does not reduce the cost of the bill, or shift funding from one state to another. It simply ties the hands of local agencies and makes it harder, and potentially more expensive, to complete transit projects.

The amendment we are offering today will restore the ability of local agencies to use CMAQ and TIFIA funding for New Starts. The amendment will also restore an 80% federal share for Small Starts and Core Capacity projects, which can continue to use CMAQ, STP and TIFIA funding toward project costs.

This amendment is a compromise that is the result of Chairman SHUSTER's commitment to work with us after we raised it during markup in committee. Under this compromise, New Starts remain at 50%, and will not be able to use STP funds. We still object to these restrictions, but the use of CMAQ and TIFIA to fill the gap is restored. We will continue to fight in conference to restore STP funding for New Starts, and to ensure that highway and transit projects are treated equally.

I thank the Chairman for working with us on this compromise, and for agreeing to correct at least part of the problem. I urge all of my colleagues to support the amendment, and to join with us in continuing to address this issue in the final product enacted into law.

CONGRATULATING MIKE BIEDIGER

RECOGNIZING STANISLAUS FARM SUPPLY

HON. JEFF DENHAM

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. DENHAM. Mr. Speaker, I rise today to recognize and congratulate Stanislaus Farm Supply, who will be inducted as a member of the Stanislaus County Ag Hall of Fame "Legends in Agriculture" during a ceremony in Modesto, California, on November 12, 2015.

Stanislaus Farm Supply, a farmer-owned company, dedicated to being the best farm supply organization in the industry, provides services to farms in California and Nevada. They have three retail locations in California: Modesto, Merced, Susanville, and one in Yerington, Nevada. They offer products of the utmost quality in spreading, spraying, planting, equipment repair, crop consulting and scouting.

It all began in 1949 when the steel work strikes contributed to a shrinking supply of bailing wire. Area farmers were forced to pool their resources to secure wire. By the generosity of many including Fred Thiemann who donated office space or Joe Souza who worked for free for the first 6 months, the Stanislaus Farm Supply was born. The County Farm bureau supplied the bulk of the early financing and within five years of business, Stanislaus Farm Supply accomplished an impressive goal of \$500,000 in annual sales. They outgrew their current location on 8th and Washington and acquired a new warehouse on E. Service all located in Modesto. This new facility allowed room for the company to expand and grow in the future.

Sam Bettencourt became General Manager of the growing company in 1978. In Sam's 37 years he built a legacy around the company. He was active in supporting local youth through junior livestock events and scholarships for students pursuing agricultural related degrees. Sam reinvented the company to be a voice for its member owners which had been decreasing over time before he started with the company. Many of the employees still with Stanislaus Farm Supply were hired by Sam Bettencourt. He was an asset to the company and helped form it into the successful business today. In 2015, Nick Biscay took over as General Manager of Farm Supply.

Stanislaus Farm Supply has not only survived but thrived since its official opening in 1949. They contribute this to their ability to adapt with change as there have been many technological advances, climate and environmental changes and more since their opening.

Mr. Speaker, please join me in praising and commending Stanislaus Farm Supply, for their significant contributions to agriculture and to the farmers, students, and people of our local community.

HIRE MORE HEROES ACT OF 2015

SPEECH OF

HON. GENE GREEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 4, 2015

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 22) to amend the Internal Revenue Code of 1986 to exempt employees with health coverage under TRICARE or the Veterans Administration from being taken into account for purposes of determining the employers to which the employer mandate applies under the Patient Protection and Affordable Care Act:

Mr. GENE GREEN of Texas. Madam Chair, I rise today in support of the amendment.

Today, the United States is awash in domestically produced natural gas.

The Energy Information Agency (EIA) estimates that the U.S. has more than 354 trillion cubic feet of proven natural gas reserves.

In Pennsylvania, Ohio, West Virginia and most importantly, Texas, we increased production by more than 4.2 billion cubic feet per day.

While I am a big supporter of LNG exports, I also firmly believe we should consume as much natural gas here at home as possible.

Natural gas has transformed our power sector.

Today, for the first time in history, we use more natural gas for power production than coal.

Natural gas is expected to fulfill almost 40% of our power needs in the coming decades.

Our producers have become so efficient, Henry Hub prices sit at approximately \$2.89 per BCF.

We should drive demand for natural gas by encouraging natural gas vehicles.

Our corporate and government fleets as well as our public transportation vehicles all run on natural gas but the largest segment of the market resides in personal vehicles.

If we increase demand, we will resolve any environmental issues related to natural gas production.

First, producers will reduce natural gas flaring because that product will have a market.

Second, natural gas burns cleaner than gasoline which reduces carbon emissions.

The EPA is tasked with protecting the environment and natural gas vehicles deserve the same opportunities as electric vehicles.

I urge my colleagues to support this amendment.

HONORING ROBERT "BOB" LOWE, DECORATED WORLD WAR II VETERAN AND PHILANTHROPIST, IN ADVANCE OF VETERANS DAY 2015

HON. CHARLES W. BOUSTANY, JR.

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. BOUSTANY. Mr. Speaker, I rise today to honor Mr. Robert "Bob" Lowe, a United States Marine and active philanthropist of Lafayette, Louisiana. A friend to everyone he met, Lowe was not just known for his military service and business savvy, but he was also recognized and cherished for his passion to give back to his community. He passed away at his home on August 6, 2015 at the age of 93.

Bob was a hard-worker from a young age. Born in Hutton, LA in 1922, he spent time working in the fields of his family's farm and developing his strong work ethic. After finishing high school, he enlisted in the United States Marine Corps and served his country proudly in the First Defense Battalion stationed at Pearl Harbor. He was among the last remaining survivors of the December 7, 1941 attack on Pearl Harbor. Lowe was honorably discharged in 1945.

Following his distinguished military career, Bob moved to Lafayette, LA in 1952. He became highly-regarded in the business community as a founder of Central Industries, Gulfgate Marine and the All American Development Company. In addition to his business successes, Lowe was constantly thinking of ways to serve others. In 1965, his wife of forty years, Jewell, founded 232-HELP, an information, education, and referral service geared to-

ward assisting and providing resources to those in need. Lowe dedicated time as a founding board member, and eventual President of the agency. He also founded LARC, an organization dedicated to supporting members of the community with intellectual and developmental disabilities. In 2011, Lowe was awarded the Lafayette Civic Cup for his extraordinary record of community involvement.

Bob was extremely devoted to and active in the veteran community in Louisiana. He served as Commander and Senior Vice Commander at the historic American Legion Post 69, an Executive Board member of the Veterans Action Coalition of South Louisiana and a life member of the Marine Corps League, Acadiana Detachment # 488. A special memory many veterans hold of Lowe is that each December, he enthusiastically hosted a Christmas reunion of Pearl Harbor survivors at the Petroleum Club of Lafayette. Before his passing, Lowe made arrangements to ensure this annual gathering would continue for years to come.

To say Lowe will be missed does not even begin to express the lasting, positive impact he had on so many lives. He was a pillar of our community, and the good works to which he so thoroughly dedicated his life will be remembered for generations to come.

Lowe is survived by his sons, Casey Lowe and Cody Lowe, his stepson, James Parkerson Roy, Sr., and his wife Ginger Roy, grandchildren Bonnie Lowe Martens, Olivia Lowe, and Valerie Lowe, and step-grandchildren John Parkerson Roy, James Parkerson Roy, Jr., Christopher Malin Roy and Elizabeth Caswell, as well as several great-grandchildren.

Lowe was preceded in death by his wife, Jewell Parkerson Lowe, a daughter, Kathleen Paulette Lowe, and his parents, Robert Lee Lowe and Emma Bergeron Lowe.

HIRE MORE HEROES ACT OF 2015

SPEECH OF

HON. DANIEL LIPINSKI

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 4, 2015

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 22) to amend the Internal Revenue Code of 1986 to exempt employees with health coverage under TRICARE or the Veterans Administration from being taken into account for purposes of determining the employers to which the employer mandate applies under the Patient Protection and Affordable Care Act:

Mr. LIPINSKI. Mr. Chair, I would like to thank the Chairman and Ranking Member for accepting two of my amendments in the en bloc amendment to the Senate Amendment to H.R. 22, including an amendment exempting a narrow class of welders from the Federal Motor Carrier Safety Regulations.

The amendment at hand is a bipartisan, compromise effort that clarifies that transit agencies starting New Starts projects can utilize Federal funds, like CMAQ and TIFIA, to match the 50% funding provided by their New Start grant. I appreciate the Chairman's willingness to work with me on this issue and restore the Core Capacity and Small Starts projects Federal match limit back to 80% and allowing local agencies to flex other Federal funds to these projects.

Without these funds, local flexibility would be greatly diminished and agencies would be forced to scrounge for funds locally, delaying many, many projects, including Chicago's Red & Purple Line Modernization. Still, this is a compromise amendment and this bill still restricts the use of STP funds for the remainder of the match and codifies the New Starts grant amount at 50%, both at the request of the majority, and I strongly disagree with this and hope we can work on this in conference. In support of my amendment, I submit letters of support for this amendment from the Chicago Transit Authority, the Regional Transportation Authority, and the American Public Transportation Association.

CHICAGO TRANSIT AUTHORITY,
Chicago, Illinois, November 3, 2015.

Hon. DANIEL LIPINSKI,
House of Representatives, Washington, DC.

DEAR CONGRESSMAN LIPINSKI: I am writing to you in support of the Lipinski-Nadler-Dold Amendment (#110) to Section 3005 of H.R. 3763, the Surface Transportation Reauthorization and Reform Act of 2015. This amendment would strike provisions in the bill that prohibit certain U.S. Department of Transportation (DOT) funding and financing from being paired with Federal Transit Administration (FTA) 5309 Capital Investment Grants to construct New Starts, Small Starts, and Core Capacity Projects. Specifically, provisions in Section 3005 would limit the use of DOT funding from programs such as Congestion Mitigation and Air Quality (CMAQ), Transportation Investment Generating Economic Recovery (TIGER), and the Transportation Infrastructure Finance and Innovation Act (TIFIA) from being utilized on projects such as the CTA's Red-Purple Modernization project or the Red Line Extension to 130th Street.

For decades many transit agencies nationwide have been pairing various DOT funding with FTA Capital Investment Grant funding. This includes flexible funding from the CMAQ program that is allocated at the regional level by the Metropolitan Planning Organization (MPO). Here in Chicago the MPO—known as the Chicago Metropolitan Agency for Planning (CMAP)—has a yearly competitive process for CMAQ funding that is based on cost-benefit analysis with regard to a decrease in traffic congestion and an improvement in air quality. In 2015 the CTA's Red-Purple Modernization Core Capacity project was allocated \$125 million in multi-year CMAQ funding, but H.R. 3763's provisions would jeopardize that funding from being paired with future FTA funding. So in essence, the provision as currently written takes away local control over federal funding that was already allocated to the region.

The CTA also has a history of successfully tapping low-cost TIFIA loan financing for

large projects such as the Your New Blue Program on the CTA's Blue Line from downtown to O'Hare and the 95th Street Red Line Terminal Improvement project. To prohibit CTA from considering TIFIA financing for the aforementioned Red-Purple Modernization Project and Red Line Extension would take away an important and cost-effective tool in the financing toolbox and would lead to higher financing costs for these projects through traditional methods.

Thank you for offering this very important amendment during Committee markup and for floor consideration. The CTA was heartened to hear Chairman SHUSTER offer to work with you and your colleagues during the Committee consideration of the bill, and the CTA and likely many transit agencies around the region and country will benefit from your efforts should your amendment be adopted into the bill.

Sincerely,

DORVAL R. CARTER, Jr.,
President.

AMERICAN PUBLIC TRANSPORTATION
ASSOCIATION,

WASHINGTON, DC, November 3, 2015.

Hon. DANIEL LIPINSKI,
House of Representatives, Washington, DC.

DEAR CONGRESSMAN LIPINSKI: On behalf of the American Public Transportation Association (APTA) and its more than 1,500 member organizations, we are writing in support of the Lipinski, Nadler, Dold amendment #110 to the transportation provisions of the House Surface Transportation Reauthorization and Reform (STRR) Act, which would restore the 80 percent federal share for core capacity and small starts projects, as well as allow New Starts projects to continue to use congestion mitigation and air quality improvement program funds (CMAQ), transportation infrastructure finance and innovation act (TIFIA) funds, and Transportation Investment Generating Economic Recovery (TIGER) grant funds as a part of the remaining Government share.

While we are disappointed that surface transportation program (STP) funds continue to be restricted for new starts projects only, we recognize that this amendment was compromise language and improves the House bill. However, notwithstanding our support of this compromise position to improve the House bill, we will continue to advocate to preserve the current 80 percent Federal share for New Starts projects and the existing flexibility to use STP for the government share as the final position in a future conference between the House and the Senate.

Thank you again for your leadership on this issue. We look forward to continuing to work with you on restoring the federal share to 80 percent federal share for new starts and restoring STP flexibility to the new starts program as the House bill moves to conference. If you have any questions, please have your staff contact Brian Tynan of APTA's Government Affairs Department.

Sincerely,

MICHAEL P. MELANIPHY,
President & CEO.

NOVEMBER 4, 2015.

The Regional Transportation Authority (RTA) system provides more than two million rides per weekday. As the agency responsible for fiscal oversight, as well as financial and regional planning for public transit in Northeastern Illinois, I am writing in strong support of amendment #110 to Section 3005 of H.R. 3763, the Surface Transportation Reauthorization and Reform Act of 2015. This amendment would restore the 80 percent federal share for core capacity and small starts projects, as well as allow New

Starts projects to continue to use congestion mitigation and air quality improvement program funds (CMAQ), transportation infrastructure finance and innovation act (TIFIA) funds, and Transportation Investment Generating Economic Recovery (TIGER) grant funds as a part of the remaining Government share.

Amendment #110 benefits all three of our region's agencies—CTA, Metra and Pace—by allowing them to pair Capital Investment Grant funds with others federal program funds; a practice that has historically been allowed under federal programs. An example of the importance of this flexibility was seen when the CTA recently used a low-cost TIFIA loan as part of the project matching funds to finance the Your New Blue Program on the Blue Line from downtown to O'Hare and the 95th Street Red Line Terminal Improvement project. To prohibit the CTA from having the flexibility to use TIFIA financing, CMAQ dollars or TIGER funding as part of the local match for these projects would take away important and cost-effective financing and funding tools which could lead to higher costs if only left with other traditional methods.

In an era of scarce funding, the RTA and Service Boards try to creatively pursue all options from state, federal, and local sources for major projects. We appreciate Congress allowing local entities maximum flexibility to continue to do that. If you have any other questions or concerns, please feel free to contact me.

Sincerely,

LEANNE REDDEN,
Executive Director, Regional Transportation
Authority.

HONORING WILLIAM D. "BILL"
SHINN

HON. MARK DESAULNIER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. DESAULNIER. Mr. Speaker, I rise today to honor the life of my good friend William D. "Bill" Shinn, who was born on October 6, 1941 in Minnesota, and recently passed away at his home in Concord, California, on October 16, 2015.

In 1957, Bill became a resident of Concord, and attended Mt. Diablo High School. Later, he earned degrees from Diablo Valley College, Sacramento State University, and a Master's Degree in Public Administration from Golden Gate University. Bill was a proud veteran of the United States Navy and a graduate of the FBI National Academy.

Bill was a good man and good friend to many. He honorably served Contra Costa County for over 45-years as Mayor of Concord, a Member of the City Council, and Commander with the Sheriff's Office. During his 29-years with the Sheriff's Office, Bill was a dedicated advocate for criminal justice reform and mental health services. I have fond memories of Bill leading impassioned discussions about the causes he believed in. He was a voice before his time.

In addition to being an important member of the community, Bill was beloved by his family. He was a caring and devoted husband, father, grandfather and brother. For everyone who knew him, Bill will be greatly missed.

Mr. Speaker, I am honored to celebrate the extraordinary life of Bill Shinn, and I send my

sincere and deepest condolences to Bill's family, friends, and loved ones.

IN HONOR OF MRS. JANE WILLSON

HON. SANFORD D. BISHOP, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. BISHOP of Georgia. Mr. Speaker, it is with a heavy heart and solemn remembrance that I rise today to pay tribute to an outstanding businesswoman, respected philanthropist, and beloved servant of humankind, Mrs. Jane Seddon Willson. Mrs. Willson passed away on Tuesday, November 3, 2015. A funeral service will be held at 10:00 a.m. on Saturday, November 7, 2015 at First United Methodist Church in Albany, Georgia, with interment to follow at Westview Cemetery in Atlanta, Georgia.

Born in New York City in 1923, Mrs. Willson graduated from Wellesley College in Massachusetts in 1945. Six years later, she moved to Albany, Georgia with her husband, the late William Harry Willson, to manage his family's small pecan orchard. After the success of their mail-order pecan business, the move to the farm in Albany was simply the next step.

What started as a small family business quickly expanded into two large companies. As President and Secretary of both Willson Farming and Sunnyland Farms, Mrs. Willson orchestrated the global expansion that continues to make both companies successful. Because of Mrs. Willson's business savvy, people in countries around the world now enjoy a variety of nuts and nut products from Georgia, which has contributed greatly to the state's economy.

Mrs. Willson put as much, if not more, love and effort into serving her community as she did into her businesses. She served as board chairman of the Albany-Dougherty Inner City Authority and the United Way of Southwest Georgia. She also served on the Albany Area Chamber of Commerce Executive Board; the Albany Technical College Board; the Albany State University Foundation; and the Darton State College Foundation. She was the first woman to serve on the Board of Directors of BellSouth Telecommunications.

In addition, Mrs. Willson's service as President of the Board of Directors for the Boys & Girls Club of Albany has left a lasting mark upon the organization. She not only served on the Board for many years, but also donated the funds to build the Jane Willson Unit. This year, the Boys & Girls Club of Albany will be presenting its first "Harry and Jane Willson Partner of the Year" award to an organization that best emanates the couple's spirit of philanthropy.

An avid supporter of the arts, Mrs. Willson also helped with the establishment of the Albany Museum of Art, and later, the museum's Jane and Harry Willson Auditorium. Her drive to help her community further resulted in the creation of the Willson Hospice House. Because of her \$1 million donation, the Willson Hospice House is able to provide inpatient care to people who have been diagnosed with a terminal illness. Yet her generosity has not

been confined to Southwest Georgia. Mrs. Willson donated millions of dollars to the University of Georgia, where she served as a UGA Foundation Trustee and as a board member of the UGA Research Foundation. She also made a \$1 million donation in honor of her daughter, Jane, to Valley Children's Hospital in Madera, California.

Mrs. Willson's generosity and altruism served as an inspiration to all who knew her, myself included. She donated more than just funding to every organization to which she was connected—she was a prominent part of the fabric of each institution.

George Washington Carver once said, "No individual has any right to come into the world and go out of it without leaving behind distinct and legitimate reasons for having passed through it." We are all so blessed that Mrs. Jane Willson, an inspirational human being of incredible compassion and integrity, passed our way and during her life's journey did so much for so many for so long. She leaves behind a great legacy in service to her beloved family and to all those whose lives she touched through her kindness and generosity. She will truly be missed.

Mr. Speaker, I ask my colleagues in the House of Representatives to join me, my wife Vivian, and the Albany, Georgia community in honoring Mrs. Jane Seddon Willson for her outstanding contributions to the community. We extend our deepest sympathies to her family, friends and loved ones during this difficult time and we pray that they will be consoled and comforted by an abiding faith and the Holy Spirit in the days, weeks and months ahead.

TRIBUTE TO RON GILLHAM

HON. SANDER M. LEVIN

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. LEVIN. Mr. Speaker, I rise today to mark the distinguished career of Ron Gillham as he retires as Mayor of Huntington Woods, Michigan. Mayor Gillham, who served as Mayor for 35 years in the city that he loves, will end his tenure as one of the longest serving mayors in the State of Michigan.

Ron Gillham was born, raised and educated in Missouri. After graduation from the Missouri School of Mines in 1956, he joined General Motors at the Tech Center in Warren, Michigan, and he and his wife Shirley moved to Huntington Woods in 1959. He served in a variety of interesting and challenging positions, eventually retiring from Advanced Product Engineering in 1992.

In his "second career," Ron Gillham has served the citizens of Huntington Woods continuously since 1975, first as a member of the Huntington Woods Zoning Board of Appeals, then as a Commissioner for the City for Huntington Woods. In 1981, Mr. Gillham was elected as the Mayor of Huntington Woods.

Ron Gillham is active in the Michigan Municipal League where he formally served on the Board of Trustees as Vice President and also won the organization's Michael A. Guido Award. During his tenure, Mr. Gillham also

won the Southeast Michigan Council of Governments Regional Ambassador award, served as chair of the South Oakland County Mayor's Association and the Vice President of the Michigan Association of Mayors.

In more than three decades at the helm, Mr. Gillham worked tirelessly on many projects to improve the lives of Huntington Woods residents. He is most proud of the building of the city's library, the city's A++ bond rating and helping the Huntington Woods Public Safety Department become one of the best in the State of Michigan. In October, the Huntington Woods City Council passed a resolution to name the city's recreation center as the Gillham Recreation Center, another testament to Mr. Gillham's respect in the community.

I have had the pleasure of representing the City of Huntington Woods in Congress for the past thirty-two years and have witnessed Mayor Gillham's leadership on many issues during our tenure together. One recent example was in 2014, when unprecedented flooding damaged tens of thousands of properties throughout Southeast Michigan, including in Huntington Woods. Mayor Gillham and his leadership team at the city was an active and effective advocate for aid from state and federal governments.

Mr. Speaker, I ask my colleagues to join me in congratulating Mayor Ron Gillham on an exceptional career in public service. I wish him much success with his future endeavors and wish him the best as he spends his retirement with his wife Shirley, their three children, and seven grandchildren.

IN HONOR OF VETERANS DAY

HON. RUBÉN HINOJOSA

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. HINOJOSA. Mr. Speaker, as Veterans Day approaches, I rise in honor of our nation's servicemen and women for their tremendous courage and sacrifice in defense of our liberties.

Regrettably, selfless acts of valor and service by Americans in uniform are often taken for granted. They are not always reciprocated, and their vulnerabilities are often preyed upon by the despicable and unscrupulous. In those cases, it is our duty to come to their defense.

We are all too aware of cases when abusive and predatory payday lenders target and entrap veterans, misleading and forcing them into downward spirals of high cost debt. While the Defense Department recently finalized rules to protect active duty military service members from triple-digit interest rates on payday loans, the job is not done.

Veterans are not protected under the law and remain vulnerable. Therefore, I call on my colleagues to join me in supporting stronger consumer protections and to rein in abuses involving high-cost lending to veterans while they struggle to make ends meet.

Mr. Speaker, much more work remains to be done to raise the quality of life of our nation's veterans. Let us resolve this Veterans Day to meet those challenges head-on as we thank and honor them for their courage, sacrifices and service.

IN HONOR OF THE 100TH ANNIVERSARY OF THE BOROUGH OF WOODBURY HEIGHTS

HON. DONALD NORCROSS

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. NORCROSS. Mr. Speaker, I rise today to honor the one-hundredth anniversary of the founding of the Borough of Woodbury Heights in Gloucester County, New Jersey.

On May 25, 1915, the citizens of the future Woodbury Heights were formally recognized by the New Jersey Legislature as an independent borough out of Deptford Township. However, history for this small town did not begin in 1915. Settled in 1771, the area we know today as Woodbury Heights, New Jersey has a deep history of rich involvement in the South Jersey community. Indeed, many of the older homes can still be seen today, including the La Pann House, built in 1771, that is on the National Historic Registry.

In 1892, six businessmen from Philadelphia and Camden: John Mayhew; E.R. Artman; Judge Pancoast; Howard M. Cooper; William Moland; and I.W. Wilson bought land from Deptford Township. There they laid out streets, built homes, and constructed a community hall in 1894, forming the nucleus of the future Woodbury Heights. In the 1900s, the once sparse town started to flourish when a train station was built. Later, Simon M. Snook donated Glen Terrace Lake to the borough and it remains one of the most popular recreation sites in the area. Over the next hundred years, the Woodbury Heights community thrived, and in the past century, the population of Woodbury Heights has quadrupled to reach over 3,000 today.

Mr. Speaker, the character of the Borough Woodbury Heights and its emphasis on community engagement is best exemplified by three of the figures featured on its official seal: a scale of justice, a shield of safety, and two shaking hands. This weekend, as the people of Woodbury Heights celebrate their Centennial, I congratulate the citizens, Mayor Robbie J. Conley, and the Borough Council on the past one hundred years and wish them another hundred years of richness and good fortune.

HONORING EL PASO VETERANS WHO CONTINUE TO SERVE

HON. BETO O'ROURKE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mr. O'ROURKE. Mr. Speaker, Veterans Day is a time to honor the selfless service that members of our Armed Forces displayed while keeping our nation safe. Today, I am privileged to recognize five of my constituents who continue to serve long after their time in uniform has ended: Mr. Jose Andow, Mr. Roy Aldridge, Mr. Ron Holmes, Mr. David Garcia and Mrs. Melinda Russell. Although each is from a different generation, these veterans embody a continued dedication to their fellow veterans and the El Paso community.

Jose Andow understands the price our service members pay in the name of freedom from

his experience fighting in WWII. As one of five siblings to serve in WWII, Mr. Andow was part of 10 combat missions during the war flying in both Italy and Germany. As a way to continue serving his country even decades after his formal military service ended, Mr. Andow has volunteered regularly at the El Paso VA Health Care System since November of 2010, and has logged over 1,600 hours of volunteer service. At age 94, Mr. Andow still volunteers every Monday and Wednesday at the VA, where he greets local veterans as they come in to receive care. Throughout the country over 140,000 volunteers donate millions of hours volunteering at local VA hospitals and clinics annually. Their service enhances the veteran healthcare experience and supplements VA's ability to provide quality care to our veterans. Due to his significant contribution to the El Paso VA and his fellow veterans, I am proud to recognize Mr. Andow for a lifetime of selfless service to our country.

Roy Aldridge is a combat veteran of the Korean War and a prominent member of the El Paso veteran community. After enlisting in the National Guard in 1949 at the age of 16 and then being wounded in Korea, Mr. Aldridge was discharged from the military for being underage. He completed high school, reenlisted, and returned to Korea in 1953. After being shot down and spending five months as a prisoner of war in North Korea, Mr. Aldridge returned to the U.S. where he completed a distinguished military career. Following retirement, Mr. Aldridge has continued to advocate for his fellow veterans. He has served as a Vice President for the Korean War Veterans Association and is currently the organization's National Director. Additionally Mr. Aldridge is a member of the VA Volunteer Service and the Texas Veterans Commission. Mr. Aldridge also serves on my office's Veterans Citizen Advisory Panel where he regularly advocates for policies to improve veteran's benefits and healthcare services.

Ron Holmes is a Vietnam-era veteran of the U.S. Marine Corps. After serving four years, attaining the rank of Sergeant and deploying to Okinawa, Mr. Holmes left the Marines in 1974 to begin a construction business in El Paso. After observing neglect of his fellow veterans at the VA in 1997, Mr. Holmes decided to volunteer his time and advocate for his fellow veterans in El Paso while simultaneously running his business. From a small office at a Northeast El Paso American Legion Post, Mr. Holmes has since assisted over 3,500 El Paso veterans attempting to obtain benefits from the VA and has received favorable decisions in most of these cases.

David Garcia enlisted in the United States Army in 1975, later deploying to Saudi Arabia in support of Operation Desert Storm/Desert Shield. Following 20 years of honorable military service, Mr. Garcia retired as a Chief Warrant Officer. Since leaving active duty, Mr. Garcia has dedicated himself to fulfilling the promise to care for the men and women who have served our great nation. Mr. Garcia subsequently became a member of Disabled American Veterans in 1999 and since has served in multiple leadership roles for the organization, including District 1 commander, Northeast El Paso Chapter 187 Senior Vice-Commander and Combat Related Special Compensation ambassador. Mr. Garcia has assisted numerous El Paso veterans, family members and widows in obtaining earned

benefits from the VA. He continues to advocate for important veteran issues including toxic exposure and quality orthotic and prosthetic services within VA.

Melinda Russell served as a Chaplain in Iraq and was medically retired from the Army in 2010 at the rank of Captain. After leaving the military, Mrs. Russell dedicated herself to improving veteran healthcare by offering alternative therapies and being a persistent, dedicated advocate for her fallen veterans. Retiring in El Paso, Mrs. Russell founded Hope and Healing Horse Therapy Ranch to help those veterans suffering from PTSD and TBI. Additionally, at a time when 22 veterans take their own lives daily, her moving and personal writings serve as a stark reminder that we have a responsibility to care for our service members and veterans both physically and mentally.

Mr. Speaker, as Veterans Day approaches, it is important that we remember the legacy of service of this country's veterans. Our country can learn from and be inspired by the examples set by Mr. Andow, Mr. Aldridge, Mr. Holmes, Mr. Garcia and Mrs. Russell. It is my honor to recognize these veterans who continue to serve in advance of Veterans Day 2015.

EXPRESSING SORROW ON THE DEATH OF FORMER CONGRESSMAN JOHN HOWARD COBLE OF NORTH CAROLINA

HON. SHEILA JACKSON LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Ms. JACKSON LEE. Mr. Speaker, I rise to pay tribute to a great American and one of the beloved and respected persons ever to serve in this body, Howard Coble of North Carolina, who died yesterday evening, November 3, 2015, in Greensboro, North Carolina, at the age of 84.

First elected in 1984 to the 99th Congress by the constituents of the 6th Congressional District of North Carolina, Howard Coble would go on to win reelection to the 14 succeeding Congresses.

When he retired at the end of the 113th Congress, Howard Coble held the distinction of being the longest serving Republican from the state of North Carolina to serve in the House.

Congressman Coble, served in the U.S. House longer than any other North Carolina Republican, died late Tuesday. He was a respected member of this body and respected by all who knew him. His presence will be greatly missed and we all mourn his loss and extend our sincerest condolences to his family and friends.

Born March 18, 1931 in Greensboro, North Carolina, John Howard Coble joined the United States Coast Guard one year after graduating high school where he served on active duty for five years and an additional 18 years in the Coast Guard Reserves.

After his honorable discharge, Howard Coble attended Guilford College on the G.I. Bill, from which he graduated in 1958 with an A.B. in History, and then went on to earn his J. D. in 1962 from the law matriculated to the University of North Carolina School of Law.

After graduation, Howard Coble worked briefly as an insurance agent before spending much of the next two decades in the private practice of law and as an Assistant United States Attorney.

Before his election to Congress in 1984, Howard Coble served in the North Carolina House of Representatives in 1969, and again from 1979–83, and as Secretary of the North Carolina Department of Revenue from 1973–1977.

In Congress, Howard Coble served on the Committee on Transportation and Infrastructure, and its Subcommittees on Aviation, Highways, and the Coast Guard and Maritime Transportation.

Mr. Speaker, it was my great privilege to serve with Howard Coble for 20 years on the Judiciary Committee; for many years we were colleagues on the Subcommittee on Intellectual Property, Competition, and the Internet.

While we served on different sides of the aisle and were often on opposing sides of major issues, there were many times we were able to work together to craft sound public policy and advance the public good in the areas of patent reform, copyrights and intellectual property, and privacy protection.

Mr. Speaker, a dear colleague has fallen but he will not be forgotten.

I will always remember Howard Coble as a thoughtful, helpful, kind, and honorable colleague; a true southern gentleman.

Mr. Speaker, Howard Coble was a good man, a good legislator, a great friend who was respected by Members on both sides of the aisle.

He will be missed.

IN HONOR OF THE NEW JERUSALEM LUTHERAN CHURCH OF LOVETTSVILLE, VIRGINIA ON THEIR 250TH ANNIVERSARY

HON. BARBARA COMSTOCK

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 5, 2015

Mrs. COMSTOCK. Mr. Speaker, I rise today to recognize the 250th anniversary of the New Jerusalem Lutheran Church of Lovettsville, Virginia. This past Sunday, New Jerusalem held a special anniversary worship service, led by Pastor Joel Guttormson and the head of the Washington Metropolitan Synod, Bishop Graham, who delivered the sermon. Following the service, over 200 people gathered for a luncheon at Lovettsville Fire and Rescue station in celebration.

New Jerusalem traces back to 60 German families seeking fertile farmland who journeyed south from Pennsylvania. These early settlers came from the Palatine region of Germany, Alsace, and Lorraine, France and referred to their church as “the new Jerusalem,” where they could gather in fellowship and worship. The current structure has been in use since its consecration in 1869, but the original congregation first gathered for worship in a log structure which served as both a school and a church. New Jerusalem is recognizable by its distinctive bell tower that serves as a landmark in the Washington Metropolitan area. The original buildings sit on property granted by Lord George William Fairfax, while the nearby Lovettsville Union Cemetery acts as the final resting place of many of Lovettsville’s residents from over the last two and a half centuries.

It is the oldest Lutheran church in the Washington, D.C. area and serves as an important landmark for its historic significance and contributions to the community. New Jerusalem has made a significant impact on the community for over two and a half centuries, and we join them in celebration of 250 years of worship. I am honored to recognize this momentous occasion today and wish New Jerusalem Lutheran Church all the best moving forward.
